Safety and Care Advice

Important – Please read these instructions fully before starting assembly

· Check you have all the components and tools listed on pages 2 and 3.

· Remove all fittings from the plastic bags and separate them into their groups.

· Keep children and animals away from the work area, small parts could choke if swallowed.

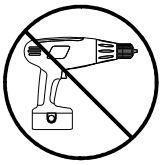

· Make sure you have enough space to layout the parts before starting.

· Do not stand or put weight on the product, this could cause damage.

· Assemble the item as close to its final position (in the same room) as possible.

· Assemble on a soft level surface to avoid damaging the unit or your floor.

. This product contain natural timber. You may notice some variation in the grain and colour of different component parts which is normal for furniture produced using natural wood and is not the result of any manufacturing fault.

· We do not recommend the use of power drill/drivers for inserting screws, as this could damage the unit. Only use hand screwdrivers.

· Parts of the assembly will be easier with 2 people.

· Dispose of all packaging carefully and responsibly.

care and maintenance

· Use an appropriate furniture polish for natural wood furniture and a dry cloth to clean the product.

· Avoid placing the furniture in direct sunlight as this will cause the timber to prematurely age.
