Produced in PRC for La Hacienda Ltd Hangar 27, Site C, Aston Down Airfield, Nr Stroud, Glos, GL6 8HR, UK www.lahacienda.co.uk

# Care and safe use guidelines

## SAFETY INFORMATION

#### WARNINGS:

- To prevent damage or surface cracking, do not drop this appliance.
- Do not overload with fuel (untreated wood or logs); if the fire is too intense this could damage the appliance. Fuel should never protrude from the mouth of the appliance.
- · This appliance will become very hot in use, do not move it during operation.
- Do not use this appliance in a confined and/or habitable space e.g. houses, tents, caravans, motor homes or boats. Danger of carbon monoxide poisoning fatality.
- · Keep children and pets away.
- · Do not use this appliance as a furnace.

### FIRE HAZARD:

- This appliance must be installed on a secure level base before use.
- Do not use this appliance on wooden decking or any other flammable surfaces such as dry grass, wood chips, leaves or decorative bark, etc.
- Do not use this appliance on artificial grass or other surfaces that are not heat resistant.
- · Hot embers may be emitted whilst in use.
- Ensure that this appliance is positioned at least 2 meters away from any flammable materials and has a minimum clearance of 2 metres from overhead and adjacent surroundings.

#### CARE & USE

- · When lifting or moving this appliance, never drag it; seek assistance as necessary.
- As this appliance has components made from steel and/or cast iron, the surface will age and develop surface
  rust over time once it is exposed to natural weather elements. This is to be expected and does not constitute an
  appliance fault.
- Never fuel the fire to an extent that flames reach the flue of this appliance.
- This appliance must never be used with the lid fitted (if supplied).
- For safety reasons, it is recommended to inspect this appliance before each use for signs of fatigue and damage. Be sure to replace any appliance that has reached the end of its natural life.
- If this appliance is left outside temporarily a suitable cover must be used, once it has cooled completely.
- For long-term storage this appliance must be stored in an environment that is free from frost, rain and excessive moisture.
- This appliance could mark or stain a patio; to protect against this place onto a separate patio slab or brick base.

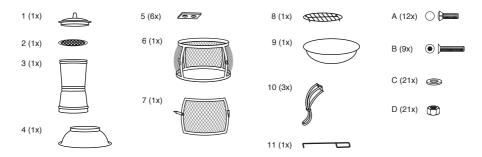

#### SOLID FUEL TYPES & LEVELS

- For outdoor heating, the following fuel types may be used with this appliance: untreated wood, logs and Easylogs.
- · Do not burn coal in this appliance.
- Do not overload with fuel: it is recommended to fill only to half capacity of the fire bowl or fuel burning area.
- The recommended quantity of fuel must never be exceeded by greater than 50%.

#### LIGHTING, REFUELLING & EXTINGUISHING

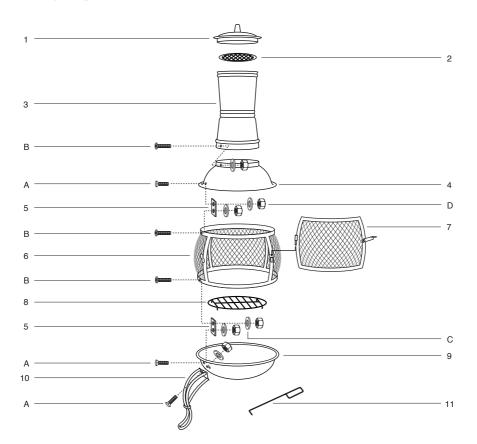

- WARNING! Do not use spirit or petrol for lighting or re-lighting! Use only firelighters complying to EN 1860-3.
- Prepare a stack of loosely crumpled newspaper or eco firelighters (or compatible, tested to EN 1860-3) into the fuel-burning area.
- · Pile finely split, dry, firewood on top of the paper.
- · Add half of the fuel leaving access to light the paper.
- Light the paper or firelighters using long safety matches or a long-reach lighter. Once the fire is established add the remaining fuel.
- Always use heat resistant gloves, tested to EN 407, when adding fuel, or when using any safety tool (where supplied).
- Do not drop or throw fuel into the appliance as this can cause cracks/fractures to the appliance.
- To extinguish the fire after use: stop adding fuel and allow the fire to die; alternatively douse it with sand. Do not
  use water as this may damage the appliance, and will also create excess ash particles.

## Parts List

Prior to assembly, read the instructions carefully. Check all parts against this parts list. Carry out assembly on a soft surface to avoid scratching the paint. Please retain this information for future reference.

# **Assembly Diagrams**

## **Assembly Instructions**

IMPORTANT! - Remove any packaging before use, but retain the safety instructions and store them with this product.

- STEP 1 Attach the 3x legs (10) to the bottom bowl (9) using 2x bolt (A), 2x washers (C) and 2x nuts (D) per leg.
- STEP 2 Attach the bottom bowl (9) to the mesh body (6) with 3x brackets (5) and using 1x bolt (A) in the lower hole and 1x bolt (B) in the top hole of the bracket. Secure using 2x washers (C) and 2x nuts (D) per bracket.
- STEP 3 Attach the top bowl (4) to the mesh body (6) with 3x brackets (5) and using 1x bolt (A) in the top hole and 1x bolt (B) in the bottom hole of the bracket. Secure using 2x washers (C) and 2x nuts (D) per bracket.
- STEP 4 Attach the flue (3) to the top bowl (4) using 3x bolts (B), 3x washers (C) and 3x nuts (D).
- STEP 5 Place flue grill (2) and rain lid (1) on top of the flue (3).
- STEP 6 Place fuel grate (8) into the bottom bowl (9).
- STEP 7 Secure mesh door (7) onto mesh body (6) by locating hinge pin in bracket hole.

The product is now ready to use but please ensure you have read these instructions thoroughly prior to use.
