Issue 2 - 05/08/14

Safety and Care Advice

Important - Please read these instructions fully before starting assembly

• ***Warning:*** This unit weighs approximately 34kgs.
Please lift with care.

• Check you have all the components and tools listed on pages 2 to 5.

• Remove all fittings from the plastic bags and separate them into their groups.

• Keep children and animals away from the work area, small parts could choke if swallowed.

• Parts of the assembly will be easier with 2 people.

• Make sure you have enough space to layout the parts before starting.

• Do not stand or put weight on the product, this could cause damage.

• Assemble the item as close to its final position (in the same room) as possible.

• Assemble on a soft level surface to avoid damaging the unit or your floor (use opened out unit carton).

• We do not recommend the use of power drill/drivers ***for inserting screws***, as this could damage the unit. Only use hand screwdrivers.

• **Safety note:** If there is any chance of this unit being pulled over by children etc. it is recommended that the unit is secured to a wall using suitable fixings (not supplied).

• Dispose of all packaging carefully and responsibly.

Care and maintenance

• Only clean using a damp cloth and mild detergent, do no use bleach or abrasive cleaners.

• From time to time check that there are no loose screws on this unit.

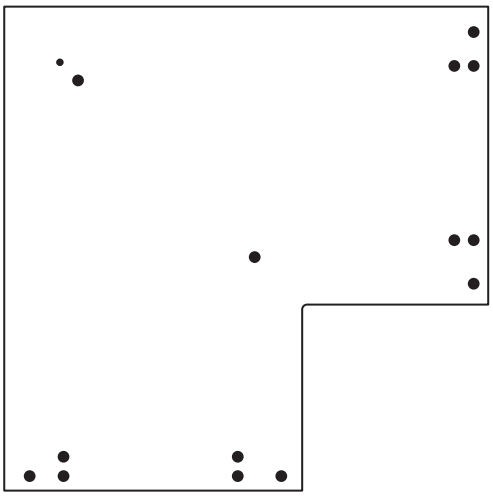

• This product should not be discarded with household waste. Take to your local authority waste disposal centre.

Note: If required the next page can be cut out and used as reference throughout the assembly. Keep this page with these instructions for future reference.

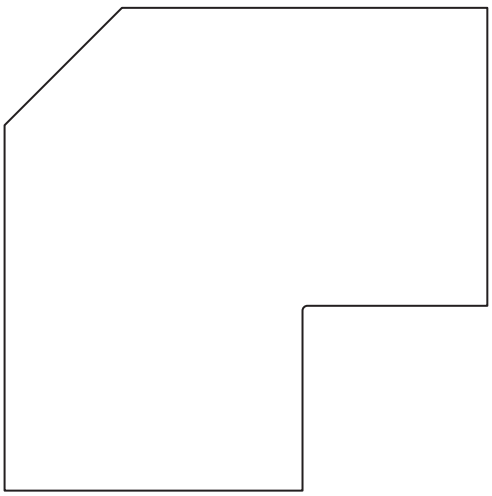

Components - Panels

If you have damaged or missing components, call the **Customer Helpline: 08456 400800** *quoting the reference numbers below*

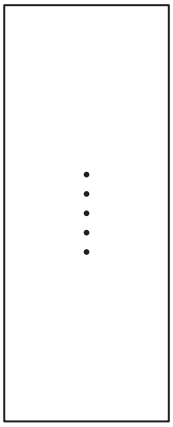

Please check you have all the panels listed below

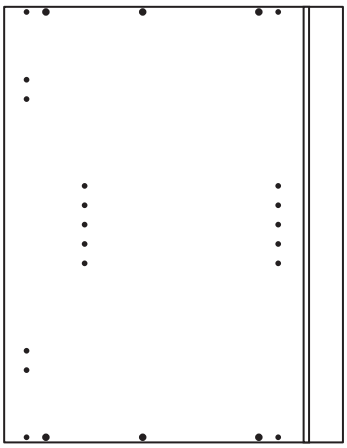

1 Top/Base *(DPF136A)*
(800 x 800mm) x 2

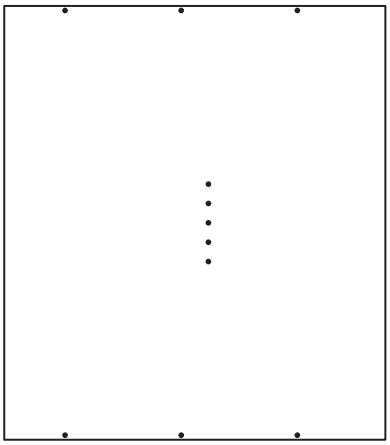

2 Loose Shelf *(DPF137A)*
(798 x 798mm)

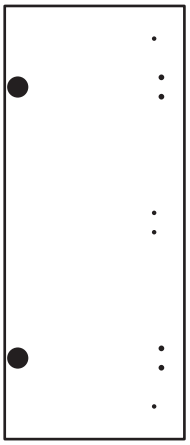

3 Back *(DPF138A)*
(272 x 688mm)

4 Left/Right Side *(DPF177A)*
(720 x 560mm) x 2

5 Left/Right Back *(DPF139A)*
(630 x 717mm) x 2

The front surface of this door is protected with a peel-off film

6 Door *(DPF145B)*
(297 x 716mm) x 2

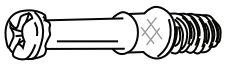

Components - Fittings

If you have damaged or missing components, call the **Customer Helpline: 08456 400800** *quoting the reference numbers below*

Please check you have all the fittings listed below

Note: The quantities below are the correct amount to complete the assembly. In some cases more fittings may be supplied than are required.

A Wooden dowel *(F22)* x 16

B 

Metal dowel *(F901)* x 8

C 

Large locking nut *(F900)* x 8

D 

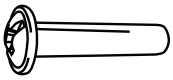

13mm Screw *(F63)* x 8

E 

13mm Screw *(F79)* x 2

F 

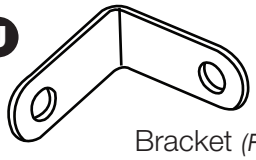

25mm Screw *(F50)* x 18

G 

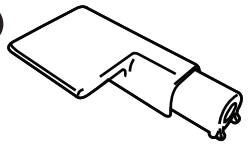

Connecting Sleeve *(F432)* x 2

H 

19mm Connecting bolt *(F461)* x 2

J 

Bracket *(F945)* x 2

K 

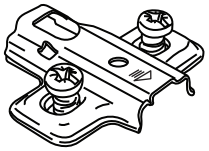

Soft Close Unit *(F156)* x 2

L 

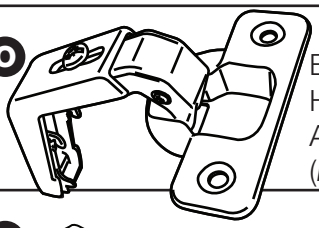

40mm Screw *(F910)* x 2

M 

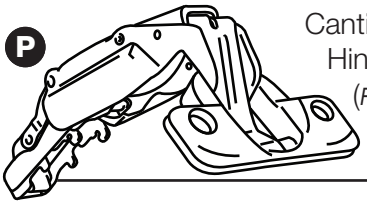

Shelf support *(F110)* x 7

N 

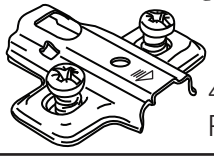

2mm Hinge Plate *(F157)* x 2

O 

Bent Hinge Arm *(F154)* x 2

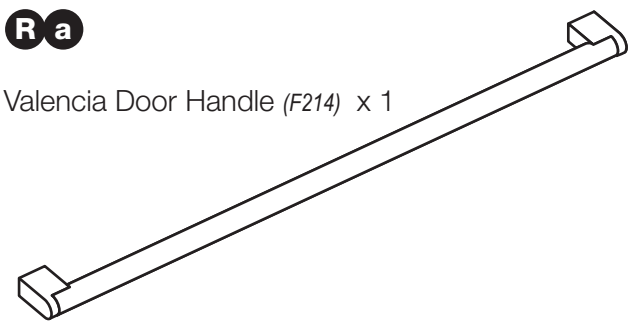

P 

Cantilevered Hinge Arm *(F155)* x 2

Q 

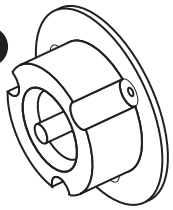

4mm Hinge Plate *(F158)* x 2

Ra Valencia Door Handle *(F214)* x 1

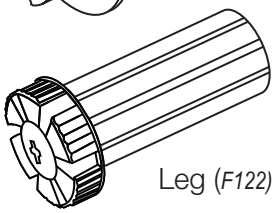

Rb 

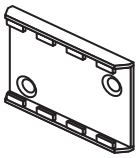

25mm Screw *(F132)* x 2

Ia 

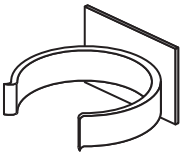

Leg Socket *(F120)* x 6

Ib 

Leg *(F122)* x 6

Ic 

Leg Bracket *(F127)* x 3

Id 

Leg Clip *(F128)* x 3

Ie 

16mm Screw *(F129)* x 24

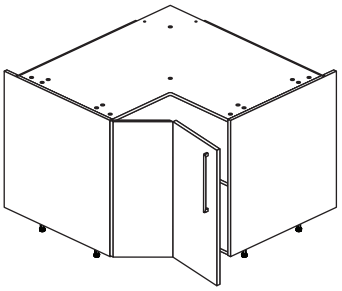

Assembly Instructions

If you have damaged or missing components, call the **Customer Helpline: 08456 400800** *quoting the reference numbers below*

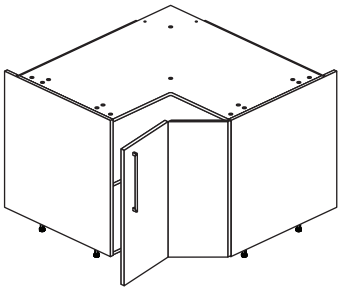

Step 1

Choose which way you would like the door to open

You can fit the door to the left side or right side.

If you would like your door to open this way, fit the hinge plates to the left side

If you would like your door to open this way, fit the hinge plates to the right side

Step 2

Prepare the left side

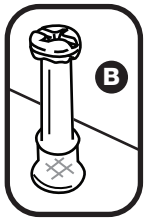

Refer to step 1 and, **if required**, fit 2 hinge plates Q onto the left side 4, making sure that they face the same way as the diagram.

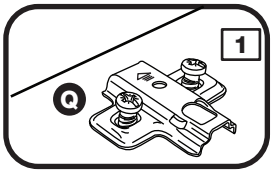

Screw 4 metal dowels B into the holes shown on the left side 4.

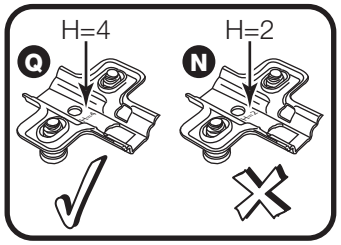

Note: Tighten metal dowels up fully against the panels.

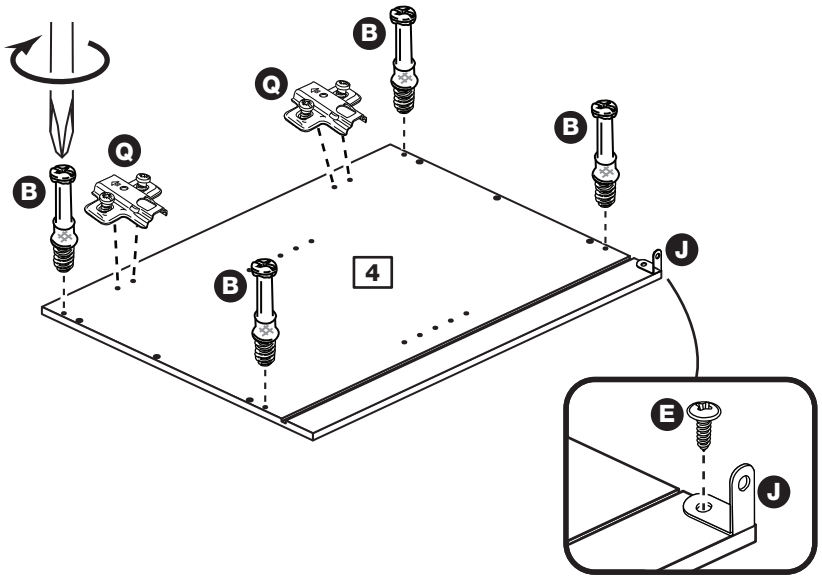

Fit a bracket J flush to the top and back edge of the left side 4.

Secure the bracket J using screw E.

Step 3

Prepare the right side

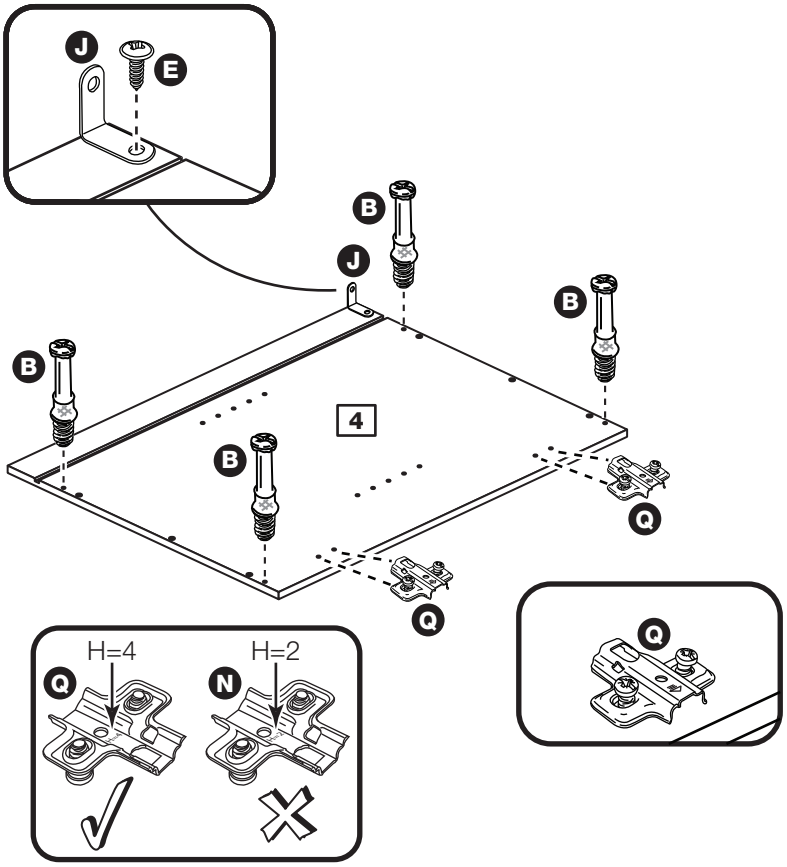

Refer to step 1 and, **if required**, fit 2 hinge plates Q onto the right side 4, making sure that they face the same way as the diagram.

Screw 4 metal dowels B into the holes shown on the right side 4.

Note: Tighten metal dowels up fully against the panels.

Fit a bracket J flush to the top and back edge of the right side 4.

Secure the bracket J using screw E.

Step 4

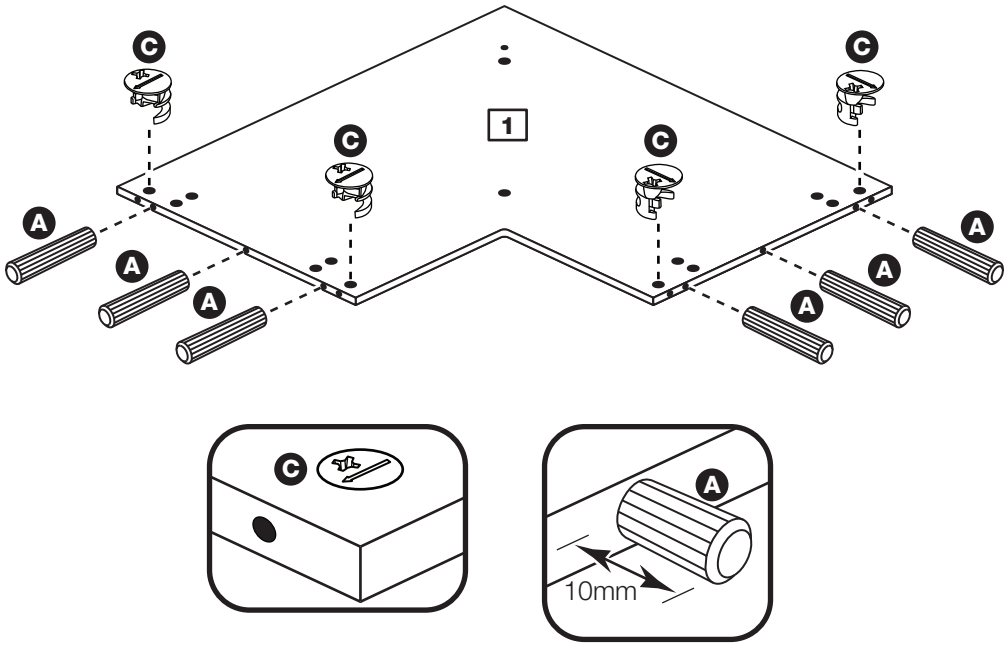

Prepare the top and base

Insert 4 large locking nuts C into the top 1 and base 1 as shown.

Note: Arrow on locking nut **must** point towards hole in edge of panel.

Tap 6 wooden dowels A into the top 1 and base 1 as shown.

Note: Wooden dowels **must not** stick out from the edge by more than 10mm or they may damage other panels.

Assembly Instructions

Step 5

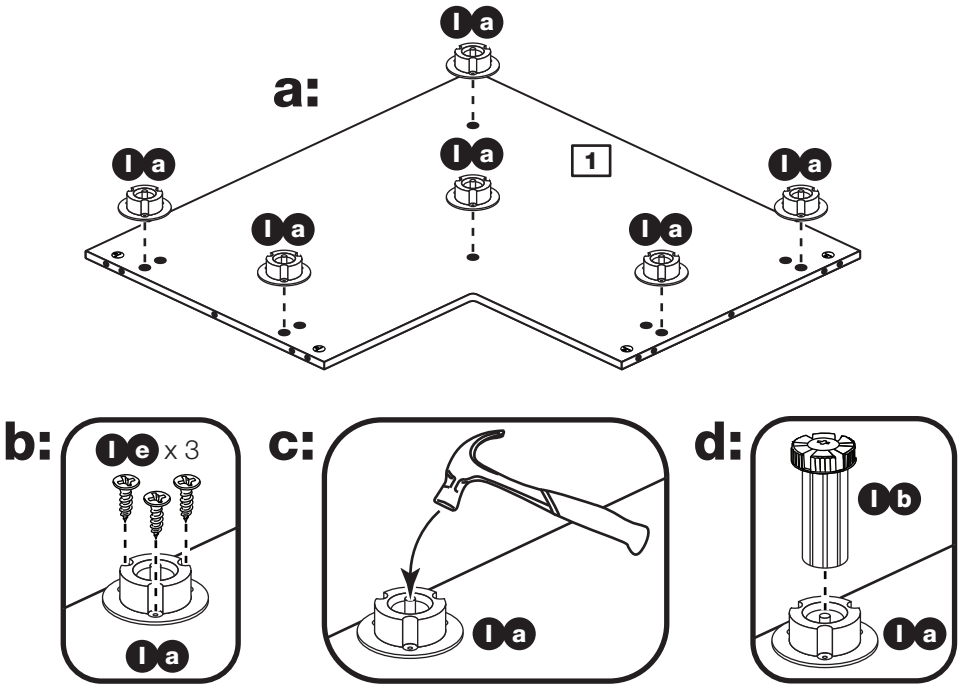

Fit the legs to the base

a: Push the leg sockets Ia into the holes in the base 1 as shown.

b: Secure each leg socket Ia with 3 screws Ie.

c: Tap in the centre plug on each leg socket Ia.

d: Push the leg Ib into the leg socket Ia.

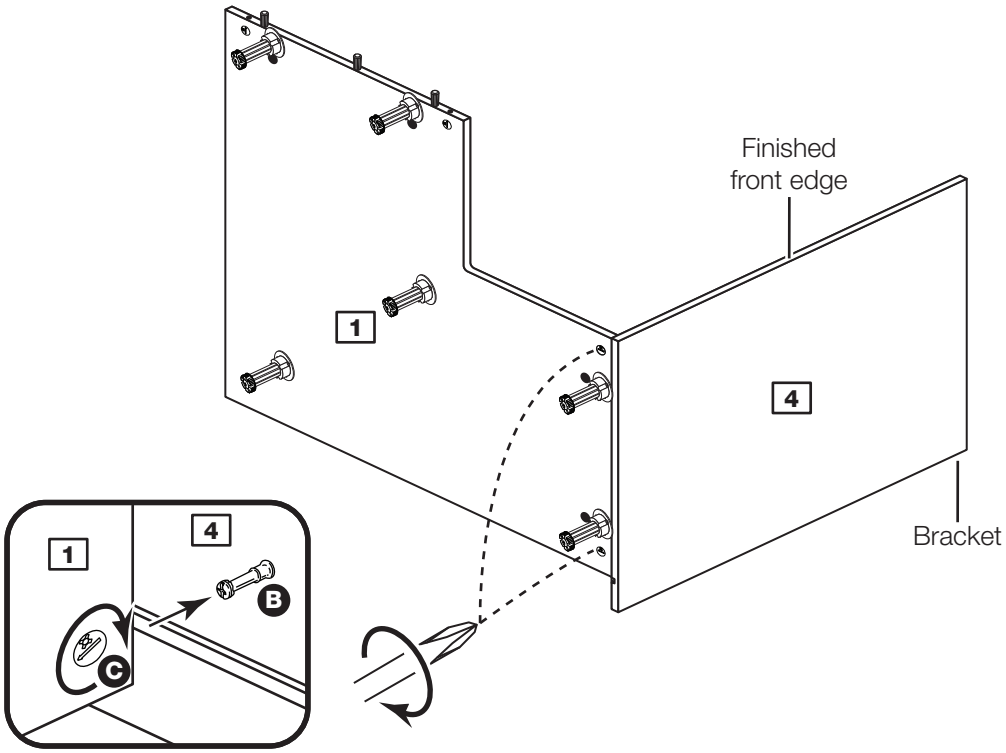

Step 6

Join the right side and base

Push the base 1 onto the right side 4.

Use a screwdriver to tighten the 2 large locking nuts C fitted to the base 1.

Note: Turn the large locking nuts C as far as they will go - more than 1/2 a turn.

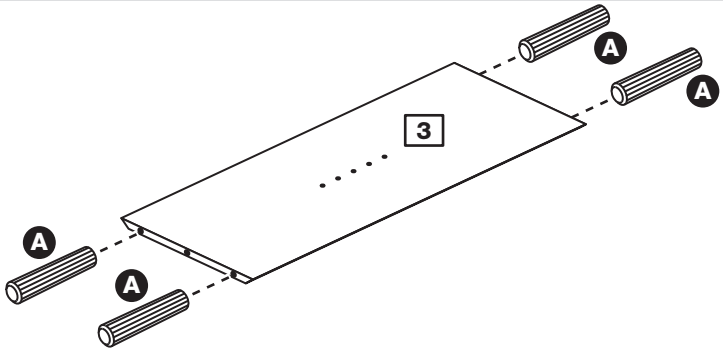

Assembly Instructions

Step 7

Prepare the back

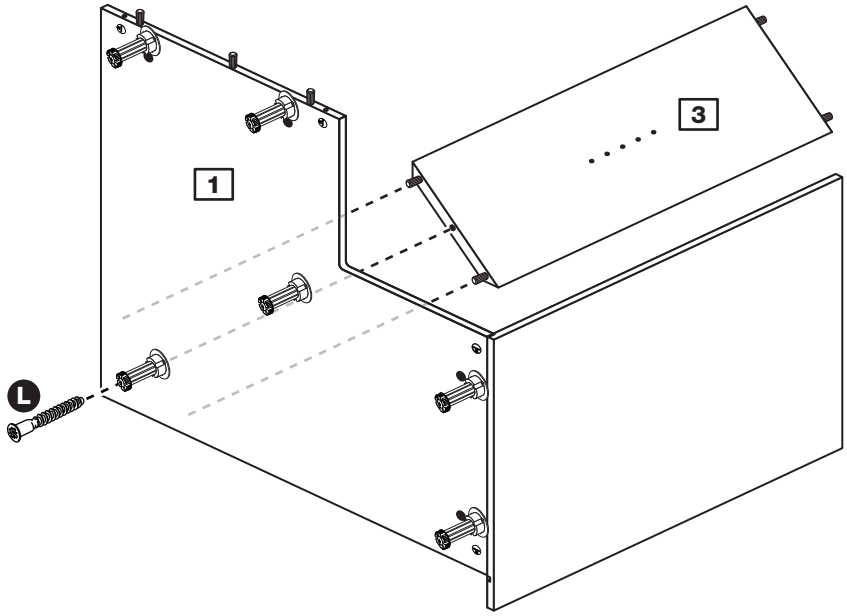

Tap 4 wooden dowels (A) into the back [3] as shown.

Step 8

Fit the back

Push the back [3] onto the base [1] and secure with screw (L).

Step 9

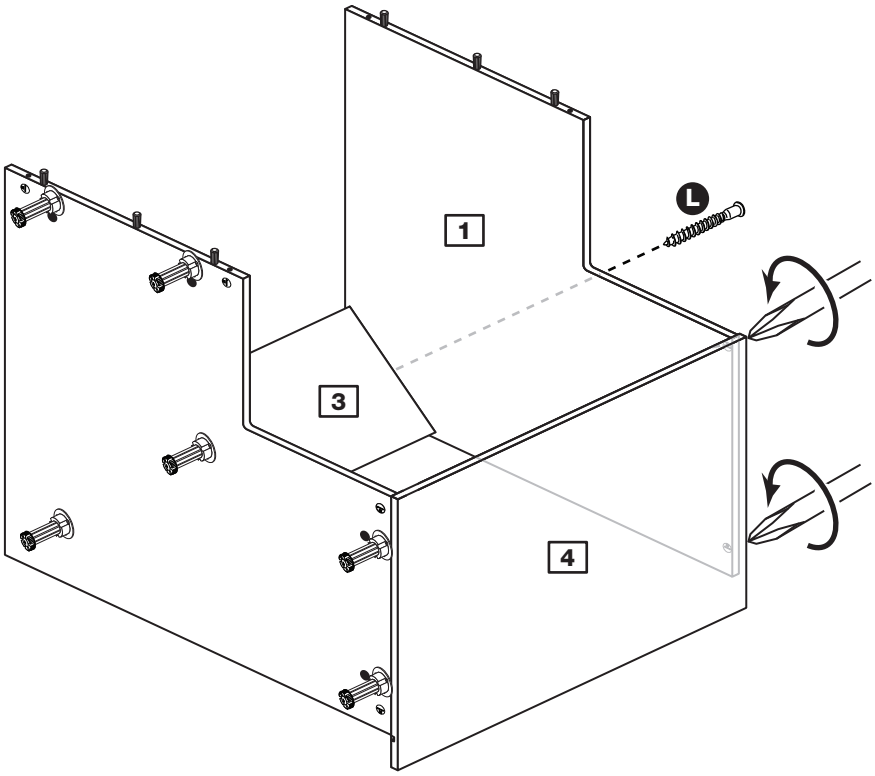

Fit the top

Push the top [1] onto the right side [4] and back [3].

Use a screwdriver to tighten the 2 large locking nuts (C) fitted to the top [1].

Note: Turn the large locking nuts (C) as far as they will go - more than 1/2 a turn.

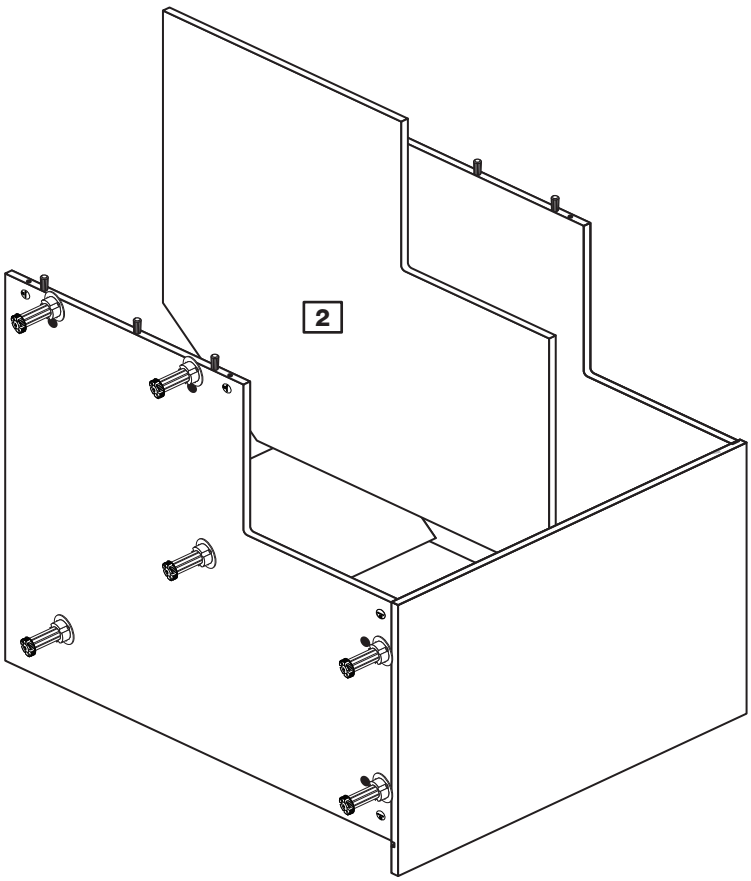

Secure the back [3] to the top [1] with screw (L).

Step 10

Insert the loose shelf

Place the loose shelf 2 inside the unit.

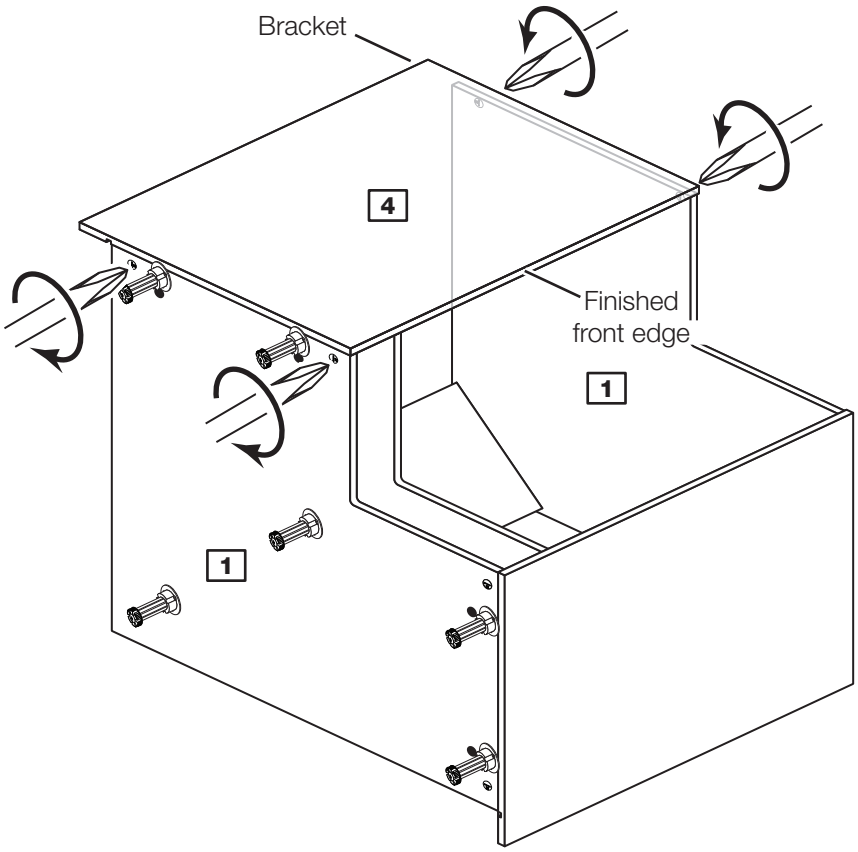

Step 11

Fit the left side

Push the left side 4 onto the base 1 and top 1.

Use a screwdriver to tighten the 4 large locking nuts C fitted to the base 1 and top 1.

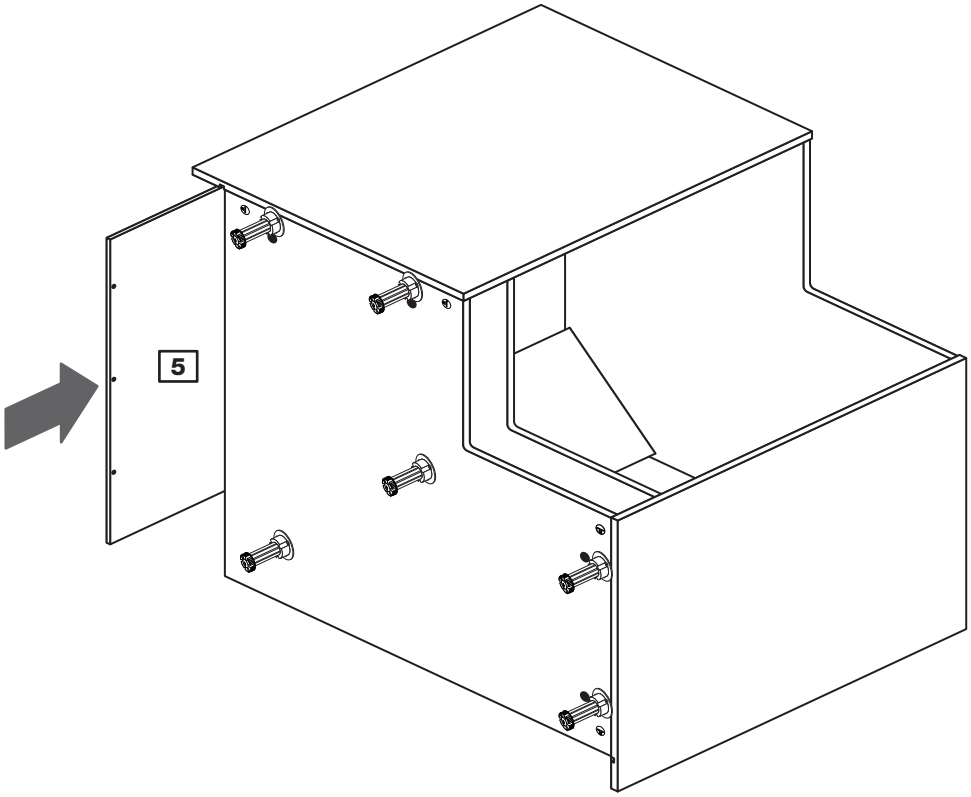

Note: Turn the large locking nuts C as far as they will go - more than 1/2 a turn.

Step 12

Fit the left back

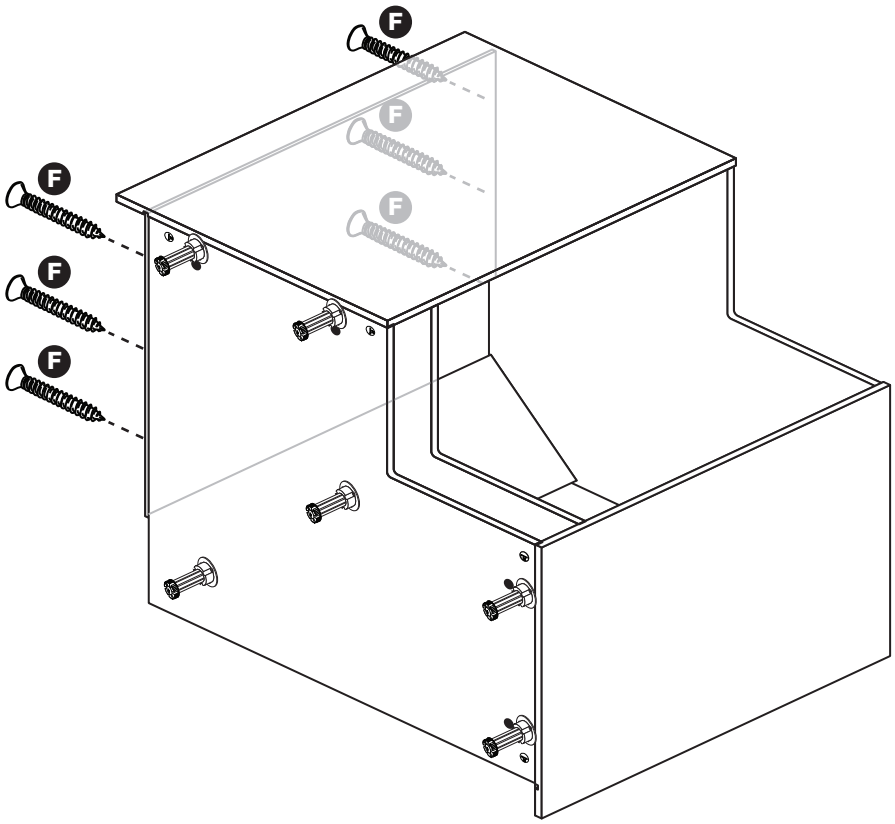

Slide the left back 5 along the groove in the left side.

Step 13

Secure the left back

Secure the left back 5 with 6 screws F through its pre-drilled holes into the base and top.

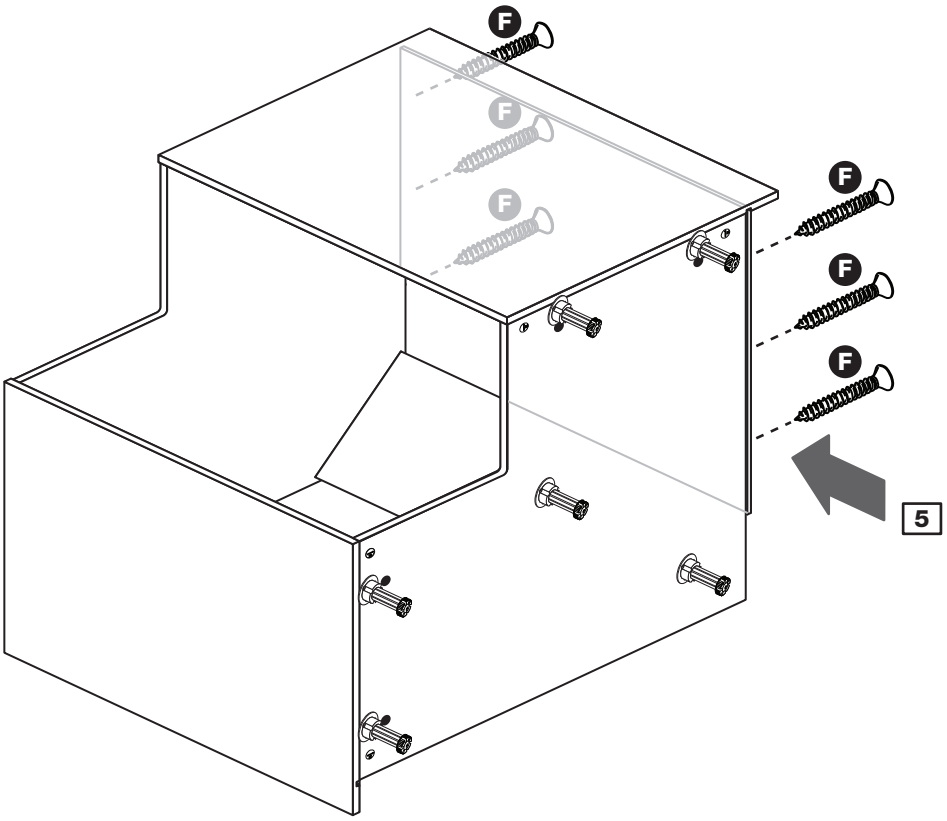

Step 14

Fit the right back

Slide the right back 5 along the groove in the right side.

Secure the right back 5 with 6 screws F through its pre-drilled holes into the base and top.

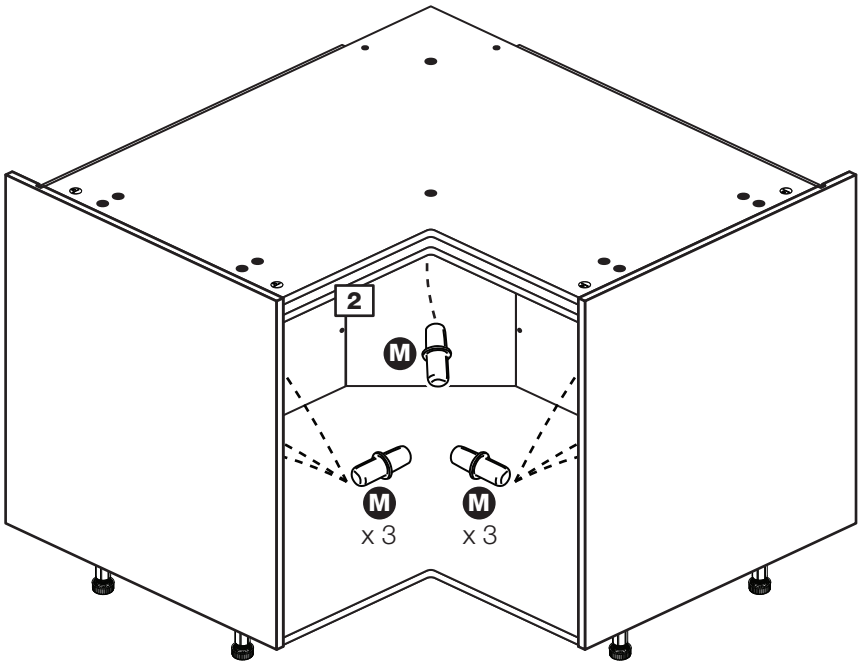

Step 15

Fit the loose shelf

Hold the loose shelf 2 up and insert 7 shelf studs M at the required height.

Lower the loose shelf 2 down onto the shelf studs M.

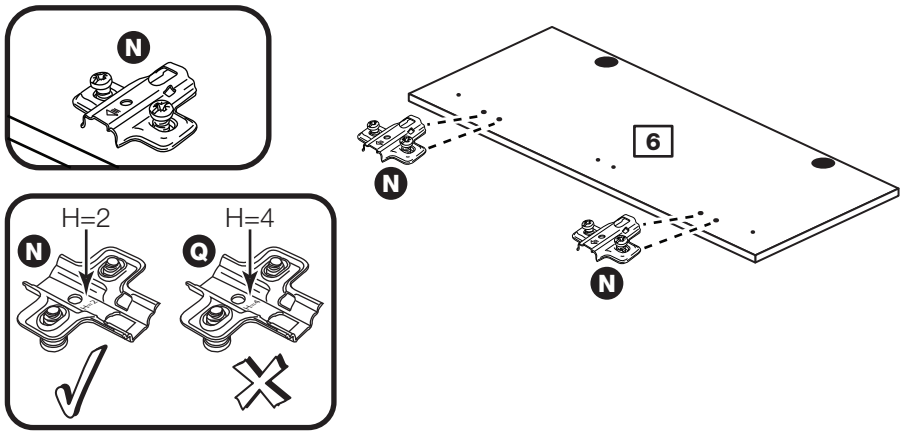

Step 16

Prepare 1 of the doors to be the carcase door

a: Fit 2 hinge plates (N) onto a door [6], making sure that they face the same way as the diagram.

a:

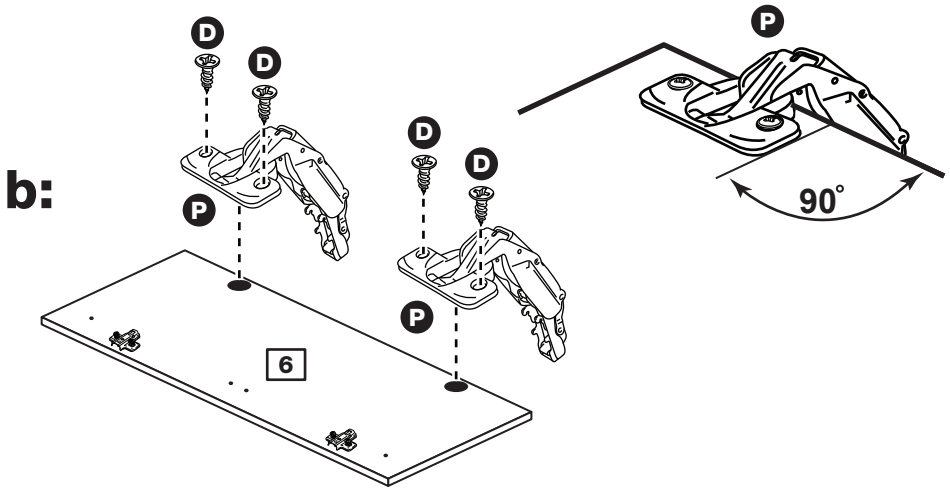

b: Push fit 2 cantilevered hinge arms (P) into the door [6].

Secure each hinge arm with 2 screws (D).

Note: Before securing with the screws, make sure that the hinges are positioned at 90 degrees with the front edge of the door.

b:

Step 17

Fit the carcase door

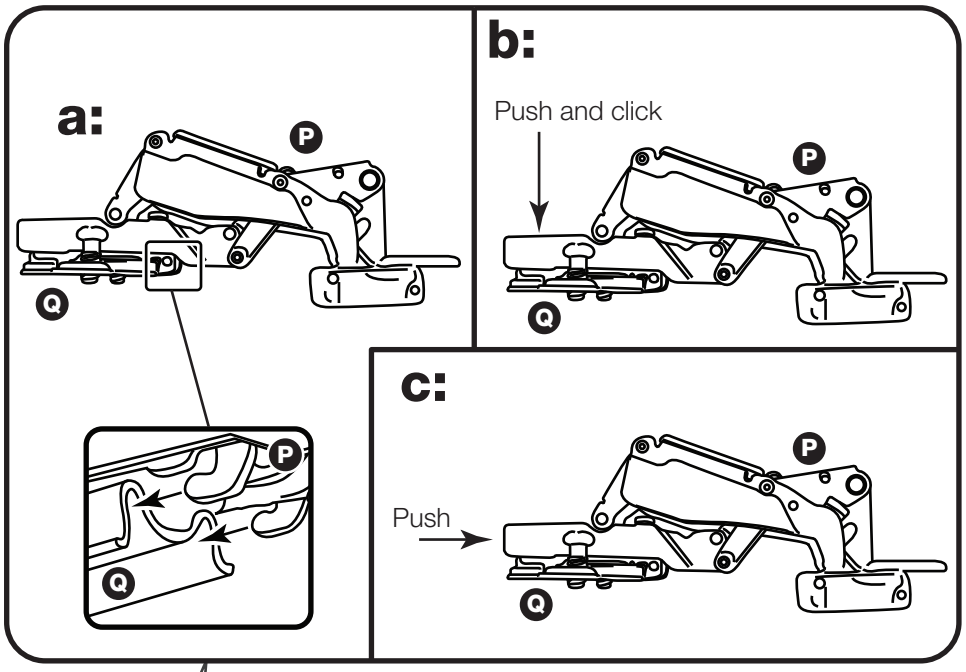

2 people are needed here

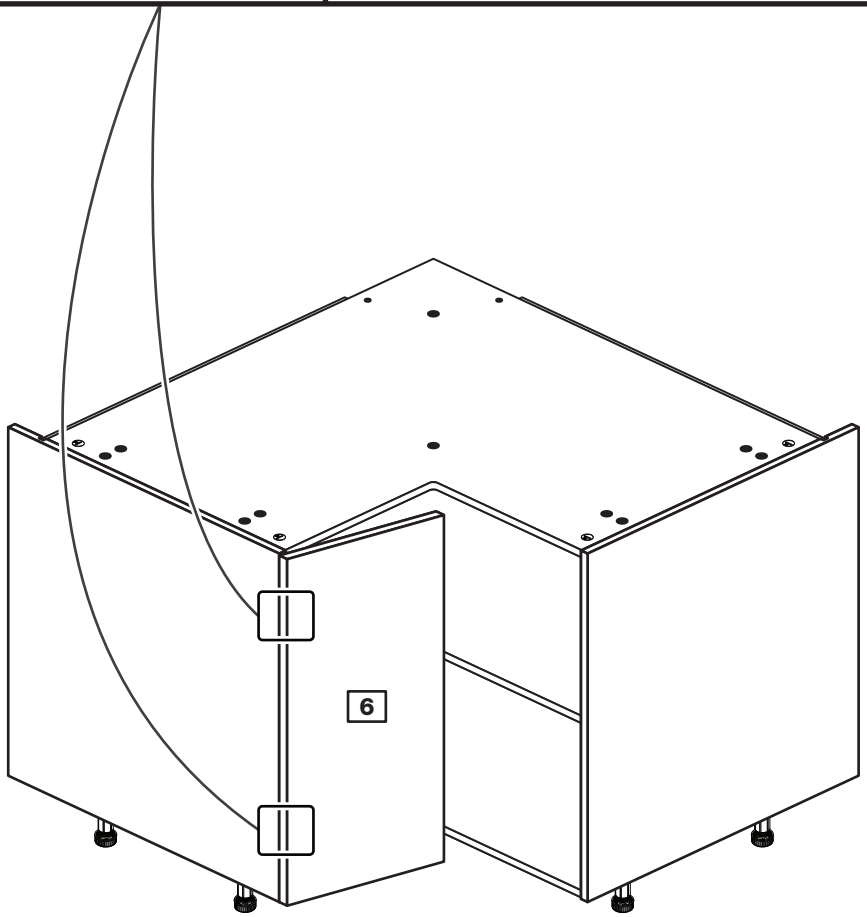

Note: The easiest way to attach the carcase door 6 is to fit the top hinge first, then align and fit the other hinge.

a: Push the hooks on the cantilevered hinge arm P underneath the front of the hinge plate Q.

b: Press the front of the hinge arm P against the hinge plate Q until it clicks into place.

c: If you need to seperate the hinge arm P from the hinge plate, Q press the button at the end of the hinge arm and lift it off of the hinge plate.

This shows the carcase door being fitted to hinge plates on the left side.
You may have fitted them to the right side.

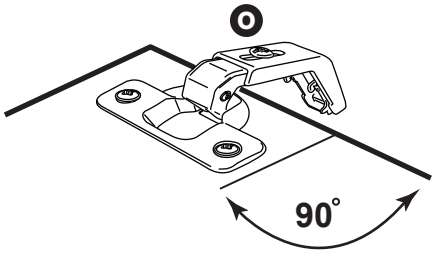

Step 18

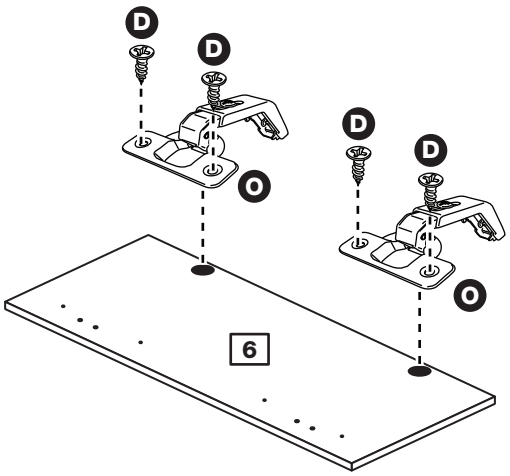

Prepare the other door to be the hinged door

Push fit 2 bent hinge arms (O) into the other door [6].

Secure each hinge arm with 2 screws (D).

Note: Before securing with the screws, make sure that the hinges are positioned at 90 degrees with the front edge of the door.

Step 19

Drill the handle holes in the hinged door

Important: Please follow these instructions carefully.

Lay the door [6] down onto a smooth surface.

Important: Carefully choose which holes you need to drill.
This will depend on which side you fitted the hinge plates (N).

Check that the holes and hinges are in the same place as the diagrams.

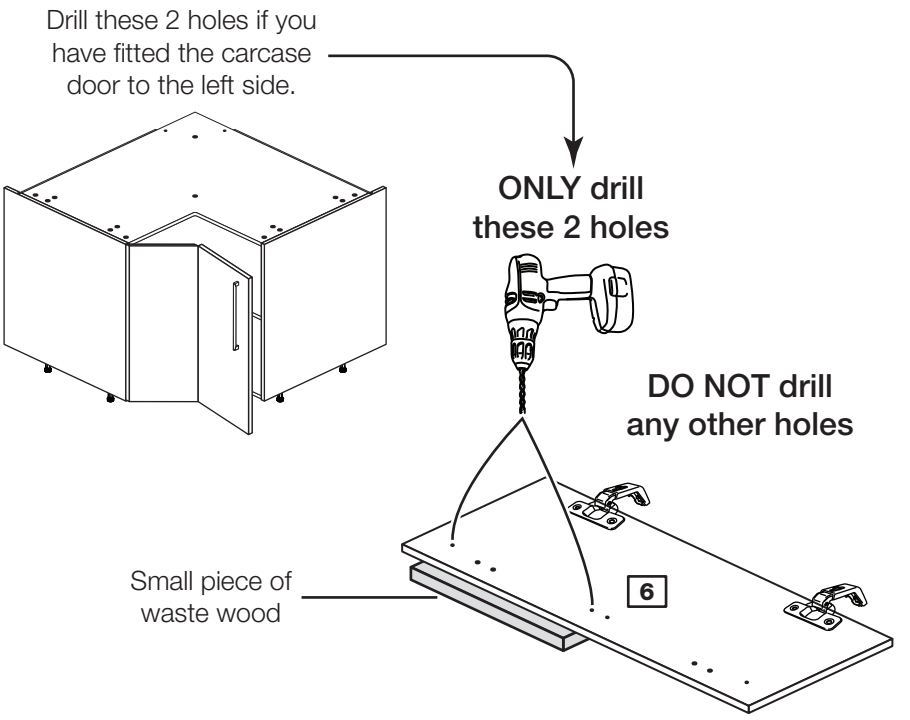

Note: We recommend the use of a small piece of waste wood, placed behind the hole while drilling, to reduce the possibility of any breakout.

Using the pilot hole in the rear face of the door, [6] drill through the holes indicated opposite, using a 2.5mm diameter drill.

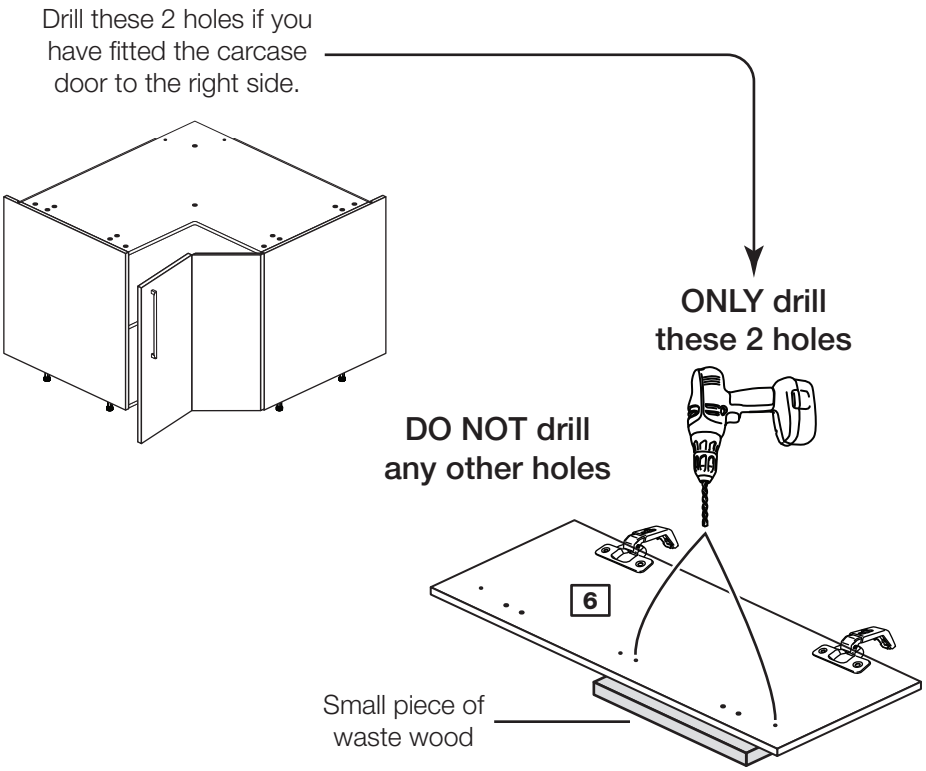

Turn the door [6] over and open out the 2.5mm holes that you have just drilled by drilling back through them with a 5mm drill.

Note: Drill bits are not provided.

PLEASE FOLLOW THESE INSTRUCTIONS CAREFULLY TO CHOOSE WHICH 2 HOLES YOU WILL NEED TO DRILL

or

Step 20

Fit the hinged door

2 people are needed here

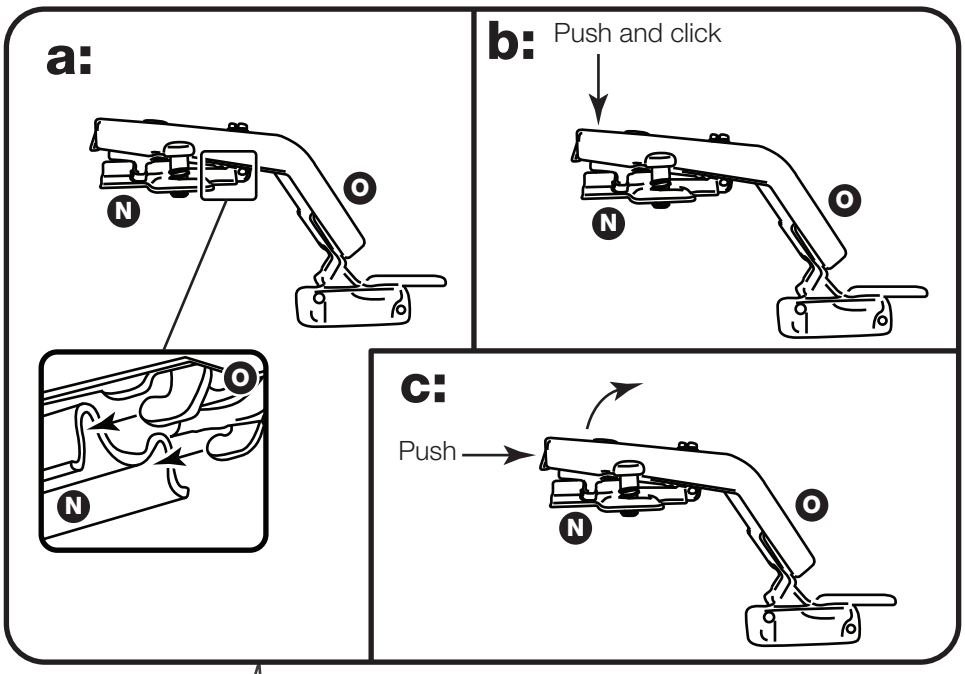

Note: The easiest way to attach the hinged door [8] is to fit the top hinge first, then align and fit the other hinge.

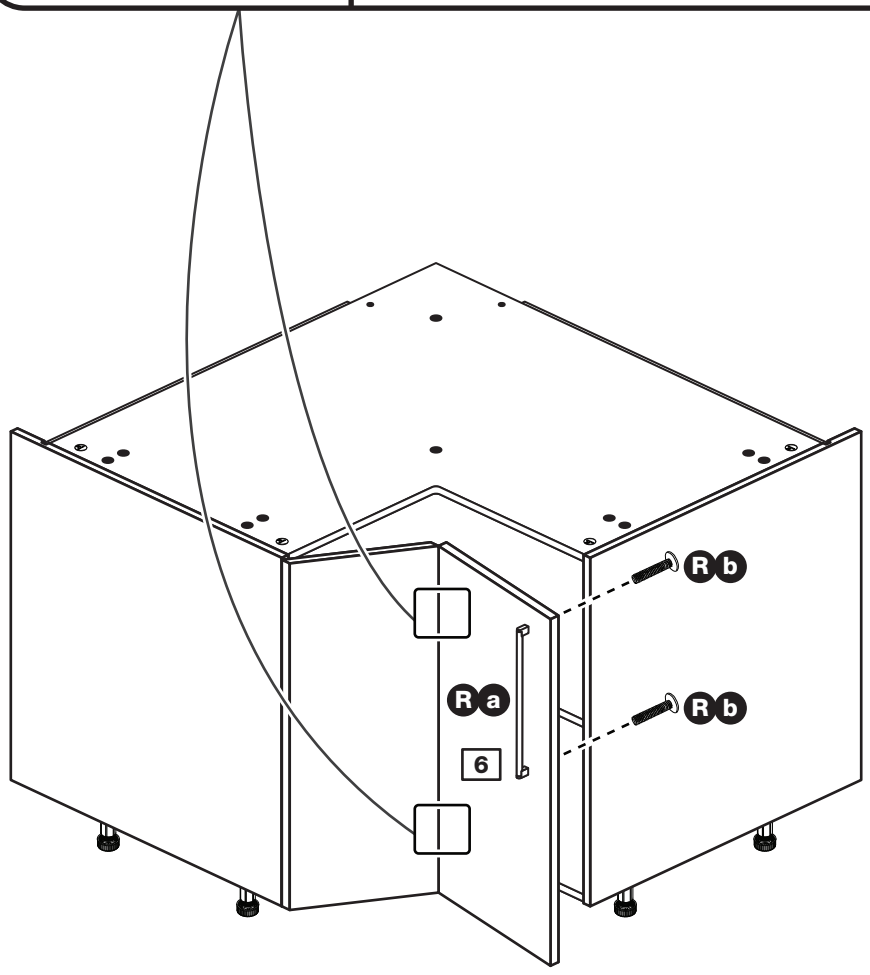

a: Push the hooks on the bent hinge arm (O) underneath the front of the hinge plate (N).

b: Press the front of the hinge arm (O) against the hinge plate (N) until it clicks into place.

c: If you need to seperate the hinge arm (O) from the hinge plate, (N) press the button at the end of the hinge arm and lift it off of the hinge plate.

d: Attach the handle (Ra) supplied with the door [6] using the screw(s) (Rb) packed with it.

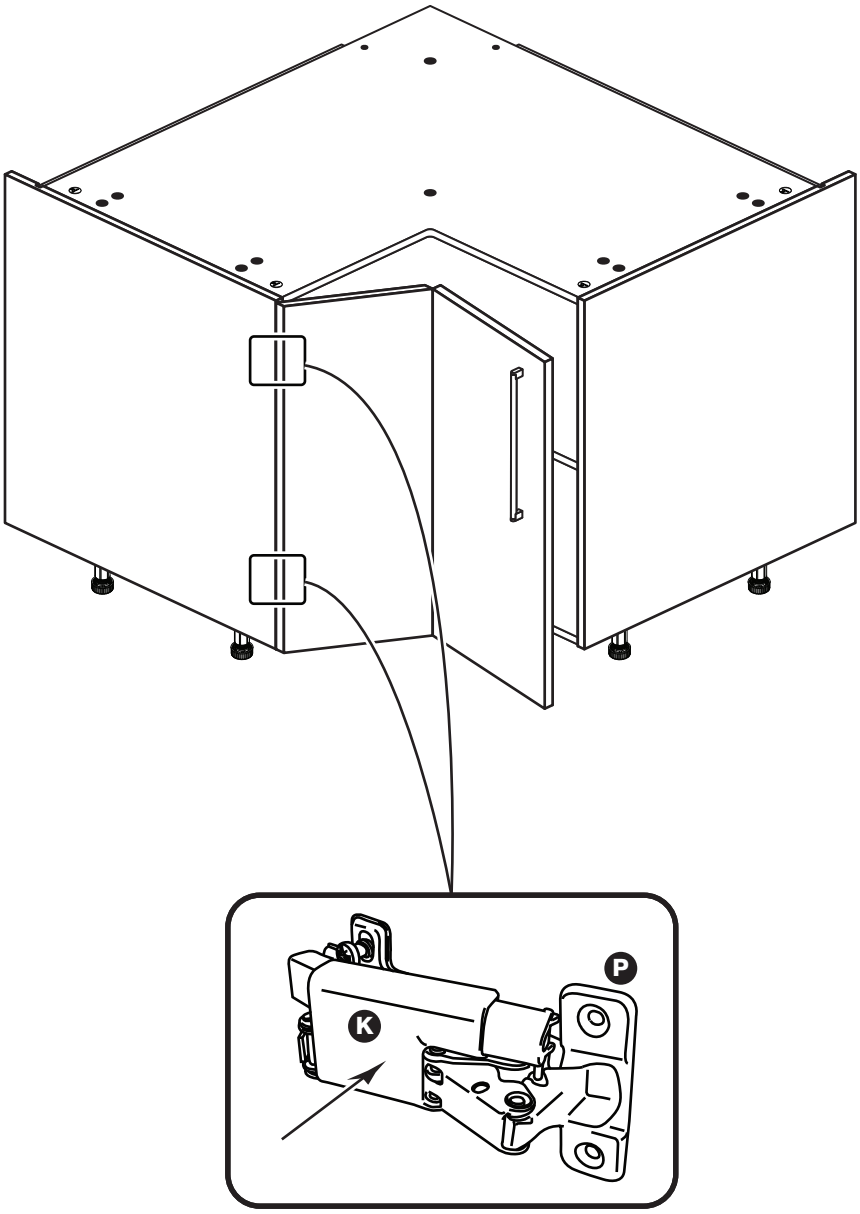

This shows the hinged door being fitted to carcase door on the left side.
You may have fitted it to the right side.

Step 21

Fit the soft close unit

Push a soft close unit K onto each cantileved hinge arm P until it clicks into place.

Step 22

Joining units together

Fittings have been supplied so you are able to join units together.

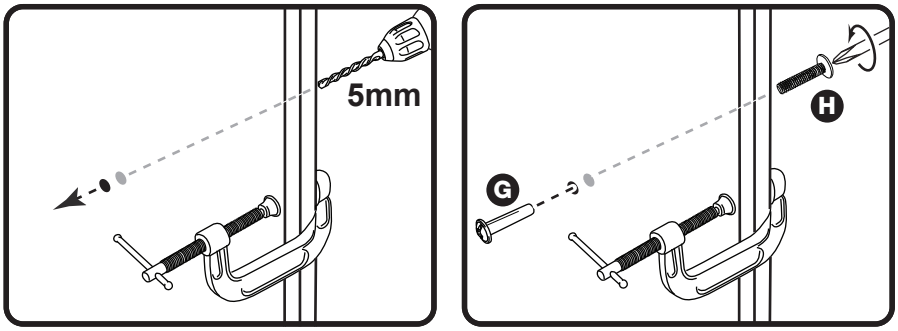

Make sure that your first unit is level.

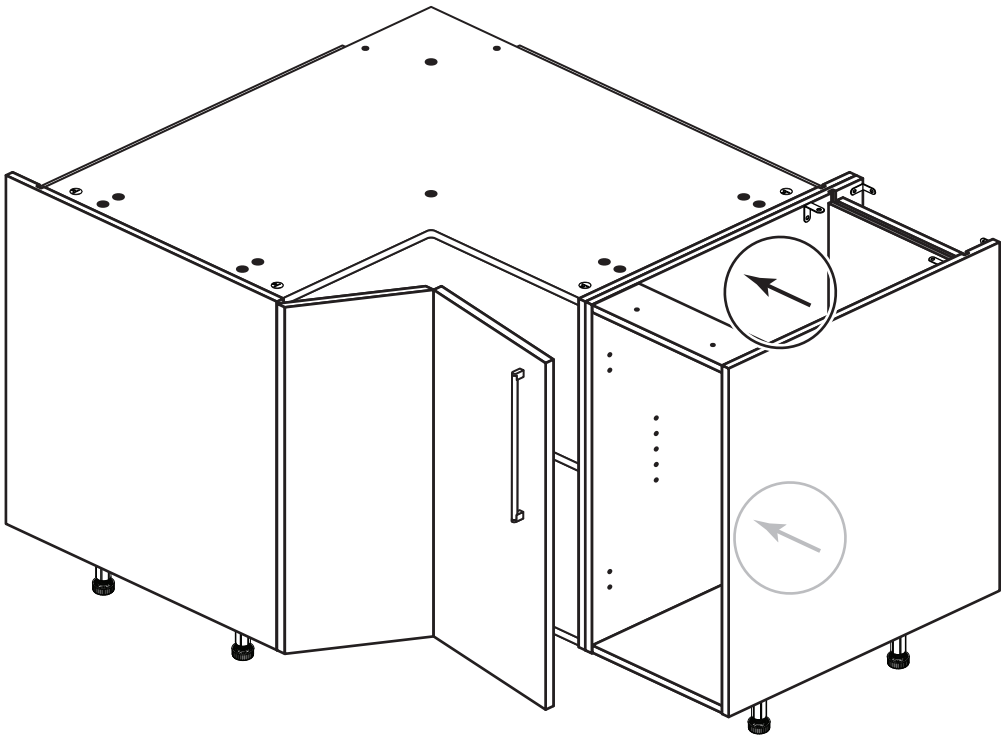

Push the other unit up against first unit and ensure both units are level.

Check that the ends are flush and in line, then clamp them together.

Using a 5mm drill bit, drill 2 holes (approximate positions shown circled) in the side panel into the adjoining side panel of the other unit.

Push the connecting sleeves G into the holes and then screw the connecting bolts H in from the other side.

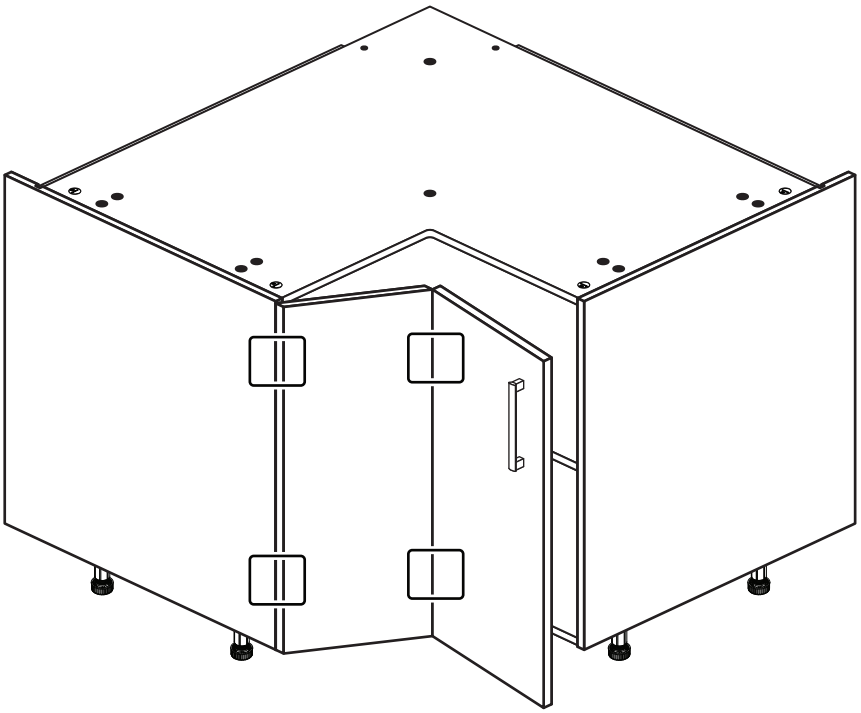

Step 23

Adjust the doors if needed

Adjust the hinge plates and arms by turning the screws on them clockwise or anti-clockwise.

Assembly is complete

Warning: The unit is heavy. Lift with care.

Step 24

Fit the plinth

After cutting the plinth to the required length, offer the plinth up to the unit and using a pencil, mark the position of the unit's legs **1b** on the back of the plinth.

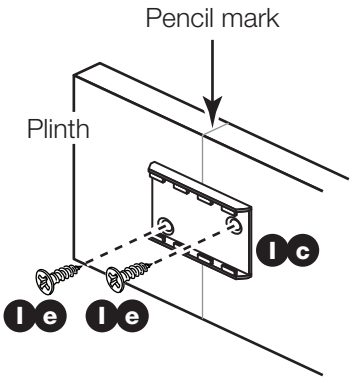

Position the leg bracket **1c** so it is in the centre of the pencil mark and half way up the plinth.

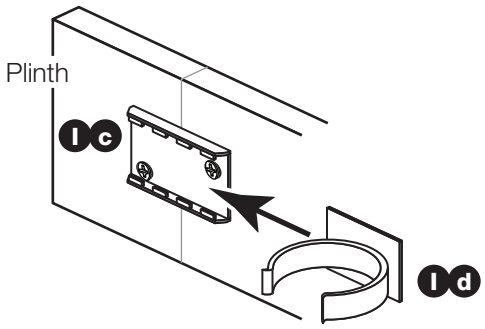

Fix the leg bracket **1c** to the back of the plinth using 2 screws **1e**.

Slide the leg clip **1d** into the leg bracket **1c**.

Offer the plinth up to the unit and push the leg clips **1d** onto the legs **1b**.

Black Plinth Pack	608/2345
Cream Plinth Pack	608/2369
Oak Plinth Pack	205/5668
White Gloss Plinth Pack	608/2352
