

# QUICK ASSEMBLY GUIDE

## IMPORTANT - KNOW YOUR BIKE

Check that you use your bike correctly.

There are different European Standards for bicycles depending on how the bicycle is intended to be used.

You can check the table below what type of riding your bicycle has been designed for.

**Note: To find the correct BS:EN standard for your bicycle please refer to the label on the frame**

CONFORMS TO  
B.S.6102 PART 1:1992  
CENT4765:2005

	Type of use for which bike is designed	Permissible total weight of rider + luggage
<b>BS: EN 14764</b> Trekking Bikes	Riding on roads and tracks. <b>Not</b> for off road or rough terrain	<b>20" WH DUAL SUSPENSION 32 KG</b>
<b>BS: EN 14766</b> Mountain Bikes	Off road, rough terrain, cycle tracks or road	120 Kg (19 stone)
<b>BS: EN 14781</b> Racing Bikes	High Speed amateur use on public roads <b>Not</b> for off road or rough terrain.	120 Kg (19 stone)

**IMPORTANT: FAILURE TO USE YOUR BIKE IN ACCORDANCE WITH THE ABOVE RECOMMENDATIONS COULD RESULT IN SERIOUS INJURY**

## IMPORTANT

Please read these instructions carefully.

For more detailed information and tips, including a comprehensive guide to care and maintenance we recommend you read the owners guide in detail.

This bike is fully adjusted and checked over at the factory. The handlebars may be removed or assembled in the bike and turned through 90 degrees. the pedals removed and in some cases the front wheel will have been removed too. It is a relatively simple operation to re-assemble these parts, however if you do not feel competent to do this you should ask someone who is, as it is important that these simple tasks are done correctly for the integral safety of the bike. If in doubt consult a qualified mechanic or cycle dealer.

## UNPACKING

Please remove all packaging very carefully, especially if using a knife or sharp blade. Take care not to scratch any of the parts of the bike or slash the tyres.

We suggest that you keep hold of the carton in case you need to return the bike.
