FOR HOUSEHOLD AND INDOOR USE ONLY

IMPORTANT SAFETY INFORMATION

Please read the instructions fully before using the appliance
Do not use this appliance for any purpose other than its intended use.
Use only the voltage specified on the rating plate of the appliance.

WARNING:

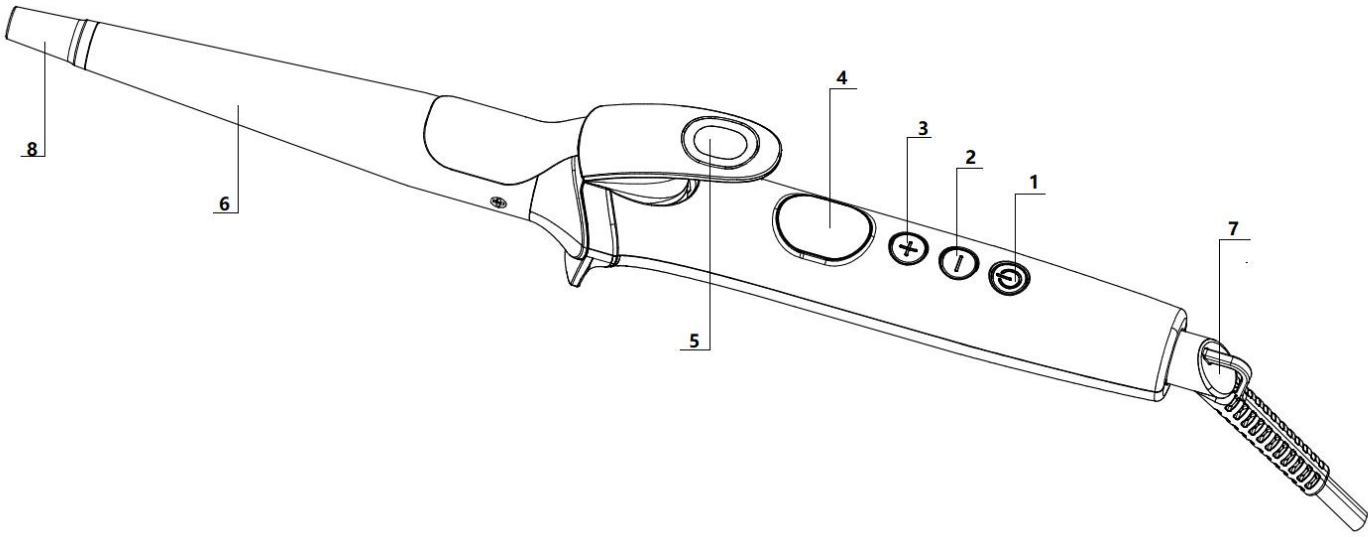

- **This appliance can be used by children aged 8 years and above and persons with reduced physical, sensory, or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.**
- **Children should be supervised to ensure they do not play with the appliance**.
- For additional protection the installation of a residual current device (RCD) with a rated residual operating current not exceeding 30mA is advisable in the electrical circuit supplying the bathroom. Ask an electrician for advice.
- ALWAYS unplug this appliance immediately after use.
- DO NOT USE THIS APPLIANCE NEAR BATH TUBS, SHOWERS, BASINS OR OTHER VESSELS CONTAINING WATER.
- Always ensure your hands are dry before using the appliance, touching the plug or the socket.
- Do not use while bathing.

<u>WARNINIG: THIS APPLIANCE BECOMES VERY HOT DURING USE</u>

- To prevent burns or injury, do not allow the face, neck, or scalp to come into contact with the unit's hot surfaces while using the appliance.
- Never leave the appliance unattended while it is switched on or cooling down.
- Always place the unit on a flat, stable, and heat-resistant surface when not in use. Do not place the appliance on any soft furnishings.
- DO NOT use the appliance on artificial hair, wigs or pet hair.
- DO NOT leave the curler on your hair for longer than the recommended time, as this can lead to heat damage or burning.
- Keep the appliance and cable away from heat, sharp objects or anything that may cause damage. Do not pull, twist, or kink the cord.
- ALWAYS check the appliance before each use for signs of wear or damage. If damaged, discontinue from use immediately and do not use until the appliance has been inspected and approved for use by a qualified service person.
- The product is not to be used if it has been dropped or there are visible signs of damage.

- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent, or a similarly qualified persons in order to avoid hazard.
- Never attempt repairs yourself. Repairs to electrical appliances should only be performed by a qualified electrician. Improper repairs may place the user at serious risk and will invalidate the guarantee, take the appliance to a qualified repair agent.
- This appliance must be positioned so that the plug is accessible, and the plug socket is within easy reach of the power cord.

8. Cool tip

How to use your hair curling wand

- Always ensure your hair is completely dry before using the hair curler to prevent heat damage and ensure effective styling. Do not use any hair treatment product before styling other than heat protection products.
- Always ensure that your hands are dry before plugging the hair curler into the mains supply.
- When the hair curler is plugged in, it enters standby mode. The digital display will show 'OFF' to indicate that the device is powered but not yet active.
- Press and hold the switch ON/OFF button (A) for 2 seconds to activate the hair curler.
- Using the temperature (+) and (-) buttons select the temperature between 120 and 200℃.
- The temperature display will flash until the set temperature is reached.

IMPORTANT: This model includes a temperature lock function that automatically activates 5 seconds after a temperature is selected. When active, a padlock icon will appear next to the temperature display. To deactivate the temperature lock, press the (–) button twice

- Press the small lever to open the clamp
- Place a section of hair between the barrel and the clamp, starting near the ends (but not too close to avoid heat damage).
- Release the lever gently to close the clamp and hold the hair in place.
- Rotate the wand to wrap the hair around the barrel. Hold for 5-8 seconds depending on the texture and length of the hair.
- Press the lever again to open the clamp and gently slide the wand out of the curled hair.
- Press and hold the ON/OFF button for 2 seconds to turn the product off. The digital display will show 'OFF' to indicate the standby mode. Disconnect the appliance from the mains supply.

NOTE: The hair curler will automatically switch off after 30 minutes of inactivity for safety and energy efficiency.

WARNING: The temperature of the curling wand reaches 200℃ at the highest setting. Avoid any contact with the skin once the device is turned on. To ensure the correct temperature for your hair type, always perform a test curl before use.

NOTE: In the event of a system malfunction or abnormal operation, the digital display will show '888' as an error prompt. Switch off the appliance and contact customer service. Do not attempt to repair the appliance yourself.

Care and Maintenance

- Always ensure the hair curling wand is switched off, unplugged from the mains supply, and completely cooled before cleaning
- Gently wipe the barrel with a soft, damp cloth, followed by a dry cloth. Avoid using abrasive materials, as they may scratch the surface.
- Clean the outer casing with a dry or slightly damp cloth. Take care not to let any liquid enter the device.

Storage

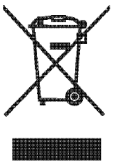

- Always unplug the appliance immediately after use and allow it to cool before storing
- Store the hair curling wand in a safe, dry location, away from direct sunlight and out of reach of children
- Do not wrap the power cord around the appliance.
