**Blink Indoor Wireless HD Security Camera**

## SPECIFICATION

- **BRAND** Blink
- **FIELD OF VIEW** 110° diagonal
- **CAMERA FRAME RATE** Up to 30 fps
- **SIZE** 71 x 71 x 31 mm
- **WEIGHT** 48 grams
- **CONNECTION** Power adapter
- **COLOR** White
- **BLINK APP** Blink Home Monitor
- **SMARTPHONE REQUIREMENTS** iOS 12.5, Android 6.0, and Fire OS 7
- **GENERATION** 2nd Gen
- **OPERATING TEMPERATURE** 32 to 95° F
- **PLACEMENT** Indoor Only
- **VIDEO RESOLUTION** Up to 1080p
- **POWER SOURCE** Plug-In

## WHAT'S IN THE BOX

- Blink Indoor Camera
- Sync Module 2
- 5V Non-Rechargeable AA Lithium Metal Batteries
- Mounting Kit
- USB Cable
- Power Adapter

## **JUST BLINK AND YOU'RE HOME WITH THE NEW INDOOR**

With stress-free setup, customizable motion detection, and two-year battery life, you can stay connected to what's happening inside your home.

### **POWERFUL TWO-YEAR BATTERY LIFE**

With Blink's proprietary chip technology, Indoor runs on two AA lithium batteries for up to two years so you can monitor your home with ease.

### **SEE, HEAR, AND SPEAK TO PEOPLE AND PETS**

From loved ones to furry ones, Blink Indoor lets you see what's happening using HD live view and infrared night vision right in the app. Use two-way audio to hear and speak from anywhere.

### **SEE WHAT MATTERS IN YOUR HOME**

Create customized motion detection and privacy zones so you only see the movement you care about.

### **SET UP WITH EASE**

No more searching for outlets and no professional installation required – everything you need to get started is in the box. Plus, its wire-free design means you can place, stand, or mount it anywhere.

### **WORKS WITH ALEXA**

Go hands-free with Alexa. Stream live video, arm and disarm your camera, and more.

### **CLOUD STORAGE: BLINK SUBSCRIPTION PLAN**

Record, view, and save events in your Blink app with a free 30-day trial of the Blink Subscription Plan. Then, subscribe for just \$3 per month per camera, or \$10 per month for unlimited cameras at a single location.

### **LOCAL STORAGE: BLINK SYNC MODULE 2**

Save motion clips and photos from up to 10 Blink cameras connected to the Blink Sync Module 2 locally in your home and view them through the Blink app or the computer by plugging in a USB flash drive (sold separately) for no additional fee.

**Note:** Features like Live View and Motion Alerts are automatically available with Blink Indoor at no additional cost.

### **SIMPLE TO SET UP AND USE**

1. Create An Account On The Blink App
2. Plug In The Sync Module And Connect To Wifi
3. Insert The Included Batteries And Add Your Camera To The App

## FEATURES

- Blink Indoor is a wireless, battery-powered security camera that helps you check in on your home day or night with infrared night vision.
- With long-lasting battery life, Indoor runs for up to two years on two AA lithium batteries (included).
- Store video clips and photos in the cloud with the Blink Subscription Plan and save events locally to the Blink Sync Module 2 via a USB flash drive (sold separately).
- Get customizable motion alerts on your phone through the Blink Home Monitor app so you're only alerted when you need to be.
- Includes one Blink Indoor camera and one Sync Module 2.

## FAQs

### Do Blink indoor cameras record all the time?

The majority of home security cameras are motion-activated, which means that when they notice motion, they will start recording and inform you. Some people have the ability to continuously record video (CVR). An fantastic tool for ensuring home security and the peace of mind that comes with it is a security camera.

### How often do you have to change batteries in Blink wireless cameras?

At most, wireless security camera batteries have a lifespan of one to three years. They are far simpler to replace than a watch battery.

### How far away can a Blink wireless security camera work?

As long as the signal from the cameras to the central hub is unbroken and clear, wireless security camera systems function effectively. Wireless systems typically have a range of no more than 150 feet inside the home.

### Can Blink indoor cameras work without WiFi?

You can watch over your house without connecting your security camera to WiFi. There are many businesses producing non-WiFi security cameras right now. When looking for the best WiFi-free security camera for you, consider the following.

### Can Blink wireless cameras work without electricity?

When the power goes off, security cameras typically stop recording, sensing motion, or delivering push

notifications. An exception, though, is a security camera that is powered by batteries and can keep recording even when there is no power.

### **Do Blink wireless cameras need charging?**

Wireless cameras don't need an electrical power source because they run on batteries.

### **What internet speed do I need for Blink wireless security cameras?**

The absolute minimum needed to watch a security camera system remotely is an upload speed of 5 Mbps. Remote viewing of the lower quality or substream is adequate but unrefined at 5 Mbps. We advise having an upload speed of at least 10 Mbps for the best remote viewing experience.

### **Do Blink wireless security cameras use a lot of data?**

Typically, the main cause of a WiFi security camera using a lot of bandwidth and data is how frequently recordings are uploaded to the cloud. Depending on the upload frequency, WiFi security cameras might use up to 60GB of data transfer every month.

### **How does an Blink indoor wireless camera work?**

A radio (RF) transmitter is used to transmit the footage from a wireless camera. The video is transmitted to a receiver via cloud storage or a built-in storage device. You'll have a simple link to all of your image or video clips through your monitor or receiver.

### **Do all Blink indoor cameras require a subscription?**

You'll hear this from just about every manufacturer of security cameras: their products don't require a membership to use them. That may be the case, but well-known companies like Ring, Arlo, and Nest make it virtually impossible to avoid paying by placing some functionality and online storage behind a paywall.

### **Are Blink security cameras recording if they have no lights?**

Some individuals are interested to know whether the cameras will function even if there is no electricity, even though the majority of current CCTVs allow for remote viewing even when the network is shut down. The quick response is no.

### **How long do Blink wireless home cameras last?**

Wireless security camera batteries have a lifespan of one to three years. The security camera simply has batteries as a backup in case the electricity to your house fails. Contrarily, you need to change the batteries in wire-free security cameras after around 14 hours of recording.

### **Can all Blink wireless security cameras be hacked?**

Home security cameras are no exception to the rule that any internet-connected gadget is vulnerable to hacking. Wi-Fi cameras are more prone to attack than wired ones, while cameras with local storage are less prone to attack than those that store their video on a cloud server. But any camera can be compromised.

### **How long does a charge last on a Blink wireless security camera?**

For instance, wireless security cameras in high-traffic locations can need recharging on a bi- or tri-monthly basis. Low-capacity batteries in camera systems may only last a few weeks, necessitating more frequent recharging.

### **Do Blink indoor cameras record all the time?**

The majority of home security cameras are motion-activated, which means that when they notice motion, they will start recording and inform you. Some people have the ability to continuously record video (CVR). An fantastic tool for ensuring home security and the peace of mind that comes with it is a security camera.
