

Health and Safety

The use of any electrical appliance requires the following common sense safety rules. Please read these instructions carefully before using the product.

- This appliance can be used by children aged from 8 years and above if they have been given supervision or instruction concerning the use of the appliance in a safe way and understand the hazards involved. Cleaning and user maintenance shall not be made by children unless they are older than 8 and supervised. Keep appliance and its cord out of reach of children aged less than 8 years.
- Children shall not play with the appliance.
- This appliance is intended to be used in household and similar applications such as: farm houses, by clients in hotels, motels and other residential type environments, and bed and breakfast type environments. It is not suitable for use in staff kitchen areas in shops, offices and other working environments.
- Appliances can be used by persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understands the hazards involved.
- If the mains cable is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified person in order to avoid a hazard.

- **WARNING: Do not open the lid whilst the water is boiling.**

Location

- Always locate your appliance away from the edge of the worktop.
- Ensure that the appliance is used on a firm, flat surface.
- Do not use the appliance outdoors or near water.
- **WARNING: Do not place the appliance onto a metal tray or metal surface whilst in use.**

Mains cable

- Do not let the mains cable hang over the edge of the worktop where a child could reach it.
- Do not let the mains cable run across an open space e.g. between a low socket and a table.
- Do not let the mains cable run across a cooker or other hot area which might damage the cable.
- The mains cable should reach from the socket to the base unit without straining the connections.

Personal safety

- Do not fill above the MAX mark, otherwise boiling water may be ejected.
- Unplug from the outlet before cleaning.

- Allow to cool before putting on or taking off parts and before cleaning.
- Do not move the kettle while switched on.

Other safety considerations

- The use of attachments or tools not recommended or sold by Morphy Richards, may cause fire, electric shock or injury.
- The kettle is only to be used with the stand provided.
- The appliance must not be on the base unit when being filled with water.
- Unplug from the outlet when not in use.
- **WARNING: The appliance must not be immersed for cleaning.**

Electrical requirements

Check that the voltage on the rating plate of your appliance corresponds with your house electricity supply which must be A.C. (Alternating Current).

Should the fuse in the mains plug require changing, a 13 amp BS1362 fuse must be fitted.

WARNING: This appliance must be earthed.

Before first use

Before using your kettle for the first time, fill with water, boil and pour away.

Using your kettle

Fill your kettle with water by removing the Lid (2), or through the Spout (3). Do not fill past the MAX line.

Place your kettle on the Cordless Base (7) and press the On/Off Switch (6).

When boiled, your kettle will automatically switch off. Remove from the Cordless Base (7).

Pour the water from your kettle.
CAUTION: The water and the kettle will be hot.

Removing the Filter (9)

1. Remove the Lid (3).
2. Lift the Filter (9) upwards from its Holder (10).
3. To refit the Filter, slide it into the side wall guides of the Filter Holder until it clicks into place.

WARNING: Unless the filter is fitted correctly, the kettle lid may not close and lock securely, and your kettle will not operate correctly.

Note

- Always pour hot water slowly and carefully without tipping the appliance too fast to prevent splashing and spillage.
- Do not hold the switch in the On position or tamper with the switch to fix it in the On position as this may cause damage to the switch-off mechanism.
- Do not use the appliance for any use other than to boil water.
- Always keep the top of the cordless base dry, especially around the connection area, disconnect the power supply before drying. Allow to dry thoroughly before reconnection to the power supply.

Cleaning your kettle

- **WARNING:** Always disconnect the plug from the mains and allow your kettle to cool before cleaning.
- Wipe the outside with a damp cloth.
- Always keep the top of the cordless base dry, especially around the connection area, disconnect the power supply before drying. Allow to dry thoroughly before reconnection to the power supply.
- **IMPORTANT:** Do not use abrasive cleaners on the outside of the kettle which may scratch the surface.
- **CAUTION:** To prevent damage to the appliance, do not use alkaline cleaning agents when cleaning. Use a soft cloth and detergent.

Descaling

IMPORTANT: As this appliance is fitted with a concealed element it must be descaled regularly. The frequency of descaling depends on usage and the hardness of the water in your area.

Excessive scale can cause the appliance to switch off before boiling and may damage the element invalidating the warranty.

It is essential that regular descaling takes place. We recommend descaling your kettle every two months.

Remove hard scale using a proprietary descaling product suitable for stainless steel, glass or plastic. Please follow the instructions carefully.

IMPORTANT: Ensure that the electrical connections are completely dry before using the appliance.
