### Create your ambience

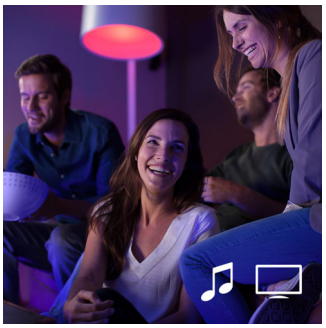

Set the right ambience for any moment with a range of beautiful, natural white light. Use the app to set any shade of white light, from cool energizing daylight to relaxing warm white light. Take control and set the ambience. Not too bright. Not too dark. Just right.

### Wake up naturally

Ease your sleeping routine and wake up gently for a fresh start each day. Philips Hue will help get you out of bed in a nice way. The gradually increasing light intensity gives you the feeling that you are waking up naturally with sunlight — rather than the rude awakening of an alarm ringing.

### Sync light to music and films

Extend your TV viewing experience to the whole room or lift your gaming experience to the next level. Download a third-party app and discover the amazing things you can do with Philips Hue. Or sync light to your favourite music and enjoy every beat to the fullest. Turn any room into a dance floor and see how light reacts to your music. Download one of the third-party apps and get the party started with Philips Hue.

### Light for your well-being

Light influences our mood, behaviour, alertness and routines. Through the app, you can set the light that is optimal for your moment. Philips Hue helps you to energise, concentrate, read and relax. Customise your daily routines into moments you can enjoy. Feel different. Feel better.

### Away-from-home control

You can control your lights remotely wherever you are. Check if you have forgotten to switch your lights off before you left your home, and switch them on if you are working late. With geofencing technology, your lights can even welcome you home or switch off automatically when you leave your home. It's all about simplifying your life and giving you peace of mind in smart and useful ways.
