# Safety information

### Important - Please read these instructions fully before using

# CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE ANY COVER. NO USER-SERVICEABLE PARTS INSIDE, REFER ANY SERVICING TO QUALIFIED SERVICE PERSONNEL.

- Please read this owner's guide
- Please take the time to follow the instructions in this owner's guide carefully. It will help you set up and operate your system properly and enjoy all of its advanced features.
- Please save this owner's guide for future reference.
- The product label is located on the back of the product.
- Heed all warnings on the product and in the owner's guide.
- Do not use this apparatus near water or moisture.
- Do not use this product near a bathtub, washbowl, kitchen sink, and laundry tub, in a wet basement, near a swimming pool, or anywhere else that water or moisture is present.
- Only use attachments/accessories specified by the manufacturer.
- Unplug this apparatus during lightning storms or when unused for long periods of time to prevent damage to this product.
- Refer all servicing to qualified service personnel
- Servicing is required when the apparatus has been damaged in any way: such as liquid has been spilled or objects have fallen into the apparatus; the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped -
- Do not attempt to service this product yourself.
- Opening or removing covers may expose you to dangerous voltages or other hazards.
- To prevent risk of fire or electric shock, avoid overloading wall outlets, extension cords, or integral convenience receptacles.
- Use suitable power sources Plug the product into a suitable power source, as described in the operating instructions or as marked on the product.
- The mains plug is used as the disconnect device, the disconnect device shall remain readily accessible.

# This symbol means that this unit is double insulated. An earth connection is not required.

## CAUTION : CLASS 1 LASER PRODUCT

This product utilizes a Class 1 laser. This laser DVD Player is equipped with safety switches to avoid exposure when the door is open and the safety interlocks are defeated. Invisible laser radiation is present when the Player's lid is open and the system's interlock has failed or been defeated. It is very important that you avoid direct exposure to the laser beam at all times. Please do not attempt to defeat or bypass the safety switches.

# LASER SAFETY

This unit employs a laser, only qualified service personnel should attempt repair.

- Any electrical work that is required to install this appliance MUST be carried out by a qualified electrician.
- Before making any electrical connections, ensure the following:
- Do not bend, stretch or pull the supply cable in order to avoid electric shock.
- The supply voltage should be the same as that indicated in the technical specifications and the appliance rating plate.
- When installed, the power socket must be within easy reach.
- If the socket outlets in your home are not suitable for the plug supplied with this unit check with a qualified electrician for replacement.
- The use of multiple connectors or extension cables are not recommended.
- The appliance must be connected to a 100-240 volt 50/60Hz AC supply by means of a three pin socket.
- The main plug is used as the disconnect device, the disconnect device shall remain readily operable.
- In order to disconnect the apparatus from the mains completely, switch off the outlet and remove the mains plug completely.

This product complies with European low voltage (2006/95/EC) and electromagnetic compatibility (2004/108/EC) directives.

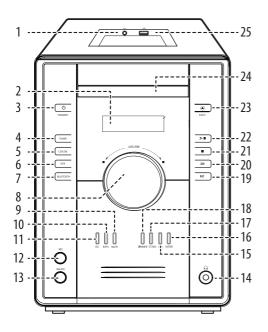

# **Functions & controls**

### Please familiarize yourself with the parts and accessories listed below

#### Accessories included

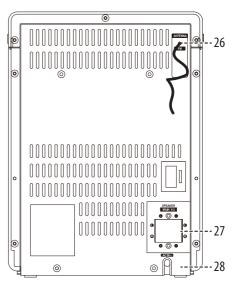

- 1 x CMN150BT
- 2 x Speakers
- 1 x Remote control
- 1 x Instruction manual

  27: SPEAKER terminals
  28: MAINS cable

# **Functions & controls**

### Please familiarize yourself with the parts and accessories listed below

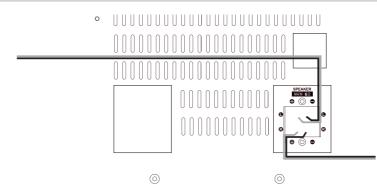

#### Overview of remote control

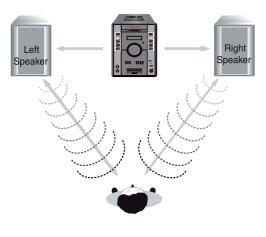

# Installation

# Preparation for use

### Connecting the loud speakers

- 1: Unwrap the speaker wires.
- 2: Place a speaker on either side of the main unit, preferably at the same height, and with at least 150mm between each speaker and the main unit.
- 3: Connect the speaker wires to the terminals on the rear of the unit (27). Take care to match the speaker placed to the LEFT to the LEFT output on the rear of the unit. Repeat for the **RIGHT** speaker.
- 4: When connecting ensure the **RED** wire connects to the **RED** terminal and the **BLACK** wire to the **BLACK** terminal.

**Optimal Stereo Position** 

#### Remote control battery installation

- 1: Press the tab on the bottom left inwards and use a fingernail to slide the compartment outwards to reveal the internal battery.
- 2: Insert one CR2025 battery taking care that the surface marked with a '+' symbol is facing upwards.
- **3:** Slide the battery compartment back inside the remote control.

#### Notes on battery usage

- Do not insert battery into the remote control in the wrong direction.
- Do not charge, heat, open or short-circuit the battery. Do not throw battery into a fire.
- If the remote control does not function correctly or if the operating range becomes reduced, replace the battery with a new one.
- Improper replacement of batteries may result in explosive hazard. It must be replaced only by batteries with the same or equivalent type.

## Getting started

- 1: Connect the mains plug to a UK wall outlet.
- 2: Extend the pig tail antenna as far as it can go.

NOTE: The quality of the radio reception will be influenced by the positioning of the pigtail aerial.

3: Press the STANDBY button (3) to wake from standby.

### Standby mode

1: Press the **STANDBY** button on the unit (3) or press the **STANDBY** button on the remote to put the system into standby mode. To resume normal operation press either button again.

NOTE: This unit is designed to enter STANDBY mode automatically after 20 MINUTES (approximately) of inactivity. Press the STANDBY button to wake the unit.

NOTE: When you power on the unit from standby the last used mode will resume.

#### **General operation**

#### Volume function

- 1: Rotate the VOLUME control (8) clockwise or press the VOL+ button on the remote control to increase the volume output.
- 2: Rotate the VOLUME control (8) anti-clockwise or press the VOL- button on the remote control to decrease the volume output.

#### Mute function

- 1: Press the MUTE button (9 main unit) or on the remote control to silence audio playback.
- 2: Press again to resume audio output once more.

### **Bass enhance function**

- 1: Press the BASS button (10 main unit) or on the remote control to enhance the bass output.
- 2: Press again to cancel the bass enhancement.

#### Clock

1: Press the **CLOCK** button on the remote to display the current time on the display.

#### **+**BUSH

### EQ function

1: Press the EQ button (11) on the main unit or remote repeatedly to cycle through the EQ sound effects. Select from: FLAT, JAZZ, ROCK, CLASSIC & POP.

#### **Display brightness**

1: Press the **DIM** button (18) on the main unit repeatedly to cycle through the four brightness states.

### Switching input modes

Follow the below instructions to switch between TUNER, CD/USB, AUX & BLUETOOTH input modes.

#### Main unit

- 1: Press the TUNER button (4) repeatedly to cycle between FM & MW modes.
- 2: Press the CD/USB button (5) to switch to CD mode. Connect a USB flash drive to begin USB input mode.
- 3: Press the AUX button (6) to enter AUX input mode.
- 4: Press the **BLUETOOTH** button (7) to enter Bluetooth mode.

#### **Remote control**

1: Press the SOURCE button repeatedly to cycle between the input modes : FM, MW, CD, USB, AUX & BT.

### Radio operation

#### Selecting a band

- 1: Press the **FM/MW** button on the remote repeatedly to cycle between the bands.
- 2: Alternatively you can press the **TUNER** button (4) on the main unit repeatedly to cycle between the bands.

#### **Tuning a station**

- 1: Select the radio band you wish to use (See above).
- 2: Press and hold either I (19) or ►►I (20) buttons (main unit) or TUNE -/+ (remote) to begin scanning up or down the frequency range. When a station is located playback will begin automatically.
- 3: To fine tune the frequency press either I ◄< (19) or ►> (20) buttons (main unit) or TUNE -/+ (remote) to advance in 0.05 increments.

## Tuning a station (cont)

4: You can perform a full auto scan function which scans the entire frequency range and automatically stores any located signal as a station preset (see Station presets below).

#### Stereo / Mono modes

Should you experience background noise when listening to a stereo broadcast, you can switch to MONO mode to reduce the effect.

1: Press the ST/MO button (17) on the main unit to cycle between STEREO and MONO modes.

#### Storing station presets

Follow the below steps to store a tuned station to one of 30 preset locations to allow quick access.

#### 1: Tune to a radio station

- Press the MEM button (remote). You will see 'P-XX' (where XX is the location number) flash on the display.
- 3: Use the CH-/+ buttons to select a location number.
- **4:** Press the **MEM** button once more to store the tuned station to the selected preset location.

#### **Recalling station presets**

- 1: Press either CH-/+ buttons repeatedly to cycle through the preset location range 1-30.
- 2: When selected the preset station will begin playback after a brief pause.

#### CD operation (CDA/MP3 CD)

#### Playing a disc

- 1: Switch to CD input mode (see page 6).
- 2: Press the EJECT button (23) on the main unit or on the remote, when the disc drawer pops out insert a disc (label side facing upwards), press the EJECT button again to close.
- 3: When the door is closed "**READING**" will appear on the display as the unit detects compatible audio tracks.
- 3: Playback will begin automatically from Track 01.
- 4: To stop playback press the **STOP** button (21) on the main unit or on the remote.

### Playing a disc (cont)

5: To pause playback press the **PLAY/PAUSE** →/III button (22) main unit or on the remote during playback. To resume playback press once more.

#### Skipping tracks CDA/MP3 CD/USB

- 1: To skip to the next track on a disc press ►► (20) on the main unit or on the remote control.
- 2: To skip to the previous track press (4(19) on the main unit or on the remote control.

#### Skipping folders MP3 CD/USB only

- 1: To skip to the next folder containing MP3 files, press the DIR button (15) main unit or on the remote.
- 2: Each press skips to the next folder and plays track **01** automatically.
- 3: Pressing the **DIR** button while in the last folder skips back to folder **01** or plays any tracks not in folders.

NOTE: Tracks found in the root of the disc (not in folders) play first before tracks in folders.

#### Fast searching tracks CDA/MP3 CD/USB

- 1: To fast forward a track during playback press an hold ► (20) on the main unit or on the remote control.
- 2: To fast rewind a track during playback press an hold I◄ (19) on the main unit or on the remote control.

### Intro playback CDA/MP3 CD/USB

- 1: Press the INTRO button on the remote control to begin playback of the first **10** seconds of each track on the disc.
- 2: Press the INTRO button once more to cancel the INTRO mode.

#### **MP3 CD information**

- · Max 999 tracks and 99 folders can be recognised.
- Only MP3 files are compatible
- The disc must be finalised. Multi-session discs are not compatible.
- During playback, discs damaged with dirt or scratches may make a pop, clipping sound or cut off.

### Random playback CDA/MP3 CD/USB

Follow the below instructions to playback the contents of a CD or MP3 CD in a random order.

#### 1: Press the **RANDOM** button on the remote.

- 2: When playing a standard CD 'RAND' will appear on the display and play ALL tracks in a random order.
- **3:** Press the **RANDOM** button again to cancel random playback.
- 4: If playing an MP3 CD 'RAND' will appear, but also 'DIR' to indicate only tracks found in the current directory (folder) will be played back in a random order.
- 5: Press the **RANDOM** button again and the **'DIR'** will disappear from the display and the unit will play **ALL** tracks on the disc in a random order.
- 6: Press the **RANDOM** button once more to cancel random playback.

### Repeat playback CDA/MP3 CD/USB

Follow the below instructions to repeat tracks on a CD.

- 1: Press the REPEAT button on the remote.
- 2: When playing a standard CD 'REP 1' will appear on the display and repeat the current track only.
- 3: Press the **REPEAT** button once more and the display changes to '**REP ALL'** to indicate **ALL** tracks on the disc will repeat.
- 4: Press the **REPEAT** button once more to cancel the function.

#### Repeat playback CDA/MP3 CD/USB

Follow the below instructions to repeat tracks on an MP3 CD.

1: Press the **REPEAT** button on the remote.

2: When playing a MP3 CD 'REP 1' will appear on the

#### **+BUSH**

display and repeat the current track only.

#### Repeat playback CDA/MP3 CD/USB (cont)

- 3: Press the **REPEAT** button once more and the display changes to '**REP DIR**' to indicate **ALL** tracks in the current directory (**folder**) will repeat.
- 3: Press the **REPEAT** button once more and the display changes to '**REP ALL'** to indicate **ALL** tracks on the disc will repeat.
- 4: Press the **REPEAT** button once more to cancel the function.

#### Programmed playback CDA/MP3 CD/USB

Follow the below steps to program and alternate play list.

- 1: Stop playback of the loaded disc if required.
- 2: Press the PROG button on the remote control

3: When an **MP3** disc is loaded the first option is to select a folder. Press the **DIR** button (15) or on the remote control to cycle through the available directories (**folders**).

NOTE: This step is not required for a standard CD.

Any tracks in the root of the disc (eg no folder) are included in folder 01.

- 4: Press the **PROG** button again to proceed to selecting a track. Use either **>>1(20)** or **I** << (19) on the main unit or on the remote control to select a track number.
- 5: Press the **PROG** button once more to store the programmed track and proceed to the next one.
- 6: Repeat steps 3-5 (or 4-5 if std CD) until you have programmed all tracks required.
- 7: Press the **PLAY/PAUSE ►/III** button (22) main unit or on the remote to begin playback of the programmed sequence.
- 8: Press the **STOP** button twice to cancel the programmed sequence.

### **USB** operation

#### **Playing a track**

Follow the steps below to load a USB flash drive and play a track.

- 1: Insert a compatible USB flash drive into the USB input socket (25) on the main unit.
- 2: Switch to USB input mode (see page 6).
- **3:** The first track in folder **01** or the root of the **USB** drive will begin playback automatically.
- 4: To stop playback press the STOP■ button (21) on the main unit or on the remote.
- 5: To pause playback press the **PLAY/PAUSE ►/III** button (22) main unit or on the remote during playback. To resume playback press once more.

NOTE: All advanced playback functions explained on pages 7-8.

#### **MP3 information**

- · Do not remove the USB device during playback
- Max 999 tracks and 99 folders can be recognised.
- · USB flash drive format: FAT 16, 32 only.
- USB reading speed may be effected by the number of files on the device.

#### Recording to a USB device

Follow the below instructions to record from a disc, aux input or radio.

#### Record from a CD / MP3 CD

- 1: Stop playback of the loaded disc if required.
- 2: Use either ►► (20) or I<- (19) on the main unit or on the remote control to select a track.

NOTE: If recording from a MP3 CD you will need to select the directory (folder) before selecting the track.

- 2: Press the REC button (12) or on the remote control.
- 3: You will see 'REC ONE' appear on the display. Use either ▶▶I(20) or I<<(19) on the main unit or on the remote control to select 'REC ONE' (to record only one track), 'REC ALL' (to record all tracks) or 'REC DIR' (MP3 CD only) to record all tracks in a directory (folder). Press the REC button once more to proceed

to the next step.

#### Recording to a USB device (cont)

4: If you selected to record a single track the track number will flash up momentarily and then
'CHECKING' will appear. If you selected to record all, track 01 will appear. Shortly after checking for available space on the USB device recording will begin.

5: The unit will now display a percentage on the far right of the display to indicate the progress. When the counter reaches 100% 'REC END' will appear on the display and the track will be playable from the USB device (see USB operation, Playing a track).

NOTE: Should you wish to listen to the track as you record it, begin playback then press the REC button.

#### Record from an auxiliary audio source

See (Aux input operation) to connect an auxilliary audio source.

- 1: Begin playback on the external device.
- 2: Press the REC button (12) or on the remote control.
- 3: You will see 'CHECKING' appear on the display while the unit checks for available space on the USB device.
- 4: Recording will begin automatically with 'REC' appearing on the display.
- 5: To cancel recording press the STOP button.

### Record from the radio

- 1: Begin playback of the radio station you wish to record.
- 2: Press the REC button (12) or on the remote control.
- 3: You will see 'CHECKING' appear on the display while the unit checks for available space on the USB device.
- 4: Recording will begin automatically with 'REC' appearing on the display.
- 5: To cancel recording press the STOP button.

#### **Encoding information**

When ripping to a USB device a 'RECORD' directory (folder) is created in the root of the USB device. Folders and files are created as follows.

SOURCE TYPE	RECORDING	DIRECTORY NAME	FILE NAME
CD-DA	ONETRACK/ALL	• CDRECXX[01.02]	<ul> <li>file_XXX.MP3</li> </ul>
MP3	ONETRACK     FOLDER     ALL	• COPYXX[01.02]	• file_XXX.MP3
AUX/RADIO	FROM START TO STOP	AUX REC	• XXX.MP3

#### **Error messages**

Error message	Display message
USB device does not have the capacity to store the recording Encoding is impossible due to write protection on USB device USB device removed from the unit during encoding	REC FULL     PROTECT     CD STOP status

#### Deleting files from a USB device

Follow the below instructions to delete a file from the USB device.

1: Begin playback of the file you wish to delete (so you know it's the correct file if you wish to delete only one file).

- 2: Press the DELETE button (13) main unit or on the remote. Use either ►► (20) or I<<(19) on the main unit or on the remote control to select 'DELONE' (to delete only one track), 'DEL ALL' (to delete all tracks) or 'DEL DIR' (to delete all tracks in a directory (folder)).
- 3: Press the **DELETE** button once more to select the delete option selected. The file(s) will be deleted from the **USB** device.

### AUX input operation

Follow the steps below to connect an external audio source for playback through the speakers.

NOTE: You will need a 3.5mm audio cable (not supplied) to connect a device to the AUX input socket.

- 1: Connect one end of a 3.5mm audio cable to the AUX input socket (1) on top of the unit. Connect the other end to an earphone or line-out socket on the audio device.
- 2: Switch to AUX input mode (see page 6).
- 3: Press PLAY on the audio device.
- 3: Adjust the volume to your desired level.

NOTE: when connecting via the headphone output the volume of the mini system is affected by the volume control on the player. Ensure that the player is set to about 70-80% to avoid distortion.

#### **Bluetooth operation**

#### **Connecting a device**

When using the Bluetooth connection, you can listen to audio wirelessly from a Bluetooth audio device within 10 metres of the CMN150BT unit.

#### 1: Switch to BLUETOOTH input mode (see page 6).

2: When in Bluetooth mode you will see 'BT' flashing on the display to indicate the unit is in 'PAIRING' mode (connection mode). If the unit is not in PAIRING mode you can press the PAIR button on the remote control.

3: Enable Bluetooth on your audio device and search for available bluetooth connections. Select the CMN150BT from the list. If you are asked for a pass code enter '0000'.

NOTE: If you turn off either device before pairing is complete the process will need to be repeated when powered ON again.

If you do not see 'CMN150BT' press the PAIR button to re-initiate pairing mode.

4: Once paired the 'BT' on the display will stop flashing and an audible sound is heard.

NOTE: Each time you switch the CMN150BT on and select BLUETOOTH mode the device will automatically connect, unless you have un-paired the device.

- 5: You can now begin playback from the audio device and the output will playback through the **CMN150BT.**
- 6: If using a mobile phone as an audio source, when receiving a phone call the audio playback stops while you receive the call. When you hang up the audio is restored, but you will need to press **PLAY** once more on the device.

NOTE: the volume output is effected by the volume level on the audio source EG: Phone or laptop, so make sure that is set to about 70-80% (not too loud to avoid distortion).

#### Controlling a connected device

Once connected you can either use the controls on the audio device to begin playback, skip tracks etc. Or you can use the control buttons on the unit/remote control.

- 1: The **PLAY/PAUSE** button (22) on the main unit or remote when pressed will begin playback of the selected track on the audio device. Press again to pause playback.
- 2: To skip to the next track press ►► (20) on the main unit or on the remote control.
- **3:** To skip to the previous track press **I<(19)** on the main unit or on the remote control.

### Setting the clock

Follow the below steps to program the clock.

- 1: Press and hold the **CLOCK** button on the remote control.
- 2: You will see '24H' or '12H'. Use either ►► (20) or I<</li>
  (19) on the main unit or on the remote control to select either one. Press the ENTER button (16) main unit or on the remote control to select the option and advance to the time setting.

- 3: When you see the time setting, use either ►► (20) or I<< (19) on the main unit or on the remote control to cycle through the HOUR digits. Press the ENTER button to proceed to the MINUTE setting.
- 4: Use either ►> (20) or I<< (19) on the main unit or on the remote control to cycle through the **MINUTE** digits and press the **ENTER** button to complete the clock setting.

#### Setting the timer

You can set a time for the unit to power on and also off. Follow the below instruction.

- 1: The timer can be set in STANDBY or POWER ON mode.
- Press and hold the TIMER button on the remote control. You will see 'TIME ON' appear on the display momentarily before being replaced with a time setting option.
- 3: When you see the time setting, use either ►► (20) or I◄ (19) on the main unit or on the remote control to cycle through the HOUR digits. Press the TIMER button to proceed to the MINUTE setting.

- 4: Use either ►> (20) or (◄(19) on the main unit or on the remote control to cycle through the MINUTE digits and press the TIMER button to complete the TIMER ON setting.
- 5: The next step is to select the audio input to play when powered **ON.** Use either ►►I(20) or I<< (19) on the main unit or on the remote control to cycle through the options of: MW, FM, CD or USB (ensure a USB device is connected).
- 6: Press the TIMER button to advance to the VOLUME setting. Use the VOL-/+ buttons on the remote control to set the volume level. Press the TIMER button to advance to the TIMER OFF setting.
- 7: Use either ►> (20) or I<< (19) on the main unit or on the remote control to cycle through the MINUTE digits and press the TIMER button to complete the TIMER settings.
- 8: You will now see a small **CLOCK** icon on the display to indicate the timer function is enabled.
- 9: To disable the timer press the **TIMER** button. You will see **'TIME OFF'** appear on the display and the **CLOCK** icon will disappear. You can enable the **TIMER** function in the same way.

#### Setting the sleep timer

Follow the below steps to set a timer so that the unit switches OFF after a certain period of time.

1: Press the **SLEEP** button on the remote control.

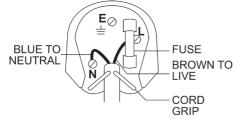

2: You will see 'SLP 120' on the display with a 'SLEEP' icon flashing.

- 3: Press the SLEEP button repeatedly to cycle through the timer options 120, 110, 100, 90, 80, 70, 60, 50, 40, 30, 20, 10 & OFF.
- **4:** When you locate the timer option you wish to set, leave all buttons unpressed for a second or more. The timer has now been set.
- 5: The SLEEP icon on the display is visible and not flashing. To cancel the sleep timer, press the SLEEP button until you get to SLP OFF'. After a brief pause the SLEEP icon disappears and the timer is now disabled.

### UK Mains plug information

For your convenience a mains plug with a fuse (3 Amp) has been fitted to this appliance. For your safety please observe the following information.

- The unit is designed to operate on AC mains supply 230 volts, 50 Hz.
- The wires in the mains lead are coloured in accordance with the following code:

BLUE	- NEUTRAL
BROWN	- LIVE

Under no circumstances should the Neutral or Live wires be connected to the 'E' (Earth) terminal.

#### **Technical specifications**

Supply Voltage, Mains:	230-240V~50Hz
Max. Power Consumption:	
Speaker Power:	2 x 75W
FM:	87.5-108 MHz
MW:	522-1620KHz
Unit dimensions:	222x281x301 mm
Speaker dimensions:	225x325x255 mm

#### Care & maintenance

- After using your radio
- Set to Standby.
- Switch the unit off at the mains and unplug it if you are leaving it unattended for a long period (holidays etc).
- Avoid leaving batteries fitted if you leave the radio unattended for long periods. They may leak and damage the radio.

Care and cleaning

- All care and cleaning operations should be carried out with the unit unplugged from the mains power.
- Occasionally wipe the cabinet with a lint free duster. Never clean the unit with liquids or solvents.

### Disc handling information

- Do not touch the playback side of the disc.
- · Do not attach paper or tape to disc.

 Fingerprints and dust on the disc cause picture and sound deterioration. Wipe the disc from the centre outwards with a soft cloth. Always keep the disc clean.

- If you cannot wipe off the dust with a soft cloth, wipe the disc lightly with a slightly moistened soft cloth and finish with a dry cloth.
- Do not use any type of solvent such as thinner, benzene, commercially available cleaners or antistatic spray for vinyl. It may damage the disc.
- Do not store discs in a place subject to direct sunlight or near heat source.
- Do not store discs in a place subject to moisture and dust such as a bathroom or near a humidifier.
- Store discs vertically in a case, stacking or placing object on discs outside or their case may cause warping.

# Troubleshooting

In the unlikely event of difficulties with your appliance please follow the trouble shooting guide below. If the problem persists, contact the retailer if the machine is still under guarantee. Customer **helpline:0870 600 3030** 

Problem	Reason(s)	Solution(s)
No Power	<ul> <li>Power cable not connected to wall socket</li> <li>Power socket is not switched on</li> </ul>	<ul><li>Make sure the plug is connected</li><li>Switch the power on</li></ul>
