

FLOOR LAMP

IMPORTANT:

- Mains Voltage: 230/240V – 50Hz
- This lamp is double insulated (Class II) and does not require an earth connection.

SAFETY:

- Before inserting or replacing bulbs make sure that the light is unplugged and has cooled down.
- Always disconnect from the mains after use.
- If the supply cord is damaged, it cannot be replaced and the lamp must be scrapped.

USER ADVICE

- Keep all packaging until after a successful installation and retain instructions for future use
- The design of the lamp may vary slightly from the illustration

LOCATION:

- Indoor use only
- Ensure the lamp is in a location where the power cable will not cause an accident
- Place lamp on a level surface.

INSTALLATION:

- All plastic T pieces supplied between the tubes are only to protect threads from transit damage and should be removed prior to assembly.
- Screw the middle stem section onto the lower stem section taking care not to twist the flex. (DIA.1)
- Attach the upper curved section together with the lower stem sections again taking care to avoid twisting the flex. (DIA.2)
- Place the threaded boss attached to the bottom stem through the hole in the base, securing tightly with nut & spanner (supplied). (DIA.3).
- Remove the locking ring from lamp holder & attach shade onto lamp-holder and replace locking-ring to secure into place. (DIA.4)
- Carefully stand the lamp upright.
- Insert bulb into the lamp holder. (Do not exceed wattage as stated on product).
