Issue 1 - 06/05/10

Safety and Care Advice

Important - Please read these instructions fully before starting assembly

• Check you have all the components and tools listed on pages 2 and 3.

• Remove all fittings from the plastic bags and separate them into their groups.

• Keep children and animals away from the work area, small parts could choke if swallowed.

• Make sure you have enough space to layout the parts before starting.

• Do not stand or put weight on the product, this could cause damage.

• Assemble the item as close to its final position (in the same room) as possible.

• Assemble on a soft level surface to avoid damaging the unit or your floor.

• Parts of the assembly will be easier with 2 people.

• We do not recommend the use of power drill/drivers ***for inserting screws,*** as this could damage the unit. Only use hand screwdrivers.

• Assemble on a soft level surface to avoid damaging the unit or your floor.

• Dispose of all packaging carefully and responsibly.

Care and maintenance

• Only clean using a damp cloth and mild detergent, do no use bleach or abrasive cleaners.

• From time to time check that there are no loose screws on this unit.

• This product should not be discarded with household waste. Take to your local authority waste disposal centre.

Introduction

• The Cot Bed is suitable from birth to 18 months & Junior bed: Suitable from 18 months to approx. 5 years

• The base can be fixed in 2 positions. The lower position being the safest(refer to safety notes)

• The cot can be converted into a junior bed.

Important notes

• Do not discard any packaging until you have checked the parts against the list below.

• Please take a few minutes to read through the assembly instructions.

• Unpack your cot carefully onto a soft level surface such as a carpeted floor.

• Familiarise yourself with the parts by comparing them with the checklist provided below.

• The recommended mattress size for this cot bed is 140*69cm.

• The cot conforms to BSEN716:2008 and BS8509:2008 Safety Standards for Cots and Childern's bed.

• There is a line engraved on each of the cot bed side. These should face the inside of the cot bed. The lines determine the maximum height of the mattress when the base is in its highest position.(refer to safety notes).

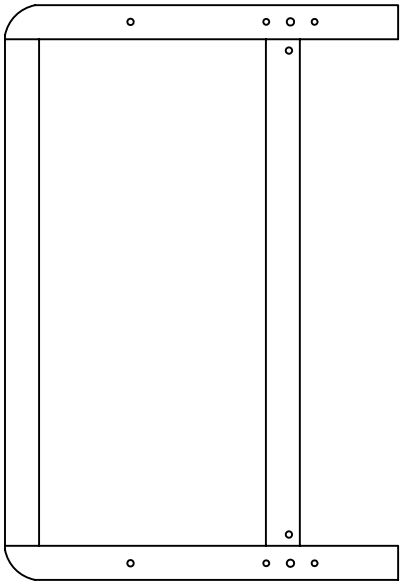

• Any additional or replacement parts are abtained from the manufacturer or distributor.

Note: if required the next page can be cut out and used as reference throughout the assembly. Keep this page with these instructions for future reference.

Care and Safety

SAFETY NOTES:

- Do not allow children to climb the cot. The safety of your child is your responsibility.
- Before use, please ensure each item of cot is on a stable, level surface.
- Never pivot or drag the cot bed when moving. The cot bed must always be lifted by at least two people.
- To avoid the risk of suffocation, keep all plastic bags and packaging out of reach of babies and young children.
- Be aware of the risk of open fire and other sources of strong heat, such as electric bar fires, gas fires, etc. in the near vicinity of the cot.
- **WARNING:** Do not place this child's bed near heat sources,windows and other furniture.
- **WARNING:** Do not use the cot if any part is broken, torn or missing and use only spare parts approved by the manufacturer.
- Do not leave anything in the cot or place the cot close to another product, which could provide a foothold or present a danger of suffocation or strangulation, e.g. strings, blind/curtain cords, etc.
- The lowest base position is the safest and that the base should always be used in that position as soon as the baby can sit unaided.
- The mattress to be used with this cot bed should be no more than 30mm shorter or narrower than the internal length or width of the cot bed.
- Thickness of the mattress chosen shall be such that the internal height (from mattress surface to top of the side) is at least 500mm in the lowest position of the cot base and at least 200mm with the base in the highest position. The cot sides have an engraved line on the inside indicating this height.
- Do not use more than one mattress in the cot.
- All assembly fittings should always be tightened properly and that fittings should be checked regularly and retightened as necessary.
- When the child is able to climb out of the cot, the cot shall no longer be used for that child to prevent injury from falls.
- Children are likely to play,bounce,jump and climb on beds,therefore the child's bed should not be placed too close to other furniture or windows,and should be placed either tight to any wall or have a gap of 300mm between the wall and the side of the bed.

CARE OF YOUR PRODUCT:

- Periodically check all fittings to ensure that none have come loose. Any loose fittings must be tightened using the correct tool.
- Your cot bed can be cleaned by wiping with a damp cloth and drying with a soft dry cloth.
- Never clean with abrasives, ammonia based, bleach based or spirit type cleaners.
- Take care when handling or moving the cot bed. Careless handling can damage wooden furniture.
