# Safety and Care Advice

**Important** - Please read these instructions fully before starting assembly

## IMPORTANT! KEEP FOR FUTURE REFERENCE

- Check you have all the components and tools listed on the following pages.
- Remove all fittings from the plastic bags and separate them into their groups.

- Keep children and animals away from the work area, small parts could choke if swallowed.
- Make sure you have enough space to layout the parts before starting.
- During assembly do not stand or put weight on the product, this could cause damage.
- Assemble the item as close to its final position (in the same room) as possible.

• To reduce the likelihood of damaging your product please ensure that your power drill is set on a low torque setting.

- Assemble on a soft level surface to avoid damaging the unit or your floor.
- Parts of the assembly will be easier with 2 people.
- Improper use of electrical tools will crack the components.

## Care and maintenance

- Only clean using a damp cloth and mild detergent, do not use bleach or abrasive cleaners.
- From time to time check that there are no loose screws on this unit.

## Dear Customer.

**Please note that the product you have purchased is a natural living timber.**

**Just like nature itself, wood varies in shape and colour. Knots, vein patterns, resin pockets and colour differences contribute to giving the piece of furniture its beauty and form - a natural part of solid wood.**

**Although the tree has been cut down and dried, it is still alive and therefore will react to high and low temperatures, light, humidity, drought and time.**

**In cold and dry periods, the wood contracts which may lead to small cracks in the piece of furniture. The reverse happens in warm and humid periods where the wood expands and this may result in slight unevenness.**

**The colour of the wood also changes with time, particularly if the furniture is placed in a light place. This is a natural process and part of owning a piece of furniture made of solid wood.**

**Any flexing that has occurred during transport will re-correct itself once this product is correctly assembled.**

**Tighten all joints of the furniture after six months.**

**Please keep these instructions in a safe place for future use.**
