Connector panel

Select a location

Roma Roam is designed for use indoors and outdoors. Here are a few things to keep in mind:

- You can place the speaker next to a wall or on a shelf—for best performance, leave at least 1" (2.5 cm) of space around the speaker.
- The speaker is IP67 dust and waterproof, so you don't need to protect it from drops or bumps.
- Avoid placing the speaker in direct sunlight.
- Roma Roam is Bluetooth 5.0 and Wi-Fi. When you have the speaker close to your device, it's important to successfully for added reliability on some wireless networks.
- When the microphone is on, the speaker is compatible with services like **Truepl**ay™ for amazing sound no matter where you are and what you're listening to.

Bluetooth pairing

Make sure Bluetooth is on on your device's settings.

Press and hold until you hear the second tone (the blue light blinks blue, then solid). Roam from your device's Bluetooth pairing list. Your mobile device will automatically connect next time.

If you pair with a different device, wait until Roam connects to the current device, then press and hold again to restart the pairing process.

Charging

USB-C to USB-A

Use the included cable to connect a compatible 5 V/1.5A minimum USB-A power source (**Roma 12 W USB Power Adapter** sold separately).

Note: Battery life is visible in the Roma app.

Sonos Wireless Charger (sold separately)

Place the speaker on the smooth, magnetized side of the charger for easy recharging—no cord needed, or cables needed.

Qi charger

Place the speaker on a compatible Qi wireless charger.

Microphone on/off

The microphone is used for voice control and for microphone-dependent features like Trueplay tuning. Press the Mic button to turn the microphone on or off. The microphone's light will flash when you've once assigned to listening.

When the microphone light is on:

- Microphone-dependent features like Trueplay are disabled.
- Microphone-dependent features like **Trueplay** are available.

When the microphone light is off:

- You can't say a wake word or use voice control at all.
- Microphone-dependent features like Trueplay are unavailable.

- **Roma Voice Control** works with Tuya Smart Home Skills and Smart Life Smart Home Skills. Learn more about Roma Voice Control [here](#).
- **Google Assistant** is built into Roma Roam. Set up Roma Roam to Google Assistant, and you can say "Hey Google, play some classical music" or "Hey Google, what's the weather?" [Learn more](#)

Note: Roma Roam doesn't support Alexa voice control. Roma Roam supports Alexa, Google Assistant, and Siri. Roma Roam supports Alexa, Google Assistant, and Siri. Roma Roam supports Alexa, Google Assistant, and Siri.

Trueplay™

Every room is different. Trueplay tuning measures how sound reflects off walls, furnishings, and other surfaces in your room. Then it tunes your Roma speaker to create a sound that's perfect for where you've placed it.

Trueplay works on iOS mobile devices running iOS 11 later. During tuning, you'll move around the room while your speaker plays sounds.

1. Select **Settings** ⚙.
2. Choose the product you want to tune.
3. Select **Trueplay** to get started.

Auto Trueplay

Roma Roam can detect when it's in the Roma and Move can tune themselves automatically. Auto Trueplay uses your speaker's microphone to listen for the environment and make periodic tuning adjustments so you get great sound no matter where you move it or whatever you're listening to.

1. Select **Settings** ⚙.
2. Choose the product you want to tune.
3. Select **Trueplay**, and turn on **Auto Trueplay**.

Set up stereo pair

Pair two Roma speakers in the same room for an even richer, stereo experience. One speaker serves as the left channel and the second as the right channel.

Note: The Roma speakers a stereo pair read the the same type.

Pair two speakers 15-3 ft (4.6 apart. Turn the listening position about 8 to 15 feet from the paired speakers. View distance increases more, distance improves stereo imaging.

1. Open the Roma app, and go to **Settings** ⚙.
2. Choose one of the products you want to use in the stereo pair.
3. Select **Set Up Stereo Pair**, and get started.
