TITANIUM SERIES

TRIPLE FLEX CUSHIONING

Maximise performance and comfort in each phase of the gait cycle.

CONTACT

Adaptive high-energy absorbant CONTACT ZONE provides a soft reactive surface for the initial impact.

MIDSTANCE

The foot strike continues through the MIDSTANCE ZONE where the cushioning system adapts to allow the foot to naturally flow through the motion.

PROPULSION

The PROPULSION ZONE provides a firm surface to propel you in a continuous motion.
