2. Press and hold down the Power button (1) to turn on your speaker, the blue & red LED (6) will flash rapidly and the speaker is ready for pairing. .
3. Activate Bluetooth connectivity on your PC and begin SEARCH NEW DEVICE function.
4. After a short scanning period, the PC will indicate that your "HR908" speaker has been discovered and is ready for connecting/pairing.
5. Click to pair "HR908" and PC and the LED (6) will turn to solid blue to indicating the speaker is paired.

Pairing with Mac OS X 10 or above

1. While pairing keep the speaker and Mac within 1 metre range of each other.
2. Turn on your speaker, the blue & red LED (6) will flash rapidly and the speaker is ready for pairing.
3. To pair it with a Mac click on Bluetooth status in the menu bar open Bluetooth Preferences, "HR908" will appear in the device list click on the pair button to the right. "HR908" will show as connected and the LED indicator (6) will change to solid blue.
4. Open System Preferences and click Sound.
5. Click Output and select "HR908". Click Input and select "HR908". Adjust the Input and Output volume.

Re-connecting to a paired device

Every time your speaker is turned on it will either:

1.. Connect automatically to the last connected device (if in range) and start music playback.
2. Or be listed in the Bluetooth list of available select "HR908" to start music playback..

Hands-free capability

1. Press "Hands-free" button (2) to answer an incoming phone call.
2. Press again to end a call.

NOTE: When receiving calls make sure the microphone (9) is facing you and is not too far away or covered.

Volume control

Control volume via the paired devices, such as iPhone, iPad, Mobile phones, PC/Mac...etc.
and by using the volume+ / volume+ buttons (3 & 4)

AUX IN port

1. You can connect any audio source via the AUX IN port (8) using the 3.5mm jack cable supplied.
2. Then play music back through your speaker.

Using the multipurpose clip / stand (5)

To minimise strain on the clip and possibly breaking it always position the speaker and stand as shown in the image on the left not as shown in the imaga on the right.

The versatile stand also functions as a carabiner clip, ideal for attaching your speaker to belts, straps and clips on backpacks, bags and clothing.

Troubleshooting

Q1: If pairing is not successful?
A1: Turn of the speaker and then turn it on again and repeat the pairing process.
A2: If when pairing to older devces you are prompted to enter a password enter (0000).

Q2: The sound is low or there is none at all.
A2: Make sure the connection (either Bluetooth or AUX IN) is fully functioning and secure.
If you are using the AUX IN port check the cable is connected properly.
Check the speaker and audio source volumes and that an audible music track is playing.

Q3: My device cannot find the speaker.
A3: Ensure the Bluetooth is on and not hidden on your audio device and that the speaker is not paired to another device.

Q4: The person on the other end of my call cannot hear me or I cannot hear them.
A4: Make sure the volume is turned up on both the speaker and the phone.
Make sure there is no obstruction to the microphone (9 in the image on page 3).
