1 Safety information

Safety information

Important - Please read these instructions fully before installing or operating

Power source

- This symbol means that this unit is double insulated. An earth connection is not required.
- The appliance must be connected to a 100-240 volt 50/60Hz AC supply by means of a three pin socket.
- Unplug this apparatus during lightning storms or when unused for long periods of time - to prevent damage to this product.

- Opening or removing covers may expose you to dangerous voltages or other hazards.

- To prevent risk of fire or electric shock, avoid overloading wall outlets, extension cords, or integral convenience receptacles.
- Use suitable power sources - Plug the product into a suitable power source, as described in the operating instructions or as marked on the product.
- The supply voltage should be the same as that indicated in the technical specifications and the appliance rating plate.
- If the socket outlets in your home are not suitable for the plug supplied with this unit check with a qualified electrician for replacement.
- In order to disconnect the apparatus from the mains completely, switch off the outlet and remove the mains plug completely.

- Do not bend, stretch or pull the supply cable in order to avoid electric shock.
- When installed, the power socket must be within easy reach.
- Do not install the unit in a confined space. Allow adequate ventilation to prevent heat build-up.
- For indoor use only.

Heat build up

- During use the unit will heat up, this is not a malfunction. If the unit is used continuously at high volume levels, the unit temperature will rise considerably. Do not touch the unit to avoid potential burns.
- Do not block or cover slots, holes or openings on the product as these are provided for functionality and/or ventilation to ensure safe operation of the product.

Colour irregularity on TV screen

Colour irregularities may be seen on certain types of TV.

- If such an irregularity is seen turn off the TV, then turn on again after 15 to 30 minutes.
- If the colour irregularity is still seen place the soundbar unit further away from the TV.

Moisture and water

- Do not use this apparatus near water or moisture.
- Do not use this product near a bathtub, washbowl, kitchen sink, and laundry tub, in a wet basement, near a swimming pool, or anywhere else that water or moisture is present.

Heat sources and flames

- Batteries shall not be exposed to excessive heat such as sun, fire or the like
- To prevent risk of fire or electric shock, avoid overloading wall outlets, extension cords, or integral convenience receptacles.
- Do not leave this product in high temperatures as electronic devices and plastic parts may warp in heat.
- Keep product away from bright sunlight or heat sources such as radiators.
- Do not place items with naked flames on or near this product

Servicing and repairs

- Refer all servicing to qualified service personnel
- Servicing is required when the apparatus has been damaged in any way: such as liquid has been spilled or objects have fallen into the apparatus; the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

If you require any technical guidance or find that your product is not operating as intended, a simple solution can often be found in the **Troubleshooting** section of these instructions,

Getting to know your Soundbar

You'll be up and running in no time

If you require any technical guidance or find that your product is not operating as intended, a simple solution can often be found in the **Troubleshooting** section of these instructions,

Getting to know your Soundbar

You'll be up and running in no time

Making the connections

Follow the below connection guide to connect the soundbar to a TV with or without a digital output, a Bluray/DVD player or an audio source such as an MP3 player.

Only one digital connection to a TV is required. Use the optical connection.

DO NOT power on the mains until all other connections are made.

or online at www.bush-support.com If you still require further assistance, call one of our experts on 0345 604 0105.

Getting to know your Home Theatre

You'll be up and running in no time

Connecting the sub woofer

Follow the below instructions to connect the wired subwoofer to the soundbar.

1. Use the RCA audio cable from the subwoofer to connect to the SUB OUT output on the soundbar.
2. When audio is played through any source, the speaker will automatically use the connected subwoofer.

Switching inputs

Follow the below steps to switch inputs between :- Line, Optical, Aux or Bluetooth.

1. Ensure the soundbar is powered ON. If not press the POWER/SOURCE button on the unit or the  button on the remote.
2. Press the POWER/SOURCE button on the unit repeatedly until you reach the required input mode or press mode buttons on remote control.

Soundbar Indicators

STATUS	INDICATOR
Standby	Red Light
Optical Mode	Yellow light
Aux In Mode	White Light
Line In Mode	Green Light
Bluetooth Pairing	Flashing Blue Light
Bluetooth Connected	Blue Light

Installing the remote battery

1. Press and slide the rear cover to open the battery compartment.
2. Insert 2x AAA size batteries (included). Make sure the (+) and (-) ends of the batteries match the (+) and (-) in battery compartment as indicated.
3. Close the battery compartment accordingly.

If you require any technical guidance or find that your product is not operating as intended, a simple solution can often be found in the **Troubleshooting** section of these instructions,

3

Using your Soundbar

Using your Soundbar

Let's get started

USING THE STEREO RCA INPUTS

When connecting two products using an RCA cable, match the coloured ports with the same coloured connection. Before use, disconnect any cable connected to the Line in.

1. Connect the RCA Cable (included) to the AUX IN stereo inputs located on the back of the unit, and to the audio outputs on the television.
2. Press and hold 2 seconds the POWER / SOURCE button on side panel or POWER button directly on the remote control to switch on the unit.
3. Press the AUX button on your remote control to enter AUX mode or one touch the POWER/ SOURCE button on the unit repeatedly to enter AUX mode, The mode indicator LED will turn white.
4. Audio played through the television will now be heard through the soundbar.

Using the Optical Input

You will need: An audio source with an Optical Audio Output and a Digital Optical Audio cable (included)

1. Connect the Digital Optical Audio cable to the optical output on the audio source and to the OPTICAL IN on the soundbar.
2. Press and hold 2 seconds the POWER/SOURCE button on side panel or POWER button directly on the remote control to switch on the unit.
3. Press the OPTICAL button on your remote control to switch to Optical Mode or one touch POWER/ SOURCE button on main unit repeatedly to select the Optical mode. The mode indicator LED will turn yellow.

4. Using the native controls on your connected device, make sure the audio settings are set to PCM or Optical Audio and are turned On.
5. Audio from the connected audio source will now be played through the soundbar.

Using the LINE in

1. Plug one end of a 3.5mm audio input cable (included) into the LINE IN on the unit. Before use, disconnect any cables connected to the Stereo RCA Inputs.
2. Plug the other end of the cable into the audio output/headphone output on an MP3 player or other audio source.
3. Press and hold 2 seconds the POWER/SOURCE button on side panel or POWER button directly on the remote control to switch on the unit.
4. Press the LINE button on your remote control to enter LINE in mode or one touch the POWER/ SOURCE button on the unit repeatedly to enter Line in mode. The mode indicator LED will turn green.
5. Audio played through the connected device will now be heard through the soundbar.

Using your Soundbar

Let's get started

Pairing a bluetooth device

Before you can use the soundbar with your phone or other bluetooth capable device you will need to pair the device to the soundbar.

Pairing a Bluetooth Device for the First Time

1. Press and hold 2 seconds the POWER/SOURCE button on the unit or the POWER button on the remote control to switch on the unit.
2. Press the BLUETOOTH button on the remote control to enter Bluetooth mode or press the POWER/SOURCE button repeatedly to enter Bluetooth mode, The mode indicator LED will turn blue.
3. Press the PAIR button on the remote control or the unit directly. The mode indicator LED will flash quickly. When pairing, remain within 3 feet of the unit.
4. Using the native controls on your Bluetooth device, select device "Bush B-3515A" in your Bluetooth settings to pair.
5. When successfully paired and connected, a beep will issue from the unit and the mode indicator LED will display a solid blue light. After initial pairing, the unit will stay paired unless unpaired manually by the user or until it is erased due to a reset of the device.

If your device should become unpaired or you find it is unable to connect, repeat the above steps.

Controlling a paired device

Once connected you can either use the controls on the audio device to begin playback, skip tracks etc. or you can use the control buttons on the remote.

1. The ►|| button on the remote control or PLAY/PAUSE on unit when pressed will begin playback of the selected track on the audio device. Press again to pause playback.
2. To skip to the next track press the ►► button on the remote.
3. To skip to the previous track press the ◀◀ button on the remote.
4. Any further operations must be done from the audio device.

The volume output is effected by the volume level on the audio source EG: Phone or laptop, so make sure that is set to about 70-80% (not too loud to avoid distortion).

Bluetooth notes

- The operation range of bluetooth is approximately 10 metres (30 feet). Any obstacles in the path between devices may reduce this range.
- Only one Bluetooth device can be paired at a time.
- Not all Bluetooth devices are compatible.

Note: There are 40 volume levels. The LED indicator will flash at each press of VOL+ / VOL- until minimum or maximum volume level has been reached and LED indicator remains illuminated

Other information 4

Helpful technical information

Wall mounting the soundbar

Accessories included

- In order to avoid damage to the unit and personal injury you should get a qualified person to drill the fixing surface and fit the appropriate wall fixings.
- Take care not to allow the main unit to fall while attempting to hook onto the wall mount brackets.
- Before mounting, check the wall strength, if it is not clear then consult relevant qualified personnel.
- When drilling into walls, always check that there are no hidden wires or pipes etc.
- Make sure the screws & wall plugs are suitable for supporting the unit.

If you require any technical guidance or find that your product is not operating as intended, a simple solution can often be found in the **Troubleshooting** section of these instructions,

Care & maintenance

After using the soundbar

Set to Standby.

Switch the unit off at the mains and unplug it if you are leaving it unattended for a long period (holidays etc).

Avoid leaving the battery fitted in the remote control if you leave the unit unattended for long periods. It may leak and damage the remote control.

Care & cleaning

All care and cleaning operations should be carried out with the unit unplugged from the mains power.

Occasionally wipe the cabinet with a lint free duster. Never clean the unit with liquids or solvents.

Troubleshooting

No power.

- Ensure the mains plug is connected to a power supply, and is switched ON.
- Make sure there is power to the mains socket.

No sound?

- Make sure if playing from the AUX input, the external source has the volume turned up and is outputting sound.
- Make sure the volume is turned up.
- If using the digital optical ensure the source DIGITAL output is set to PCM, LPCM, PCM 2Ch stereo or PCM downmix.
- Bluetooth device not paired. Check 'Pairing a bluetooth device'.

No response from the soundbar.

- Unplug the power cable for 1 minute then plug back in again.

Remote control does not work.

- Reduce the distance between the remote and main unit
- Check the batteries are installed correctly.
- Replace the batteries
- Aim the remote directly at the soundbar

Unit powers off after 15 minutes.

- This unit is designed to enter STANDBY mode automatically after 15 MINUTES of inactivity. Press the Power button on remote control or POWER/SOURCE button on soundbar to wake the unit.
