#### Disposal of Old Electrical & **Electronic Equipment** (Applicable in the European Union and other European countries with separate

collection systems) This symbol on the product or on its packaging indicates that this product shall not be treated as household waste. Instead it shall be handed over to the applicable collection point for the recycling of electrical and electronic equipment. By ensuring this product is disposed of correctly, you will help prevent potential negative consequences for the environment and human health, which could otherwise be caused by inappropriate waste handling of this product. The recycling of materials will help to conserve natural resources. For more detailed information about recycling of this product, please contact your local Civic Office, your household waste disposal service or the shop where you purchased the product.

### Disposal of waste batteries (applicable in the European Union and other European **Pb** countries with separate collection systems)

This symbol on the battery or on the packaging indicates that the battery provided with this product shall not be treated as household waste. On certain batteries this symbol might be used in combination with a chemical symbol. The chemical symbols for mercury (Hg) or lead (Pb) are added if the battery contains more than 0.0005% mercury or 0.004% lead. By ensuring these batteries are disposed of correctly, you will help prevent potentially negative consequences for the environment and human health which could otherwise be caused by inappropriate waste handling of the battery. The recycling of the materials will help to conserve natural resources

In case of products that for safety, performance or data integrity reasons require a permanent connection with an incorporated battery, this battery should be replaced by qualified service staff only. To ensure that the battery will be treated properly, hand over the product at endof-life to the applicable collection point for the recycling of electrical and electronic equipment For all other batteries, please view the section on how to remove the battery from the product safely. Hand the battery over to the applicable collection point for the recycling of waste batteries

For more detailed information about recycling of this product or battery, please contact your local Civic Office, your household waste disposal service or the shop where you purchased the product

# WARNING

To reduce the risk of fire, do not cover the ventilation opening of the appliance with newspapers, tablecloths, curtains, etc. Do not expose the appliance to naked flame sources (for example, lighted candles).

To reduce the risk of fire or electric shock, do not expose this appliance to dripping or splashing, and do not place objects filled with liquids, such as vases, on the appliance

Do not install the appliance in a confined space, such as a bookcase or built-in cabinet.

As the main plug is used to disconnect the unit from the mains, connect the unit to an easily accessible AC outlet. Should you notice an abnormality in the unit, disconnect the main plug from the AC outlet immediately.

The unit is not disconnected from the mains as long as it is connected to the AC outlet, even if the unit itself has been turned off.

Do not expose batteries or appliances with battery-installed to excessive heat, such as sunshine and fire

This equipment has been tested and found to comply with the limits set out in the EMC Directive using a connection cable shorter than 3 meters.

#### Notice for customers: the following information is only applicable to equipment sold in countries applying EU directives.

This product has been manufactured by or on behalf of Sony Corporation, 1-7-1 Konan Minatoku Tokyo, 108-0075 Japan. Inquiries related to product compliance based on European Union legislation shall be addressed to the authorized representative, Sony Deutschland GmbH, Hedelfinger Strasse 61, 70327 Stuttgart, Germany. For any service or guarantee matters, please refer to the addresses provided in the separate service or guarantee documents.

Hereby, Sony Corp., declares that this equipment is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/

For details, please access the following URL: http://www.compliance.sonv.de/

### For customers in Australia and New Zealand

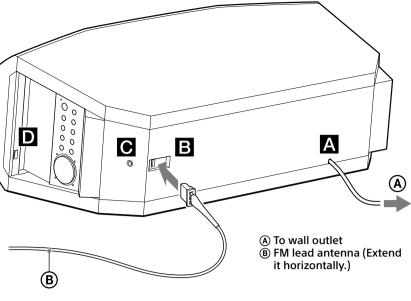

This equipment should be installed and operated with at least 20 cm and more between the radiator and person's body (excluding extremities: hands, wrists, feet and ankles).

Personal Audio System

# **Getting Started**

### Connect the power cord 🕭 to a wall outlet

The demonstration appears in the display 🔢. When you press  $u \oplus$  🥑 🗐, the system turns on and the demonstration automatically ends.

If the supplied adaptor on the plug does not fit your wall outlet, detach it from the plug (only for models equipped with an adaptor).

When inserting the connector of FM lead antenna B, make sure to insert it in the correct orientation. Find a location and an orientation that provide good reception when you set up the antenna. Keep the antenna away from the power cord to avoid picking up noise.

### • AUDIO IN (external input) jack

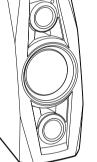

Connect optional external equipment using an audio connecting cable (not supplied).

Connect an iPod/iPhone or USB device using a USB cable (not supplied).

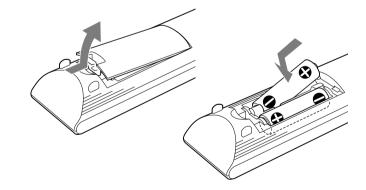

The system can be installed either vertically or horizontally. Select the installation style based on your

### Horizontal installation

Vertical installation

# Using the remote

•With normal use, the batteries should last for about 6 months • Do not mix an old battery with a new one or mix different types of batteries

• If you do not use the remote for a long period of time, remove the batteries to avoid damage from battery leakage and corrosion

- **1** Press  $I/\bigcirc$  **9** to turn on the system
- **2** Press TIMER MENU 23 to select the clock set mode.
- 4 Use the same procedure to set the minutes.

# Operations

## Using the BLUETOOTH function

You can listen to music from your "WALKMAN" or BLUETOOTH device over a wireless connection. Before using the BLUETOOTH function, perform pairing to register your BLUETOOTH device.

The system supports registration and connection of the BLUETOOTH device and NFC, which enables data communication by just touching a specified location. For details on NFC, see "Connecting by one-touch action (NFC)."

#### What is pairing?

The BLUETOOTH devices to be connected must be registered with each other beforehand. Pairing is an operation of registering two devices. Once a pairing operation is performed, it does not have to be performed again. In the following cases, however, a pairing operation must be performed again:

- Pairing information was erased when the BLUETOOTH device was repaired.
- You attempt to pair the system with more than 10 BLUETOOTH devices. This system can pair with up to 9 BLUETOOTH devices. If you pair another BLUETOOTH device after pairing with 9 devices was performed, pairing information of the device that was connected with the system first is overwritten with that of the new device.
- Pairing registration information of this system is erased from the connected device.
- If you initialize the system or erase the pairing history with the system, all the pairing information will be erased.

### About the BLUETOOTH indicator

The BLUETOOTH indicator in the center of the BLUETOOTH button **4** allows checking the BLUETOOTH status.

System status	Indicator status
The system is in BLUETOOTH Standby (when the system is on)	Flash slowly in blue. ).
During BLUETOOTH pairing	Flash quickly in blue.
The system is attempting to connect with a BLUETOOTH device.	Flash in blue.
The system has established in connection with a BLUETOOTH device.	Lit in blue.

#### Enabling reception of AAC codec

You can receive data in AAC codec format from a BLUETOOTH device. To enable reception, set up using the option menu.

- **1** Press BLUETOOTH FUNCTION **7** on the remote or press BLUETOOTH 4 on the unit until "BT AUDIO" appears in the display 13.
- 2 Press OPTIONS 22 to display the setting menu. 3 Press ◆/◆ 26 repeatedly to select "BT AAC,"
- then press 🕀 20 4 Press ◆/◆ 26 repeatedly to select "ON" or

"OFF." then press 🕀 20 **ON:** to enable reception in AAC codec format **OFF:** to receive in SBC or aptX codec format

#### Notes

• If you initiate setup during BLUETOOTH connection, the connection is cut. When using an Apple product, update it to the latest

software version. For details on updating, refer to the operation manual supplied with your Apple product • If sound is interrupted during reception in AAC codec format, set the BT AAC menu to "OFF."

#### Pairing this system with a BLUETOOTH device

#### **BLUETOOTH** device such as a "WALKMAN"

- **1** Place the BLUETOOTH device to be connected within 1 meter from the system.
- 2 Press BLUETOOTH FUNCTION 7 on the remote or press BLUETOOTH 4 on the unit until "BT AUDIO" appears in the display 13. • The BLUETOOTH indicator 4 flashes slowly
- in blue. If the system has been automatically connected with the BLUFTOOTH device in
- the past, press BLUETOOTH 4 on the unit to cancel the connection so that "BT AUDIO" appears in the display **13**.
- **3** Press and hold BLUETOOTH 4 on the unit for 2 seconds or longer. The BLUETOOTH indicator **4** flashes quickly in

blue and "PAIRING" flashes in the display 13. The system is in Pairing mode.

- **4** Perform the pairing operation on the BLUETOOTH device and search for this system
- with the BLUETOOTH device. When searching has finished, a list of the devices found may appear on the BLUETOOTH
- device display • This system appears as "SONY:GTK-N1BT." If it
- does not appear, perform the procedure from step 1 again
- When establishing connection with this system, select the audio profile (A2DP, AVRCP) on the BLUETOOTH device.
- If the BLUETOOTH device does not support AVRCP (Audio Video Remote Control Profile) you cannot perform playback or other operations with the system
- For details on operations of the BLUETOOTH device to be connected, refer to the operation manual supplied with your BLUETOOTH device
- **5** Select "SONY:GTK-N1BT" in the display of the BLUETOOTH device. If prompted to enter a passkey on the

BLUETOOTH device, enter "0000.

**6** Operate the BLUETOOTH device and perform **BLUETOOTH** connection.

When pairing is completed and connection with the BLUETOOTH device is established correctly, the display 13 changes to "BT AUDIO" from "PAIRING" and the BLUETOOTH indicator flashes slowly in blue.

• Depending on the type of BLUETOOTH device, connection may start automatically after pairing is completed.

- "Passkey" may be called "Passcode," "PIN code," "PIN number" or "Password," etc., depending on the device The pairing standby status of the system is cancelled after about 5 minutes. If pairing is not successful, perform the procedure from step 1.
- If you want to pair with several BLUETOOTH devices, perform the procedure from steps 1 to 6 individually for each BLUETOOTH device

#### ou can perform a pairing operation or attempt to make a BLUETOOTH connection with another BLUETOOTH device while the BLUETOOTH connection is established with one BLUETOOTH device. The currently established BLUETOOTH connection is cancelled when BLUETOOTH connection with another device is successfully established.

### To erase the pairing registration information

1 Press BLUETOOTH FUNCTION 7 on the remote or press BLUETOOTH 4 on the unit until "BT AUDIO" appears in the display 13 When the system is connected with a BLUETOOTH device, the device name set for the

connected BLUETOOTH device appears in the display 13 of the system. Press BLUETOOTH 4 on the unit to cancel the connection with that BLUETOOTH device then display "BT AUDIO."

### 2 Press CLEAR 28

"DEL LINK" flashes

**3** Press 🕀 **20**. "COMPLETE" appears and all the pairing information is erased.

• If you erase the pairing information, you cannot make a BLUETOOTH connection unless pairing is performed. In order to connect with a BLUETOOTH device after performin this operation, you must enter the passkey again • If you erase the pairing information, the BLUETOOTH Standby mode setting is set to off.

### Connecting by one-touch action (NFC)

NFC enables data communication by just touching your device to a specified location. Compatible smartphones are those equipped with the NFC function (compatible operating system: Android version 2.3.3 or later with the exception of Android 3.x).

Check the website below for information on compatible devices. For customers in Europe

http://support.sony-europe.com/ For customers in Latin America:

http://www.sony-latin.com/index.crp For customers in other countries/regions

# http://www.sony-asia.com/support

### Preparation on your smartphone (Android)

An NFC-compliant application must be installed on your smartphone. If not installed, you can download "NFC Easy Connect" from Google Play • In some countries and regions, NFC-compliant

application may not be downloaded. • For some smartphones, this function may be available without downloading "NFC Easy Connect." In this case, the operation and specifications of the smartphone may be different from the description in this manual.

### **1** Install the application.

If you access using 2D Code Use the 2D Code Reader application.

If the application is not found at the website above, search "NFC Easy Connect" on Google Play and install it.

2 Set your smartphone to enable NFC function For details, refer to the user's guide supplied with your smartphone.

Depending on the BLUETOOTH device, you may have to

hese operations may not be available for certain BLUETOOTH devices. In addition, the actual operations may differ depending on the connected BLUETOOTH device.

#### To check the address of a connected **BLUETOOTH device**

Press DISPLAY 15 while the BLUETOOTH device name set on the connected BLUETOOTH device is shown in the display **13**. The BLUETOOTH device address appears in two installments on the system display for 8 seconds.

#### To cancel the connection with a **BLUETOOTH device**

Press BLUETOOTH 4 on the unit. "UNLINKED appears in the display 13 Depending on the BLUETOOTH device, the connection may be cancelled automatically when you stop playback.

# Setting the BLUETOOTH Standby mode

When BLUETOOTH Standby mode is enabled the system enters Wait mode for BLUETOOTH connection even when the system is turned off If the system receives a playback command from the connected BLUETOOTH device, it turns on and music is played back. The BLUETOOTH Standby mode is disabled by default.

- 1 Press BLUETOOTH FUNCTION 7 on the remote or press BLUETOOTH 4 on the unit until "BT AUDIO" appears in the display 13.
- 2 Press OPTIONS 22 to display the setting menu. 3 Press ◆/◆ 26 repeatedly to select "BT STBY,"
- then press 🕀 20.
- 4 Press ◆/ ◆ 26 repeatedly to select "ON" or "OFF," then press 🕀 20.
- **5** Press  $I/\bigcirc$  **9** to turn off the system. When "BT STBY" is set to "ON," the system turns on and you can listen to music by activating BLUETOOTH on the connected component.

# App Remote via BLUETOOTH wireless technology (Android phone)

Downloading the "App Remote" application from Google Play is required for Android phone. If the application is downloaded to an Android phone connected to the unit, the following features are available

- –Operate the unit to launch and control compatible applications on Android phone.
- –Operate Android phone with simple finger
- gestures to control the source of the unit. -Display detailed source information (song title,
- artist name, album art, etc.) on Android phone. -Read out incoming text messages/SMS
- automatically. Available operations differ depending on the application. For details on available applications,
- visit the support site below: For customers in Europe

#### http://support.sony-europe.com/ For customers in Latin America:

http://www.sony-latin.com/index.crp For customers in other countries/regions http://www.sony-asia.com/support

# To install the application

If you access using 2D Code Use the 2D Code Reader application

If the application is not found at the website above, search for "App Remote" on Google Play and install it.

-The "App Remote" application via the BLUETOOTH function is only available for Android phones with Android 2.2, 2.3, 4.0 or 4.1 installed.

-Automatic reading of the SMS function is only available for Android phones with TTS Engine installed.

### Two-way music control with Android phone

Before connecting the mobile device, turn down the volume of the unit

- **1** Connect this unit and the mobile device via the BLUETOOTH function.
- **2** Start up the "App Remote" application. If the function of the unit does not appear on the application, press and hold BLUETOOTH **4** on the unit for more than 2 seconds. Some playback operations of the unit can be controlled by the mobile device. For details on the operations on the mobile device, see the help of the application.

## Playing a file of the USB device

The audio format that can be played back on this system is MP3/WMA\*/AAC\*/WAV.

Files with DRM (Digital Rights Management) copyrigh protection or files downloaded from an online music store cannot be played on this system. If you try to play one of these files, the system plays the next unprotected audio Check the websites below for the information

about compatible USB devices.

For customers in Europe

http://support.sony-europe.com/ For customers in Latin America http://www.sony-latin.com/index.crp

For customers in other countries/regions http://www.sony-asia.com/support 1 Press USB FUNCTION 7 on the remote or

#### press FUNCTION 7 on the unit repeatedly until "USB" appears in the display 13 **2** Connect the USB device to the USB port **D** on

the unit. If the system does not recognize the USB device, disconnect the USB device and reconnect it.

3 Press ► 10 on the remote or ►11 10 on the unit to start playback.

#### Other operations

То	Press
Pause playback	Press II 10 on the remote or II 10 on the unit. To resume play, press the button again.
Stop playback	■ (stop) 11. To resume play, press ▶ 10 on the remote or ▶11 10 on the unit.*1 To cancel resume play, press ■ 11 again* <sup>2</sup> .
Select a folder	+/- 26 (+ +/- 6 on the unit) repeatedly.
Select a file	Ided (go back)/►►I (go forward) 12.
Find a point in a file	Hold down ◄◄ (rewind)/►► (fast forward) 12 (I◄◄ /►► 12 on the unit) during playback, and release the button at the desired point.
Select Repeat Play	REPEAT 19 repeatedly until "♀" (repeat all tracks) or "♀1"

\*1 When plaving a VBR MP3/WMA file, the system may resume playback from a different poir \*2 Resume play returns to the top folde

(repeat one track) appears.

#### To change the play mode

Press PLAY MODE 18 repeatedly. You can select Normal Play mode (playback in sequence of all files on the USB device), Folder Play mode ("FLDR" for all files in the specified folder on the USB device), or Shuffle Play mode ("SHUF").

#### Notes on the play mode

•When you select Shuffle Play mode "SHUF," the system shuffle-plays all audio files on the connected USB device in random order. Shuffle Play mode may play the same file repeatedly

•When the play mode is set to Folder Play mode, "-1" is not available.

- •When the play mode is set to Shuffle Play mode, the repeat function is not available •When repeat play is set, Shuffle Play mode is not available.
- When repeat play is set to " **1**," Folder Play mode is not available

•When you turn off the system, the selected Shuffle Play mode ("SHUF") is cleared and the play mode returns to Normal Play mode.

#### Note on Repeat play

If you select "
"
"
when the system is in Normal Play mode, the system executes repeat play of all audio files on the USB device until you stop playback. If you select "
"
"
when the system is in Folder Play mode, the system executes repea play of all audio files in the selected folder until you stop playback

#### Notes

•When USB cable connection is necessary, connect the USB cable supplied with the USB device. See the operation manual supplied with the USB device for details on the

 It may take about 10 seconds before "READING" appears depending on the type of USB device connected. • Do not connect the system and the USB device through a

USB hub. •When the USB device is connected, the system reads all the files on the USB device. If there are many folders or files on the USB device, it may take a long time to finish reading the

USB device. •With some connected USB devices, after an operation is performed, there may be a delay before it is performed by

this system. •Compatibility with all encoding/writing software cannot be guaranteed. If audio files on the USB device were originally

encoded with incompatible software, those files may produce noise or interrupted sound, or may not be played back at all.

• This system cannot play audio files on the USB device in the following cases; -when the total number of audio files in a folder exceeds

-when the total number of audio files on a USB device

exceeds 65.536. -when the total number of folders on a USB device

exceeds 256 (including the "ROOT" folder and empty folders).

These numbers may vary depending on the file and folder structure. Do not save other types of files or unnecessary folders on a USB device that has audio files.

•The system can play back to a depth of 8 folders only. • This system does not necessarily support all the functions

provided with a connected USB device. Resume play will be cancelled when you disconnect the power cord.

• Folders that have no audio files are skipped. The audio formats that you can listen to with this system are as follows:

-MP3: file extension ".mp3"

-WMA: file extension ".wma"

-AAC: file extension ".m4a" -WAV: file extension ".wav"

Note that even when file name has the correct file extension, if the actual file differs, the system may produce oise or may malfunctio Disconnect the USB device after stopping playback.

To use the system as a battery charger You can use the system as a battery charger for USB devices that have a rechargeable function when the system is on

Press USB FUNCTION 7 on the remote or press FUNCTION 7 on the unit repeatedly until "USB" appears in the display **13**. The charging begins when the USB device is connected to the USB port **D**. The charge status appears on the USB device display. For details, see the user's guide of your USB device.

# Playing the iPod/iPhone

- **1** Press USB FUNCTION **7** on the remote or press FUNCTION 7 on the unit repeatedly until "USB" appears in the display 1.
- **2** Connect the iPod/iPhone to the USB port on the unit using the USB cable supplied with the iPod/iPhone "USB" in the display **13** changes to "iPod."
- If the display does not change to "iPod." disconnect the iPod/iPhone and reconnect it 3 Press ► 10 on the remote or ►II 10 on the unit to start playback.

#### To control the iPod/iPhone

0	Press
ause playback	Press II 10 on the remote or ▶II 10 on the unit.
top playback	■ (stop) 11.
elect a track r chapter of udiobook/ odcast	I≪ (go back)/►►I (go forward) [12].
ind a point in a rack or chapter f audiobook/ odcast	Hold down ◄◄ (rewind)/►► (fast forward) 12 (I◄◄ /►► 12 on the unit) during playback, and release the button at the desired point.

#### To use the system as a battery charger

You can use the system as a battery charger for an iPod/iPhone when the system is on. Press USB FUNCTION 7 on the remote or press FUNCTION **7** on the unit repeatedly until "USB" appears in the display **13**. Connect the iPod/iPhone to the USB port **D** when the iPod/iPhone player is stopped, and the charging begins. The charging status appears on

the iPod/iPhone display. For details, see the user's guide of your iPod/ iPhone.

#### To stop charging an iPod/iPhone Remove the iPod/iPhone.

#### Note on charging an iPod/iPhone

e the iPod/iPhone when the system is off. Some iPod/iPhone may not be charged owing to their characteristics

- Turn the "Shake to Shuffle" function off on the iPod/iPhone to avoid unexpected track changes when listening to musiat high volumes. • If the battery of the iPod/iPhone is empty, the system may
- not recognize it. In such a case, recharge it with a computer, etc. then connect it to the system
- The performance of the system may vary, depending on the specifications of your iPod/iPhone. •Hold down H / >> 12 to fast-rewind (or fast-forward)
- vhile playing video if 🔫 / 🍽 1 does not functio • To change the volume, press VOLUME +/- 21 on the remote or turn the volume dial 14 on the unit. The volume
- vel does not change if you adjust it on the iPod/iPhone • To use an iPod/iPhone, refer to the user's guide of your iPod/iPhone.

• Sony cannot accept responsibility in the event that data ecorded to iPod/iPhone is lost or damaged when using an iPod/iPhone with this system.

### Listening to the radio

- **1** Press TUNER FUNCTION **7** on the remote or press FUNCTION 7 on the unit repeatedly until "FM" appears in the display 13.
- **2** Perform tuning.

#### For automatic scanning

Press TUNING MODE **18** repeatedly until "AUTO" appears, and then press TUNING +/-12. Scanning stops automatically and "ST" (for stereo programs only) light up in the display 13 when a station is found.

### 8750

The scanning does not stop, press 🔳 1 to stop scanning, then perform manual tuning (below). When you tune to an FM station that provides RDS services, information such as the service name or station name is provided by broadcasts.

#### For manual tuning

Press TUNING MODE 18 repeatedly until "MANUAL" appears, and then press TUNING +/- 12 repeatedly to tune to the desired station.

o reduce static noise on a weak FM stereo station, press FM MODE 19 repeatedly until "MONO" appears to turn of stereo reception. You will lose stereo effect, but reception will improve.

### Presetting radio stations

- 1 Tune to the desired station.
- 2 Press TUNER MEMORY 25 to select the tuner

memory mode Preset number

The USB device is not working properly. • Refer to the USB device operation manual for how to deal with this problem.

### Plav does not start

"USB" function

- Turn off the system and reconnect the USB device, then turn on the system • Check the information on the websites about
- compatible USB devices with URLs listed under "Playing a file of the USB device."
- Press ► 10 on the remote or ►II 10 on the unit to start playback.

#### Play does not start from the first track. • Set the play mode to Normal Play mode.

- Files cannot be played back.
- The audio file does not have the extension ".mp3," ".wma," ".m4a" or ".wav.' The data is not created in MP3/WMA/AAC/WAV
- format USB devices formatted with file systems other
- than FAT16 or FAT32 are unsupported. If you use a partitioned USB device, only files on the first partition can be played
- Files that are encrypted or protected by passwords, etc. cannot be played back.
- This system supports FAT16 and FAT32, but some USB devices may not support all of these FAT. For details, see the operation manual of each USB device or contact the manufacturer

### Reading takes a long time.

Reduce the number of folders or files.

### iPod/iPhone

- There is no sound. • Make sure the iPod/iPhone is connected
- securely • Make sure the iPod/iPhone is playing music. • Make sure the iPod/iPhone is updated with the latest software. If not, update the iPod/iPhone
- before using with the system Adjust the volume.
- The sound is distorted. Make sure the iPod/iPhone is connected securely
- Turn down the volume.
- Set the "EQ" setting of the iPod/iPhone to "Off" or "Flat

#### Unexpected track changes occur during playback.

 Turn the "Shake to Shuffle" function (changing tracks by shaking the iPod/iPhone) off on the iPod/iPhone when listening to music on the iPod/iPhone at high volumes. If this function is enabled, unexpected track changes may occur due to the vibrations caused by sound pressure from the system

### The iPod/iPhone does not function.

- If the battery of the iPod/iPhone is empty, it may not work with this system. In such a case, recharge it with a computer, etc. then connect it to the system.
- Quit all running applications on your iPod or iPhone before using it with the system. For details, refer to the operation manual supplied with the iPod/iPhone
- Make sure the iPod/iPhone is connected securely.
- Make sure the iPod/iPhone is updated with the latest software. If not, update the iPod/iPhone before using with the system.
- Because the operation of the system and the iPod/iPhone are different, you may not operate the iPod/iPhone using buttons on the remote or unit. In this case, use the control buttons on the iPod/iPhone

#### The iPod/iPhone cannot be charged.

- If the battery of the iPod/iPhone is empty, the system may not be able to charge it even you connect it to the system. In such a case, recharge it with a computer, etc. then connect it to the system.
- Make sure the iPod/iPhone is connected securely.
- The iPod/iPhone cannot be recognized. Disconnect the power cord and reconnect it after the STANDBY indicator **8** is turned off. Then turn the system back on.

# The ring volume of the iPhone does not

change. Adjust the ring volume on the iPhone.

#### Tuner

#### Severe hum or noise, or stations cannot be received. ( "ST" flashes in the display 13.)

- Connect the antenna properly • Try another place and orientation for better antenna reception
- Keep the antennas away from the power cord to avoid picking up noise
- Turn off any nearby electrical equipment.

# To reset the system to factory settings

If the system still does not operate properly, reset the system to factory settings Use buttons on the unit to reset the unit to its

- factory default settings. 1 Disconnect the power cord, and reconnect it
- after the STANDBY indicator **8** is turned off. Then turn on the system
- **2** While holding down  $\blacksquare$  11, press  $I/\bigcirc$  9. Hold down the two buttons simultaneously until "RESET" appears in the display **13**. All user-configured settings, such as preset radio stations, timer, and the clock, are deleted.

device within 10 meters

Effects on other devices

BLUETOOTH wireless technology is a short-range wireless technology linking digital devices, such as personal computers and digital still cameras. Using the BLUETOOTH wireless technology, you can operate the units involved within a range of

The BLUETOOTH wireless technology is commonly used between two devices, but a single device can be connected to multiple devices.

You do not need wires to get connected as you do with a USB connection, and you do not need to place the devices face to face as you do with wireless infrared technology. You can use the technology with one BLUETOOTH device in your

BLUETOOTH wireless technology is a global standard supported by thousands of companies These companies produce products that meet the

#### Supported BLUETOOTH version and

Profile refers to a standard set of capabilities for various BLUETOOTH product capabilities. See 'Specifications" for details on the supported BLUETOOTH version and profiles.

 To use a BLUETOOTH device connected to this system the device must support the same profile as this system Note that the functions of the BLUETOOTH device may be different depending on the specifications of the device, even if it has the same profile as this system. Because of the properties of BLUETOOTH wireless

echnology, playback on this system is slightly delaye compared with audio playback on the transmitting device

#### Effective communication range

BLUETOOTH devices should be used within approximately 10 meters (unobstructed distance) of each other. The effective communication range may become shorter under the following

-When a person, metal object, wall or other obstruction is between the devices with a

 Locations where a wireless LAN is installed -Around microwave ovens that are in use -Locations where other electromagnetic waves

BLUETOOTH devices and wireless LAN (IEEE 802.11b/g) use the same frequency band (2.4) GHz). When using your BLUETOOTH device near a device with wireless I AN capability electromagnetic interference may occur. This could result in lower data transfer rates, noise or inability to connect. If this happens, try the

-Try connecting this system and BLUETOOTH mobile phone or BLUETOOTH device when you are at least 10 meters away from the wireless

-Turn off the power to the wireless LAN equipment when using your BLUETOOTH

The radio waves broadcast by this system may interfere with the operation of some medical devices. Since this interference may result in malfunction, always turn off the power on this system, BLUETOOTH mobile phone and BLUETOOTH device in the following locations: -In hospitals, on trains, and in airplanes -Near automatic doors or fire alarms

 This system supports security functions that comply with the BLUETOOTH specification as a means of ensuring security during communication using BLUETOOTH technology. However, this security may be insufficien depending on the setting contents and other factors, so always be careful when performing communication using

Sony cannot be held liable in any way for damages or othe loss resulting from information leaks during communication

•BLUETOOTH communication is not necessarily guaranteed with all BLUETOOTH devices that have the same profile as

•BLUETOOTH devices connected with this system must comply with the BLUETOOTH specification prescribed by the BLUETOOTH SIG, Inc., and must be certified to comply. However, even when a device complies with the BLUETOOTH specification, there may be cases where the characteristics or specifications of the BLUETOOTH device make it impossible to connect, or may result in different control methods, display or operation •Noise may occur or the audio may cut off depending on

the BLUETOOTH device connected with this system, the communications environment, or surrounding conditions

#### Turning on or off the BLUETOOTH signal You can connect to the system from a paired

BLUETOOTH device in all functions when the system's BLUETOOTH signal is set to on. The BLUETOOTH signal is turned on by default.

Use the buttons on the panel to perform this

#### Hold down 🔳 1 and BLUETOOTH 4 on the unit

"BT ON" or "BT OFF" appears on the display

•You cannot perform the following operations when

 Using "App Remote" via BLUETOOTH Setting the BLUETOOTH Standby mode to "ON"

- When the BLUETOOTH signal is set to off, this system cannot be detected and connection cannot be established from BI LJETOOTH device
- If you touch the N-Mark on the panel with an NFCcompatible smartphone, the BLUETOOTH signal will be set
- to on automatically • When the power is turned off with the I/(1) 9 button the BLUETOOTH ON/OFF setting is retained. When the ver cord is disconnected and then reconnected, the BLUETOOTH setting will be set to on.
