1 Safety information

Safety information

Important - Please read these instructions fully before installing or operating

Warning: To reduce the risk of electric shock, do not remove the cover or back. There are no user-serviceable parts inside. Refer servicing to qualified personnel.

Warning: To prevent fire or electric shock hazard, do not expose the unit to rain or moisture.

Do not expose the Adaptor and portable DVD to water (dripping or splashing) and no objects filled with liquids, such as vases, should be placed on the unit.

Keep the portable DVD away from direct sunlight and heat source such as radiators or stoves.

Do not block the ventilation openings. Slots and openings on the unit are provided for ventilation. The openings should never be blocked by placing your portable DVD on a cushion, sofa or other similar surface.

Do not place the portable DVD on unstable cart, stand, tripod, bracket or table. The unit may fall, resulting in possible damage or injury.

Never place heavy or sharp objects on the LCD panel or frame.

Only use the AC adapter included with portable DVD. Using any other adapter will void your warranty.

The plug of AC adaptor is used as the disconnect device, the disconnect device shall remain readily operable.

Unplug the power from the outlet when the unit is not in use.

Attention should be drawn to the environmental aspects of battery disposal.

CAUTION: Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type.

WARNING: The battery (battery or batteries or battery pack) shall not be exposed to excessive heat such as sunshine, fire or the like.

WARNING: Excessive sound pressure from earphones or headphones can cause hearing loss.

If you require any technical guidance or find that your product is not operating as intended, a simple solution can often be found in the **Troubleshooting**

Safety information

Important - Please read these instructions fully before installing or operating

WARNING: Only use attachments/accessories specified provided by the manufacturer, the portable DVD is supplied by AC adapter, the AC adapter is used as disconnect device, the disconnect device shall remain readily operable.

Caution: Danger of explosion if battery is incorrectly replaced, replaced only with the same or equivalent type (Lithium battery)

Use only power supplies listed in the user instructions.
Adapter model: SEF0900100G1BA

Note: If the password has been changed, the parentaland disc lock code will also be changed. The default need more space between the letters and "(1369)" should be bold always active even the password has been changed.

section of these instructions, or online at **www.argos-support.co.uk** If you still require further assistance, call one of our experts on **0345 604 0105**.

Connections 4

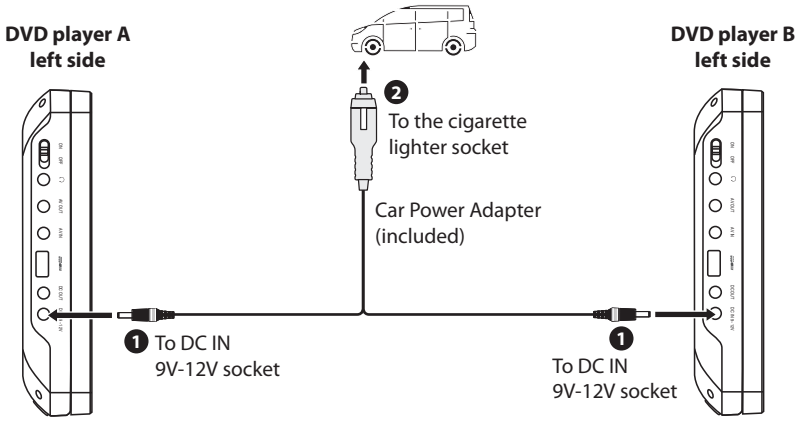

Using your In-Car DVD player

Let's get started

Using the DVD Players A and B Together (in-car use)

To playback on both DVD players A and B together, use the car power adapter (included) to connect both units to the car's cigarette lighter socket.

The included 12V car power adapter is designed for use with vehicles that have a 12V negative ground electrical system.

For optimum charging, switch the unit off.

- Disconnect the car power adapter when not in use. Not for use in 24V vehicles.
- Use the provided 12V car power adapter only. Using other car power adapters could damage the unit.
- In the interest of traffic safety, do not operate this unit or view videos while driving.
- Make sure the unit is securely fastened to prevent it from falling or flying through the air in the event of an accident.
- When the inside of the cigarette lighter socket is dirty with ash or dust, the plug section may become hot due to poor contact. Be sure to clean the cigarette lighter socket before use.
- After use, disconnect the 12V car power adapter from both the unit and the cigarette lighter socket.

If you require any technical guidance or find that your product is not operating as intended, a simple solution can often be found in the **Troubleshooting**

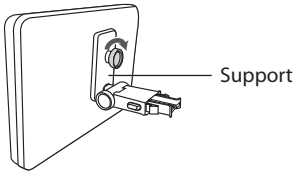

Using your In-Car DVD player

Let's get started

Mounting the DVD in a Car

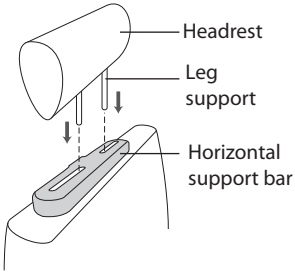

Use the supplied mounting kit to install the DVD players at the back of the vehicle's headrests.

1. Align the angled support's bolt to the screw hole at the back of the DVD unit. Turn the bolt clockwise and secure the support.

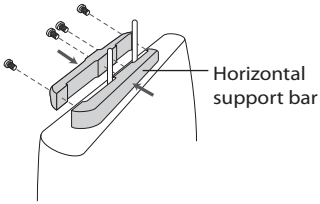

2. For car headrests which can be removed, use the following method:

   Lift the headrest off its leg supports. Align the horizontal support bar with the headrest leg slots and ensure the horizontal support bar rests securely on the top of the car seat. Re-attach the headrest.

3. For car headrests which cannot be removed, use the following method to secure the car mount:

   Unscrew the bolts holding the horizontal support bar together. Slip both halves of the support bar around the headrests' leg supports. Screw in the bolts, loosely. Ensure that the support bar is level. Tighten the bolts.

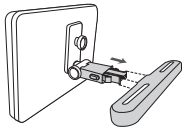

- If the set of 4 x screws (ø4 x 20mm) is not long enough to secure the horizontal support bar to the leg supports, please use the longer set of screws (ø4 x 25mm).

section of these instructions, or online at **www.argos-support.co.uk** If you still require further assistance, call one of our experts on **0345 604 0105**.

Using your In-Car DVD player

Let's get started

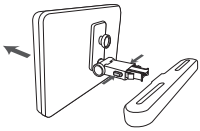

4. Grip the DVD firmly with both hands and slot the angled support firmly into the support bar. It will click. Ensure the entire unit is secure.

5. Adjust the angle of the DVD unit, then secure by tightening the bolt to the right.

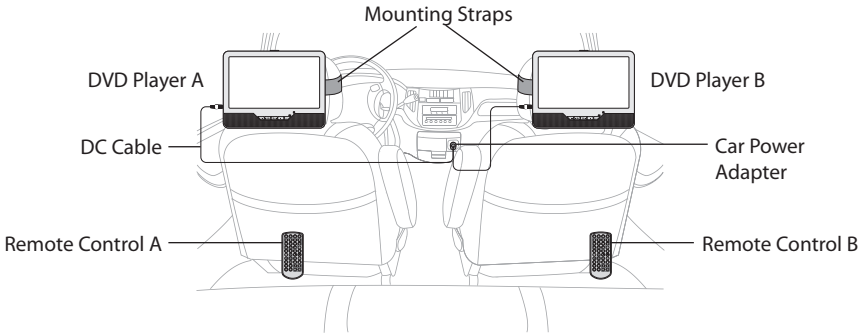

6. To remove the DVD from the horizontal support bar, support the DVD unit with one hand. Firmly squeeze and pull the release buttons on either side of the angled support with the other hand.

- This unit should never be used by the vehicle's driver or left unsecured in the vehicle while driving.
- If this unit is being used in your vehicle, be sure that it is securely fixed to the headrests' leg supports or held safely, and does not obstruct any safety device, including air bags or seat belts, or it may cause injury in case of accidents. Ensure all rear passengers are correctly restrained when this product is in use in the car.
- All passengers should always wear seat belts when using this unit in a moving vehicle.
- If in doubt, please contact your vehicle manufacturer for further advice.

Installation Guide

If you require any technical guidance or find that your product is not operating as intended, a simple solution can often be found in the **Troubleshooting**

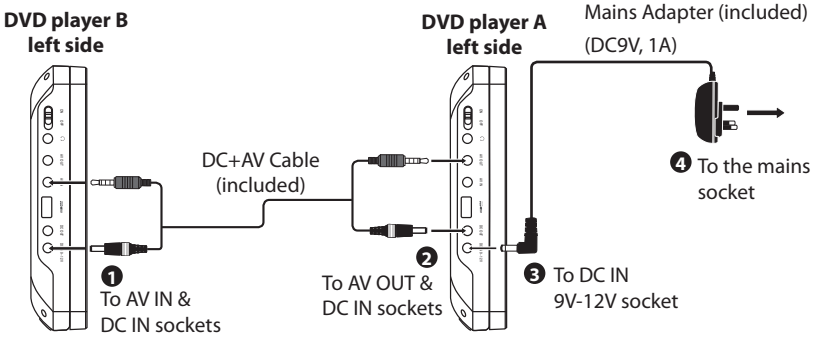

Using your In-Car DVD player

Let's get started

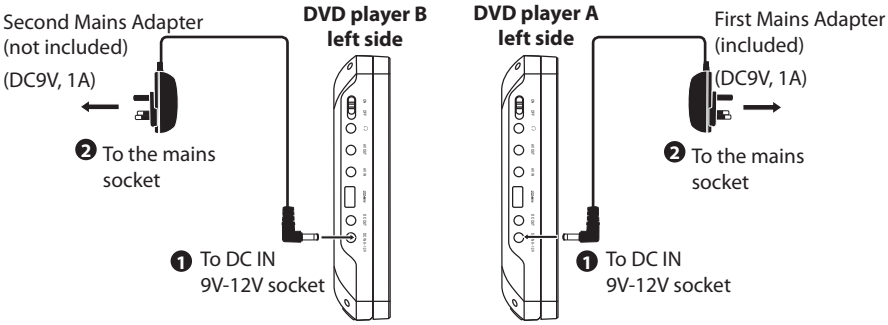

Using the Mains Adapter (for indoor use)

The mains adapter (DC9V, 2.0A output) supplied is for using the DVD player A and B.

For using the DVD Player A and B separately, one more adapter is needed and is sold separately.

Using the DVD Player A and B with Separate Mains Adapter

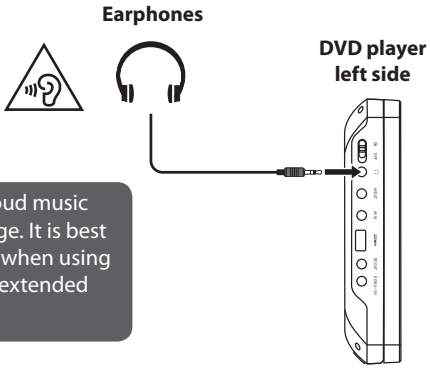

section of these instructions, or online at **www.argos-support.co.uk** If you still require further assistance, call one of our experts on **0345 604 0105**.

Using your In-Car DVD player

Let's get started

Using Earphones

Turn down the volume before connecting the headphones/earphones. Slowly raise the volume with the headphones/earphones on until you reach your desired volume. When headphones/ earphones are connected, the speaker is automatically disabled.

Long-term exposure to loud music may cause hearing damage. It is best to avoid extreme volume when using earphones, especially for extended periods of time.

Charging the battery

1. Connect with mains adapter or car power adapter.
2. The charging indicator lights up red indicating that the battery is in charging mode. When the battery is charged to full capacity, the LED indicator goes green.
3. Remove the adapter. The battery is now fully charged and the unit is ready to use.

* Battery Operation time from fully charged battery = Approx. 2.5 hours

- The battery is partially charged at shipment. We suggest that for first time use fully charge the battery. It may take up to 4 hours to fully charge the battery.
- Every time you see the low battery indication on the screen and when the LED indicator flashes in green and red alternatively, you must connect your mains adapter to the unit and the mains socket. The battery will now start to recharge.
- The battery will charge slower when the DVD player is in use.
- It is recommended to turn off the power while the battery is charging.

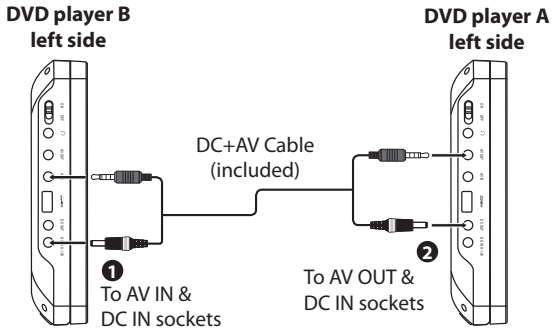

If you require any technical guidance or find that your product is not operating as intended, a simple solution can often be found in the **Troubleshooting**

Using your In-Car DVD player

Let's get started

Watching a DVD on DVD Player A and B

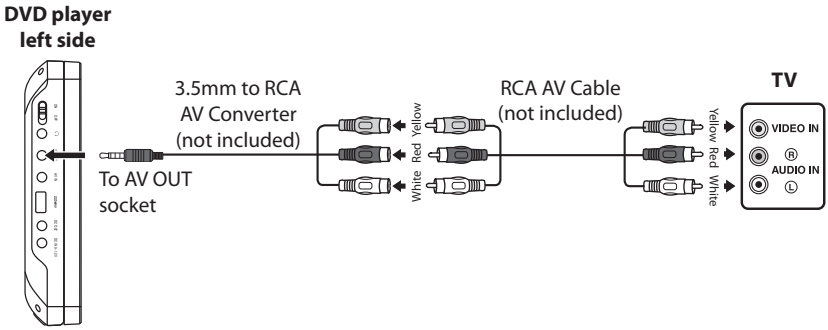

You can watch the same DVD on DVD player A and B at the same time.

1. Connect DVD player A and B by using the included DC+AV Cable. Plug the AV Cable into AV OUT socket on the DVD player in which the DVD is inserted; plug the other end of the AV Cable into AV IN socket of the other DVD player.
2. Turn on DVD player A and B.
3. Operate the controls of the DVD player in which the DVD is inserted.

Connecting to a TV

If your TV has Audio/Video inputs, you can connect the DVD player to your TV using a standard AV cable (included).

section of these instructions, or online at **www.argos-support.co.uk** If you still require further assistance, call one of our experts on **0345 604 0105**.

Using your In-Car DVD player

Let's get started

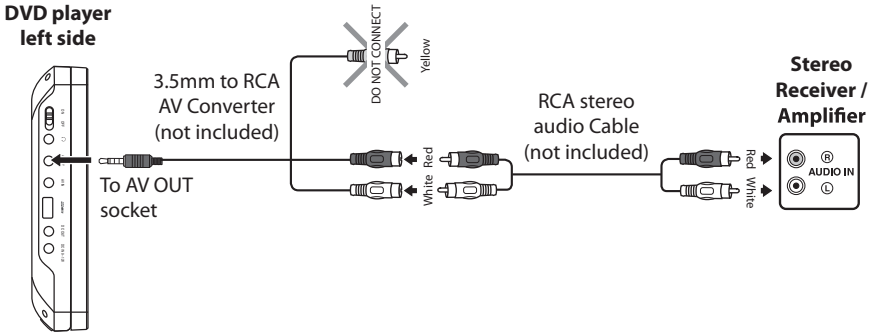

Watching a DVD on your TV

1. Connect your TV to the DVD player by using a 3.5mm to RCA AV Converter and a standard AV Cable (not included).
2. Turn on the DVD player.
3. Turn on the TV and follow the instructions included with it to play the DVD.

- Make sure the correct Audio/Video cable is used. Connecting the plugs incorrectly may cause a weak signal.
- If your TV does not have Audio/Video inputs, you will need to purchase an RF modulator (sold separately) and follow the instructions included with it to connect the unit to your TV.

Connecting to a Stereo Receiver or Amplifier

The DVD player can play two channels Dolby Digital.

Listening on an External Audio Device

1. Connect the DVD player to the left/right Audio IN sockets on the audio device by using a 3.5mm to RCA AV Converter and a standard RCA Stereo Audio Cable (not included).
2. Turn on your audio device and follow the instructions provided with it to select the AUDIO IN function.

- Make sure the correct Audio cable is used. Connecting the plugs incorrectly may cause a weak signal.
- If you have a stereo VCR, make sure you set it to stereo mode.
- Due to copyright protection, DVD movies cannot be copied. If you copy a DVD movie onto a videotape, the resulting copy will be unclear, with poor sound quality. This is NOT caused by a defective DVD system.

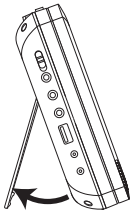

If you require any technical guidance or find that your product is not operating as intended, a simple solution can often be found in the **Troubleshooting**

Using your In-Car DVD player

Let's get started

Using The Stand For Indoor Use

You can stand the DVD player on a desk or table using the stand.

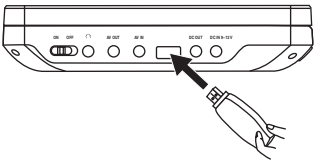

DVD player left side

Using a USB Device or/and SD/MS/MMC Card

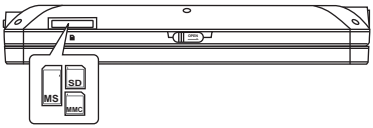

You can play or view picture files (JPEG) or music files (MP3) from a USB device or SD/MS/MMC card.

1. Connect the USB device or SD/MS/MMC card directly to the USB slot or SD/MS/MMC slot on the DVD player.
2. Press the **SOURCE** button to access the data in the drive.

DVD player left side view

DVD player Top view

3. Use the ▲▼ buttons to select "Media".
4. Press the ▶ button on the remote control, and then press the ▲▼ buttons to highlight "USB", "SD", "MS" or "MMC" depending on the type of device you have connected and then press the **ENTER** button on the remote control to start playback.
5. To remove the USB device or SD/MS/MMC card, press the ■ button to stop playback and then press the **SOURCE** button followed by the **ENTER** button on the remote control to exit the USB, SD/MS/MMC card menu. The DVD player will return to disc mode.

section of these instructions, or online at **www.argos-support.co.uk** If you still require further assistance, call one of our experts on **0345 604 0105**.
