# Google Account

The image shows a screenshot of the Google sign-in page. The page has a blue background. At the top left, there is the Google logo. Below it, the text "Sign in" is displayed, followed by "Use your Google account. [Learn more](#)". There is a text input field for "Email or phone". Below the input field, there are links for "Forgot email?" and "More options". A blue button labeled "NEXT" is positioned to the right of the "More options" link. A yellow oval highlights the "More options" link.

## Privacy and Terms

By choosing "I agree" below, you agree to Google's [Terms of Service](#).

You also agree to our [Privacy Policy](#), which describes how we process your information, including these key points:

### Data that we process when you use Google

- When you set up a Google account, we store information you give us like your name, email address and telephone number.
- When you use Google services to do things such as write a message in Gmail or comment on a YouTube video, we store the information that you create.
- When you search for a restaurant on Google Maps or watch a video on YouTube, for example, we process information about that activity – including information such as the video that you watched, device IDs, IP addresses, cookie data and location.
- We also process the kind of information described above when you use apps or sites that use Google services such as ads, Analytics and the YouTube video player.

Depending on your account settings, some of this data may be associated with your Google Account and we treat this data as personal information. You can control how we collect and use this data at My Account ([myaccount.google.com](#)).

### Why we process it

We process this data for the purposes described in [our policy](#), including to:

- Help our services deliver more useful, customised content such as more relevant search results;
- Improve the quality of our services and develop new ones;

# Google Account

## Why we process it

We process this data for the purposes described in [our policy](#), including to:

- Help our services deliver more useful, customised content such as more relevant search results;
- Improve the quality of our services and develop new ones;
- Deliver personalised ads, both on Google services and on sites and apps that partner with Google;
- Improve security by protecting against fraud and abuse; and
- Conduct analytics and measurement to understand how our services are used.

## Combining data

We also combine data among our services and across your devices for these purposes. For example, we show you ads based on information from your use of Search and Gmail, and we use data from trillions of search queries to build spell-correction models that we use across all of our services.

included with the replacement CRU, and 2) you may be charged for the replacement CRU if the Service Provider does not receive the defective CRU from you within thirty (30) days of your receipt of the replacement CRU.

### 2. On-site Service

Under On-Site Service, a Service Provider will either repair or exchange the product at your location. You must provide a suitable working area to allow disassembly and reassembly of the product. Some repairs may need to be completed at a service center. If so, the Service Provider will send the product to the service center at its expense.

### 3. Courier or Depot Service

Under Courier or Depot Service, your product will be repaired or exchanged at a designated service center, with shipping at the expense of the Service Provider. You are responsible for disconnecting the product and packing it in a shipping container provided to you to return your product to a designated service center. A courier will pick up your product and deliver it to the designated service center. The service center will return the product to you at its expense.

### 4. Customer Carry-In Service

Under Customer Carry-In Service, your product will be repaired or exchanged after you deliver it to a designated service center at your risk and expense. After the product has been repaired or exchanged, it will be made available to you for collection. If you fail to collect the product, the Service Provider may dispose of the product as it sees fit, with no liability to you.

### 5. Mail-In Service

Under Mail-In Service, your product will be repaired or exchanged at a designated service center after you deliver it at your risk and expense. After the product has been repaired or exchanged, it will be returned to you at Lenovo's risk and expense, unless the Service Provider specifies otherwise.

### 6. Customer Two-Way Mail-In Service

Under Customer Two-Way Mail-In Service, your product will be repaired or exchanged after you deliver it to a designated service center at your risk and expense. After the product has been repaired or exchanged, it will be made available to you for return shipping at your risk and expense. If you fail to arrange return shipment, the Service Provider may dispose of the product as it sees fit, with no liability to you.

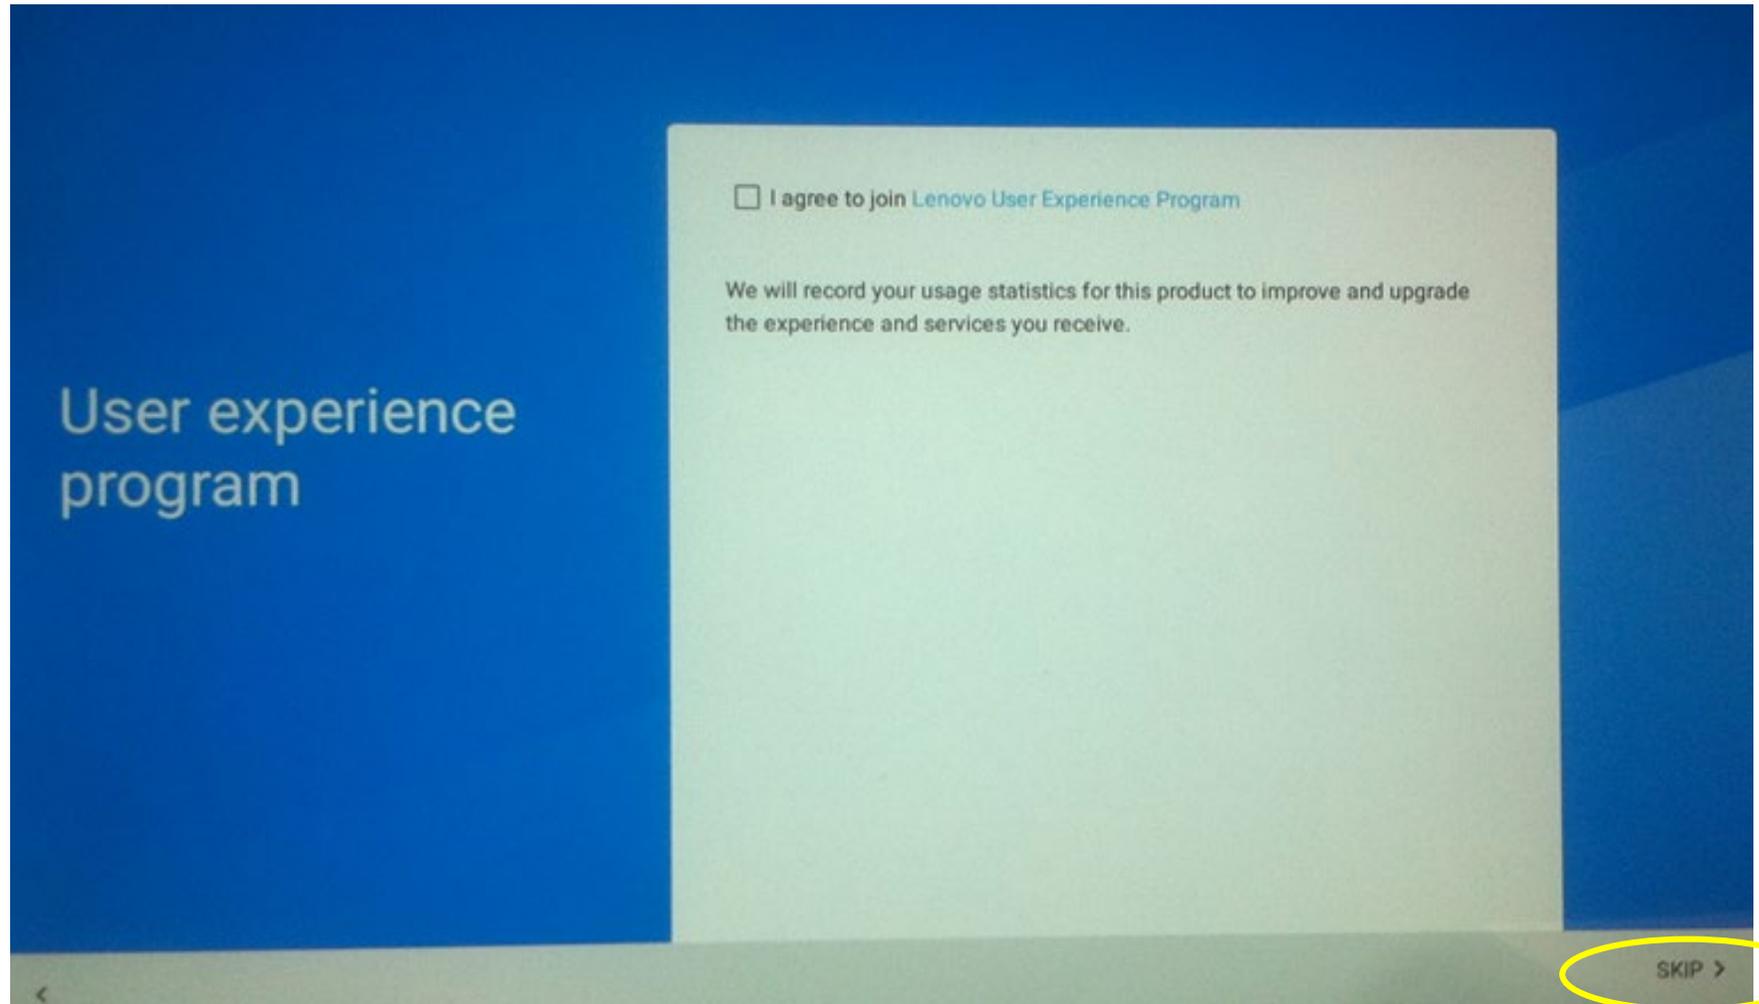

### 7. Product Exchange Service

Under Product Exchange Service, Lenovo will ship a replacement product to your location. You are responsible for its installation and verification of its operation. The replacement product becomes your property in exchange for the failed product, which becomes the property of Lenovo. You must pack the failed product in the shipping carton in which you received the replacement product and return it to Lenovo. Transportation charges, both ways, shall be at Lenovo's expense. If you fail to use the carton in which the replacement product was received, you may be responsible for any damage to the failed product occurring during shipment. You may be charged for the replacement product if Lenovo does not receive the failed product within thirty (30) days of your receipt of the replacement product.

## Multi-User

Here, each member can set up their own personal profile, with a space for their own apps, settings, wallpaper, and more. With Multi-User, each family member can quickly switch to their profile directly from the lock screen.

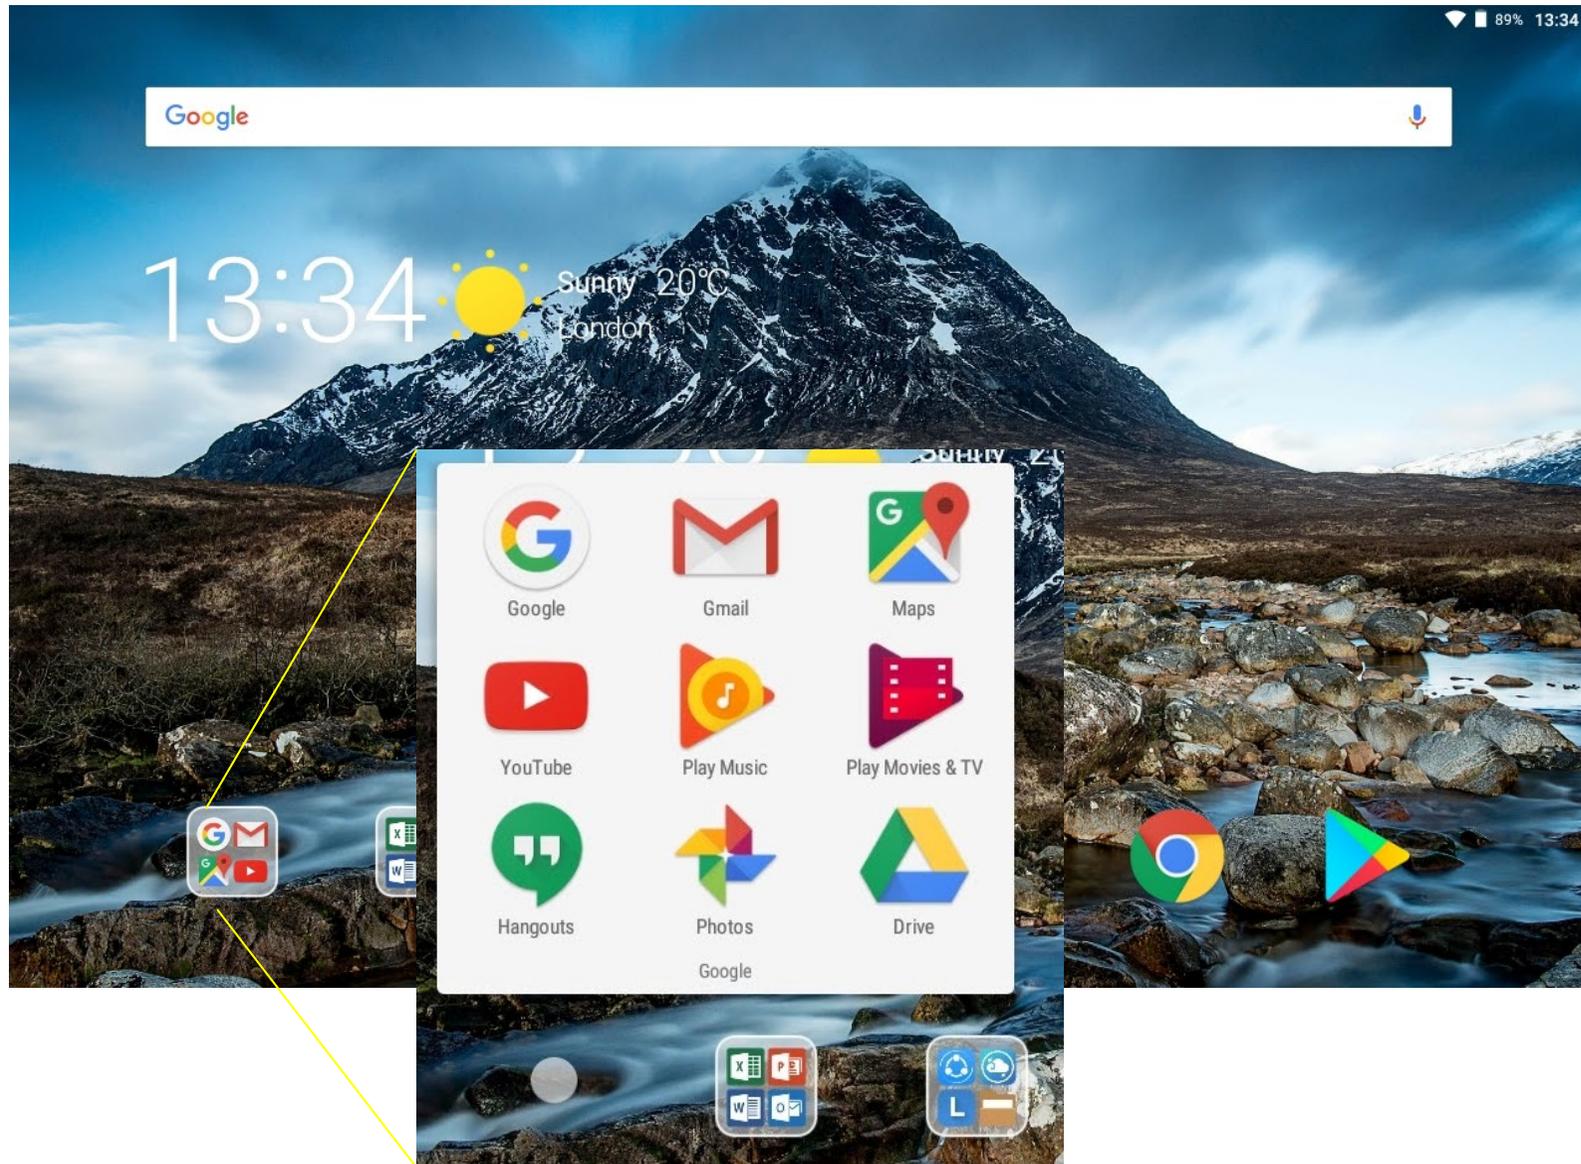

You can add a Multi-User profile from the notification center, user settings page, or through the Multi-User app on the homepage.
