Hygena Cubic Wood Glass Low SB/TV Unit

Assembly Instructions - Please keep for future reference

482/0688D

Dimensions

Width - 120cm Depth - 38cm Height - 61.8cm

Important - Please read these instructions fully before starting assembly

If you need help or have damaged or missing parts, call the Customer Helpline: 03456 400800

Safety and Care Advice

Important - Please read these instructions fully before starting assembly

• Check you have all the components and tools listed on pages 2 & 3.

• Remove all fittings from the plastic bags and separate them into their groups.

• Keep children and animals away from the work area, small parts could choke if swallowed.

• Make sure you have enough space to layout the parts before starting.

• Do not stand or put weight on the product, this could cause damage.

• Assemble the item as close to its final position (in the same room) as possible.

• Assemble on a soft level surface to avoid damaging the unit or your floor.

• Parts of the assembly will be easier with 2 people.

• We do not recommend the use of power drill/drivers for inserting screws,

as this could damage the unit. Only use hand screwdrivers.

• Dispose of all packaging carefully and responsibly.

Glass safety - Take care when handling glass, please follow the advice below

• If a glass component is chipped or broken replace with glass of the type described on this instructions. Consult the manufacturer, retailer or agent with regard to obtaining a manufacturing specification and shape for replacement glass quoting the model number, and batch or date of manufacture. • Do not place very hot or cold items against or in close proximity to the glass surfaces unless adequately thick insulating material is used to prevent such items coming into contact with the glass.

• Do not strike the glass with hard or pointed items.

- When cleaning glass panels or mirrors use a damp cloth or leather with washing up liquid or soft soap if necessary.
- Do not use washing powders or any other substances containing abrasives since these substances scratch glass.

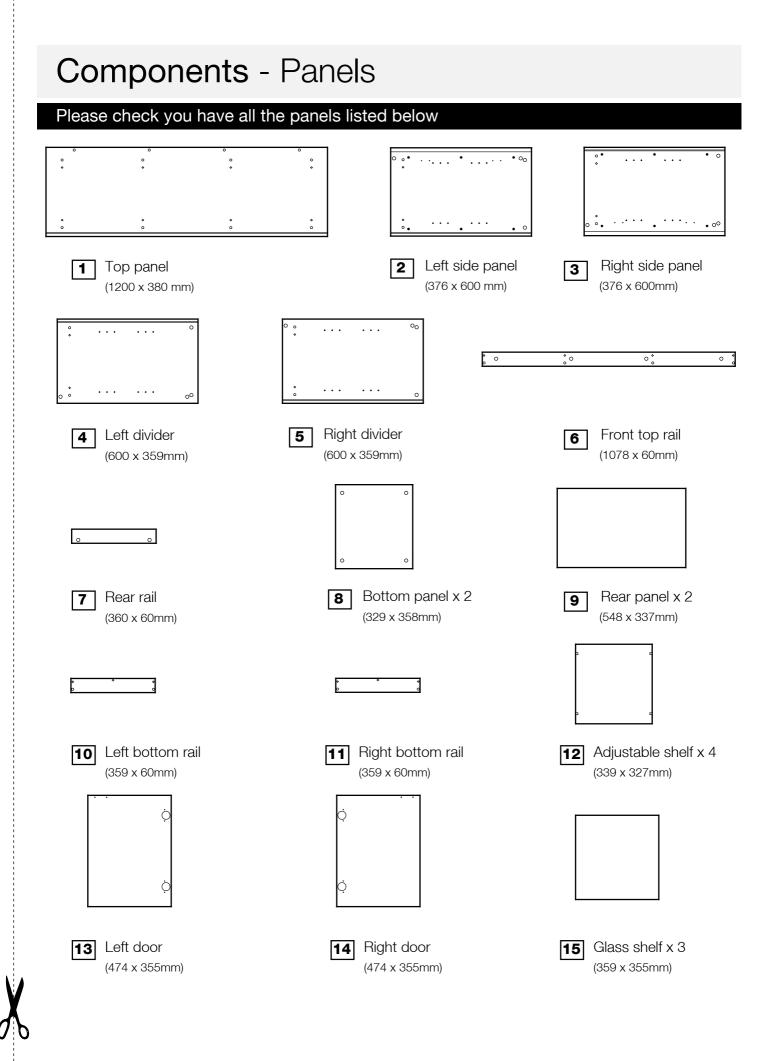

Care and maintenance

• Only clean using a damp cloth and mild detergent, do no use bleach or abrasive cleaners.

• From time to time check that there are no loose screws on this unit.

• This product should not be discarded with household waste. Take to your local authority waste disposal centre.

Note: if require the next page can be cut out and used as reference throughout the assembly. Keep this page with these instructions for future reference.

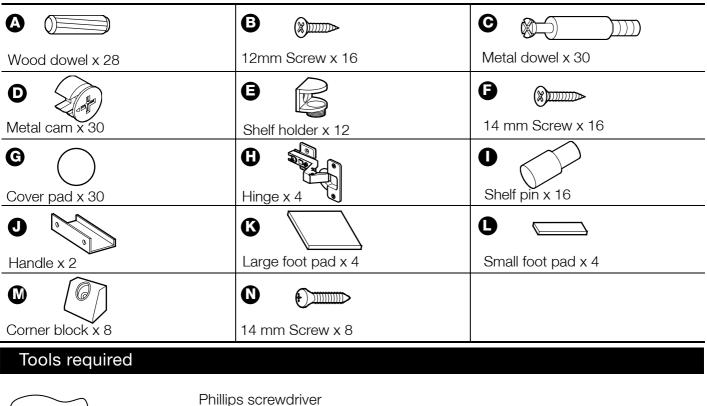

Components - Fittings

If you have damaged or missing components, call the **Customer Helpline: 03456 400800**

Please check you have all the fittings listed below

Note: The quantities below are the correct amount to complete the assembly. In some cases more fittings may be supplied than are required.

Phillips screwdriver (medium & small)

Flatblade screwdriver

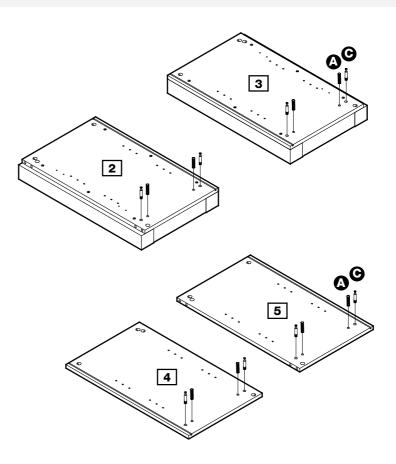

Ruler - Use this ruler to help correctly identify the screws

0 5 10 15 20 25 30 35 40 45 50 55 60 65 70 75 80 85 90 95 100 105 110 115 120 125 130 135 140 145 150 155 160 165 170

Step 1

Screw 8 Metal dowels into the threaded holes in the Left and Right side panels 2 3 and Left and Right divider 4 5 as shown.

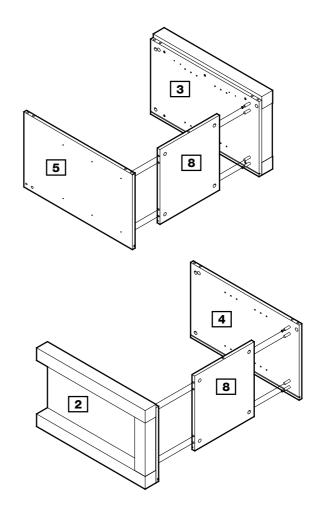

Insert Wood dowels (A) into the indicated holes.

Step 2

Firmly push Right side panel 3 and Right divider 5 onto the ends of Bottom panel 8, ensuring the Metal dowels 6 and wood dowels 4 enter corresponding holes.

Firmly push Left side panel 2 and Left divider 4 onto the ends of Bottom panel 8, ensuring the Metal dowels 6 and wood dowels 4 enter corresponding holes.

Step 3

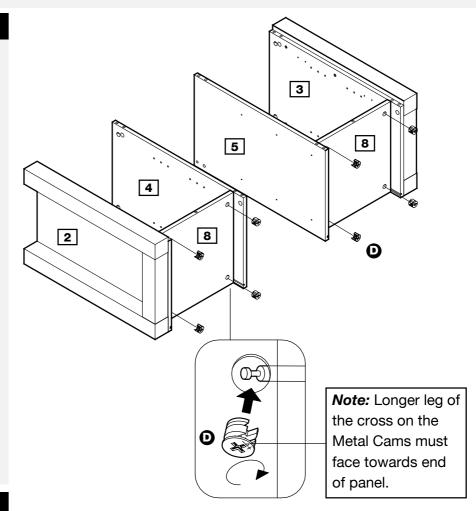

Insert the 8 Metal cams into the 8 holes on the Bottom panels 8 so that they are flush.

Note: Longer leg of the cross on the Metal

Cams must face towards end of panels (as shown).

Then, using a Philips Screwdriver, screw all Metal cams **D** clockwise until they are 'hand tight'.

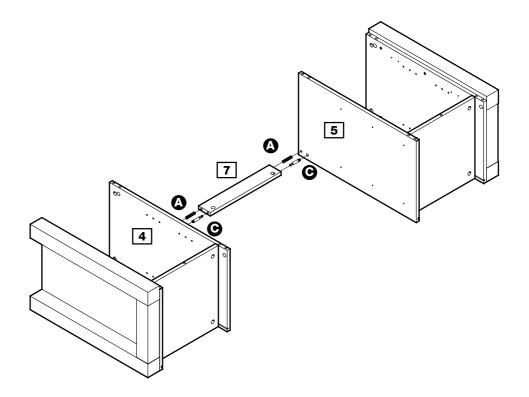

Step 4

Screw 2 Metal dowels **G** into the threaded holes in the Left and Right divider **4 5** as shown.

Insert Wood dowels (A) into the indicated holes.

Firmly push Left and Right side piece from Step 3 onto the ends of Rear rail **7**, ensuring the Metal dowels **G** and wood dowels **A** enter corresponding holes.

Step 5

Insert the 2 Metal cams into the 2 holes on the Rear rail 7 so that they are flush.

Note: Longer leg of the cross on the Metal

Cams must face towards end of rail (as shown).

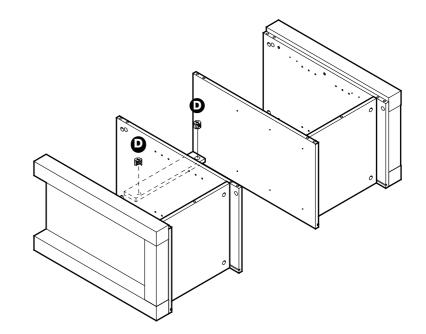

Then, using a Philips Screwdriver, screw all Metal cams **D** clockwise until they are 'hand tight'.

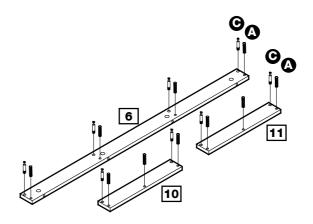

Step 6

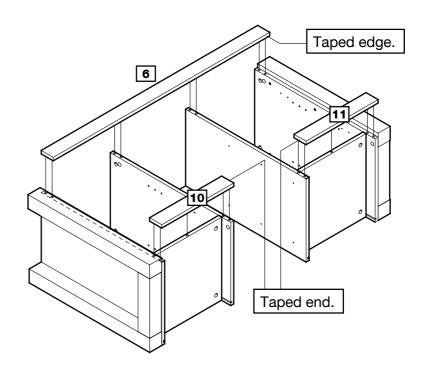

Screw 8 Metal dowels **G** into the threaded holes in the Front top and bottom rails **6 10 11** as shown.

Insert Wood dowels (A) into the indicated holes.

Firmly push the Front top and bottom rails onto the top edges of side panels and dividers, ensuring the Metal dowels () and wood dowels () enter corresponding holes.

Step 7

Insert the 8 Metal cams into the 8 holes on the side panels and dividers so that they are flush.

Note: Longer leg of the cross on the Metal

Cams must face towards metal dowels.

Then, using a Philips Screwdriver, screw all Metal cams clockwise until they are 'hand tight'.

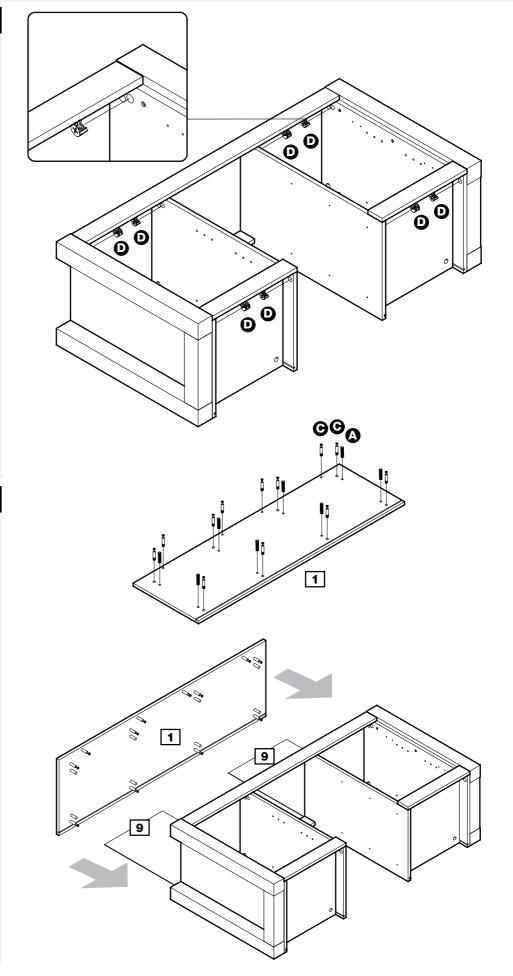

Step 8

Screw 12 Metal dowels **G** into the threaded holes in the Top panel **1** as shown.

Insert Wood dowels (A) into the indicated holes.

Slide Rear panels **9** into the grooves in the side panels and dividers.

Firmly push the Top panel 1 onto the end of side panels and dividers, ensuring the rear panels enter all the grooves, and ensuring the Metal dowels (and wood dowels (enter corresponding holes.

Step 9

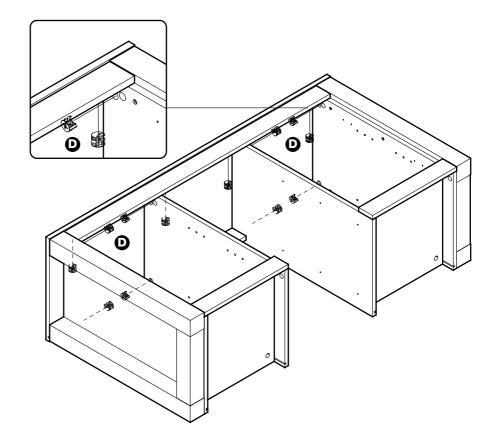

Insert the 12 Metal cams into the 12 holes on the side panels, dividers and front rail so that they are flush.

Note: Longer leg of the cross on the Metal

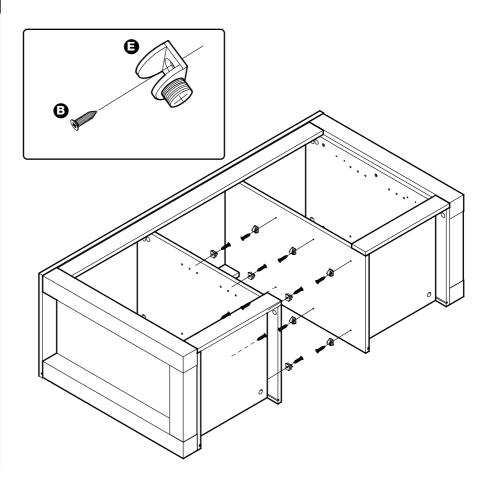

Cams must face towards metal dowels.

Then, using a Philips Screwdriver, screw all Metal cams clockwise until they are 'hand tight'.

Step 10

Screw 12 Shelf holders (=) onto the pre-drilled holes in dividers using 12mm Screws (E), make sure the screws of the shelf holders face downwards as shown.

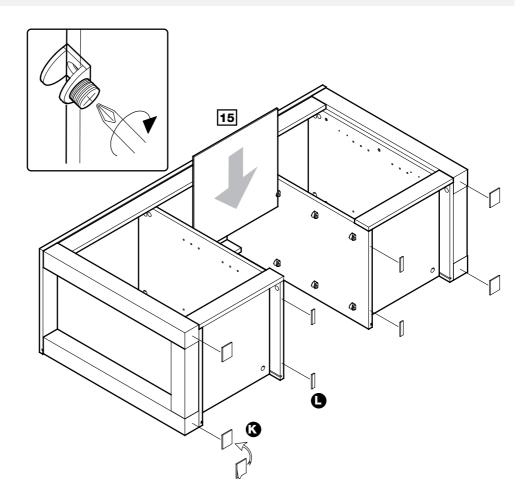

Step 11

Push the top Glass shelf **15** into the Shelf holders **3** and secure with the screws by turning clockwise as shown.

Repeat this step to assemble the other two glass shelves.

Peel off the cover of the Foot pads (©), attach to the bottom edges of side panels and dividers as shown.

Turn the unit upright.

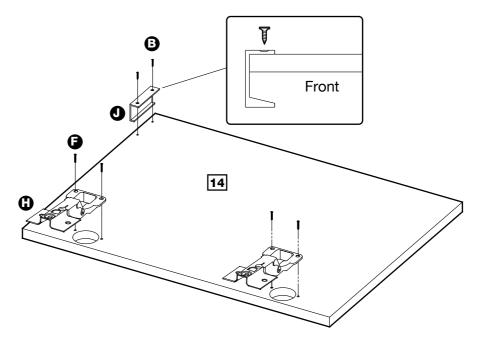

Step 12

Screw Handle **①** to the pre-drilled holes in the rear face of the Door **14** using 12mm Screws **③**.

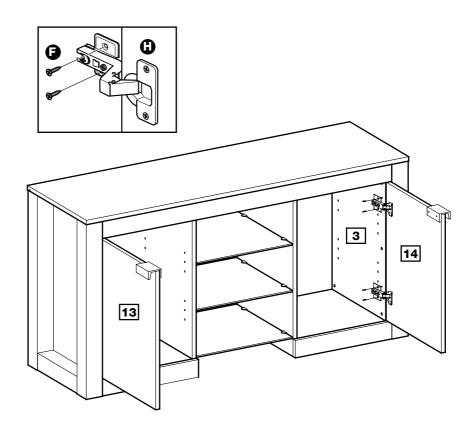

Screw Hinges 🕑 to the pre-drilled holes in the rear face of the Door using 14mm Screws 🕞 .

Repeat this step to assemble Handle and Hinges onto the other door.

Step 13

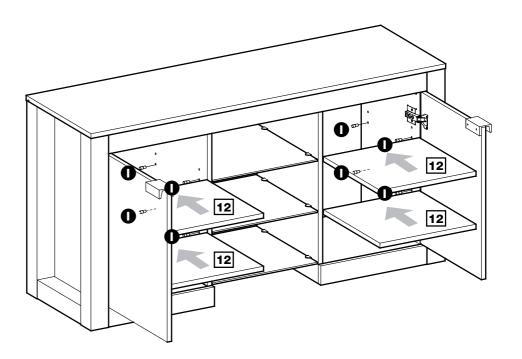

Locate the Right side door 14 onto the Right side panel 3, screw the Hinges 1 to the pre-drilled holes, using 14mm Screws 1 as shown.

Step 14

Push 4 Shelf Pins **①** into each side of the side panels and dividers at desired height.

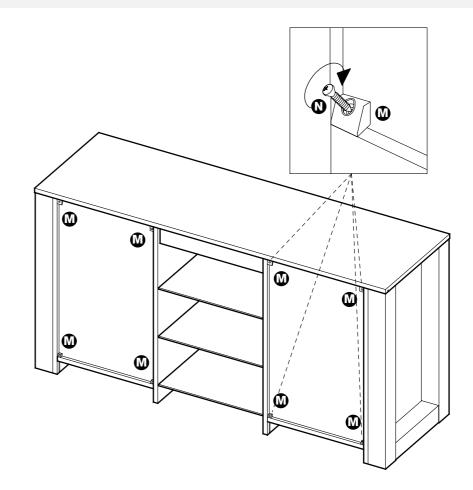

Place Adjustable shelves **12** onto the Shelf pins.

Step 15

Firmly push Corner blocks () into the grooves in the coners of rear panels on the rear side as shown, secure with 14mm Screws ().

Cover the visible cam holes with Cover pads **G**.

Step 16

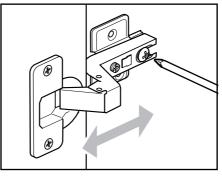

Adjust the door:

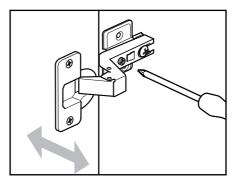

a: To move doors in or out: loosen screw shown and move doors to suit.

Re-tighten screws.

b: To move doors left or right: loosen screw shown and move doors to suit.

Re-tighten screws.

Assembly is complete.
