Issue 1 - 16/04/25

Safety

Important - Please read these instructions fully before starting assembly

• Warning: This unit weighs approximately 15kgs.
Please lift with care.

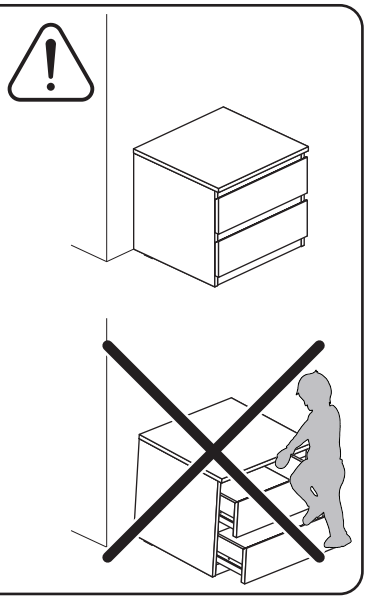

• During assembly children should be kept away from the product due to possible risk of injury.

• Installation shall only be carried out exactly according to the manufacturer's instructions - otherwise a safety risk can occur if incorrectly installed.

• Do not use this item if any components are missing or damaged.

• WARNING: To prevent possible overbalancing this unit must be secured to a wall (fittings not supplied).

• A unit that is allowed to topple can cause serious or fatal injury. In addition to wall fixing the unit, place heavy items in the lower drawer, do not put any heavy objects on top of the unit and never allow children to climb or hang on drawers, doors or shelves.

Care Advice

• Check you have all the components and tools listed on relevant pages.

• Remove all fittings from the specified plastic bag and separate them into their groups.

• Parts of the assembly will be easier with 2 people.

• Make sure you have enough space to layout the parts before starting.

• Do not stand or put weight on the product, this could cause damage.

• Assemble the item as close to its final position (in the same room) as possible.

• Assemble on a soft level surface to avoid damaging the unit or your floor (use opened out unit carton).

• Only clean with a damp cloth.

• Assembly videos are available throughout these instructions by scanning in the QR codes.

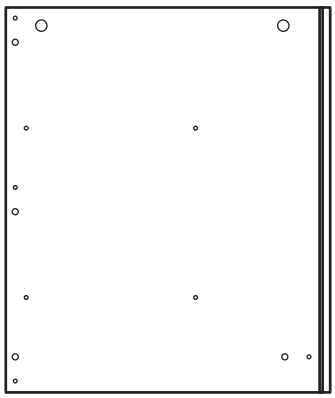

• We do not recommend the use of power drill/drivers for inserting screws, as this could damage the unit. Only use hand screwdrivers.

• Please explore a sustainable (re-selling/donation to charity) or a responsible (local tip) way of disposal at the end of use of this product.

Important: Make sure that the drawer assembly is square before fitting the wedgefixes.

27

Fitting Ball Bearing Runners
www.youtube.com/watch?v=yG4xtiJJeSg

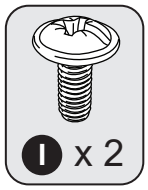

Warning: Use a screwdriver to position the runners as they could have sharp edges

Fit the bottom Drawer by sliding both its runners forward and locate the drawer sides between them, lining up the holes in the drawer sides with the 2nd 'threaded' holes in the runners.

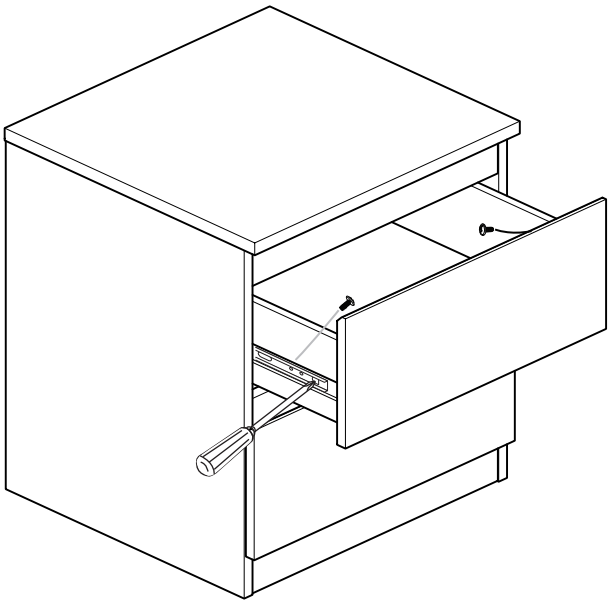

Working from the inside of the Drawer, insert 2 screws through the drawer sides and out into the 2nd threaded hole in the runner.

Note: Do not overtighten the screws.
If they catch on the runner you may need to loosen them slightly.

28

Fit the top Drawer, as above.

Assembly is complete

Please remove any blue protective film from panel edges and clear protective film from panel surfaces
