Safety and Care Advice

Important - Please read these instructions fully before starting assembly

- Check you have all the components and tools listed on pages 2 and 3.
- Remove all fittings from the plastic bags and separate them into their groups.
- Keep children and animals away from the work area, small parts could choke if swallowed.
- Assemble the item as close to its final position (in the same room) as possible.
- Make sure you have enough space to layout the parts before starting.
- Dispose of all packaging carefully and responsibly.
- Keep these instructions for further use.
- Assemble on a soft level surface to avoid damaging the unit or your floor.
- To ensure an easier assembly, we strongly advise that all fittings are only finger tightened during initial assembly. Only upon completion of the assembly should all fixing points be fully tightened.

Cleaning Guidance

- Minor stains and spillages should be removed immediately from cushion fabric, by wiping over lightly with a damp cloth and mild soapy water.
- Light marking can also be removed using this method.
- To remove more stubborn stains or marking, a good quality proprietary domestic fabric cleaner can be used, although it should first be tested on an inconspicuous area of the fabric.

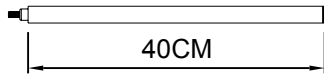

Care and maintenance

- From time to time check that there are no loose screws on this unit.
- This product should not be discarded with household waste. Take to your local authority waste disposal centre.
