## Earphone connection

Instructions for earphone usage.

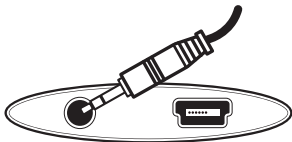

**1:** Connect the **3.5**mm earphone plug into the **EARPHONE** socket **(2)** on the unit.
**2:** When the volume is adjusted above 85dB an audible warning sound will be heard to warn you of excessive sound pressure. This will not be heard again until you lower the volume below 85dB and raise once more.

To prevent possible hearing damage, do not listen at high volume levels for long periods.

If you hear no sound during playback, do not turn the volume up as the music may suddenly begin at a high volume.

Excessive sound pressure from earphones and headphones can cause hearing loss.

To avoid damaging your ears, adjust the volume to the lowest safe level before playing, and turn up to the desired level when playback has started.
