CONTROLLER

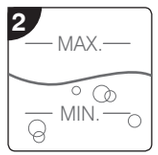

SET UP

Place on a steady surface before use.

Make sure the unit is switched OFF.

Fill the water reservoir with warm water using a jug.

Ensure the water level is between the maximum and minimum water level marks indicated on the inner wall.

Plug into the mains and sit comfortably. Place your feet in the water.

Turn the unit ON.

TREATMENTS

Vibration bubble massage with hydrotherapy jets

Soothes muscles, tendons and ligaments.

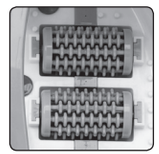

Water heater and infrared LEDs

Maintains the water temperature for a truly relaxing treatment.

Vibration bubble massage with water heater & infrared LEDs.

The ultimate relaxation treatment. Maintains temperature throughout the entire treatment so water doesn't cool down whilst the vibration bubble massage helps to further soothe and restore tired, aching feet.

Reflexology foot massage - manual rollers

Target specific reflex points in your feet - this can help increase energy levels and reduce fatigue.

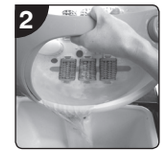

Aromatherapy diffuser

Before filling with water, remove the aromatherapy diffuser lid, pour in a few drops of your chosen oil(s) onto a small piece of sponge and place into the diffuser compartment, or place a crushed herbal bath bomb, fresh crushed herbs or rose petals directly into the diffuser compartment. Replace lid and then fill with the water.

AFTER USE

Turn the unit OFF and unplug from the mains.

Ensure the unit has completely cooled down. Carefully tilt over a sink or bath and pour the water out from the **side** of the unit.
Important: Never pour water over the control switch.

CARE AND MAINTENANCE

- Do not use harsh or abrasive cleaners.
- After use, rinse out water and wipe with a clean, damp cloth, then dry.
- Remove the aromatherapy diffuser from the unit and clean with warm soapy water.
- Never immerse the entire unit in water.

STORAGE

- Ensure the unit is unplugged and cooled down.
- Store in a cool, dry place.
