  - The default FM radio frequency is 87.5 MHz.
- 2. Adjust the volume by repeatedly pressing VOL +/-.
- Repeatedly press TU +/- to tune into the desired station.
  - Press and hold TU +/- for auto forward or backward radio station searching.

#### **WARNINGS**

- This appliance is intended for domestic household use only and should not be used for any other purpose or in any other application, such as for non-domestic use or in a commercial environment.
- The ventilation should not be impeded by covering the ventilation openings with items, such as newspapers, table-cloths, curtains, etc.
- No naked flame sources, such as lighted candles, should be placed on the apparatus.
- The apparatus shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases, shall be placed on the apparatus.
- Ventilations allow at least a 10 cm gap all around the product.
- The use of apparatus in a moderate climate.
- Attention should be drawn to the environmental aspects of battery disposal.
- Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type.
- Batteries shall not be exposed to excessive heat such as sunshine, fire
  or the like.
- Where the mains plug or an appliance coupler is used as the disconnect device, the disconnect device will remain readily operable.
- The marking plate is located at the bottom of the apparatus.

The lightning flash with arrow-head symbol, within an equilateral triangle, is intended to alert the user to the presence of un-insulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock.

The exclamation point within an equilateral triangle is intended to alert the user to presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance

Warning: to reduce the risk of electric shock, do not remove cover (or back). No user serviceable parts inside, refer servicing to qualified service personnel.

#### ΕN

#### Battery handling and usage

- Only adults should handle battery. Do not allow a child to use this
  apparatus unless the battery cover is securely attached to the unit.
- The battery type used in the unit is 2 x 1.5V AAA size batteries (not included) which are accessible and can be replaced.
- Remove the battery cover located at the bottom of the unit to remove the batteries.

#### **UK Mains plug information**

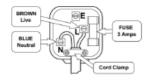

This appliance must be connected to a AC 230-240 volts 50Hz. AC supply by means of a three pin socket, and should be protected by a 3 Amp fuse.

If the mains plug is unsuitable for the socket outlet in your home or is removed for any other reason, then the cut off plug should be disposed of safely to prevent the hazard of electric shock.

The wires in the mains lead on this appliance are coloured in accordance with the following code:

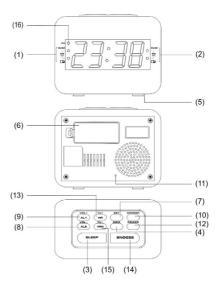

Blue – Neutral Brown – Live

Under no circumstances should Neutral or Live wires be connected to the 'E' (Earth) terminal.

Please read and retain these instructions for future reference.
