

Lenovo Tab P12 Pro

Quick Start Guide & Safety, Warranty

Lenovo

Device overview

Model

Lenovo TB-Q706F
Lenovo TB-Q706Z

Version

WLAN
WLAN + 5G

- 1 Speakers
- 2 Card tray
- 3 Power button/
Fingerprint sensor
- 4 Volume buttons
- 5 Microphones
- 6 Front camera/Sensors
- 7 USB-C connector
- 8 Precision Pen 3
charging area
- 9 Dual rear cameras
- 10 Flashlight
- 11 4-point pogo-pin smart connector

 This illustration uses the WLAN version as an example. All illustrations in this document are for your reference only and may differ from the final product.

Preparing your device

Installing cards

Power off the device before inserting or removing a card.

Turning on

Press and hold the Power button until the Lenovo logo appears.

Accessories (optional)

The accessories do not come with all models, and are sold separately.

Lenovo Precision Pen 3

Lenovo BTP-131

Overview

1 Pen body

2 Button

3 Tip

Pairing and charging

Before first use, turn on the tablet and then attach the pen to the charging area for pairing.

After use, attach the pen to the charging area for charging and storage.

Replacing the tip

1. Rotate the tip clockwise to remove it.
2. Rotate the new tip counterclockwise to secure it.

- The firmware upgrade will require the pen to be magnetically attached to the paired tablet.
- The pen will enter the battery protection mode if it is not used for a long time. Charge the pen for 5-10 minutes before use.
Note: If the tablet is powered off, you need to connect it to the charger for wireless pen charging.
- The tip may wear out during daily writing, especially on the rough film surface.
- Please be cautious when using the pen. The pen contains sensitive electronic components. Dropping it may cause damage.
- Keep the pen and detachable tips out of the reach of children. Otherwise, children may damage them or swallow the tips by mistake, which may cause suffocation or other risks.

Keyboard pack

- 1 Keyboard connector
- 2 Trackpad
- 3 Pen cover
- 4 Hinge
- 5 Kickstand

 Keyboard layouts vary from country to country. The Keyboard layout in this document is for reference only and your Keyboard may differ.

Attaching the Keyboard pack

Make sure that the camera hole is aligned with the tablet's rear cameras when attaching the Stand Cover to the Tablet.

Opening and adjusting the Kickstand

You can adjust the Tablet angle using the Stand Cover. Grasp either side of the Kickstand and gently open it until you reach the desired angle.

1

2

- ⚠ To prevent damage, do not apply excessive pressure to the Stand Cover or force the Kickstand beyond its natural range of motion.

Using the device

You can use your device in three modes:

with the keyboard via pogo pins

without the keyboard

with the keyboard via Bluetooth

- ⚠ When using for the first time, it is recommended to connect the keyboard through pogo pins for the automatic Bluetooth pairing next time.

Storing the pen

Attach the pen to the tablet and then store the pen within the pen cover.

- Do not overtilt or apply excessive pressure to the Stand Cover, doing so may damage the hinges.
- Adjust the tablet angle by opening the Kickstand and changing the position of the tablet until the desired angle is found.
- The Tablet, Keyboard, and Stand Cover all contain magnetic materials. To avoid loss of magnetism, avoid exposing the Tablet, Keyboard, and Stand Cover to high temperatures or direct sunlight.
- To prevent demagnetization of credit cards and other items with magnetic data, keep them away from the Tablet, Keyboard, and Stand Cover.

Accessing information

Regulatory information

Device models equipped with wireless communications comply with the radio frequency and safety standards of any country or region in which it has been approved for wireless use. In addition, if your product contains a telecom modem, it complies with the requirements for connection to the telephone network in your country.

Be sure to read the *Regulatory Notice* for your country or region before using the wireless devices contained in your device. To obtain a PDF version of the *Regulatory Notice*, go to <https://support.lenovo.com>.

Getting support

To get support on network services and billing, contact your wireless network operator. To learn how to use your device and view its technical specifications, go to <https://support.lenovo.com>.

Accessing your *User Guide*

Your *User Guide* contains detailed information about your device. To download the publications for your device, go to <https://support.lenovo.com> and follow the instructions on the screen.

Legal notices

Lenovo and the Lenovo logo are trademarks of Lenovo in the United States, other countries, or both.

Other company, product, or service names may be trademarks or service marks of others.

Dolby, Dolby Vision, Dolby Atmos, and the double-D symbol are registered trademarks of Dolby Laboratories Licensing Corporation. Manufactured under license from Dolby Laboratories. Confidential unpublished works.

Copyright © 2012-2021 Dolby Laboratories. All rights reserved.

LIMITED AND RESTRICTED RIGHTS NOTICE: If data or software is delivered pursuant a General Services Administration "GSA" contract, use, reproduction, or disclosure is subject to restrictions set forth in Contract No. GS-35F-05925.

Important safety and handling information

Plastic bag notice

Danger: Plastic bags can be dangerous. Keep plastic bags away from babies and children to avoid danger of suffocation.

Caution about high volume usage

Warning: Exposure to loud noise from any source for extended periods of time may affect your hearing. The louder the sound, the less time is required before your hearing could be affected. To protect your hearing:

- Limit the amount of time you use headsets or headphones at high volume.
- Avoid turning up the volume to block out noisy surroundings.
- Turn the volume down if you can't hear people speaking near you.

If you experience hearing discomfort, including the sensation of pressure or fullness in your ears, ringing in your ears or muffled speech, you should stop listening to the device through your headset or headphones and have your hearing checked.

To prevent possible hearing damage, do not listen at high volume levels for long periods.

Safety instructions for parents and adult supervisors

The device is not a toy. As with all electrical products, precautions should be observed during handling and using of electrical products to reduce the risk of electric shock. If parents choose to allow children to use the device, they should caution his or her child about the potential hazard while using and handling the mobile device.

Parents should inspect the mobile device (including the ac power adapter and the small part, as applicable) periodically for damage. Routinely check this mobile device to ensure that the device is working properly and is safe for children to use.

Internal rechargeable battery warning

Danger: Do not attempt to replace the internal rechargeable lithium ion battery. Replacing the original battery with an incompatible type may result in an increased risk of personal injury or property damage due to explosion, excessive heat, or other risks. Do not attempt to disassemble or modify the battery pack. Attempting to do so can cause a harmful explosion or battery fluid leakage.

When disposing of the battery, comply with all relevant local ordinances or regulations. Do not dispose the battery pack in municipal waste. Dispose used batteries according to the instructions.

The battery pack contains a small amount of harmful substances.

To avoid injury:

- Keep the battery pack away from open flames or other heat sources.
- Do not expose the battery pack to water, rain, or other corrosive liquids.
- Do not leave the battery in an environment with extremely high temperature.
- Avoid short-circuiting the battery pack.
- Keep the battery pack out of reach of small children and pets.
- Do not leave the battery in an environment with extremely low air pressure. It may result in an explosion or the leakage of flammable liquid or gas from the battery.

To extend battery life, we recommend charging the battery to at least 30% to 50% capacity each time, and recharging it every three months to prevent over discharge.

Eye Protection and Safety Information

This product carries a TÜV Rheinland Full Care Display certification and combines software and hardware solutions to provide a comfortable and healthy user experience.

- The screen has excellent image quality and can accurately represent any color.
- The smart ambient light sensor can reduce ambient light reflection and adjust the screen brightness effectively.
- The screen achieves DC modulation through the full range of luminance adjustment, reduces hazardous blue light impact to your vision health, and can effectively reduce eye fatigue.

Service and support information

Lenovo Limited Warranty notice

This product is covered by the terms of the Lenovo Limited Warranty (LLW), version L5050010-02 08/2011. Read the LLW at https://www.lenovo.com/warranty/llw_02. You can view the LLW in a number of languages from this website.

Warranty information

Lenovo provides a warranty period for your device. To check the warranty status of your device purchase upgrades, go to <https://support.lenovo.com/warrantylookup>, and then select the product and follow the on-screen instructions.

Get support

To download Lenovo service tool – Rescue and Smart Assistant (RSA):
<https://support.lenovo.com/downloads/ds101291>

🔗 Visit the website above for the information on devices compatible with RSA.

Visit Lenovo's support website (<https://support.lenovo.com>) with the device serial number to get more Lenovo support options, or scan the QR code, and then follow the on-screen instructions.

Environmental, recycling, and disposal information

General recycling statement

Lenovo encourages owners of information technology (IT) equipment to responsibly recycle their equipment when it is no longer needed. Lenovo offers a variety of programs and services to assist equipment owners in recycling their IT products. For information on recycling Lenovo products, go to <http://www.lenovo.com/recycling>.

Important Battery Recycling & WEEE information

Don't dispose of your product or battery with your household waste. Refer to the User Guide that came with your product for further information, or go to <https://www.lenovo.com/recycling>

Recycling information for Japan

Recycling and disposal information for Japan is available at:
<http://www.lenovo.com/recycling/japan>

Additional recycling statements

Additional information about recycling device components and batteries is in your *User Guide*. See “**Accessing your User Guide**” for details.

Restriction of Hazardous Substances Directive (RoHS)

Turkey

Lenovo products sold in Turkey, on or after June 1, 2009, meet the requirements of the former Republic of Turkey Restriction of Hazardous Substances legislation from 30th of May 2008 and the Control of Waste Electrical and Electronic Equipment Regulations from 22nd of May 2012 ("Turkey RoHS").

Ukraine

Lenovo products sold in Ukraine, on or after January 1, 2011, meet the requirements of the Technical Directive on Restriction of Hazardous Substances in Electric and Electronic Equipment enforced by the Government, Decision No 1057 dated 2008/12/03" ("Ukraine TR on RoHS").

India

Lenovo products sold in India, on or after May 1, 2012, meet the requirements of the India E-waste (Management) Rules ("India RoHS").

Vietnam

Lenovo products sold in Vietnam, on or after September 23, 2011, meet the requirements of the Vietnam Circular 30/2011/TT-BCT ("Vietnam RoHS").

Singapore

Lenovo products sold in Singapore, on or after June 1, 2017, meet the requirements of Government Gazette order No. S 263/2016 Restriction of Hazardous Substances in Electrical and Electronic Equipment in Singapore ("SG-RoHS").

European Union (EU) / United Kingdom (UK) RoHS

This Lenovo product, with included parts (cables, cords, and so on) meets the requirements of EU Directive 2011/65/EU as amended by Directive 2015/863/EU and UK SI 2012 No. 3032 on the restriction of the use of certain hazardous substances in electrical and electronic equipment ("RoHS recast" or "RoHS 2").

For more information about Lenovo progress on RoHS, go to:

https://www.lenovo.com/us/en/social_responsibility/RoHS-Communication.pdf

European Union (EU) / United Kingdom (UK) compliance statement

Lenovo (Singapore) Pte. Ltd declares that the radio equipment type:

Lenovo TB-Q706F, Lenovo TB-Q706Z is in compliance with EU Radio Equipment Directive 2014/53/EU.

Lenovo (Slovakia) Ltd declares that the radio equipment type: Lenovo TB-Q706F, Lenovo TB-Q706Z is in compliance with UK Radio Equipment Regulation SI 2017 No. 1206.

The full text of the system declarations of conformity are available at :

<https://www.lenovo.com/us/en/compliance/eu-doc> for EU and

<https://www.lenovo.com/us/en/compliance/uk-doc> for UK.

This radio equipment operates with the following frequency bands and maximum radio-frequency power:

Model Name	Frequency Bands	Maximum Power (dBm)
Lenovo TB-Q706F	WLAN 2400-2483.5 MHz	<20
	WLAN 5150-5250 MHz	<23
	WLAN 5250-5350 MHz	<20
	WLAN 5470-5725 MHz	<20
	WLAN 5725-5850 MHz	<14
	Bluetooth 2400-2483.5 MHz	<10
	13.56 MHz	-35.73 dBuA/m@10m

Restrictions of use:

Usage of this device is limited to indoor in the band 5150 to 5350MHz.

	AT	BE	BG	CH	CY	CZ	DE	DK	EE	EL	ES	FI
	FR	HR	HU	IE	IS	IT	LI	LT	LU	LV	MT	NL
	NO	PL	PT	RO	SE	SI	SK	TR	UK (NI)	UK		

Specific Absorption Rate information

THE DEVICE MEETS INTERNATIONAL GUIDELINES FOR EXPOSURE TO RADIO WAVES.

The device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves (radio frequency electromagnetic fields) recommended by international guidelines. The guidelines were developed by an independent scientific organization (ICNIRP) and include a substantial safety margin designed to assure the safety of all persons, regardless of age and health. The radio wave exposure guidelines use a unit of measurement known as the Specific Absorption Rate, or SAR.

Tests for SAR are conducted using standard operating positions with the device transmitting at its highest certified power level in all tested frequency bands. The highest SAR values under the ICNIRP guidelines for your device model are listed below:

Maximum SAR for this model and conditions under which it was recorded.				
EU/UK 10g SAR Limit (2.0 W/kg)	Lenovo TB-Q706F	Body-worn (0mm)	WLAN, Bluetooth	1.554 W/kg
EU/UK 10g SAR Limit (4.0 W/kg)		Limb (0mm)	WLAN, Bluetooth	1.554 W/kg

- ⓘ The above information is for EU countries and UK. Please refer to the actual product for supported frequency bands in other countries.

During use, the actual SAR values for your device are usually well below the values stated. This is because, for purposes of system efficiency and to minimize interference on the network, the operating power of the device is automatically decreased when full power is not needed for the data connection. The lower the power output of the device, the lower its SAR value. If you are interested in further reducing your RF exposure then you can easily do so by limiting your usage or simply using a hands-free kit to keep the device away from the head and body.

Driving precautions. Responsible and safe driving is your primary responsibility when driving a vehicle. Always obey local laws and regulations.

Seizures, blackouts, eye strain and discomfort. This device may display flashing images or loud sounds.

Medical devices. This device may interfere with pacemakers and other medical devices. If you use an implantable pacemaker, defibrillator, or other medical device, please consult your healthcare provider and device manufacturer before using this mobile device. If you use a pacemaker or defibrillator, the FCC recommends that you pay attention to the following precautions:

Always keep this mobile device at least 20 cm (8 inches) away from the pacemaker or defibrillator. Please use the mobile device on the side away from the pacemaker or defibrillator to minimize the possibility of interference.

When you suspect that interference is being caused, the mobile device should be turned off immediately.

Extreme heat or cold. Don't use your device in temperatures below 0°C or above 40°C. Don't store/transport your device in temperatures below -20°C or above 60°C.

Operational warnings. Obey all posted signs when using devices in public areas.

Potentially explosive areas: potentially explosive areas are often, but not always, posted and can include blasting areas, fueling stations, fueling areas (such as below decks on boats), fuel or chemical transfer or storage facilities or areas where the air contains chemicals or particles, such as grain dust or metal powders.

Turn off your device before entering such an area and do not charge batteries. In such areas, sparks can occur and cause an explosion or fire.

Hospitals. Switch off your wireless device when requested to do so in hospitals, clinics or health care facilities. These requests are designed to prevent possible interference with sensitive medical equipment.

Aircraft. Switch off your wireless device whenever you are instructed to do so by airport or airline staff.

Consult the airline staff about the use of wireless devices on board the aircraft, if your device offers a 'flight mode' this must be enabled prior to boarding an aircraft.
