- Never run out of battery with the extra rechargeable battery

PHILIPS

Highlights

15mm neodymium drivers

15mm neodymium drivers deliver clear and loud sound. A digital wireless connection transmits high quality transmission ensuring the best sound in class.

Ambient mode to amplify voices

Turn off TV sound with one button and the mic in the AudioBoost TV headphones will pick up voices and sounds in your environment and amplify them in your ears. Have clearer conversations with your family and hear your environment better.

Auto switch on/off function

Never press a button to activate the AudioBoost TV headphones. A smart mechanism automatically detects whether they are being worn and switches them on or off automatically. Never worry about forgetting to turn off your headphones again.

Auto tune function

Every time you wear the headset it will automatically turn on and choose the best

connection available for the best sound quality and connection. No more twisting and tweaking to find the best connection by yourself.

Compatible with all TVs

The AudioBoost TV headphones are compatible with all TVs featuring a digital and analog audio input.

Digital Wireless connection

Enjoy an interference free listening experience with the Digital Wireless connection. The digital wireless connection ensures a robust and secure connection with no interference

Extra rechargeable battery

Two rechargeable batteries are included. Each has 5 hours of play time for a total time of 10 hours. Change to the second battery when the stethoscope headphones battery is empty for continuous enjoyment.

High output sound for clarity

High output neodymium drivers gives sound a boost so you hear everything as it is supposed to be.

Separate left/right control

Enjoy extra loud sound with left and right balance and volume controls for a personalised experience.

Three equalizer options

Everyone has their own sound preference, so you can choose from three EQ options for the one that matches you the best for your TV enjoyment.

Plug & play design

Plug & play design for easy set up

Suitable for use with glasses

Suitable for use with glasses and 3 eartip styles for comfort
