## Keep it simple

The Philips D135 Cordless Phone with inbuilt answering machine packs essential functions in a fresh and engaging design. Excellent sound reproduction and easy plug & play lets you enjoy every conversation with great clarity and ease.

### Nice and simple

- Up to 25 minutes message on your answering machine
- Ultimate convenience through easy setup
- Textured back cover for non-slip grip
- Menu in multiple local languages
- Easy to read 4.1 cm (1.6") display with backlight
- Up to 10 hours talk time on a single charge
- Caller ID – so you always know who is calling\*

### Crystal clear sound

- Parametric Equalizer delivers pure and clear sound
- Automatic Volume Control offsets unwanted volume variation
- Optimized antenna layout for great reception in any room
- Advanced sound testing & tuning for superb voice quality

### Eco-conscious product

- Low radiation and power consumption

# PHILIPS

# Highlights

## 4.1cm (1.6") display

Easy to read 4.1 cm (1.6") display with backlight

## Advanced sound testing

We test the sound quality of our DECT phones the same way as high-end headphone manufacturers do. Using an advanced ear simulator, we can accurately re-create the way people actually hear. This helps our acoustic engineers to measure and fine-tune things like frequency response, distortion and overall hearing perception, to create perfect voice reproduction.

## Automatic Volume Control

Automatic Volume Control offsets variations in sound signal, which can be caused by distance, signal strength or the caller's phone - so what you hear always remains consistent. Reducing the audio amplification for strong signals, and increasing it for weak ones, it means you can enjoy a smooth conversation without unwanted sound volume variation.

## Caller ID\*

Sometimes it is good to know who is calling before you answer. And our Caller ID lets you keep track of who is on the other end of the line.

## Easy setup

Ultimate convenience through easy set up. Simplified installation - Plug & Play product

## Eco-conscious product

Philips phones are energy efficient and designed to be respectful to the environment.

## Menu in local languages

Enjoy easy set-up, navigation and control with intuitive menu available in local languages.

## Non-slip grip

The rear of the handset is treated with a special texture for added comfort and better grip.

## Optimized antenna layout

Our optimized antenna layout ensures strong and stable reception – even in areas of the house where cordless transmission is difficult. Now you can take a call wherever you are in the house, and enjoy a long, uninterrupted conversation even as you walk around.

## Parametric Equalizer

Our telephones use parametric equalization in the digital sound processing to fine-tune the sound response back to the intended linear frequency response curve, delivering sound that is pure and clear, for each conversation.

## Up to 10 hours talk time

Up to 10 hours talk time on a single charge

# Specifications

## Convenience

- Menu structure in the handset: List Menu
- Signal strength indicator: 3-bar indicator
- Battery level indicator: 3-bar battery icon
