Safety and Care Advice

Important - Please read these instructions fully before starting assembly

- Check you have all the components and tools listed on pages 1 and 2.
- Remove all fittings from the plastic bags and separate them into their groups.
- Keep children and animals away from the work area, small parts could choke if swallowed.
- Make sure you have enough space to layout the parts before starting.

- Do not stand or put weight on the product, this could cause damage.
- Assemble the item as close to its final position (in the same room) as possible.
- Assemble on a soft level surface to avoid damaging the unit or your floor.
- Parts of the assembly will be easier with 2 people.

• We do not recommend the use of power drill/drivers for inserting screws, as this could damage the unit. Only use hand screwdrivers.

- Dispose of all packaging carefully and responsibly.

Glue safety - Take care when using glue, please follow the advice below

- Skin contact: Remove contamination by washing with soap and water. This procedure should also be followed prior to eating and drinking.

- Eye contact: Rinse immediately with clean water for 15 minutes and seek medical advice.

- If swallowed: Seek medical advice immediately.

Care and maintenance

- Only clean using a damp cloth and mild detergent, do not use bleach or abrasive cleaners.

- From time to time check that there are no loose screws on this unit.

- This product should not be discarded with household waste. Take to your local authority waste disposal centre.

Handy Hints

- Assemble all parts and bolts loosely during assembly, only once the product is complete should you fully tighten the bolts
- Regularly check and ensure that all bolts and fittings are tightened properly.

Components - Panels

If you have damaged or missing components,
call the Customer Helpline: 0845 6400800

Please check you have all the panels listed below

1 Top x1
(48cm x 28cm)

2 Left side x1
(58.6cm x 26.3cm)

3 Right side x1
(58.6cm x 26.3cm)

4 Bottom x1
(44.6cm x 26cm)

5 Front bar x1
(26cm x 5cm)

6 Adjustable shelf x1
(44.5cm x 25.7cm)

7 Left door x1
(51.6cm x 23.6cm)

8 Right door x1
(51.6cm x 23.6cm)

9 Back x2
(54cm x 11.3cm)

10 Support block x1
(8cm x 3cm)

Components - Fittings

If you have damaged or missing components, call the Customer Helpline: 0845 6400800

Please check you have all the fittings listed below

Note: The quantities below are the correct amount to complete the assembly. In some cases more fittings may be supplied than are required.

A  30mm wooden dowel x 2	B  Male camlock x 8	C  Female camlock x 8	D  Glue x 1
E  Handle x 2	F  21mm Handle screw x 4	G  Wall strap x 2	H  32mm Screw & washer x 2
I  Hinge x 4	J  14mm Screw x 16	K  Wall Plug x2	L  12mm Screw x 16
M  Shelf Support x 4	N  25mm Sticker x 4	O  Catch Plate x 1	P  14mm Screw x 2
Q  20mm Screw x 2	R  30mm wooden dowel x 6		

Tools required

Phillips screwdriver
(medium & large)

7mm Suitable drill bit
(for use with wall plug)

Drill

Small
hammer

Ruler - Use this ruler to help correctly identify the screws

The screws length is measured from the head to the point (30mm screw shown).

Using Camlocks

Step 1

Connect the male camlock as directed in the assembly instructions using a screwdriver.

Step 2

Insert the female camlock as shown in the instructions.

Note: ensure that the arrow on the top of the camlock points towards the entry hole for the male camlock.

Step 3

Push the male camlock into the entry hole.

Step 4

Turn the female camlock clockwise with a screwdriver.

You should feel a click when the camlock is locked in place.

The joint is now secure.

Assembly Instructions

Step 1

Fitting Male camlock

1. Insert 8 x male camlocks **B** in to the top **1**, left side **2** and right side **3**.

Step 2

Fitting dowels

1. Glue and insert 2 x wooden dowels **A** into left side **2** and right side **3**
2. Glue and insert 16 x wooden dowels **R** into bottom **4** & Front bar **5**

Assembly Instructions

Step 3

Attaching panels

1. Attach front bar **5** to bottom **4**.

Step 4

1. Attach bottom **4** front & bar **5** to left side **2**
2. Insert 2 x female camlocks **C** to bottom **4**.

Use a screwdriver to turn the female camlock clockwise to lock. Please refer to the "Using Camlocks" section at the front of this instruction for further assistance.

Assembly Instructions

Step 5

1. Attach right side **3** to bottom **4** & front bar **5**.
2. Insert 2 x female camlocks **C** to bottom **4**.

Use a screwdriver to turn the female camlock clockwise to lock. Please refer to the "Using Camlocks" section at the front of this instruction for further assistance.

Step 6

1. Attach support block **10** to top **1** with 2 x screw **Q**.
2. Attach 1 x Catch plate **O** to support block **10** with 2 x screw **P** as shown.

Assembly Instructions

Step 7

1. Attach top **1** to left side **2** & right side **3**.
2. Insert 4 x female camlocks **C** to left side **2** & right side **3**.

Use a screwdriver to turn the female camlock clockwise to lock. Please refer to the "Using Camlocks" section at the front of this instruction for further assistance.

Step 8

1. Attach left back **9** & right back **10** to the reverse of the unit with 16 x screw **L** in position shown. Use a Phillips Screwdriver to tighten

Assembly Instructions

Step 9

1. Attach 4 x hinges **I** to the left door **7** & right door **8** with 8 x screws **J** as shown.
2. Attach 2 x handles **E** with 4 x screws **F** as shown.

Step 10

1. Attach left door **7** & right door **8** to the unit with 8 x screw **J** as shown.
2. Cover visible camlocks with 4 x stickers **N** as shown

Assembly Instructions

Step 11

1. Insert shelf supports **M** into the holes inside the unit in the desired position

2. Place adjustable shelf **6** on the shelf supports.

Step 12

1. Using 2 x screw & washer **H** secure 2 x wall straps **G** to the back of left back **9** & right back **10**

Assembly Instructions

Step 13

It is recommended that the unit is fixed to a wall.

1. Move the unit into desired position.

2. Mark the wall with a suitable scribe the position of the fixing holes.

Warning:

Before drilling, check wall for hidden pipes and cables.

3. Drill 2 x 7mm hole and insert 2 wall plug **K**

4. Secure the other end of the straps **G** to the wall with 2 x washer & screw **H**

Note: To hide the strap behind the unit, drill the hole lower than the top of unit.

Assembly Complete

A Guide to Wall Mounting & Fixings

Important note:

If plastic wall plugs (rawl plugs) are supplied with your product, e.g.:

- these are only suitable for use in masonry walls.

If you are in any doubt about the correct wall plugs for your wall, seek professional advice.

Failure of the product due to using the incorrect fixings is the responsibility of the installer.

Important: when drilling into walls always check that there are no hidden wires or pipes etc.

Make sure that the screws and wall plugs being used are suitable for supporting your unit. Consult a qualified tradesperson if you are unsure.

Hints:

- 1: General rule: always use a larger screw and wall plug if you are not sure.
- 2: Ensure you use the recommended drill bit to match the wall plug and hole size.
- 3: Ensure you drill the hole horizontally; do not force the drill or enlarge the hole.
- 4: Take extra care when drilling high walls, ceilings and ceramic tiles. Ensure wall plugs are inserted beyond the thickness of the ceramic tiles to avoid the tiles splitting or cracking.
- 5: Ensure wall plugs are well fitted and are a tight fit in the drilled hole.

Types of walls

You can use one of the following types of wall plug if your walls are made of brick, breeze block, concrete, stone or wood.

No.1 "General Purpose" wall plug

Generally aerated blocks should not be used to support heavy loads, use a specialist fitting in this case. For light loads, general purpose wall plugs can be used.

No.3 "Cavity Fixing" wall plug

For use with plasterboard partitions or hollow wooden doors.

No.5 "Hammer Fixing" wall plug

For use with walls stuck with plasterboard. The hammer fixing allows it to be fixed to the wall rather than the plasterboard. Always check the fixing is secure to the retaining wall.

No.2 "Plasterboard" wall plug

For use when attaching light loads onto plasterboard partitions.

No.4 "Cavity Fixing - Heavy Duty" wall plug

For use when fitting or supporting heavy loads such as shelving, wall cabinets and coat racks.

No.4 "Shield Anchor" wall plug - heavy loads

For use with heavier loads such as TV and HiFi speakers and satellite dishes etc.

Care & Maintenance

Safety: always check the fitting and location to ensure your safety in and around the home.

Fitting: from time to time check the fitting: to ensure the wall plugs or screws do not become loose.
