

TOUCH

FITNESS TRACKER

TomTom  **SPORTS**

The new TomTom TOUCH FITNESS TRACKER comes in two sizes. Select large or small straps to ensure the perfect fit for your wrist.

SIZE UP YOUR WRIST

To find out what size strap you need use a tape measure and wrap it around your wrist on which you plan to wear your TomTom Touch. Make sure not to wrap too tight or too loose for the best measurement.

If you do not have a tape measure, you can also print this size guide.

TomTom Watch Strap measurements

SMALL: 125 - 165 mm

LARGE: 140 - 206 mm

This page must be printed at 100% in portrait orientation. Do not shrink or use "fit to page". Use a ruler to confirm that the line below measures 206mm/8.1"
