Windemere Bird Bath

The Windemere, combining the lovely appearance of real stone with the lightweight advantage of poly-stone structure; a compound of crushed stone and resin. The bowls locate securely on the pedestals, and the decorative groups of birds fix firmly in place on the edges of the bowls. The "Windermere" model has an overall height of 71cms., and the shell shaped bowl is 55cms. in diameter. The fluted pedestal makes this a truly classic model.
