Safety and Care Advice

Important - Please read these instructions fully before starting assembly

- · Check you have all the components and tools listed on pages 2 and 3.
- · Remove all fittings from the plastic bags and separate them into their groups.
- Keep children and animals away from the work area, small parts could choke if swallowed.
- Make sure you have enough space to layout the parts before starting.

- Do not stand or put weight on the product, this could cause damage.
- · Assemble the item as close to its final position (in the same room) as possible.
- · Assemble on a soft level surface to avoid damaging the unit or your floor.
- · Parts of the assembly will be easier with 2 people.

 To reduce the likelihood of damaging your product please ensure that your

power drill is set on a low torgue setting

Care and maintenance

- · Only clean using a damp cloth and mild detergent, do no use bleach or abrasive cleaners.
- · From time to time check that there are no loose screws on this unit.
- This product should not be discarded with household waste. Take to your local authority waste disposal centre.

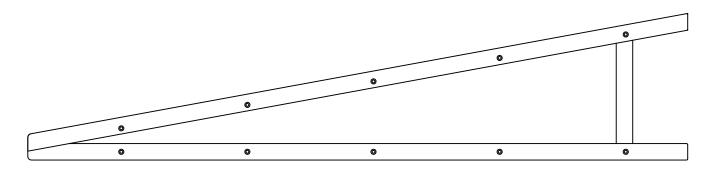

Handy Hints

- Assemble all parts and bolts loosely during assembly, only once the product is complete should you fully tighten the bolts
- Regularly check and ensure that all bolts and fittings are tightend properly.

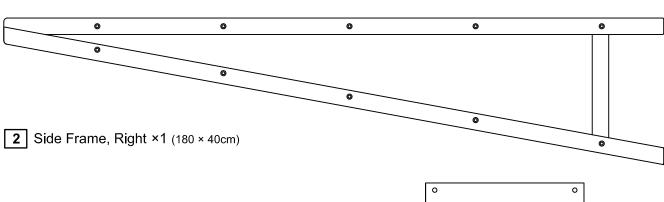

Note: if required the next page can be cut out and used as reference throughout the assembly. Keep this page with these instructions for future reference

Components - Panels If you have damaged or missing componets, call the Customer Helpline: Argos = 0345 6400 800

Please check you have all the panels listed below

1 Side Frame, Left ×1 (180 × 40cm)

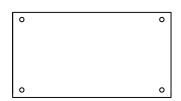

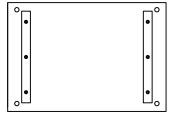

3 Shelf ×1 (43.2 × 10.7cm)

4 Shelf ×1 (43.2× 17cm)

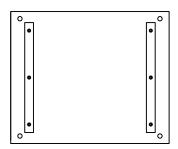

5 Shelf ×1 (43.2× 23.2cm)

Shelf ×1 (43.2× 29.7cm)

Shelf ×1 (43.2× 36cm)

Components - Fittings

Please check you have all tlohe fittings listed below

Note: The quantities below are the correct amount to complete the assembly. In some cases more fittings may be supplied than are required.

			B		Ø6×13mm	6	Φ4mm
70mm Screw × 20				Locking nut × 20		Allen key × 1	
O		Ø15×7mm Wooden plug × 20	0		L=158mm Wall strap × 1	(☼) (☼) (३) (३) (३) (३) (३) (३) (३) (३) (३) (३	< 1
©	0	Ø6×18mm Washer × 1					
Tools required							
Phillips screwdriver (medium & large) Flatblade screwdrive (medium)							Rubber mallet
Ruler - Use this ruler to help correctly identify the screws 0 5 10 15 20 25 30 35 40 45 50 55 60 65 70 75 80 85 90 95 100 105 110 115 120 125 130 135 140 145 150 155 160 165 170							

Step 1

a.Insert 2 Locking nuts

to the holes pre-drilled, in the Shelf 7 make the holes align.

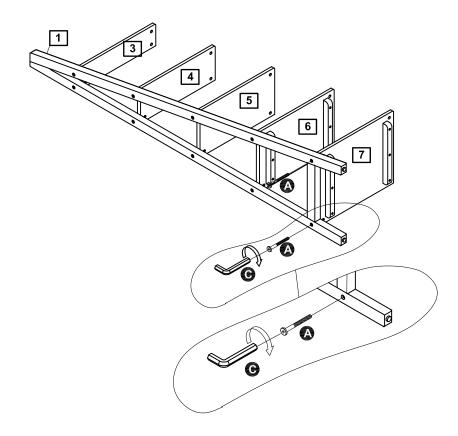

The shelf shall position as right figure (with radiused edge upward).

Step 2

Insert 2 Screws into the holes pre-drilled in the shelf, tightening it using Allen key **©** .

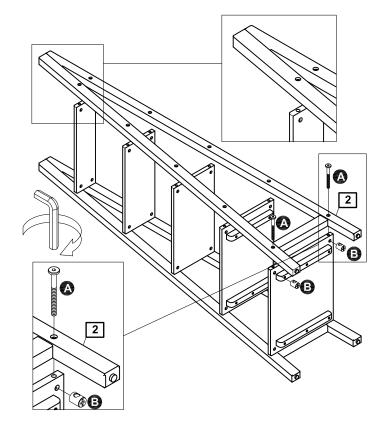

Repeat above steps to the other shelves.

Step 3

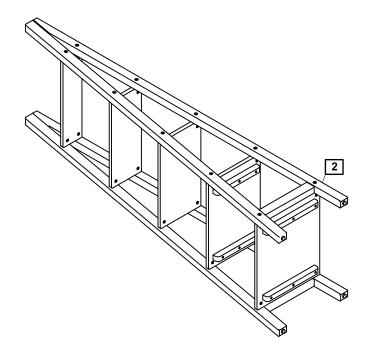

a.Insert 2 Locking nuts

to the holes pre-drilled,
in the Shelf 7 make the
holes align, insert 2
Screws into the Side
Frame, Left 2 towards
to the holes in the Shelf,
tightening them using
Allen key .

Step 4

Repeat above steps to the other side frame.

Wall Mounting & Fixings

IMPORTANT:

When drilling into walls always check that there are no hidden wires or pipes etc. Make sure that the screws and wall plugs being used are suitable for supporting your unit. Consult a qualified tradesperson if you are unsure.

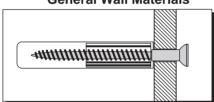

HINTS:

- 1) General Rule $\stackrel{\frown}{}$ Always use a larger screw and wall plug if you are not sure.
- 2) Ensure you use the recommended drill bit to match the wall plug and hole size.
- 3) Ensure you drill the hole horizontally, do not force the drill or enlarge the hole.
- 4) Take extra care when drilling high walls, ceilings and ceramic tiles. Ensure the plug is fitting below the ceramic tile to avoid splitting or cracking.
- 5) Ensure wall plugs are well fitted and are a tight fit in the drilled hole.

Types Of Walls

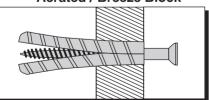

You can use one of the following types of wall plug if your walls are made of brick, breeze block, concrete, stone, wood or plaster board.

No.1 "Standard" Wall Plug **General Wall Materials**

These come in various sizes and are made from plastic or sometimes wood fiber.

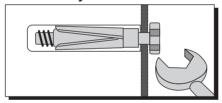

No.2 "General Purpose" Wall Pluq Aerated / Breeze Block

Generally aerated blocks should not be used to support heavy loads, use a specialist fitting in this case.

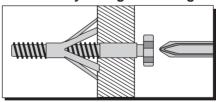

For light loads, a General Purpose Plug can be used.

No.3 "Shield Anchor" Wall Plug **Heavy Loads**

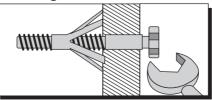

For use with heavier loads such as TV & HiFi Speakers and Satellite Dishes etc.

No.4 "Cavity Fixing" Wall Plug

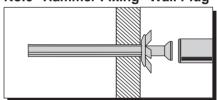

For use with plaster board partitions or hollow wooden doors.

No.5 "Cavity Fixing - Heavy Duty" **Wall Plug**

For use when fitting or supporting heavy loads such as shelving, wall cabinets, coat racks.

No.6 "Hammer Fixing" Wall Plug

For use with walls stuck with plaster board. The hammer fixing allows it to be fixed to the wall rather than the plaster board. Always check the fixing is secure to the retaining wall.

CARE & MAINTENANCE

$^{\prime !}ackslash$ SAFETY

Always check the fitting and location to ensure your safety in and around the home.

From time to time check the fitting to ensure the wall plugs or screws do not become loose.
