Bush MyTablet2

USB cable

Charger

Getting Started

Charging

1. Connect the supplied power cable to the Bush device and to a wall outlet.

The Bush device will start charging.

The charging indicator light is red while the battery is charging.

It will turn green when the battery is fully charged.

2. Press the ON/OFF button to turn on the device.

- You can use your Bush whilst it charges.

- Let your device charge completely the first time you use it.

- Use only the supplied charger.

Connecting to a WiFi Network

CAUTION: Make sure that you are in a WiFi zone.

① Touch and hold the time & battery icons to reveal the status bar. A blue line is displayed.
② Pull the blue line down to display the status dashboard.

WI-FI OFF   EMERGENCY CALLS ONLY   AUTO ROTATE
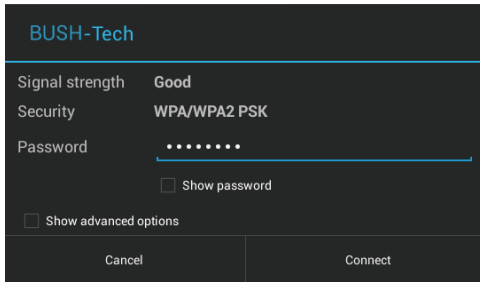

③ Touch "WiFi off" in the status dashboard. The WiFi page will be displayed.

Wi-Fi   ON

④ Slide the WiFi switch to "ON" positon.

Wi-Fi

Bush-Tech
Secured with WPA/WPA2

Bush-Office
Secured with WPA/WPA2

⑤ The Bush device will scan for Wifi networks in range. Touch the name of network you want to connect to.

BUSH-Tech

Signal strength	**Good**
Security	**WPA/WPA2 PSK**
Password	••••••••

☐ Show password

☐ Show advanced options

Cancel | Connect

Private networks are shown with a lock icon and will require you to enter your password.

TIPS:
- When entering a WiFi password, we recommend that you select "Show password" so you can see the characters you are typing. To get the correct WiFi password (or settings) for the network, contact the WiFi network provider. If your WiFi is on and you are in range of a network that you previously connected to, your Bush device will automatically attempt to connect to it.
- To keep your WiFi connection ON when the device is on sleep, select the Menu icon in the "WiFi" page. Then, select Advanced > Keep WiFi on during sleep > Always.

The Android™ Interface

①　**Android™ apps shortcuts**

> Touch to start an application.

②　**Permanent Android™ apps shortcuts**

> Touch to start an application

③　**Back button**

④　**Home button**

⑤　**Recent apps buttons**

⑥　**All Apps button**

> Touch this icon to show all the applications and widgets installed on your Bush device.
All your downloaded applications are here.

⑦　**Google™ Search**

>Touch "Google" for text search or touch the microphone icon for voice search.

> Displays notifications and quick settings

The Android™ Interface
| 3:18 | **The Quick settings** |

1. Current user[1]
2. To adjust the screen brightness.
3. To access all your settings.
4. To turn on/off your WiFi connection.
5. To activate/deactivate automatic screen orientation as you turn your tablet.
6. Percentage of battery remaining
7. To activate/deactivate all wireless connections, especially when flying.
8. To turn on/off your Bluetooth connection.
9. To enable wireless display[2]

[1]New multi-user support for tablets lets different users have their own separate, customizable spaces on a single device. Add users in Settings > Device.
[2]You can share movies, YouTube videos, and anything that's on your screen on an HDTV. You need to connect a wireless display adapter to any HDMI-enabled TV to mirror what's on your screen quickly and easily.
▭ The Recent Apps

Opens a list of thumbnail images of apps you've worked with recently:
Touch: to open an app.

Hold down: to display options

Swipe up or down: to close an app.

Getting familiar with Android™

The extended home screen:
Navigate between different home screen panels by swiping left and right.

Moving a home screen item:
Touch and hold your finger onto it until the positioning gridlines appear, then slide it to the desired location, and release your finger.

Removing a home screen item:
Touch and hold it, slide your finger towards the top of the screen and drop it over the "Remove" icon.

Uninstalling an item:
From the "All apps" screens, touch and hold it, slide your finger towards the top of the screen and drop it over "Uninstall" bin.

Creating application folders:
Drop one app icon over another on a home screen and the two icons will be combined.

Widgets:
Touch the "All Apps" icon on your home screen. Touch "Widgets" at the top of the screen. From the main Widget screen, you can move around widgets just as you do for app icons.

Changing your wallpaper:
Hold your finger on a home screen at an empty location, then choose from the list.

Locking the touchscreen:
From the quick settings dashboard in the status bar, touch "Settings". In "Settings", scroll down and touch "Security". Touch "Screen lock". Touch the type of lock you would like to use. After you set a lock, a lock screen is displayed whenever your screen wakes up, requesting the pattern, pin or other specified key.

Troubleshooting

If your device is frozen:
Press the ON/OFF button for 10 seconds or use the reset button. To use the reset button, press the "pinhole reset" button by using a sharp object such as a toothpick.

If your device doesn't turn on:
1. Charge your device.
2. Press the ON/OFF button for 10 seconds or use the reset button. To use the reset button, press the "pinhole reset" button by using a sharp object such as a toothpick.

If you want to extend the life of your battery:
Decrease the screen brightness and turn off the wireless connections if not in use.

If your device functioning is too slow:
Close all apps which are not currently used.

If your WiFi reception is too low:
Make sure you are not far from the WiFi hotspot.
Update the firmware of the device.
Reset and redefine your connection parameters.
Contact your WiFi connection provider.

If you want to restore your product (forgotten password? erase all your settings?) :
1. While holding Volume+, connect the supplied power cable to the tablet and to a wall outlet.
2. Once the green robot ANDROID is displayed, release the volume+ button.
3. Press and hold the ON/OFF button and press once the volume+ button.
The Android system recovery is displayed.
4. Use the Volume buttons to scroll and the ON/OFF button to validate.
- Select "Wipe data/factory reset" and validate.
- Select "Yes -- delete all user data" and validate.
- Select "Reboot system now" and validate.

National restrictions

This device is intended for home and office use in all EU countries (and other countries following the EU directive 1999/5/EC) without any limitation except for the countries mentioned below:

Country	Restriction	Reason/remark
Bulgaria	None	General authorization required for outdoor use and public service
France	Outdoor use limited to 10 mW e.i.r.p. within the band 2454-2483.5 MHz	Military Radiolocation use. Refarming of the 2.4 GHz band has been ongoing in recent years to allow current relaxed regulation. Full implementation planned 2012
Italy	None	If used outside of own premises, general authorization is required.
Luxembourg	None	General authorization required for network and service supply (not for spectrum)
Norway	Implemented	This subsection does not apply for the geographical aera within a radius of 20 km from the centre of Ny-Alesund
Russian Federation	None	Only for indoor applications

Note: Frequency 2454-2483.5MHZ are restricted to indoor use in France.
