Logitech®

Gaming Mouse G300s

More power. More control. More loot.

• Nine programmable controls
• Onboard memory
• Easy-to-use configuration software
• Sculpted, symmetrical shape
• Gaming-grade optical sensor

The Logitech® Gaming Mouse G300s features nine programmable controls that let you move keyboard commands to buttons that are in easy reach. Onboard memory allows you to store up to three game or player profiles on the mouse, so you can move it between computers without having to reconfigure it every time you do. Drag-and-drop software makes customising your mouse easy. The sculpted, ambidextrous shape is equally comfortable in either hand. And a gaming-grade optical sensor accurately tracks slow or fast movements on a wide variety of surfaces. So you get consistent response to your hand movements.

SCIENCE WINS.
