Safety and Care Advice

Important - Please read these instructions fully before starting assembly

- Check you have all the components and tools listed on pages 2 and 3.
- Remove all fittings from the plastic bags and separate them into their groups.
- Keep children and animals away from the work area, small parts could choke if swallowed.
- Make sure you have enough space to layout the parts before starting.

- Do not stand on the product, this could cause damage.
- Assemble the item as close to its final position (in the same room) as possible.
- Assemble on a soft level surface to avoid damaging the unit or your floor.
- Parts of the assembly will be easier with 2 people.

- We do not recommend the use of power drill/drivers **for inserting screws**, as this could damage the unit. Only use hand screwdrivers.
- Dispose of all packaging carefully and responsibly.

Solid Wood / Real Wood Veneers

- This product has been finished using natural materials. As a living material, you may notice some variation in the grain and colour shade between the different components.
- Unlike a synthetic or man-made material which has a uniform finish, a feature of natural wood is its variation in grain and colour. We wish to reassure you that this is quite normal and is not the result of any manufacturing fault.
- Where sheets of wood are joined together, a line may be detected. Again, this is normal and is not an imperfection.
- Nature wood and veneers often have random pale markings in the grain, there are medullary rays which are a natural unique feature of the wood.

Care and maintenance

- Only clean using a damp cloth and mild detergent, do not use bleach or abrasive cleaners.
- Always use a non-silicone based furniture polish. Silicone in furniture polishes can break down the lacquer finish.
- Use non-silicone bees wax to maintain the shine. Do not use furniture polish.
- Do not put hot dishes directly on the surfaces of the item.
- From time to time check that there are no loose screws on this unit.
- Any spills should be removed immediately with a soft clean damp cloth and dried immediately.
- Avoid keeping furniture in direct sunlight or close to any heat sources as this can cause cracking, discoloration or warping.
- This product should not be discarded with household waste. Take to your local authority waste disposal centre.
- Ensure the product is protected with mats and coasters when items are placed on the surfaces, to prevent scratching or damage.
- Never drag pieces of furniture across the floor as this will cause damage to the joints.
