## **You'll soon be enjoying your new Alarm Clock Radio.**

It all begins here, with your instructions. Don't worry, there's nothing too technical coming up. Just simple, step-by-step guidance to get you up and running quickly. Sound good? Then let's get started.

### **Help and Guidance**

We're here to help you get the most from your radio. Should you require any guidance, a simple solution can often be found online at:

**[www.argos-support.co.uk](http://www.argos-support.co.uk)**

If you still require further assistance, call one of our experts on 0345 604 0105.

## Safety Information

### Important – Please read these instructions fully before installing or operating

- This appliance is intended for domestic household use only and should not be used for any other purpose or in any other application, such as for non-domestic use or in a commercial environment.
- The ventilation should not be impeded by covering the ventilation openings with items, such as newspapers, table-cloths, curtains, etc.
- No naked flame sources, such as lighted candles, should be placed on the apparatus.
- The apparatus shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases, shall be placed on the apparatus.
- Ventilation - Allow at least a 10 cm gap all around the product.
- This apparatus is not suitable for use in a tropical climate.
- Prior to cleaning or other maintenance, the appliance must be disconnected from the supply mains.
- Batteries (battery pack or batteries installed) shall not be exposed to excessive heat such as sunshine, fire or the like.
- To protect the environment, use local recycling facilities for battery disposal.
- Where the MAINS plug is used as the disconnect device, the disconnect device shall remain readily operable.
- The marking plate is located at the bottom of the apparatus.
- This means of disconnecting this apparatus from the mains supply is the mains plug. This should be unobstructed and readily operable at all time.

---

### **Battery installation (backup only)**

- Only adults should handle battery. Do not allow a child to use this apparatus unless the battery cover is securely attached to the unit.
- Insert 2 x 1.5V AAA size batteries (not included) in to the compartment, taking care to match the battery orientations marked on the inside of the compartment.
- Replace the battery compartment cover.

### **UK Mains plug information**

This appliance must be connected to AC 230-240 volts 50Hz. AC supply by means of a three pin socket, and should be protected by a 3 Amp fuse.

If the mains plug is unsuitable for the socket outlet in your home or is removed for any other reason, then the cut off plug should be disposed of safely to prevent the hazard of electric shock.

The wires in the mains lead on this appliance are coloured in accordance with the following code:

Blue – Neutral

Brown – Live

Under no circumstances should Neutral or Live wires be connected to the 'E' (Earth) terminal.

## FUNCTIONS & CONTROL

1. POWER button
2. Display
3. VOL + / AL1 button
4. VOL - / AL2 button
5. FM aerial
6. TU+ / HOUR button
7. TU- / MIN button
8. SLEEP / NAP button
9. SET button
10. SNOOZE / DIMMER button
11. BAND button
12. MEM button
13. Battery cover

### Indicator lights

- |                    |                                    |
|--------------------|------------------------------------|
| 14. Alarm 1 buzzer | 17. Alarm 2 radio                  |
| 15. Alarm 1 radio  | 18. PM indicator (12 hour version) |
| 16. Alarm 2 buzzer |                                    |

### BATTERY BACKUP

The clock, alarm and preset settings can be protected against AC power failure with the battery for a short period of time. If no backup battery is installed or the power failure is prolonged, you will need to set the clock, alarm and preset settings again.

### STANDBY MODE

Place the unit on a flat stable surface and plug the power cord into the mains socket.

- The unit is in standby mode
- "12:00" will flash on the display.

---

## SETTING THE CLOCK

1. In standby mode, while the display flashes repeatedly, press **HOUR / MIN** to set the hours and minutes.
  - Press and hold **HOUR / MIN** to advance the hour and minute until the correct time is reached.
2. Press **SET** to confirm.
  - The display will stop flashing.

## POWER ON/RADIO MODE

Press **POWER** to switch the unit on and enter the radio mode.

- The radio frequency will briefly appear on the display and then return to clock time.

## RADIO OPERATION

1. Press **POWER** to turn on the radio.
  - The default FM radio frequency is 87.5 MHz.
2. Press **BAND** once to enter the AM radio mode.
  - The default AM radio frequency is 522 KHz.
3. Repeatedly press **BAND** to select the desired radio band.
4. Adjust the volume by repeatedly pressing **VOL+ / VOL-**.
5. Repeatedly press **TU+ / TU-** to tune into the desired station.
  - Press and hold **TU+ / TU-** for auto forward or backward radio station searching.

## NOTE:

- For the best FM reception, extend the FM aerial to its full length.
- For the best AM reception, rotate the unit slowly and horizontally.

## PRESETTING YOUR FAVOURITE RADIO STATIONS

Up to 10 FM and 10 AM radio stations can be preset.

- 
1. Follow steps in "RADIO OPERATION" and tune into the station that you wish to preset.
  2. Press and hold **SET** for about 2 seconds, "P01" will flash on the display.
  3. Press **SET** again to store the station.
  4. Repeat steps 1 to 3 to store desired stations.

To listen to preset radio stations, repeatedly press **MEM** to select the desired radio station.

## DUAL ALARMS OPERATION

Before setting the alarm time, make sure the Clock has been set.

### Setting Alarm 1 or Alarm 2

1. In standby mode, press and hold **AL1 / AL2** until "0:00" flashes on the display.
2. While "0:00" is flashing, set the alarm time by repeatedly pressing **HOUR / MIN.**
  - Press and hold **HOUR / MIN** respectively for fast advance.
3. Repeatedly press **AL1 / AL2** to select the desired alarm mode (buzzer or radio).

### Checking alarm time

Press and hold **AL1 / AL2** for 2 seconds, the alarm time will flash briefly then return to clock time.

**To turn off the alarm**, press **POWER** and the alarm will come on again at the set time on the following days.

**To cancel the alarm**, in standby mode, press **AL1 / AL2** until the alarm indicator light goes out on the display.

---

### **Snooze function**

This function can be used to stop the alarm temporarily for about 9 minutes once the alarm is activated. When the snooze button is pressed, the alarm sounds will stop and sound again after about 9 minutes.

The alarm indicator light will flash.

## **SLEEP TIMER OPERATION**

The sleep function is designed to automatically turn off the Radio.

### **Setting sleep timer**

1. In Radio mode, repeatedly press **SLEEP** to select the desired sleep time from 90, 80, 70, 60, 50, 40, 30, 20 or 10 minutes.
2. The radio will be turned off after the set sleep time has elapsed.

To check remaining sleep time, press **SLEEP**.

To cancel sleep timer, press **SLEEP** until "OFF" is shown.

To turn off the radio before the sleep time has elapsed, press **POWER**.

## **NAP FUNCTION**

This function allows you to set the radio to wake you after a preset interval (up to 90 minutes) without needing to set the alarms.

1. In standby mode, repeatedly press **NAP** to select the desired nap time from 90, 80, 70, 60, 50, 40, 30, 20 or 10 minutes.
2. When the selected nap time has elapsed, the radio will sound.

To cancel the nap timer, press **NAP** until "OFF" is shown.

### **Dimmer control**

Repeatedly press **DIMMER** to adjust the brightness of display (bright or dim).

## **TECHNICAL SPECIFICATION**
