# Safety and Care Advice

**Important** – Please read these instructions fully before starting assembly

Check you have all the components and tools listed on the front cover and pages 2 - 3.

Remove all fittings from the plastic bags and separate them into their groups.

Keep children and animals away from the work area, small parts could choke if swallowed.

Make sure you have enough space to layout the parts before starting.

Do not stand or put weight on the product, this could cause damage.

Assemble the item as close to its final position (in the same room) as possible.

Do not place furniture directly in front of radiators, fires or any other source of heat.

Parts of the assembly will be easier with 2 people.

Assemble on a soft level surface to avoid damaging the unit or your floor.

We do not recommend the use of power drill/ drivers **for inserting screws**, as this could

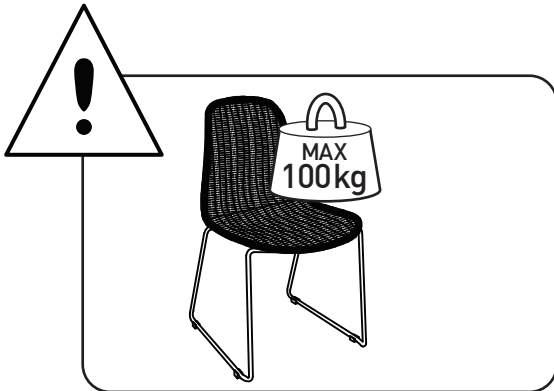

damage the unit. Only use hand screwdrivers.

## General care and maintenance

Only clean using a damp cloth and mild detergent, do not use bleach or abrasive cleaners.

From time to time check that there are no loose screws on this unit.

This product should not be discarded with household waste. Take to your local authority waste disposal centre.

## General information
