A Safety and Care Advice

Important - Please read these instructions fully before starting assembly

- *Warning:* This unit weighs approximately 15.5kgs. Please lift with care.
- Check you have all the components and tools listed on pages 2 and 3.
- Remove all fittings from the plastic bags and separate them into their groups.
- Keep children and animals away from the work area, small parts could choke if swallowed.
- Parts of the assembly will be easier with 2 people.

- Make sure you have enough space to layout the parts before starting.
- Do not stand or put weight on the product, this could cause damage.
- Assemble the item as close to its final position (in the same room) as possible.
- Assemble on a soft level surface to avoid damaging the unit or your floor (use opened out unit carton).

• We do not recommend the use of power drill/drivers *for inserting screws*,

as this could damage the unit. Only use hand screwdrivers.

- **Safety note:** If there is any chance of this unit being pulled over by children etc. it is recommended that the unit is secured to a wall using suitable fixings (not supplied).
- Dispose of all packaging carefully and responsibly.

Care and maintenance

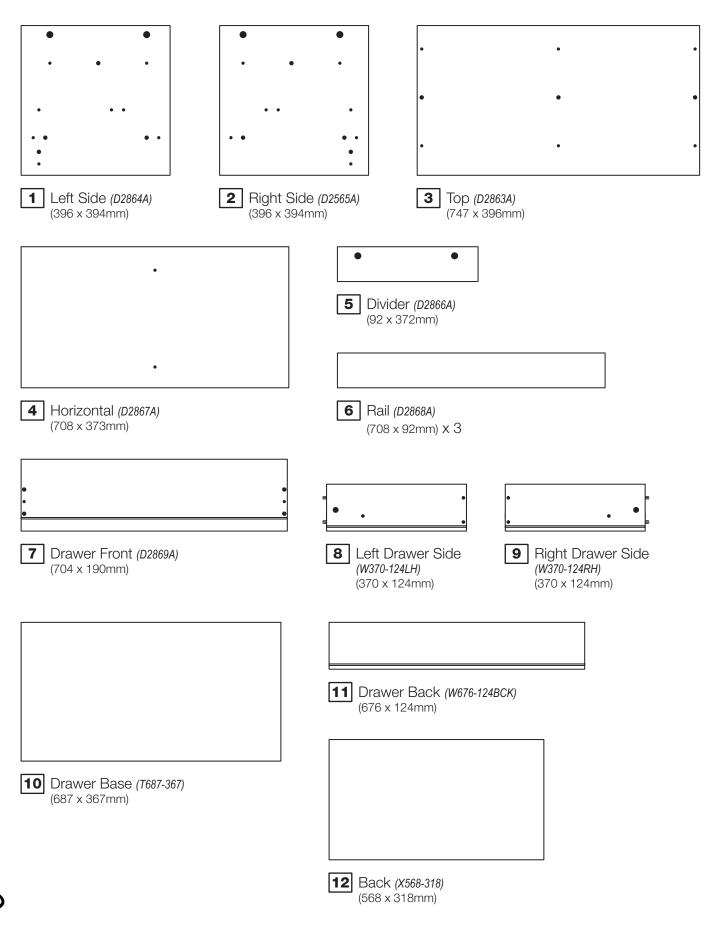

- Only clean using a damp cloth and mild detergent, do no use bleach or abrasive cleaners.
- From time to time check that there are no loose screws on this unit.
- This product should not be discarded with household waste. Take to your local authority waste disposal centre.

Note: If required the next page can be cut out and used as reference throughout the assembly. Keep this page with these instructions for future reference.

Components - Panels

If you have damaged or missing components, call the **Customer Helpline: 08456 400800** *quoting the reference numbers below*

Please check you have all the panels listed below

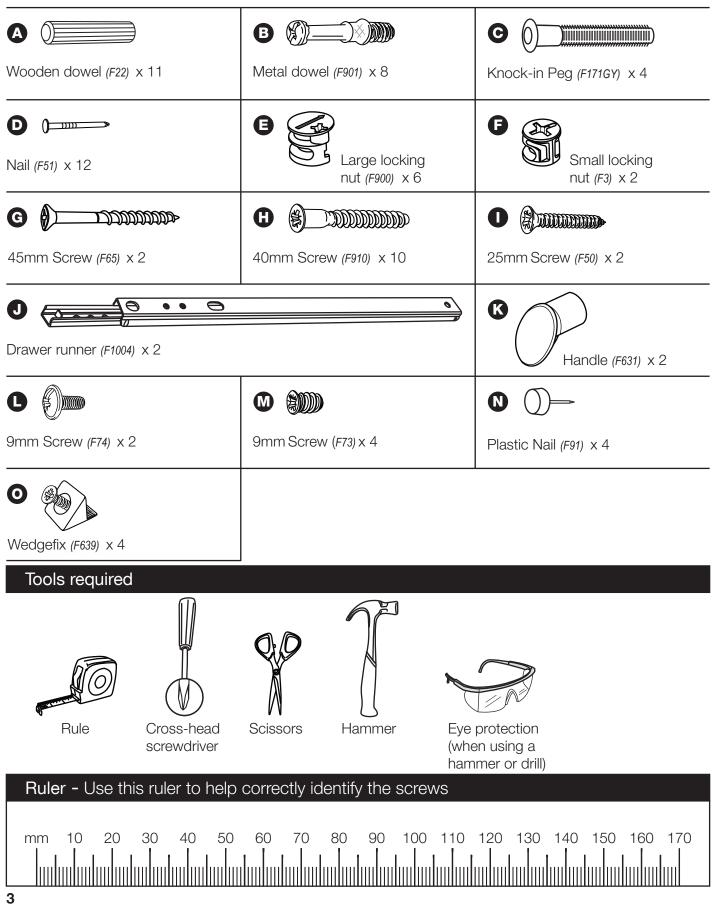

Components - Fittings

If you have damaged or missing components, call the Customer Helpline: 08456 400800 quoting the reference numbers below

Please check you have all the fittings listed below

Note: The quantities below are the correct amount to complete the assembly. In some cases more fittings may be supplied than are required.

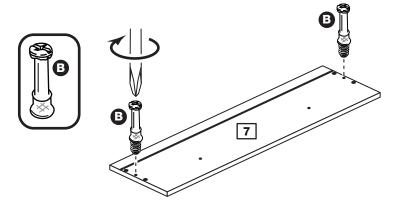

If you have damaged or missing components, call the numbers below

Step 1

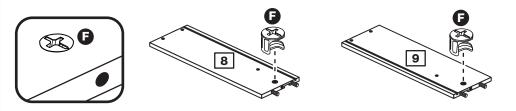

Prepare the drawer front

Screw 2 metal dowels B into the drawer front **7**.

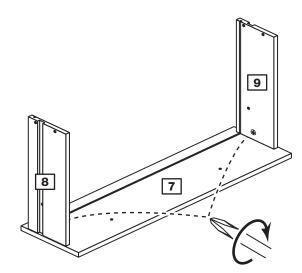

Note: Tighten the metal dowels up fully against the panels.

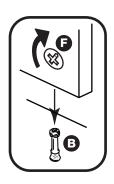

Note: Due to the manufacturing process, the holes for the locking nut can be on either surface of the drawer sides.

Note: The locking nuts can be on either surface of the drawer sides. Make sure that the small groove is on the inside, as shown.

Step 2

Prepare the drawer sides

Insert a small locking nut **F** into the hole shown on the left drawer side **8** and right drawer side 9.

Note: The arrow on the locking nut **must** point towards the hole in the edge of the panel.

Step 3

Attach the drawer sides to the drawer front

Push the left drawer side **8** and right drawer side 9 onto the back of the drawer front 7.

Turn the small locking nuts **(F)** on the left drawer side 8 and right drawer side 9.

Note: Turn the locking nuts F clockwise to secure panels - more than 1/2 a turn.

Step 4

Fit the drawer base

Slide the drawer base **10** down the grooves in the drawer sides **8** and **9** and down into the groove in the drawer front **7**.

Step 5

Fit the drawer back

Fit the drawer back **11** between the drawer sides **8** and **9**.

Make sure that the drawer base **10** fits into the groove in the drawer back **11**.

Hold the drawer back **11** in position and tap the knock-in pegs **C** through the holes in the drawer sides **8** and **9**.

Step 6

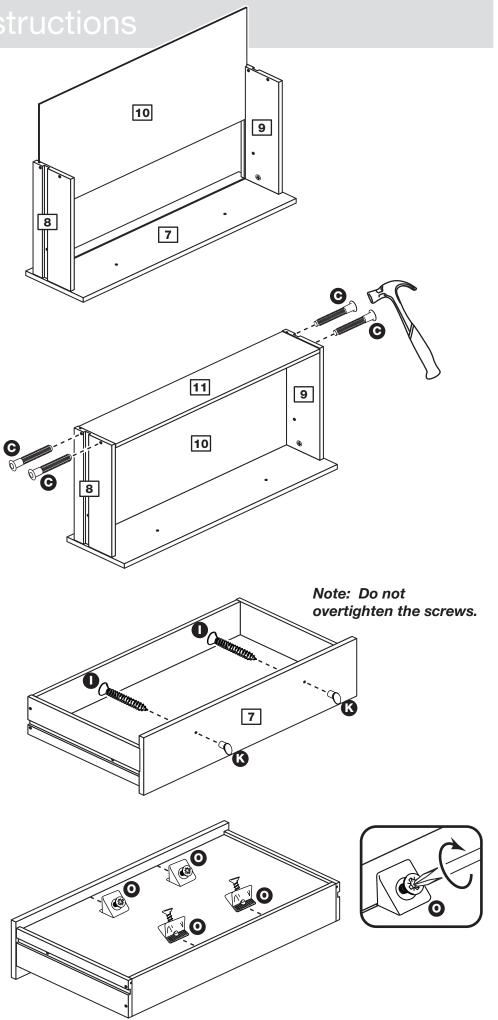

Attach the handles

Attach the handles (\$ to the drawer front 7 using 2 screws 1.

Step 7

Fit the wedgefixes

Turn the drawer assembly over and slide 4 wedgefixes **O** into the front and back grooves, as shown, and tighten up the screws.

Step 8

Prepare the left side

a: Place a runner **J** on the left side **1** as shown. Slide back the top of runner and use the 2nd hole from the front to fit the 1st screw **M**.

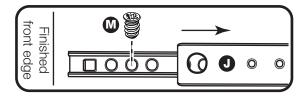

b: Slide the runner **J** back the other way and fit the 2nd screw **M** into the corresponding hole in the left side **1**.

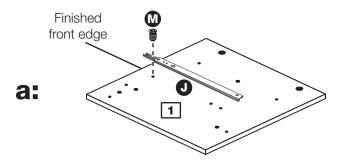

Insert 2 large locking nuts (a) into the left side [1].

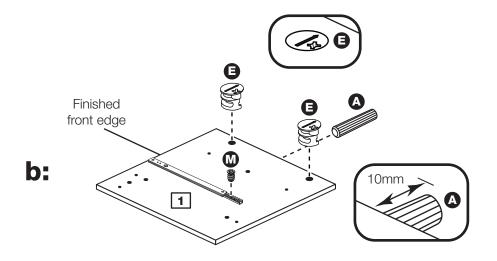

Note: The arrow on the locking nuts **must** point towards the hole in the edge of the panel.

Tap a wooden dowel **A** into the left side **1**.

Note: Wooden dowels **must not** stick out from the edge by more than 10mm or they may damage other panels.

Step 9

Prepare the right side

a: Place a runner **J** on the right side **2** as shown. Slide back the top of runner and use the 2nd hole from the front to fit the 1st screw **M**.

b: Slide the runner **J** back the other way and fit the 2nd screw **M** into the corresponding hole in the right side **2**.

Insert 2 large locking nuts into the right side 2.

Tap a wooden dowel **A** into the right side **2**.

Step 10

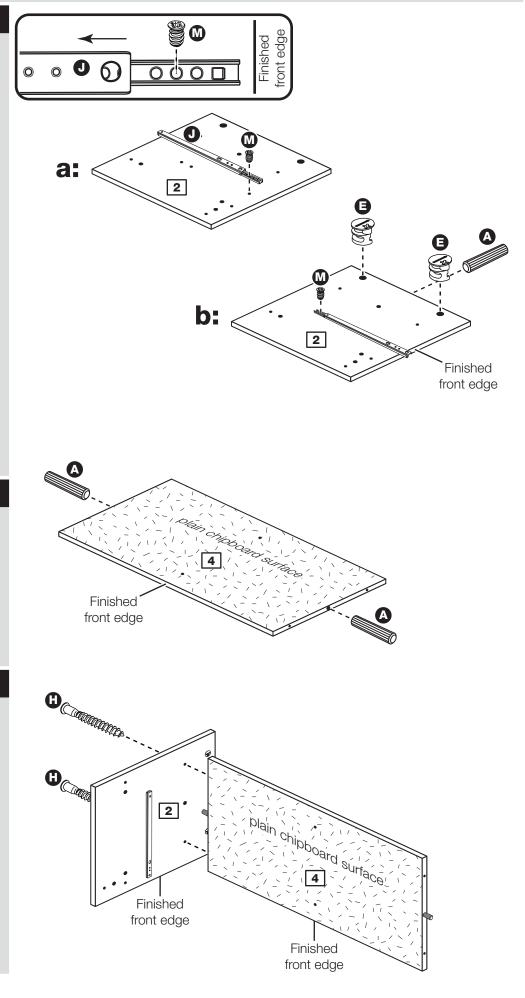

Prepare the horizontal

Tap 2 wooden dowels **A** into the horizontal **4**.

Step 11

Fit the horizontal to the right side

Push the horizontal 4 onto the right side 2 and secure with 2 screws **H**.

Step 12

Step 13

right side

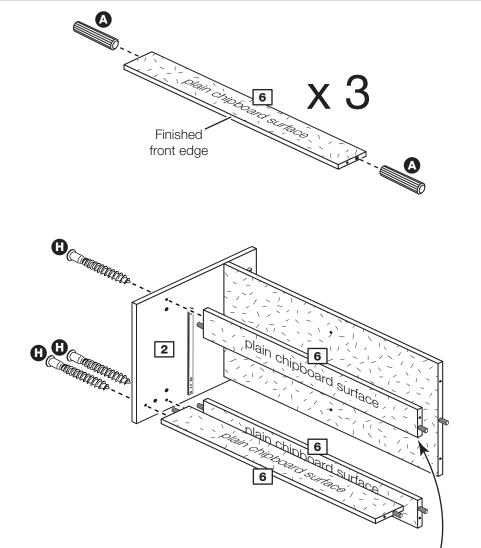

Fit the 3 rails to the

Push the 3 rails 6 onto

the right side **2** and secure with 3 screws **H**.

Prepare the 3 rails

Tap 2 wooden dowels (A) into each of the 3 rails (6).

Note: Support the rail at the back of the unit until the left side has been fitted in the next step.

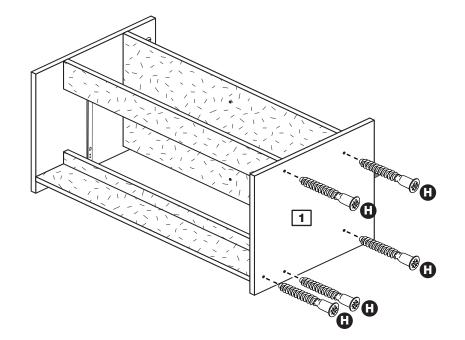

Fit the left side

Push the left side **1** onto the assembly and secure with 5 screws **(f)**.

Carefully stand the unit up in preparartion to fit the top.

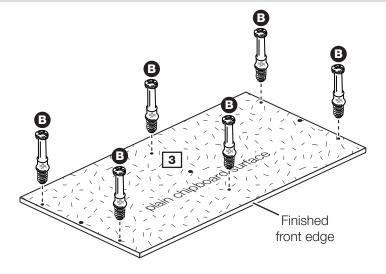

Warning: The unit is heavy. Lift with care.

Step 15

Prepare the top

Screw 6 metal dowels **B** into the top **3**.

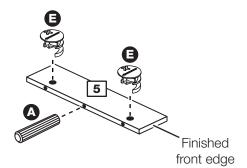

Step 16

Prepare the divider

Tap a wooden dowel (A) into the divider 5.

Insert 2 large locking nuts (a) into the divider [5].

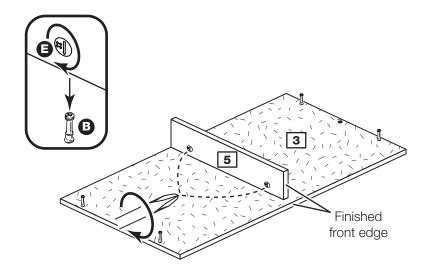

Step 17

Fit the divider to the top

Push the divider **5** onto the top **3**.

Use a screwdriver to tighten the 2 large locking nuts (a) fitted to the divider [5].

Note: Turn the large locking nuts (a) as far as they will go - more than 1/2 a turn.

Step 18

Fit the top

Lower the top **3** down onto the assembly.

Use a screwdriver to tighten the 4 large locking nuts (a) fitted to the sides (1) and (2).

Carefully lay the unit back down onto its front edges for the next step.

Warning: The unit is heavy. Lift with care.

Step 19

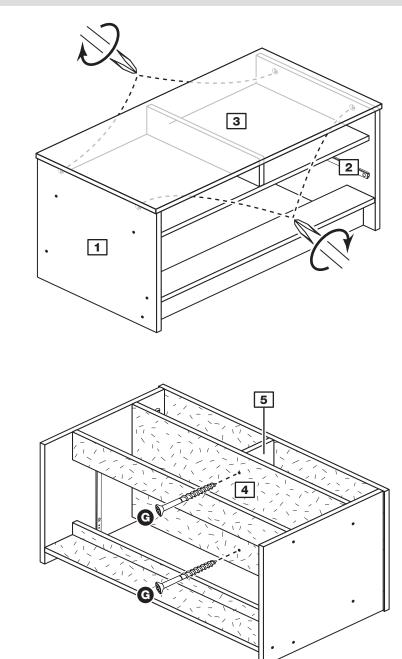

Secure the divider to the horizontal

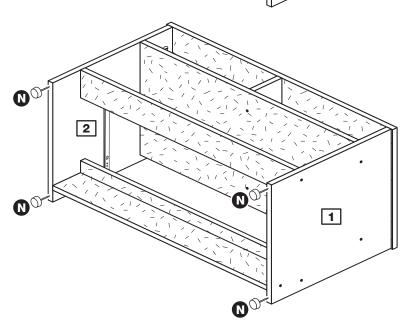

Screw up through the holes in the horizontal 4 and into the bottom edge of the divider 5 using 2 screws G.

Step 20

Fit the 4 plastic nails

Tap 2 plastic nails **()** into the bottom edge of each side **1** and **2** as shown.

Step 21

Fit the back

a: Square up the unit by making sure that measurement **x to x** equals y to y.

b: Place the back **12** onto the unit.

Note: The gaps either side are for cable management.

Nail **D** the back **12** onto the back edges of the unit as shown.

Stand the unit up for the next step.

Marning: The unit is heavy. Lift with care.

Step 22

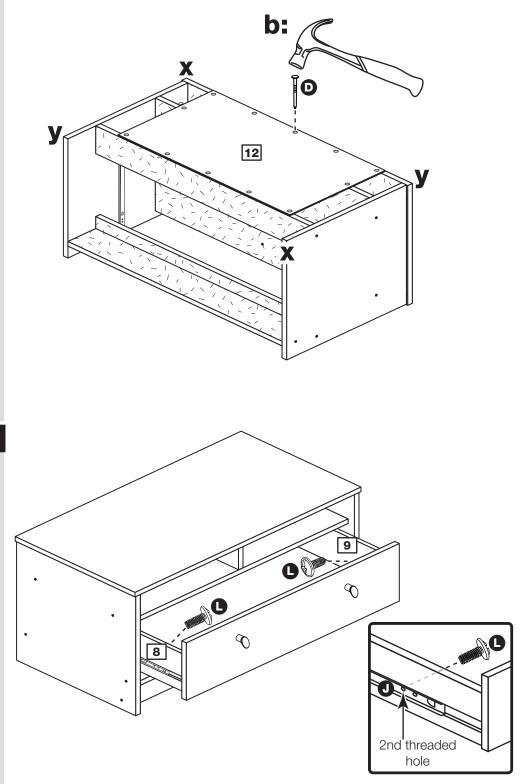

Fit the drawers

Starting with the bottom drawer, slide both the runners forward and locate the drawer sides and s between them, lining up the holes in the drawer wrap with the 2nd 'threaded' holes in the runners f.

Working from the inside of the drawer, insert 2 screws through the drawer sides and out into the 2nd threaded hole in the runner.

Assembly is complete

a: The measurement from top corner X to bottom corner X must be equal to the measurement from top corner Y to bottom corner Y

Note: Do not overtighten the screws. If they catch on the runner you may need to loosen them slightly.
