Safety and Care Advice

Important - Please read these instructions fully before starting assembly

• Check you have all the components and tools listed on pages 2 and 3.

• Remove all fittings from the plastic bags and seperate them into their groups.

• Keep children and animals away from the work area, small parts could choke if swallowed.

• Make sure you have enough space to layout the parts before starting.

• Do not stand or put weight on the product, this could cause damage.

• Assemble the item as close to its final position (in the same room) as possible.

• Assemble on a soft level surface to avoid damaging the unit or your floor.

• Parts of the assembly will be easier with 2 people.

• We do not recommend the use of power drill/drivers ***for inserting screws,*** as this could damage the unit. Only use hand screwdrivers.

• **Do Not dispose of packaging until assembly complete.**

• Dispose of all packaging carefully and responsibly when assembly complete.

Care and maintenance

• To protect the furniture, position the furniture out of direct sunlight and away from direct heat sources such as radiators and fires.

• Do not place the furniture in excessively dry and humid conditions.

• From time to time check that there are no loose screws on this unit.

• Always lift furniture when moving it (do not drag) otherwise the joints may be damaged.

• Do not place hot or cold objects on the surface, always use protective mats to avoid marking the furniture.

• This product should not be discarded with household waste. Take to your local authority waste disposal centre.

• Clean spills up immediately

• Dust surfaces with a soft, dry, lint free cloth.

• More stubborn marks can be removed using a damp (not wet) cloth. Wipe the surface dry immediately using a soft lint free cloth.

• Do not use detergents, abrasive cleaning products or cleaning products that contain ammonia, solvents or silicone as these may damage the surface finish.
