Version 2 Date: 27/05/10

Safety and Care Advice

Important – Please read these instructions fully before starting assembly

• Check you have all the components and tools listed on pages 2 and 3.

• Remove all fittings from the plastic bags and separate them into their groups.

• Keep children and animals away from the work area, small parts could choke if swallowed.

• Make sure you have enough space to layout the parts before starting.

• Do not stand on the product, this could cause damage.

• Assemble the item as close to its final position (in the same room) as possible.

• Assemble on a soft level surface to avoid damaging the unit or your floor.

• Parts of the assembly will be easier with 2 people.

• We do not recommend the use of power drill/drivers ***for inserting screws***, as this could damage the unit. Only use hand screwdrivers.

• Dispose of all packaging carefully and responsibly.

Care and maintenance

• Only clean using a damp cloth and mild detergent, do no use bleach or abrasive cleaners.

• From time to time check that there are no loose screws on this unit.

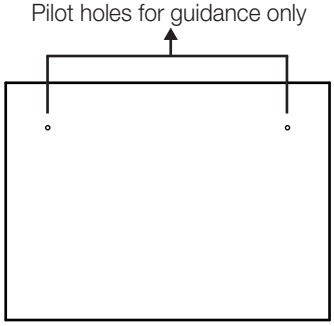

• This product should not be discarded with household waste. Take to your local authority waste disposal centre.

Components - Panels

If you have damaged or missing components, call the **Customer Helpline: 08456 400800**

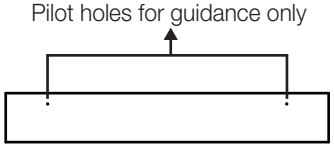

Please check you have all the panels listed below

Pilot holes for guidance only

1 Bottom panel (38.9 x 28.5cm)

Pilot holes for guidance only

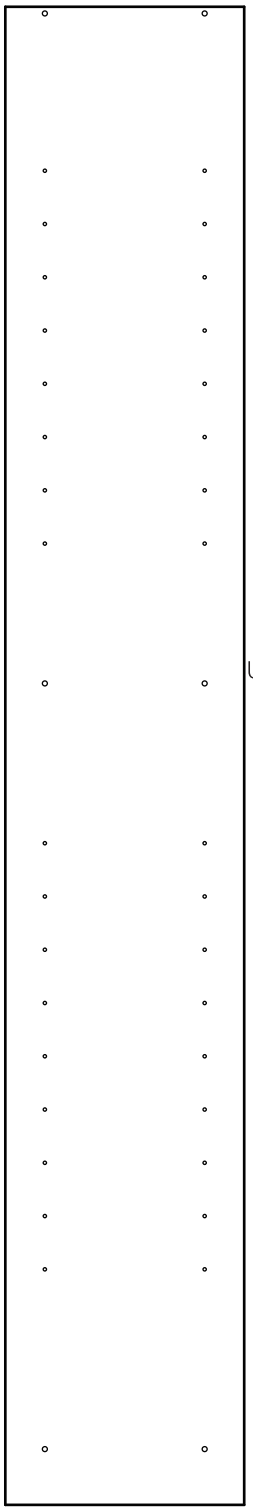

2 Front panel (38.9 x 5.9cm)

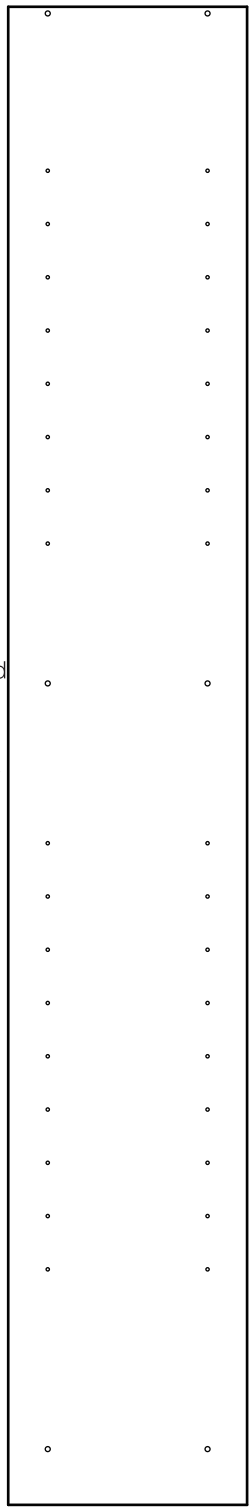

3 Fixed panel x 2
(38.9 x 28.5cm)

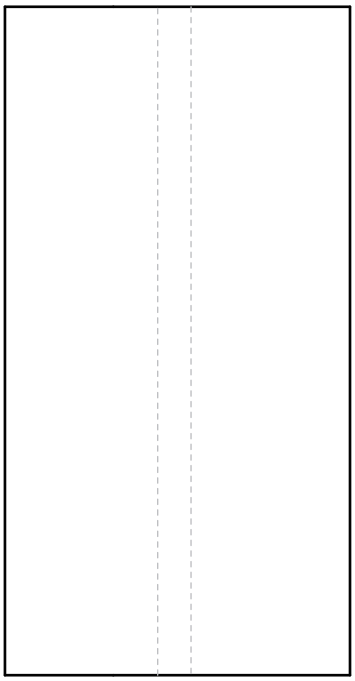

4 Removable panel x 4
(38.9 x 28.5cm)

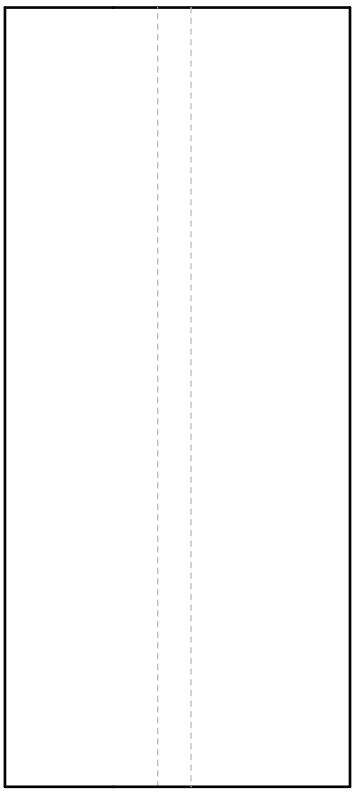

5 Left side panel
(28.7 x 180cm)

6 Right side panel
(28.7 x 180cm)

7 Top back panel
(41.4 x 79.8cm)

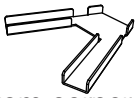

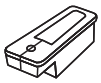

8 Bottom back panel
(41.4 x 93.6cm)

Components - Fittings

Please check you have all the fittings listed below

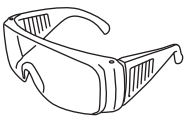

Note: The quantities below are the correct amount to complete the assembly. in some cases more fittings may be supplied than are required.

A  Plastic support x 2	**B**  14mm Screw x 7	**C**  50mm Screw x 12
D  Shelf support x 16	**E**  Support cover x 16	**F** Nail x 22
G  Wall strap x 1 (This screw is included in the bag of wall strap)  x 1	**H**  Screw cover x 12	**I**  Upper corner support bracket x 1
J  Bottom corner support bracket x 1	**K**  Nail guide x 1	**L**  Wall plug x 1

Tools required

Phillips screwdriver (medium & large)

Eye pr (when using a hammer or glue)

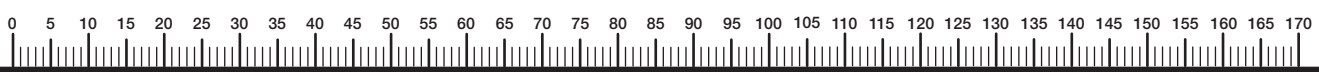

Small hammer

Ruler/tape measure

Ruler - Use this ruler to help correctly identify the screws

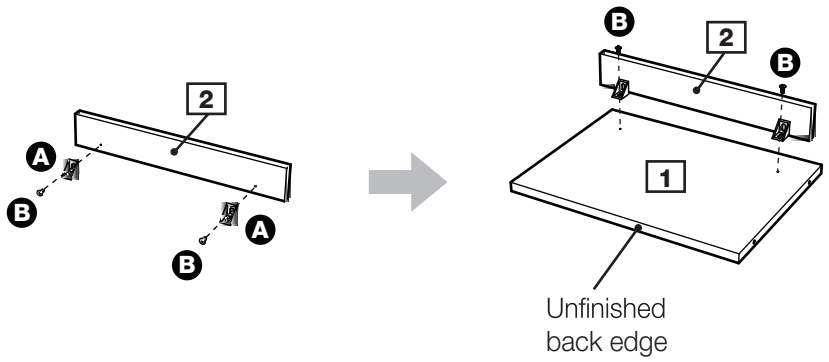

Assembly Instructions

Step 1

Attaching bottom panel

Use Plastic supports (A) and Screws (B) to fix the Front panel [2] onto the Bottom panel [1].

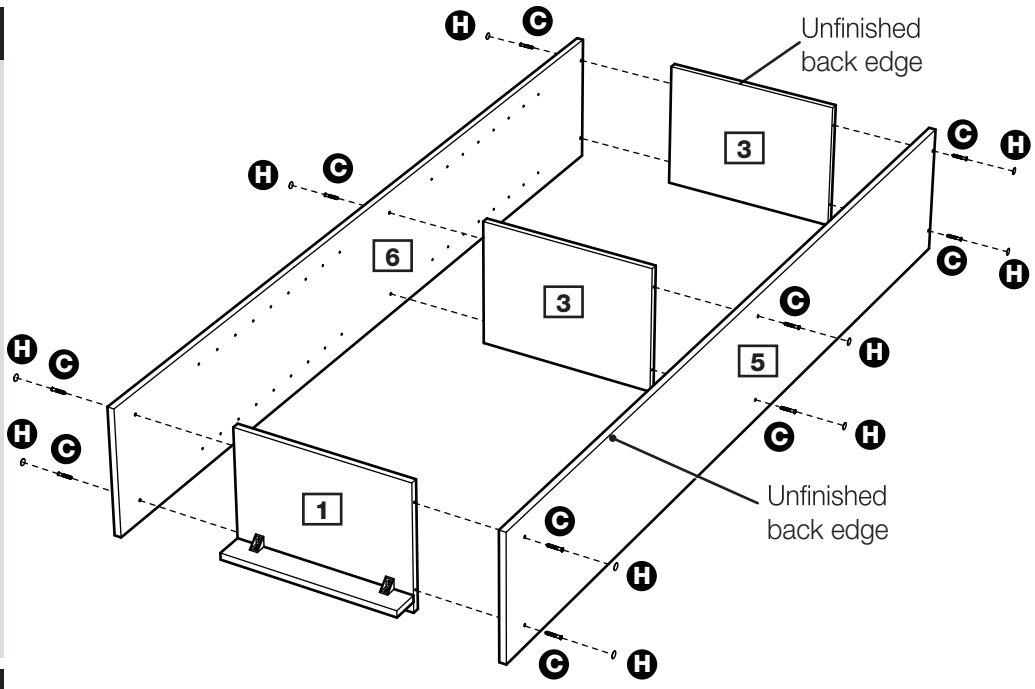

Step 2

Attaching side panels

Use Screws (C) to fix the Left side panel [5] and Right side panel [6] onto the Bottom panel [1] and Fixed panels [3].

Use Screw covers (H) to cover the Screw heads.

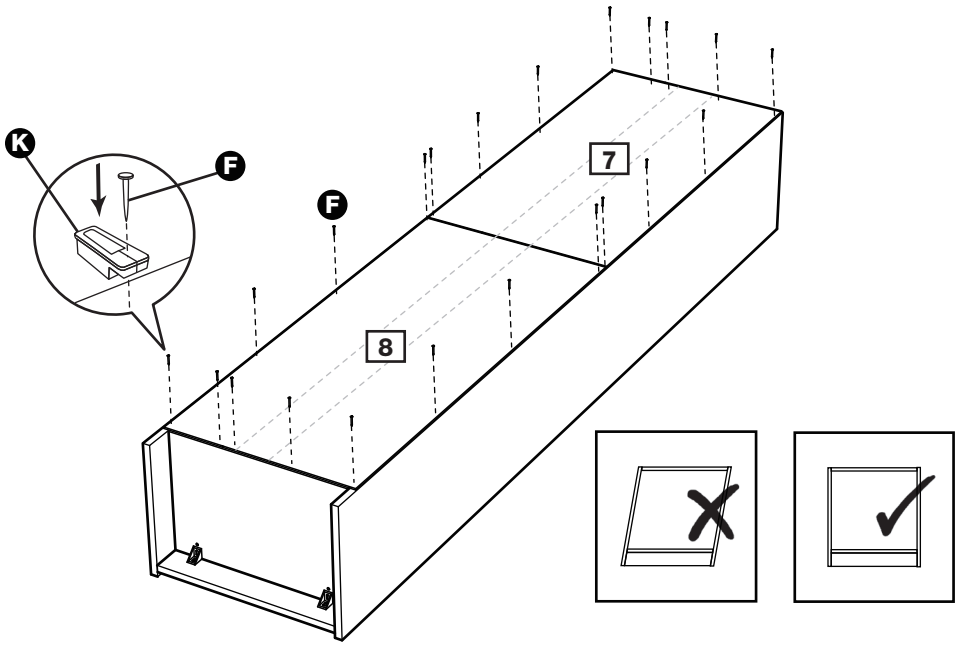

Step 3

Fixing back panels

Use the Nails (F) to fix the Back top panel [7] and Back bottom panel [8] onto the unit.

Note: Use Nail guide (K) to keep a constant distance from the edge to Nails.

Important:
The cabinet **MUST** be 'square' when the back is attached.

Step 4

Attaching removable panels

With help, carefully stand bookcase upright.

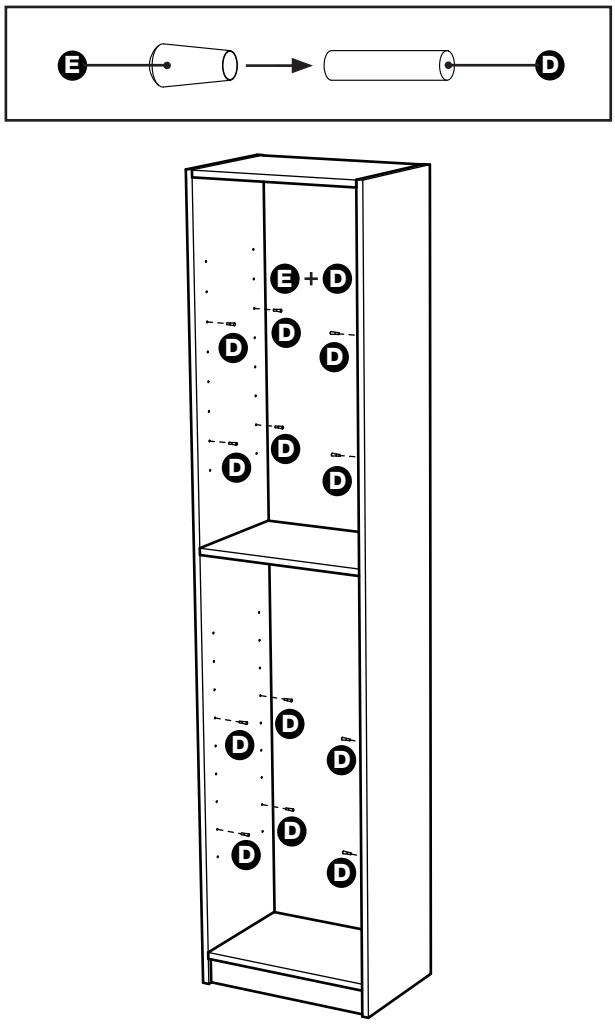

Warning:
The bookcase is heavy.
Lift with care.

a: Slide Support covers Ⓔ onto Shelf supports Ⓓ.

Insert Shelf supports Ⓓ into the unit. Ensure they are well fitted before inserting the Shelves.

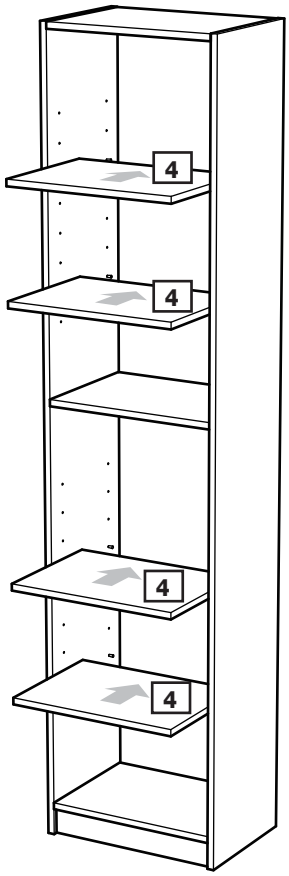

Note: Set the shelf supports to the desired height.

a:

b: Slide the Removable panels [4] into the unit.

b:

Assembly Instructions

Step 5

Fixing to wall

It is recommended that the bookcase is fixed to a wall.

Use Screw Ⓑ to fix the Wall strap Ⓖ onto the back of the Top panel.

With help, move bookcase into position.

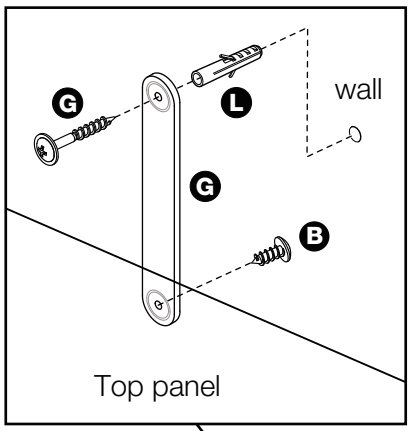

Warning:
The bookcase is heavy.
Lift with care.

Mark fixing hole on wall and remove bookcase.

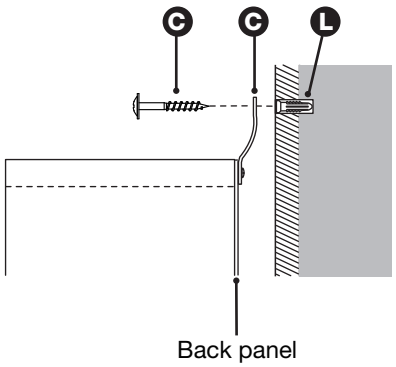

Drill a hole and insert Wall plug Ⓛ.

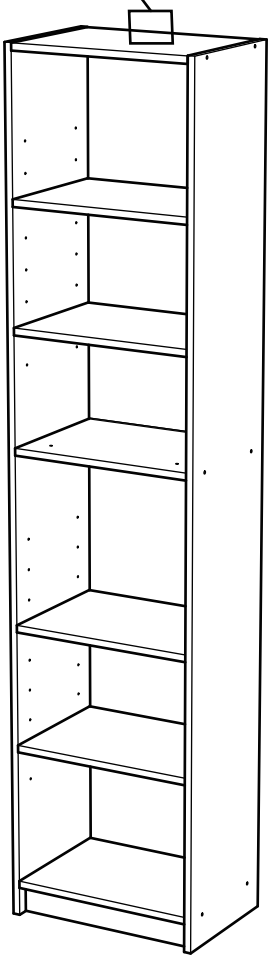

Warning:
Before drilling, check wall for hidden pipes and and cables.

Reposition bookcase and fix wall strap using Screw Ⓖ.

Note: Wall plugs supplied are for solid wall only.
The correct type of fixing must be used for your wall, seek professional advice if in doubt

Assembly Instructions

Step 6

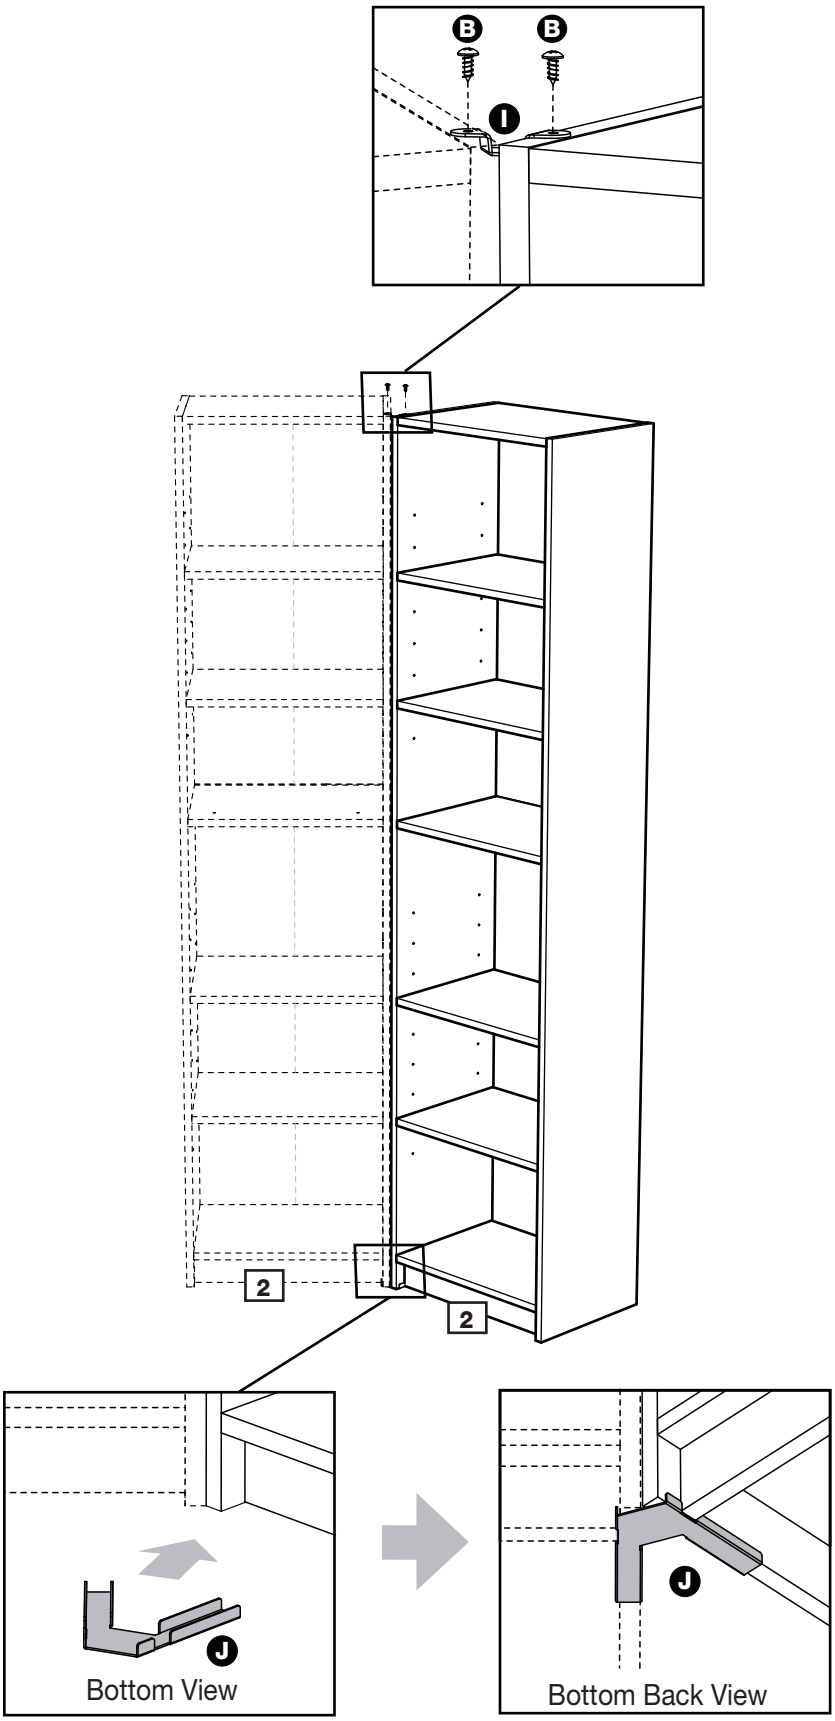

Construct a corner configuration

Use Screws B to fix the Upper corner support bracket I onto the front top edge of side panel.

Fix the front bottom edge of side panel into the Bottom corner support bracket J .

Make sure the Front panel 2 is positioned in the gap of Bottom corner support bracket J .

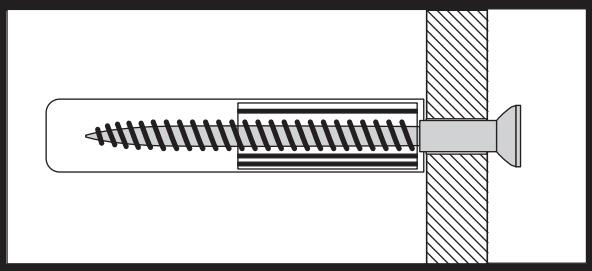

Assembly is complete.

If you need help or have damaged or missing parts, call the **Customer Helpline: 08456 400800**

A Guide to

Wall Mounting & Fixings

IMPORTANT:
When drilling into walls always check that there are no hidden wires or pipes etc. Make sure that the screws and wall plugs being used are suitable for supporting your unit. Consult a qualified tradesperson if you are unsure.

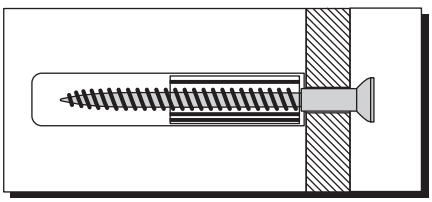

HINTS:

1) General Rule ⚠ Always use a larger screw and wall plug if you are not sure.
2) Ensure you use the recommended drill bit to match the wall plug and hole size.
3) Ensure you drill the hole horizontally, do not force the drill or enlarge the hole.
4) Take extra care when drilling high walls, ceilings and ceramic tiles. Ensure the plug is fitting below the ceramic tile to avoid splitting or cracking.
5) Ensure wall plugs are well fitted and are a tight fit in the drilled hole.

Types Of Walls

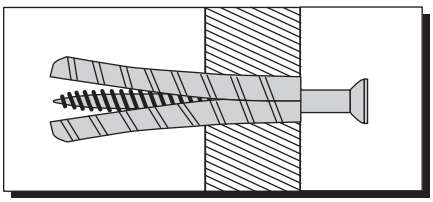

You can use one of the following types of wall plug if your walls are made of brick, breeze block, concrete, stone, wood or plaster board.

No.1 "Standard" Wall Plug
General Wall Materials

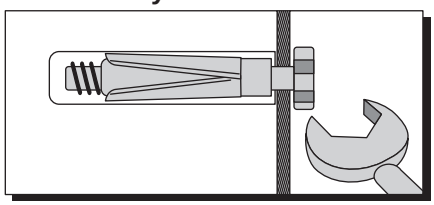

These come in various sizes and are made from plastic or sometimes wood fiber.

No.2 "General Purpose" Wall Plug
Aerated / Breeze Block

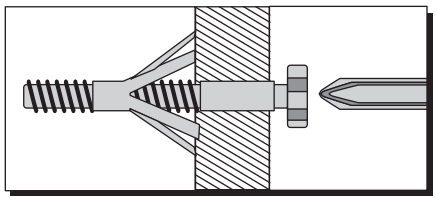

Generally aerated blocks should not be used to support heavy loads, use a specialist fitting in this case.
For light loads, a General Purpose Plug can be used.

No.3 "Shield Anchor" Wall Plug
Heavy Loads

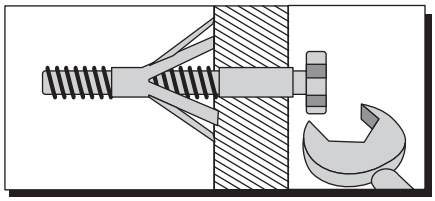

For use with heavier loads such as TV & HiFi Speakers and Satellite Dishes etc.

No.4 "Cavity Fixing" Wall Plug

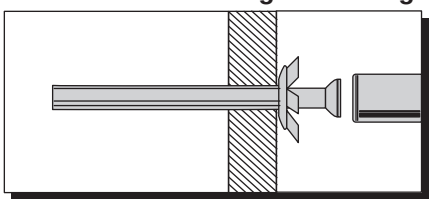

For use with plaster board partitions or hollow wooden doors.

No.5 "Cavity Fixing - Heavy Duty" Wall Plug

For use when fitting or supporting heavy loads such as shelving, wall cabinets, coat racks.

No.6 "Hammer Fixing" Wall Plug

For use with walls stuck with plaster board. The hammer fixing allows it to be fixed to the wall rather than the plaster board. Always check the fixing is secure to the retaining wall.

CARE & MAINTENANCE

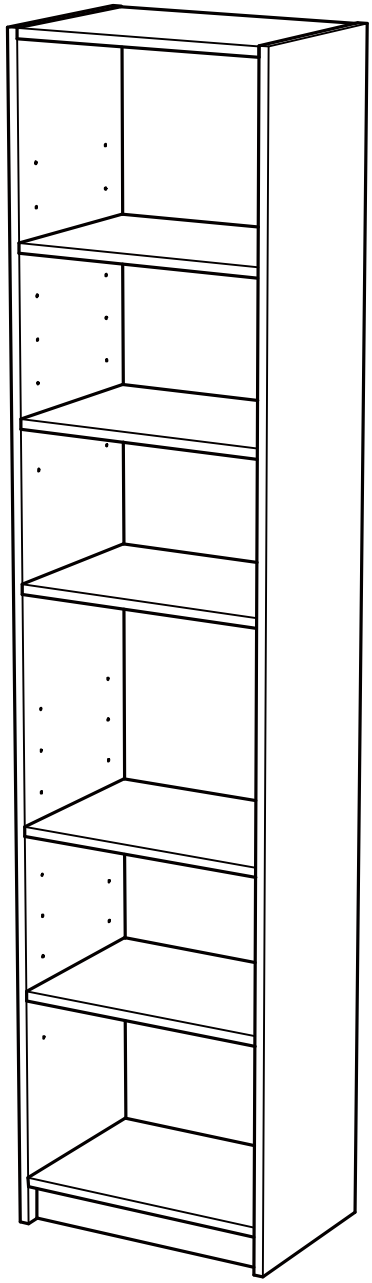

⚠ **SAFETY**
Always check the fitting and location to ensure your safety in and around the home.

⚠ **FITTING**
From time to time check the fitting to ensure the wall plugs or screws do not become loose.

Safety and Care Advice

Important – Please read these instructions fully before starting assembly

• Check you have all the components and tools listed on the following pages.

• Remove all fittings from the plastic bags and separate them into their groups.

• Keep children and animals away from the work area, small parts could choke if swallowed.

• Make sure you have enough space to layout the parts before starting.

• During assembly do not stand or put weight on the product, this could cause damage.

• Assemble the item as close to its final position (in the same room) as possible.

• Assemble on a soft level surface to avoid damaging the unit or your floor.

• Parts of the assembly will be easier with 2 people.

• To reduce the likelihood of damaging your product please ensure that your power drill is set on a low torque setting.

Care and maintenance

• Only clean using a damp cloth and mild detergent, do no use bleach or abrasive cleaners.

• From time to time check that there are no loose screws on this unit.

• This product should not be discarded with household waste. Take to your local authority waste disposal centre.

Handy Hints

• Assemble all parts and bolts loosely during assembly, only once the product is complete should you fully tighten the bolts

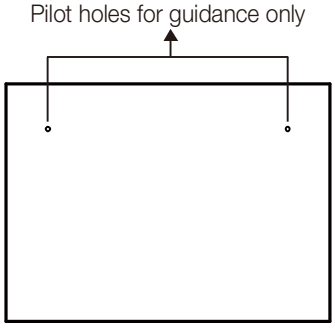

• Regularly check and ensure that all bolts and fittings are tightend properly.

J  Bottom corner support bracket x 1	**K**  Wall plug x 1	

Tools required

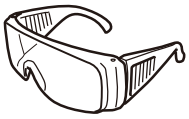

Phillips screwdriver (medium & large)

7mm Suitable drill bit (for use with wall plug)

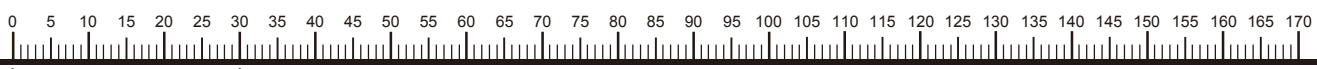

Drill

Small hammer

Ruler/tape measure

Eye protection (when using a hammer or glue)

Ruler - Use this ruler to help correctly identify the screws

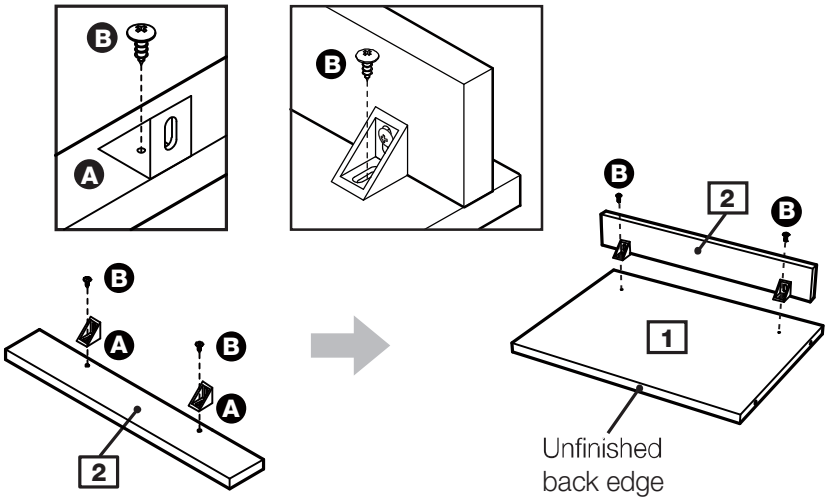

The screws length is measured from the head to the point (30mm screw shown).

Assembly Instructions

Step 1

Attaching bottom panel

Use Plastic supports Ⓐ and Screws Ⓑ to fix the Front panel 2 onto the Bottom panel 1.

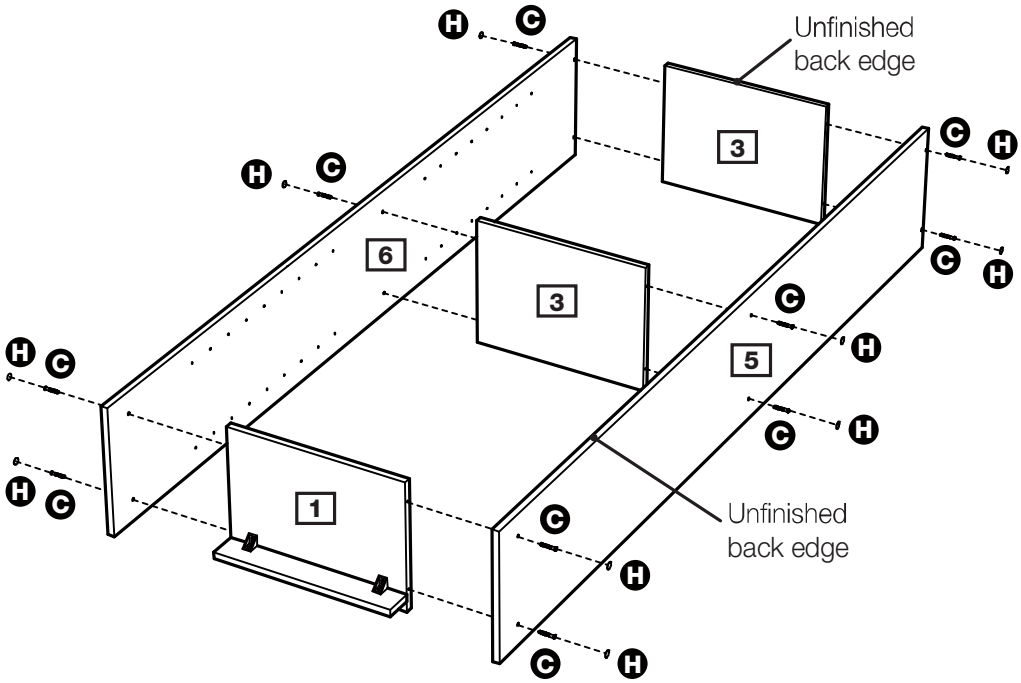

Step 2

Attaching side panels

Use Screws Ⓒ to fix the Left side panel 5 and Right side panel 6 onto the Bottom panel 1 and Fixed panels 3.

Use Screw covers Ⓗ to cover the screw heads.

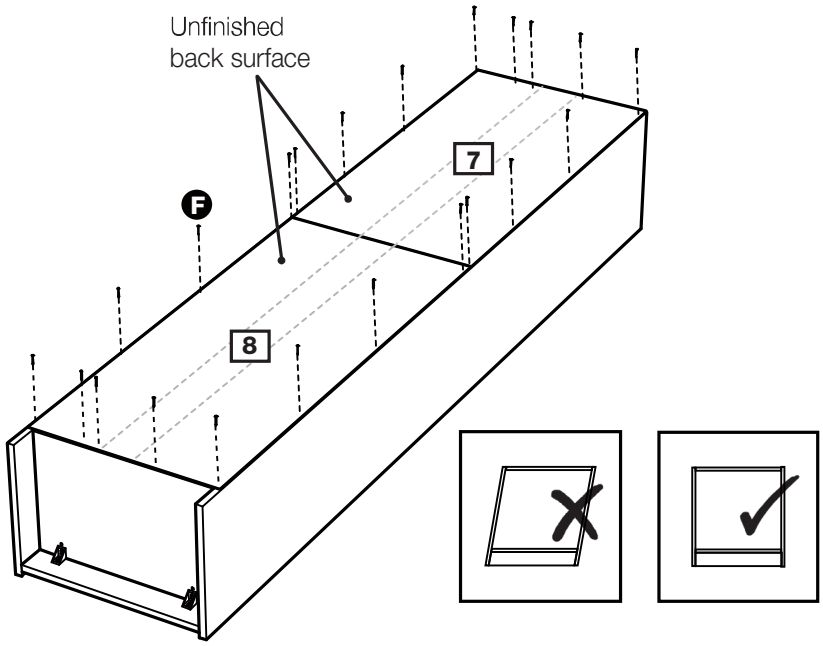

Step 3

Fixing back panels

Attach Top back panel 7 and Bottom back panel 8 onto the unit using Nails Ⓕ.

Important:
The unit **MUST** be 'square' when back is attached.

Assembly Instructions

Step 4

Attaching removable panels

With help, carefully stand bookcase upright.

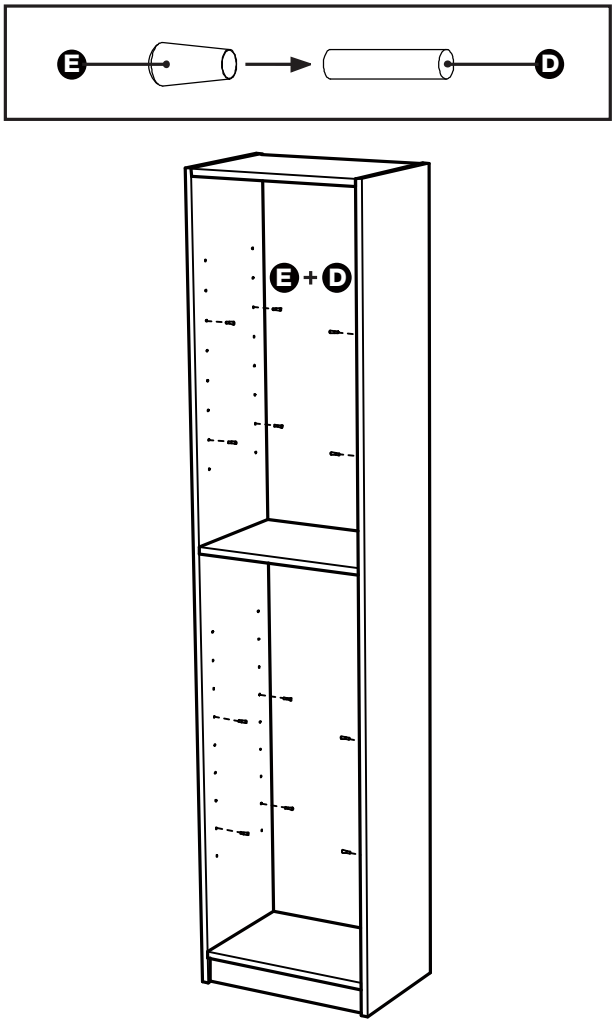

Warning:
The bookcase is heavy.
Lift with care.

a: Slide Support covers Ⓔ onto Shelf supports Ⓓ.

Insert Shelf supports Ⓓ (Support covers Ⓔ are included) into the unit. Ensure they are well fitted before inserting the removable panels.

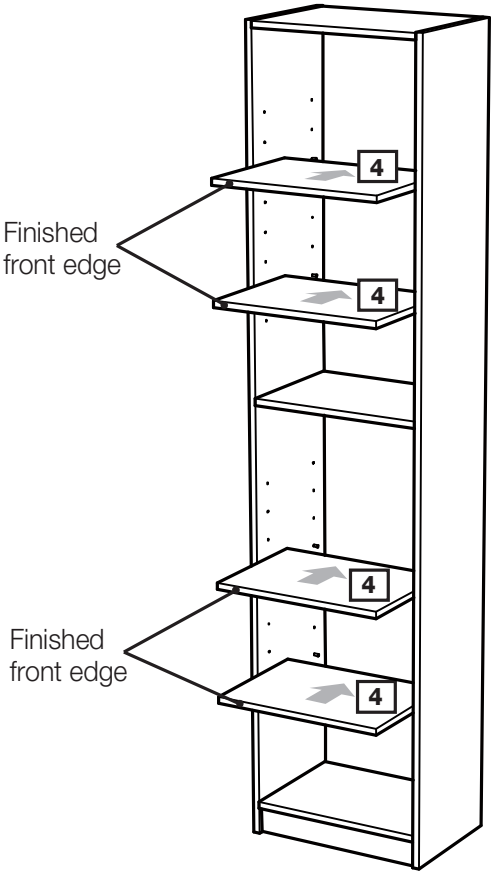

Note: Set the shelf supports to the desired height.

a:

b: Slide the Removable panels 4 into the unit.

b:

Assembly Instructions

Step 5

Fixing to wall

It is recommended that the bookcase is fixed to a wall.

Use Screw **B** to fix the Wall strap **G** onto the back of the Top panel.

With help, move bookcase into position.

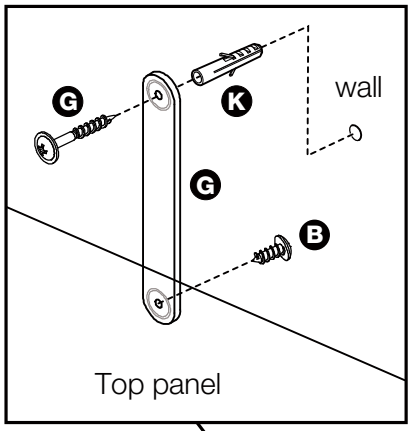

Warning:
The bookcase is heavy.
Lift with care.

Mark fixing hole on wall and remove bookcase.

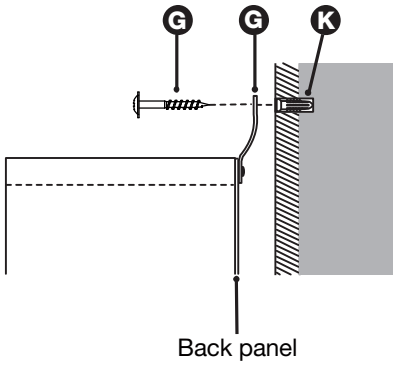

Drill a hole and insert Wall plug **K**.

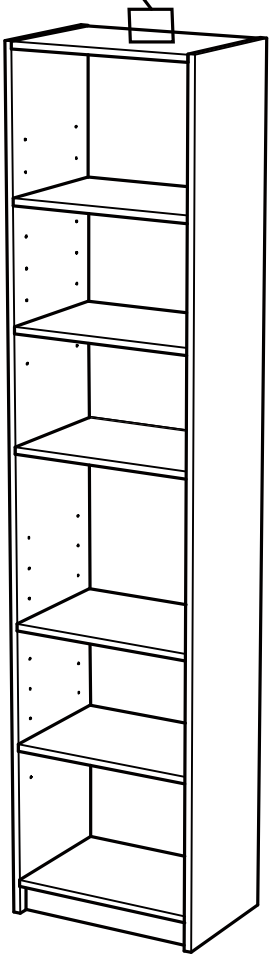

Warning:
Before drilling, check wall for hidden pipes and and cables.

Reposition bookcase and fix wall strap using Screw **G**.

Note: Wall plugs supplied are for solid wall only.
The correct type of fixing must be used for your wall, seek professional advice if in doubt

Assembly Instructions

Step 6

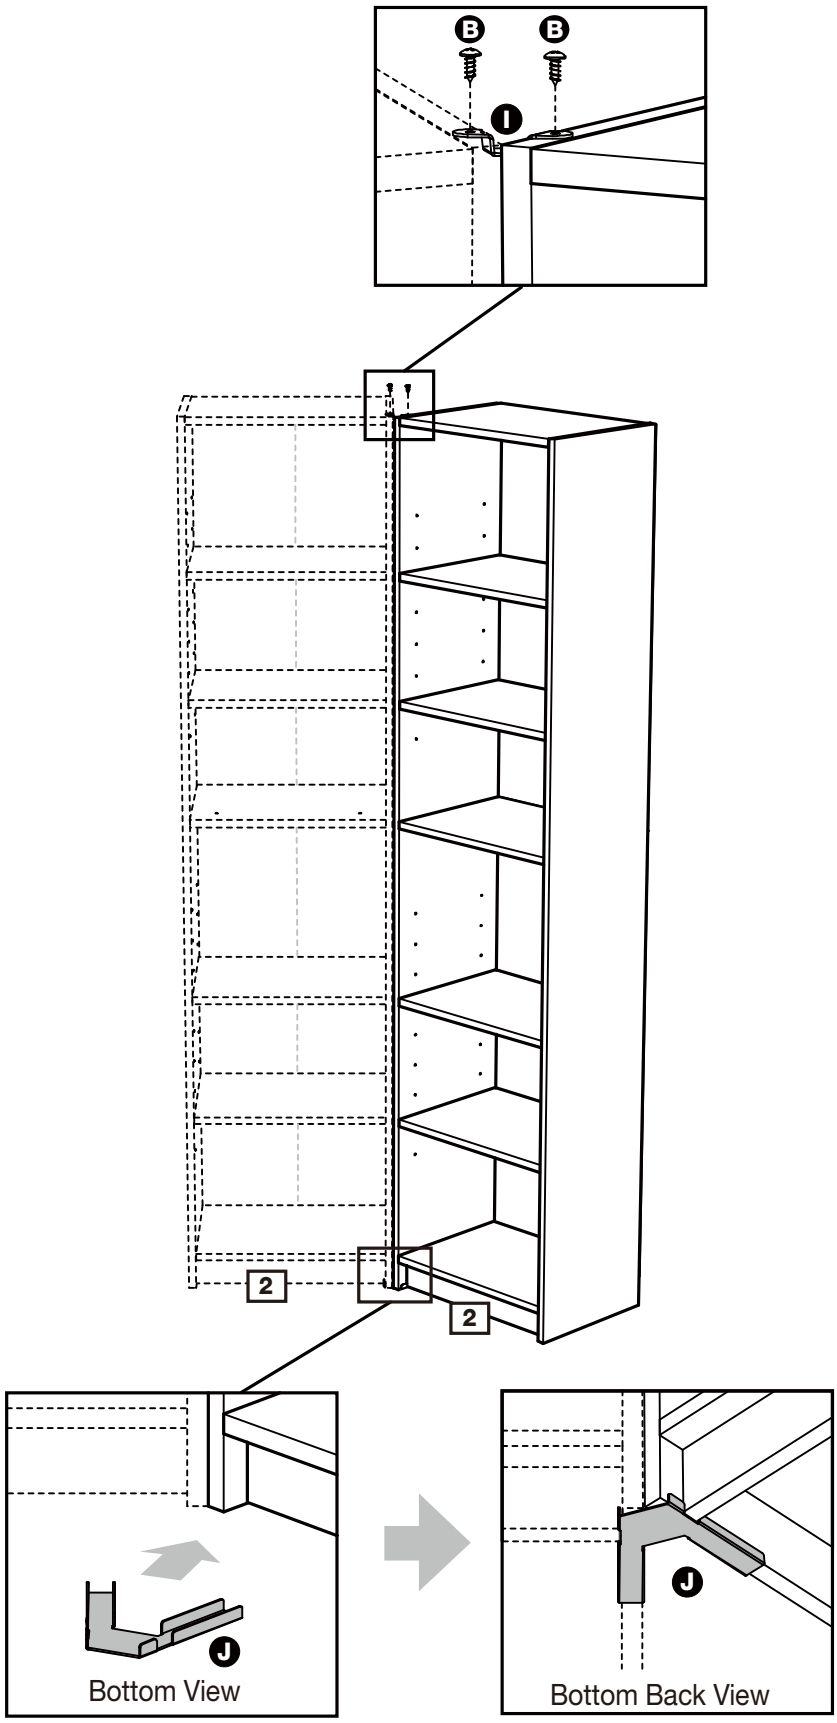

Construct a corner configuration

Use Screws B to fix the Upper corner support bracket I onto the front top edge of side panel.

Fix the front bottom edge of side panel into the Bottom corner support bracket J .

Make sure the Front panel 2 is positioned in the gap of Bottom corner support bracket J .

Assembly is complete.

A Guide to - Wall Mounting & Fixings

Important note:

If plastic wall plugs are supplied with your product:

- these are only suitable for use in masonry walls.

If you are in any doubt about the correct wall plugs for your wall, seek professional advice.

Failure of the product due to using incorrect fixings is the responsibility of the installer.

Important: When drilling into walls always check that there are no hidden wires or pipes etc.

Make sure that the screws and wall plugs being used are suitable for supporting your unit. Consult a qualified tradesperson if you are unsure.

Hints:

1: General rule: ⚠ Always use a larger screw and wall plug if you are not sure.

2: Ensure you use the recommended drill bit to match the wall plug and hole size.

3: Ensure you drill the hole horizontally, do not force the drill or enlarge the hole.

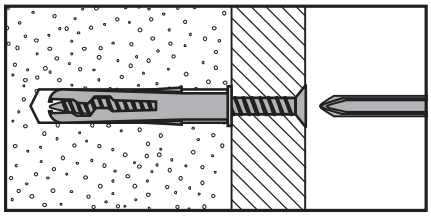

4: Take extra care when drilling high walls, ceilings and ceramic tiles. Ensure wall plugs are inserted beyond the thickness of the ceramic tiles to avoid the tiles splitting or cracking.

5: Ensure wall plugs are well fitted and are a tight fit in the drilled hole.

Types of walls

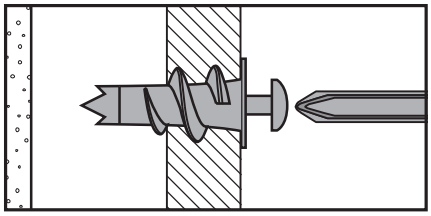

You can use one of the following types of wall plug if your walls are made of brick, breeze block, concrete, stone or wood.

No.1 **"General Purpose" wall plug**

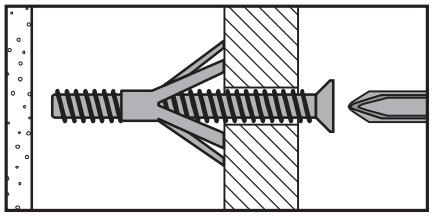

Generally aerated blocks should not be used to support heavy loads, use a specialist fitting in this case. For light loads, general purpose wall plugs can be used.

No.2 **"Plasterboard" wall plug**

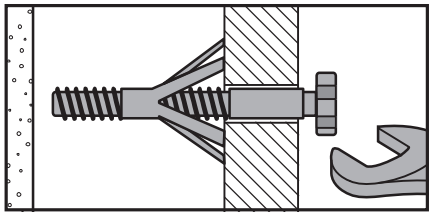

For use when attaching light loads on to plasterboard partitions.

No.3 **"Cavity Fixing" wall plug**

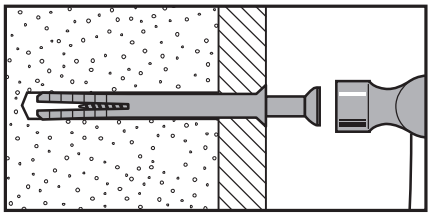

For use with plasterboard partitions or hollow wooden doors.

No.4 **"Cavity Fixing-Heavy Duty" wall plug**

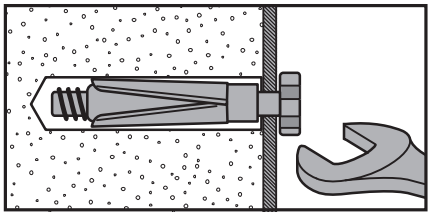

For use when fitting or supporting heavy loads such as shelving, wall cabinets and coat racks.

No.5 **"Hammer Fixing" wall plug**

For use with walls stuck with plasterboard. The hammer fixing allows it to be fixed to the wall rather than the plasterboard. Always check the fixing is secure to the retaining wall.

No.6 **"Shield Anchor" wall plug Heavy loads**

For use with heavier loads such as TV & HiFi speakers and satelite dishes etc.

⚠ Care & Maintenance

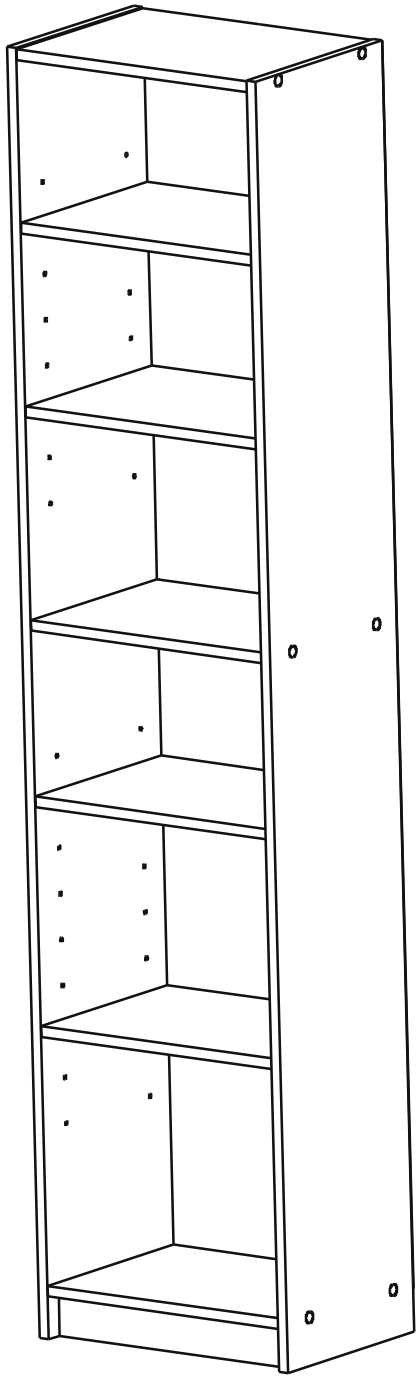

Safety: Always check the fitting and location to ensure your safety in and around the home.

Fitting: From time to time check the fitting to ensure the wall plugs or screws do not become loose.

Tools required

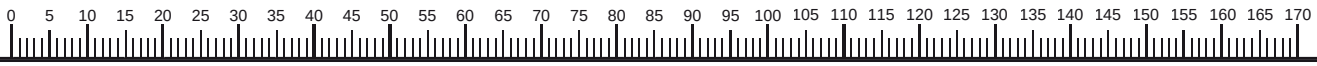

Phillips screwdriver

Small hammer

Eye protection (when using a hammer or glue)

Ruler/tape measure

Ruler - Use this ruler to help correctly identify the screws

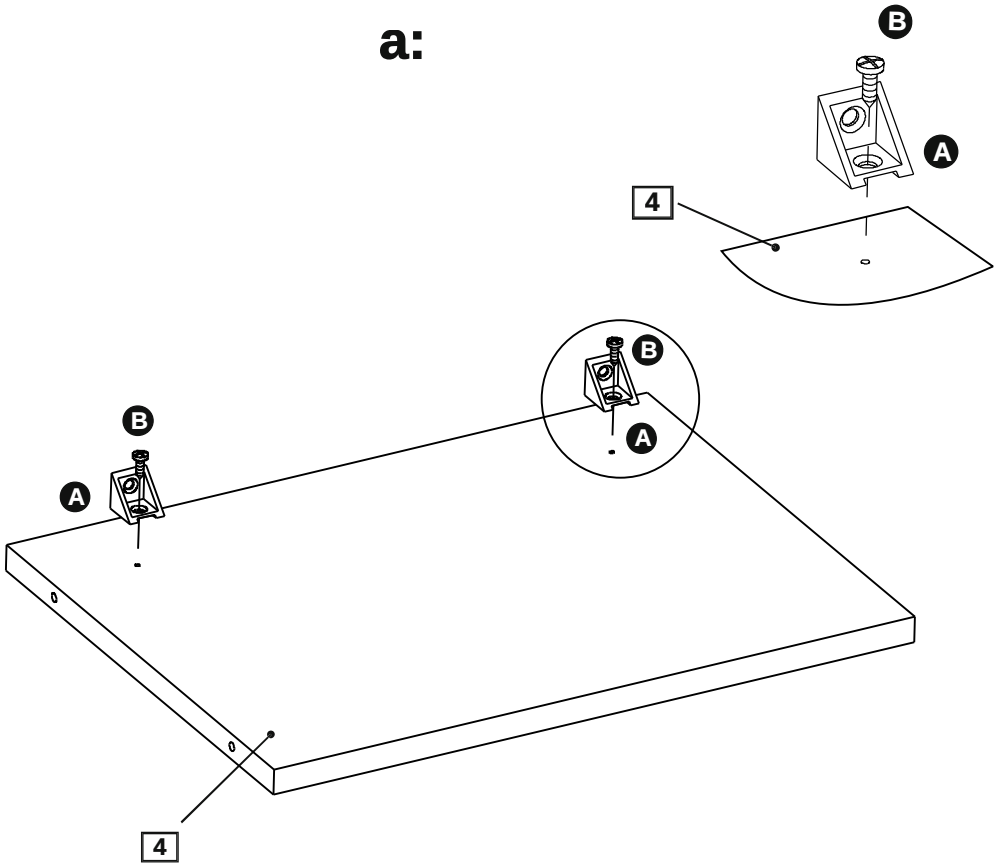

Assembly Instructions

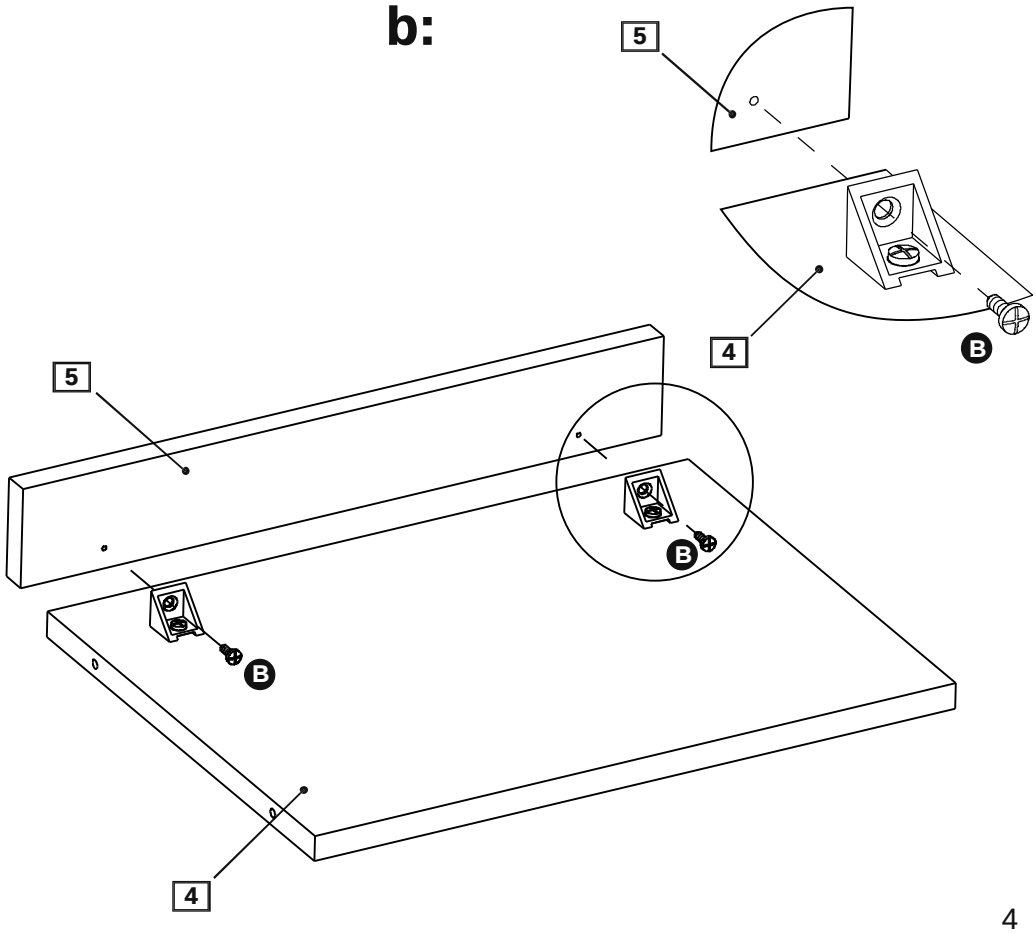

Step 1

Attaching bottom panel

a: Use Screws Ⓑ to fix Plastic Support Ⓐ onto the Bottom Panel [4].

b: Use Screws Ⓑ to connect the Front Panel [5] onto the Bottom Panel [4].

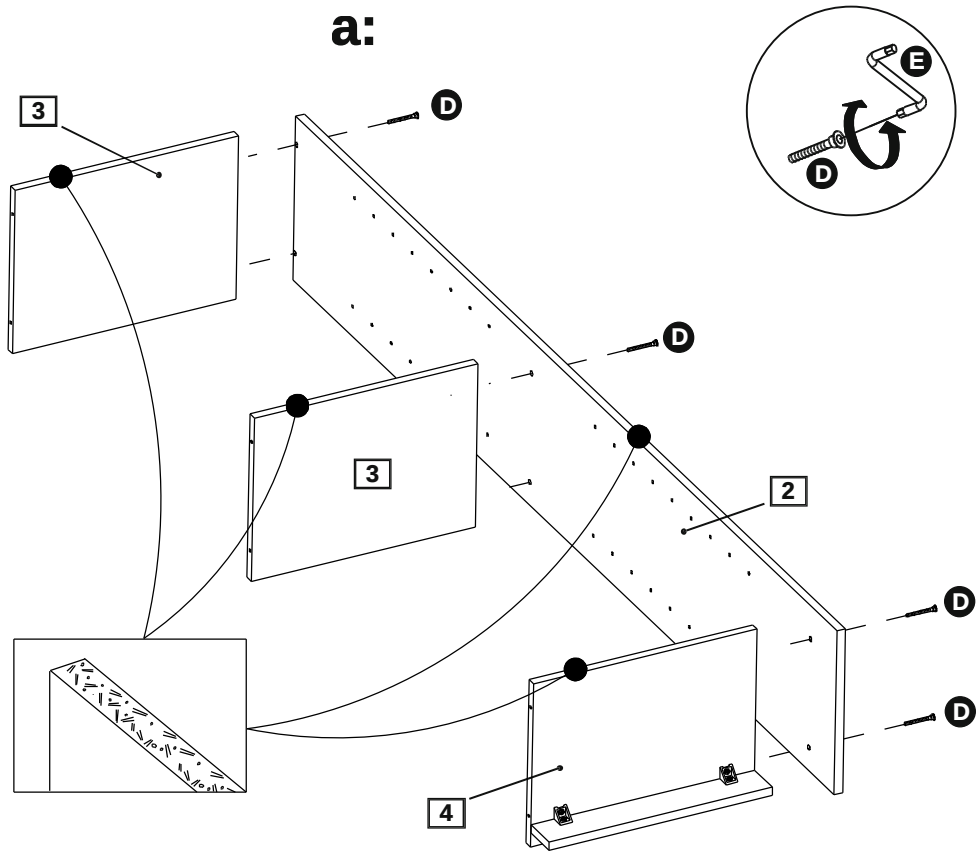

Assembly Instructions

Step 2

Attaching side panel

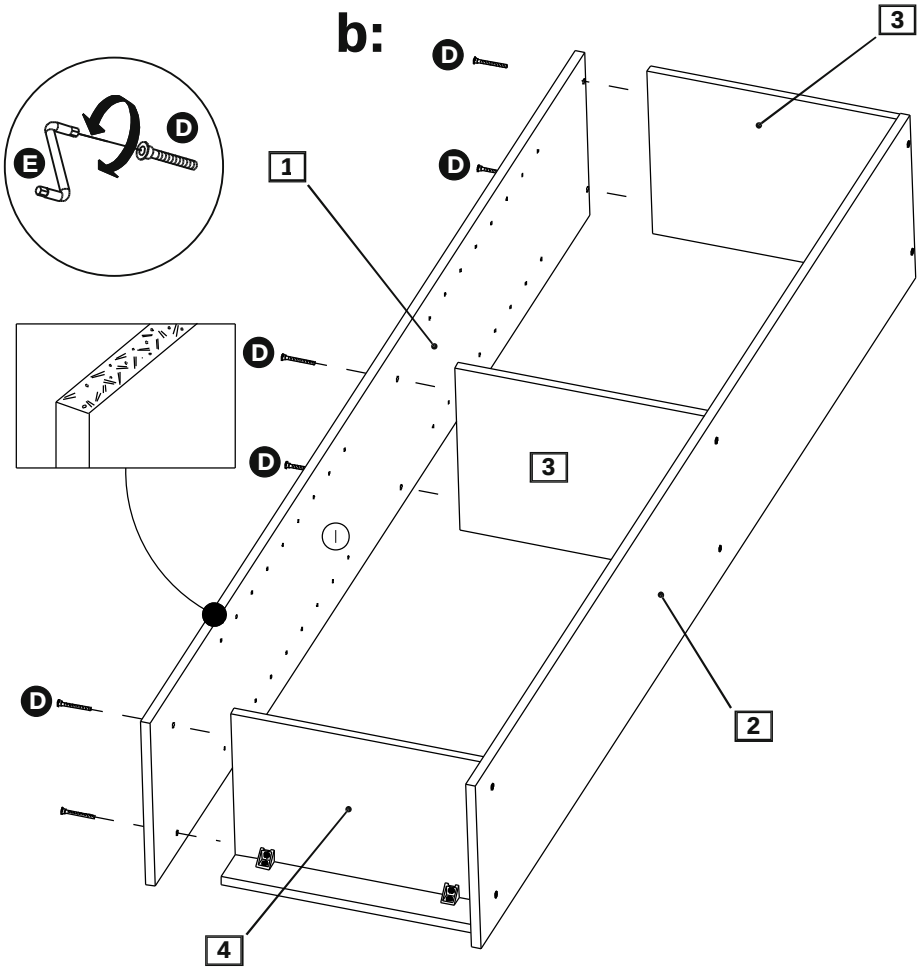

a: Use Screws (D) to fix the Left Side Panel [2] onto the Bottom Panel [4] and the two Panels (Bottom and Middle) [3].

Note: Use Allen Key (E) to fix Screws (D).

b: Use Screws (D) to fix the Right Side Panel [1] onto Bottom Panel [4] and the two Panels (Bottom and Middle) [3].

Note: Use Allen Key (E) to fix Screws (D).

Assembly Instructions

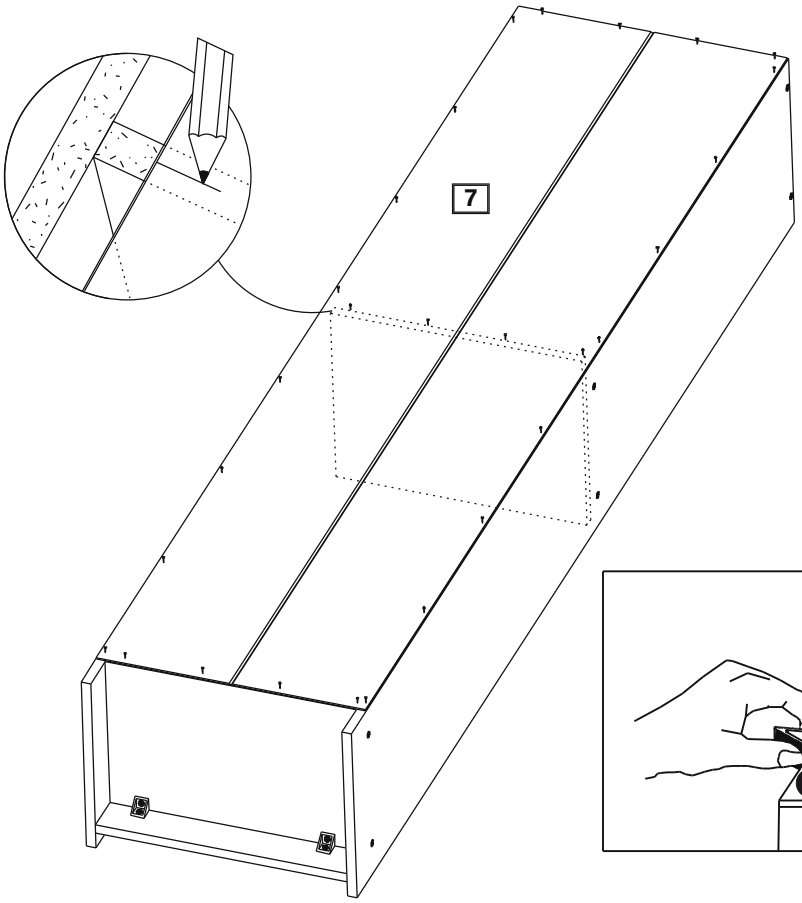

Step 3

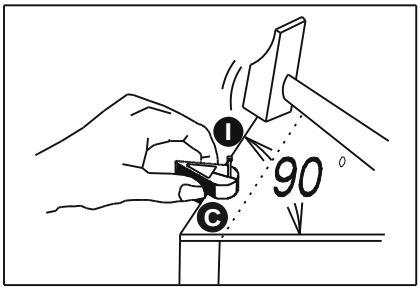

Fixing back panel

Use Nails ❶ to fix the Back Panel 7 onto the unit.

Note: Use Nail Guide ❷ to keep a constant distance from the edge.

Mark Back Panel 7 for position of fixed Horizontal. Do this left and right. Join marks with ruler to guide position for nails

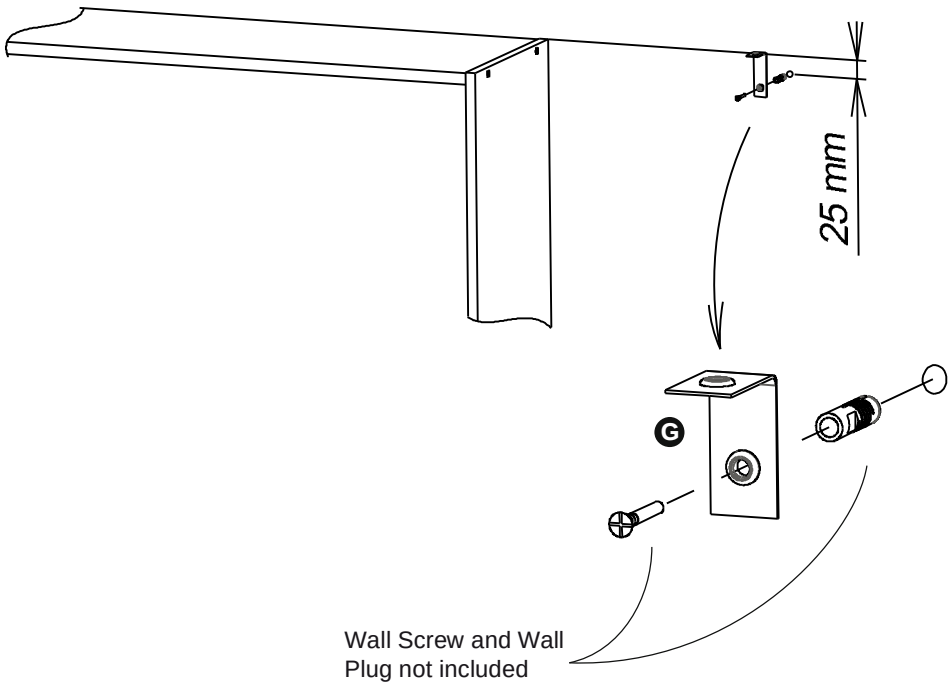

Step 4

Fixing to wall

It is recommended that the bookcase is fixed to a wall.

See Wall Fixing Guidelines at the end of these Assembly Instructions

Use Screw ❸ to fix the Wall Strap ❼ onto the Top of the panel.

Assembly Instructions

Step 5

Attaching Shelf Panel

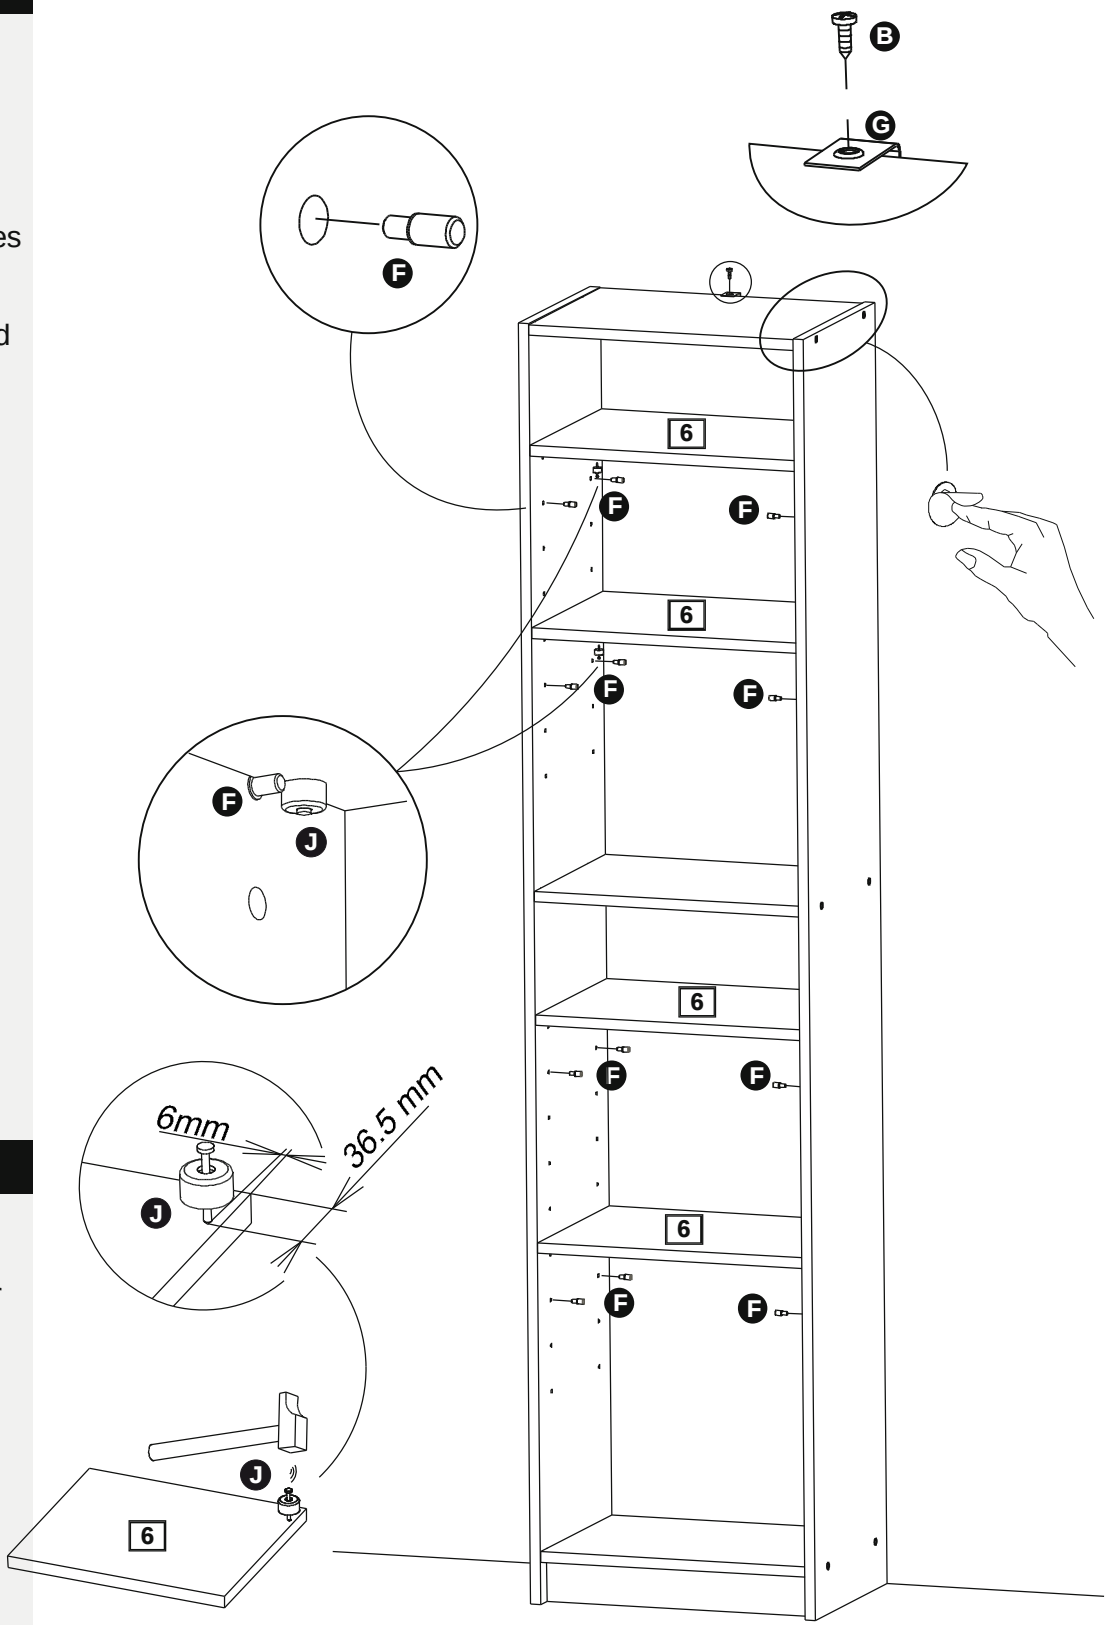

Insert Shelf Supports (F) into the unit.

Insert the two stop elements (J) on the shelves as the drawing.

Ensure they are well fitted before inserting the Shelves.

Note: Set the shelf supports to the desired height.

Slide the Shelves [6] into the unit.

Step 6

Covering Sticker

Use the Covering Sticker (H) to cover the Screw Heads.

Assembly Instructions

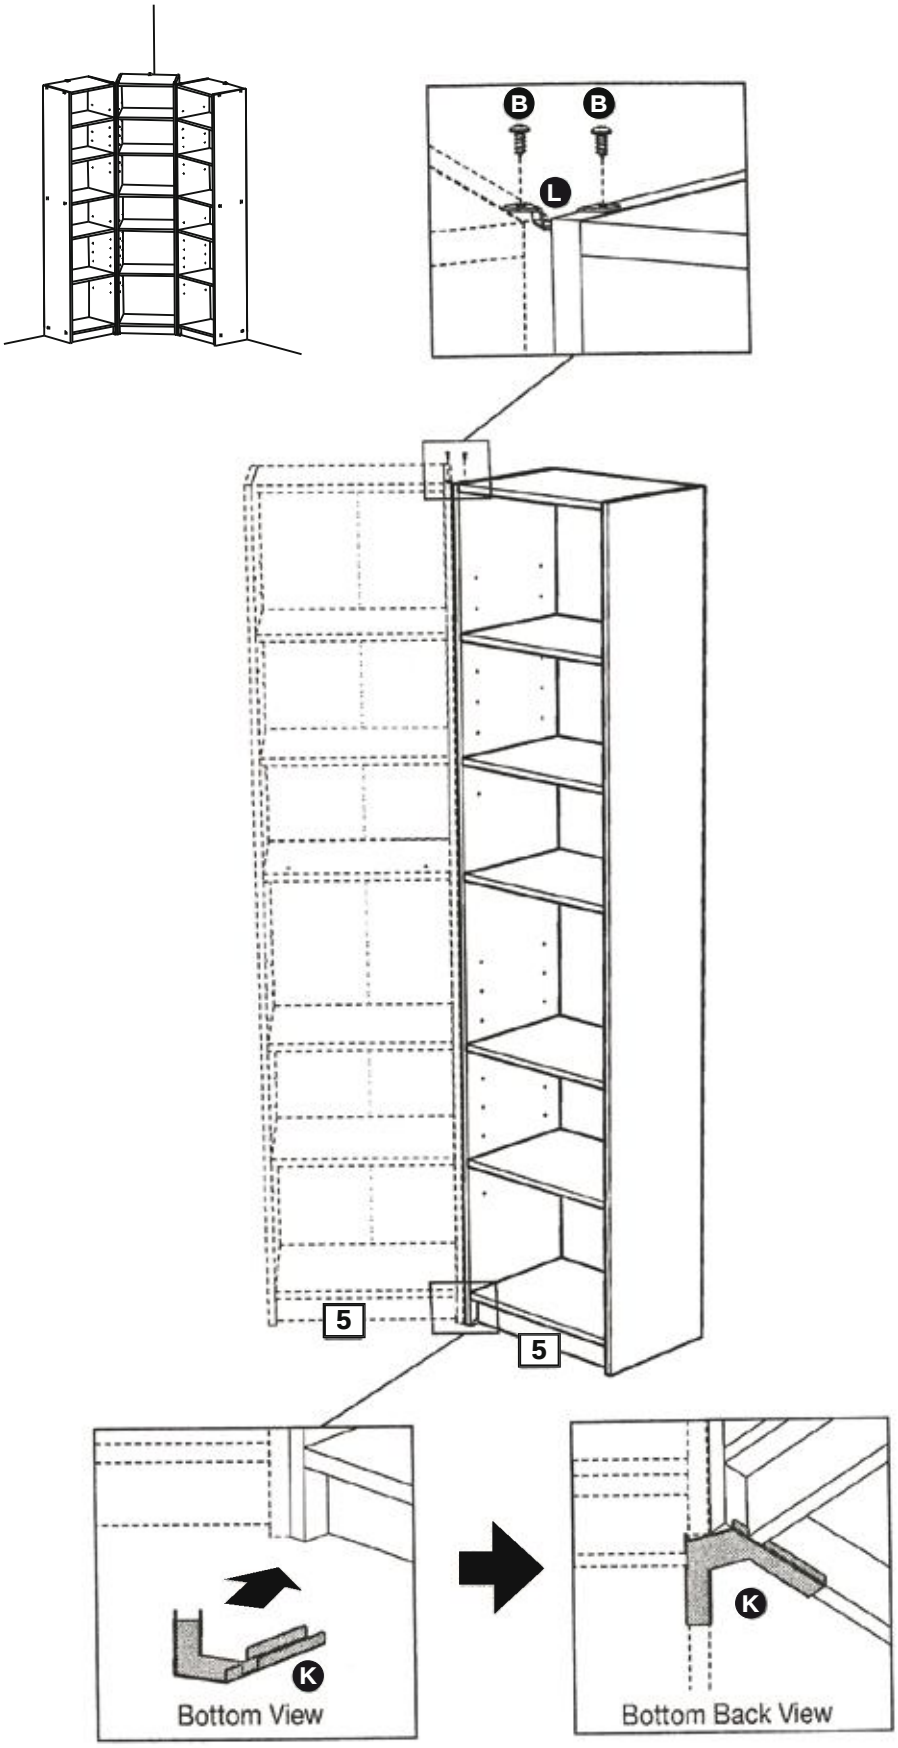

Step 7

Construct a corner configuration

Use Screws Ⓑ to fix the Upper Corner Bracket Ⓛ onto the front top edge of the panel.

Slot the front bottom edge of side panel into the Lawer Corner Bracket Ⓚ.

Make sure the Front panel 5 is positioned in the gap of Lawer Corner Bracket Ⓚ.

A Guide to - Wall Mounting & Fixings

Important note:

If plastic wall plugs are supplied with your product:

- there are only suitable for use in masonry walls.

If you are in any doubt about the correct wall plugs for your wall, seek professional advice.

Failure of the product due to using incorrect fixings is the responsibility of the installer.
