Issue 2 - 15/08/16

Safety and Care Advice

Important – Please read these instructions fully before starting assembly

• Check you have all the components and tools listed on the following pages.

• Remove all fittings from the plastic bags and separate them into their groups.

• Keep children and animals away from the work area, small parts could choke if swallowed.

• Make sure you have enough space to layout the parts before starting.

• During assembly do not stand or put weight on the product, this could cause damage.

• Assemble the item as close to its fi nal position (in the same room) as possible.

• Assemble on a soft level surface to avoid damaging the unit or your floor.

• Parts of the assembly will be easier with 2 people.

• To reduce the likelihood of damaging your product please ensure that your power drill is set on a low torque setting.

Care and maintenance

• Only clean using a damp cloth and mild detergent, do no use bleach or abrasive cleaners.

• From time to time check that there are no loose screws on this unit.

• This product should not be discarded with household waste. Take to your local authority waste disposal centre.

Handy Hints

• Assemble all parts and bolts loosely during assembly, only once the product is complete should you fully tighten the bolts

• Regularly check and ensure that all bolts and fittings are tightend properly.

Galss Safety

• Keep these instruction for future reference.

• Imported by:
Argos Ltd.
489-400 Avebury Boulevard.
Saxon Gate West.
Central milton Keynes.
MK9 2NW

• If the glass is chipped or broken, stop using the product and consult the manufacturer or suppliers.

• Batch No:12052016

• Date of Manufacture: May 2016

• Type of glass used: 5 mm tempered glass

Warnings

(a) Do not place very hot or very cold items on the glass surface(s) unless adequately thick table mats are used to prevent such items from coming into contact with the glass.

(b) Do not sit or stand upon the glass surface(s).

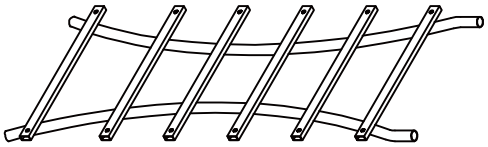

(c) Do not use the glass as a chopping usrface. Do not strike the glass with hard or pointed items.

(d) When cleaning glass panels use a damp cloth if necessary, do not use washing powders or any other substance containing abrasives since these substance scratch glass.

If you have damaged or missing components, call the **Customer Helpline: 03456 400800**

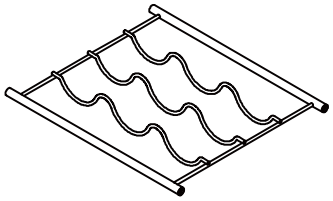

Please check you have all the fittings listed below

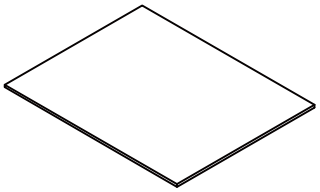

1 Side Frame x 2

2 Top Frame x 1

3 Metal Wine Frame x 5

4 Tempered Glass x 1

Components - Fittings

Please check you have all the fittings listed below

Note: The quantities below are the correct amount to complete the assembly. In some cases more fittings may be supplied than are required.

A

Rubber Sleeve x 4

B

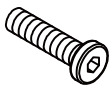

PP Cover x 4

C

Adjustable Feet

D

Flate Screw x 24

E

Round End Cap x 4

F

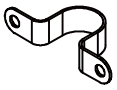

Retangular End Cap x 24

G

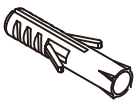

Allan Ken x 1

H

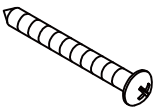

Bracket x 1

I

Wall Plug x 2

J

Long Round Screw x 2

Assembly Instructions

Step 1

Insert Round End Cap Ⓔ and Retangular End Cap Ⓕ to Side Frame [1] .

Assemble Adjustable Feet Ⓒ to PP Cover Ⓑ and put into the bottom part of Side Frame [1] .

See fig. 1

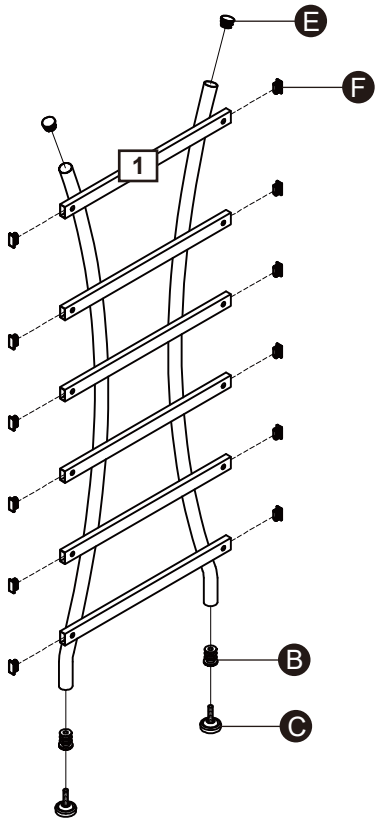

fig. 1

Step 2

Tighten Top Frame [2] and Metal Wine Frame [3] using Flate Screw Ⓓ and Allen Key Ⓖ .

See fig. 2

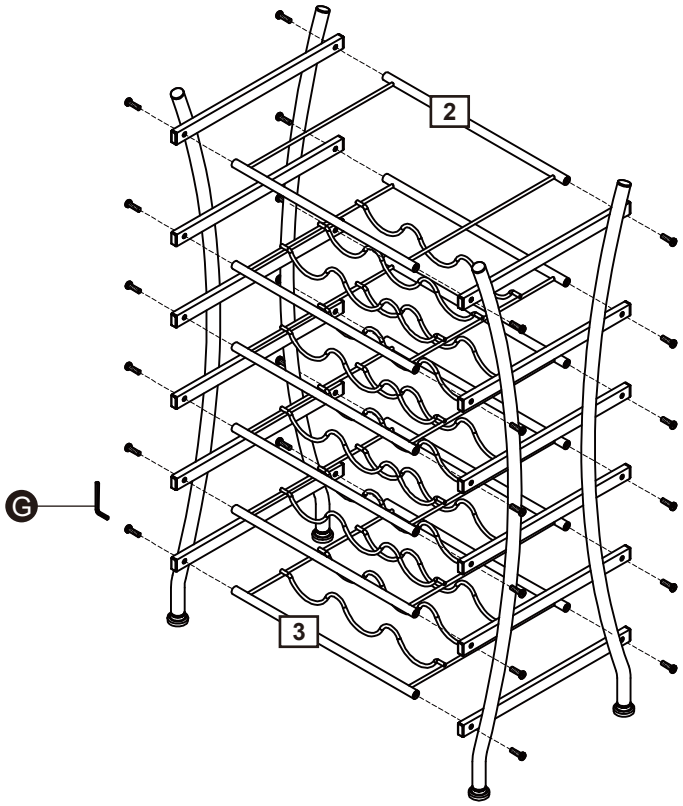

fig. 2

Assembly Instructions

Step 3

Use Rubber Sleeve Ⓐ on Top Frame 2

See fig. 3

Use Bracket Ⓗ to ensure the unit is fixed on the wall securely to prevent overturning.

A Guide to - Wall Mounting & Fixings

Important note:

If plastic wall plugs are supplied with your product:

- these are only suitable for use in masonry walls.

If you are in any doubt about the correct wall plugs for your wall, seek professional advice.

Failure of the product due to using incorrect fixings is the responsibility of the installer.

Important: When drilling into walls always check that there are no hidden wires or pipes etc.

Make sure that the screws and wall plugs being used are suitable for supporting your unit. Consult a qualified tradesperson if you are unsure.

Hints:

1: General rule: Always use a larger screw and wall plug if you are not sure.

2: Ensure you use the recommended drill bit to match the wall plug and hole size.

3: Ensure you drill the hole horizontally, do not force the drill or enlarge the hole.

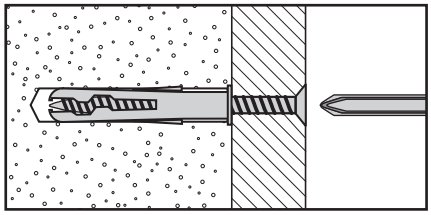

4: Take extra care when drilling high walls, ceilings and ceramic tiles. Ensure wall plugs are inserted beyond the thickness of the ceramic tiles to avoid the tiles splitting or cracking.

5: Ensure wall plugs are well fitted and are a tight fit in the drilled hole.

Types of walls

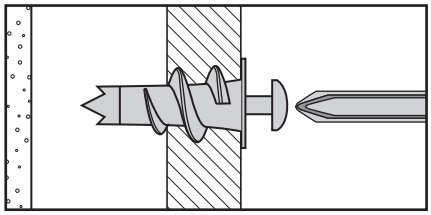

You can use one of the following types of wall plug if your walls are made of brick, breeze block, concrete, stone or wood.

No.1 **"General Purpose" wall plug**

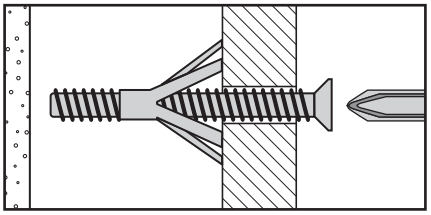

Generally aerated blocks should not be used to support heavy loads, use a specialist fitting in this case. For light loads, general purpose wall plugs can be used.

No.2 **"Plasterboard" wall plug**

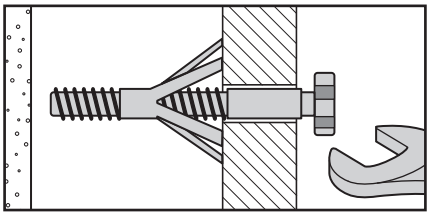

For use when attaching light loads on to plasterboard partitions.

No.3 **"Cavity Fixing" wall plug**

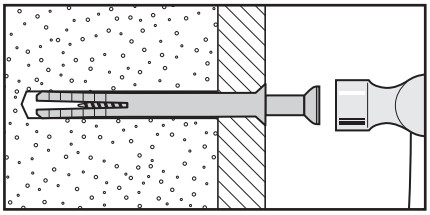

For use with plasterboard partitions or hollow wooden doors.

No.4 **"Cavity Fixing-Heavy Duty" wall plug**

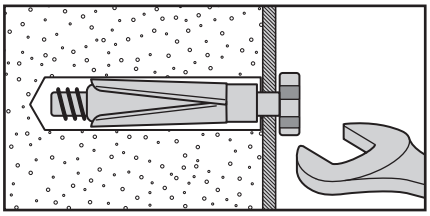

For use when fitting or supporting heavy loads such as shelving, wall cabinets and coat racks.

No.5 **"Hammer Fixing" wall plug**

For use with walls stuck with plasterboard. The hammer fixing allows it to be fixed to the wall rather than the plasterboard. Always check the fixing is secure to the retaining wall.

No.6 **"Shield Anchor" wall plug Heavy loads**

For use with heavier loads such as TV & HiFi speakers and satelite dishes etc.

Care & Maintenance

Safety: Always check the fitting and location to ensure your safety in and around the home.

Fitting: From time to time check the fitting to ensure the wall plugs or screws do not become loose.
