# Safety and Care Advice

**Important** – Please read these instructions fully before starting assembly

## Care and Maintenance

### How to care for your wood furniture

Furniture with a hard lacquer, wax polish or painted surface should be dusted with a dry cloth.

Waxed furniture will need to be given a coat of beeswax a couple of times a year to help maintain its luster.

Spray polishes are best avoided as they contain silicones which may spoil the furniture's surface by building up over time.

Make sure all surfaces are protected from heat and liquids by mats and coasters. Wipe up spills immediately and ensure that a mat or pad is placed under paper if you are writing.

Our furniture will endure most temperatures in the home but it is best to avoid placing furniture next to heat sources such as radiators or fires. Be particularly careful with solid wood as the lack of humidity caused by central heating can cause damage such as warping.

## Safety Instructions

**Never drag furniture when moving it, always lift it.**

**Periodically check all fixings to ensure none have come loose and re-tighten where necessary.**

**Please take care when handling or moving the furniture as careless handling may cause damage or injury.**

**Furniture can be dangerous if incorrectly installed.**

**PLEASE KEEP THESE INSTRUCTIONS FOR FUTURE REFERENCE**

## General information

If for any reason you should have problems with your Habitat product, please contact the store from which you purchased it.

Please retain your receipt as proof of purchase.

If you have any comments or suggestions regarding this product, assembly instructions or service

received, please contact the store or Habitat Head Office via its web site: [www.habitat.co.uk](http://www.habitat.co.uk)

or write directly to: Habitat Retail Ltd.
