

More than just an attractive and stylish way to protect the new iPhone, NueVue cleans the screen and eliminates harmful bacteria, every time you remove the device. Your phone stays looking like new longer and you stay healthier. The NueVue design includes an "ejection" slot to give quick access to calls, messages and notifications, and make the product "faster access than a Flip Case, and safer than a Snap-On Case".

- Prevents scratches and greasy finger-marks on the screen that can cause eyestrain, fatigue or headaches.
- Antimicrobial protection eliminates up to 99.9% of harmful bacteria on the screen's surface — helps prevent illness and skin blemishes like acne.
- Lined with the highest-grade microfibers, as gentle as a feather, and BioCote® technology to deliver long-lasting antimicrobial action.
- The shock resistant casing and snug fit keep your iPhone protected in case of a mishap.
- Anti-static to prevent any electrical charges that can cause damage to the iPhone.
- Finely handcrafted of animal friendly faux leather, canvas or cotton twill; available in a range of attractive colors.
