CARING FOR YOUR SUITE

Great care has been taken to ensure that your suite complies with all funiture regulations so that it will give you years of satisfaction. Outlined below are general care instructions that will prolong it's look and life by preventing wear and damage.

PLEASE NOTE THAT THE MANUFACTURER IS NOT LIABLE FOR ANY DEFECTS CAUSED BY MISUSE. NON COMPLIANCE WITH THESE INSTRUCTIONS OR SPECIALIST TREATMENTS APPLIED BY THE RETAILER.

PILE FABRICS - VELVET, CHENILLE ETC:
These are beautiful fabrics that wit generally perform well. But it should be born in mind that ALL pile fabrics are subject to creasing, crushing and shading. This is not regarded as a complaint but a characteristic of the cloth.

CUSHION CARE:

- Rotate cushion positions daily to even out wear and to maintain shape.
- Sitting on the edge of the cushions or arm pads will accelerate wear and cause permanent distortion.
- Foam cushions will soften gradually during initial use
- Rotate and plump fibre and feather cushions daily. Fibre fillings and to a lesser extent feather cushions can lose their ability to regain their original shape if not plumped by shaking and squeezing vigorously, if possible with their zips open, to redistribute fibres after use. Claims for flattened cushions cannot be accepted where they have obviously not been maintained in accordance with these instrucions.

WHAT NOT TO DO:

- Never rub or scrub with a wet cloth to remove spills or stains as this will damage fabric and remove colour.
- Do not use washing up liquid, detergents, or bleach to remove stains.
- Liquid spills blot or soak up immediately using a soft colourfast absorbent cloth using a dabbing action.
- Solid spills (Butter, Food & Mud) - Remove excess with a blunt Knife before dabbing to clean stains.
- Water Based stains:- Use a specialist upholstery shampoo. Use mixture sparingly. Dab gently from outer edge inwards. Sab out shampoo afterwards using warm water.
- **DO NOT SOAK**
- Pen, Ink, Fruit or Blood Use specialist cleaner.
- Oil Based stains (Butter, Margarine & Cleaner etc) Use a specialist cleaner or dry clean suite.

CLEANING:
We recommend regular Dry Cleaning or Professional Cleaning only, for this product, to prevent excessive build up of dirt and soiling.

GENERAL CARE:
Dirt and dust will rapidly increase fabric wear and can also cause both the dulling and fading of colours. It is imperative that a programme of regular cleaning is undertaken at least weekly.

- Remove dust by pre brushing with a soft brush
- Vacuum all areas paying special attention to arm fronts and arms

Sunlight and Heat

- Direct sunlight or heat can cause fabrics to deteriorate or fade. Place your furniture out of the way of prolonged direct light.
- Avoid placing furniture too close to fires or radiators.
- Reduce exposure by moving items around or changing position so that the same piece of area is not always exposed.

Prevent Abuse and Excessive Force

- Restrain children from climbing or jumping on suite, especially in shoes.
- Do not allow domestic pets to climb on the furniture or chew or claw at it
- Do not misuse your suite by applying excessive weight by sitting on arms or edges of cushions as these will cause permanent disfigure upholstery.

Beware of Sharp or Hot Objects

- Sharp objects such as buckles, toys and jewellery can easily snag on the fabric and produce tears and pulls in the fabric.
- Hot objects such as the heat from cups and mugs can permanently disfigure upholstery.

Cigarettes

- Take care with cigarettes and avoid leaving any ashtrays with lighted cigarettes unattended on any piece of upholstered furniture, as these actions can constitute a serious fire hazard.

Loose Threads

- Threads should be cut off and not pulled.

CARELESSNESS CAUSES FIRE

To comply with the requirements of the Furniture and Furnishings (FIRE) (SAFETY) REGULATIONS:

This article does not require a schedule 3 intertiner. All foams, fillings and composites have been tested to ensure compliance with the relevant Ignitability test. All covers and fillings have been tested to ensure that they are cigarette resistant. All covers have been tested to ensure they are match resistant.
