Safety and Care Advice

Important – Please read these instructions fully before starting assembly

• Check you have all the components and tools listed on pages 2 and 3.

• Remove all fittings from the plastic bags and separate them into their groups.

• Keep children and animals away from the work area, small parts could choke if swallowed.

• Make sure you have enough space to layout the parts before starting.

• Do not stand or put weight on the product, this could cause damage.

• Assemble the item as close to its final position (in the same room) as possible.

• Assemble on a soft level surface to avoid damaging the unit or your floor.

• This product has been produced from natural timber; you may notice some variation in the grain and colour of different component parts which is normal for furniture produced using natural wood and is not the result of any manufacturing fault.

• The product has been treated with a wax and oil finish to prevent dirt ingress and preserve moisture.

• On unpacking the furniture you may notice an odour due to this treatment; this will disappear once the furniture is unpacked and assembled after a period of time.

• This process may leave some staining on the packaging material; please take care to ensure this does not transfer to clothing or carpeted surfaces during assembly.

• We do not recommend the use of power drill/drivers ***for inserting screws***, as this could damage the unit. Only use hand screwdrivers.

• Parts of the assembly will be easier with 2 people.

• Dispose of all packaging carefully and responsibly.

Care and maintenance

• Use an appropriate furniture polish for natural wood furniture and a dry cloth to clean the product.

• Avoid placing the furniture in direct sunlight as this will cause the timber to prematurely age.

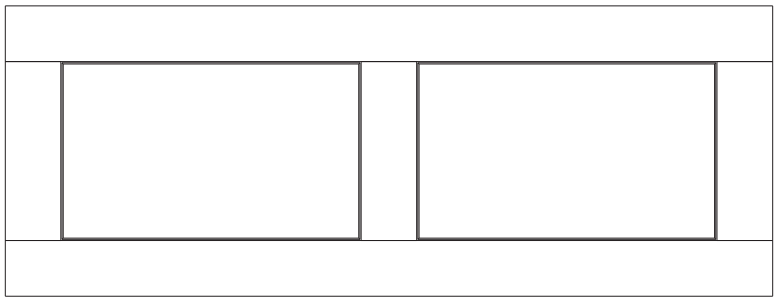

• From time to time check that there are no loose screws on this unit.

• This product should not be discarded with household waste. Take to your local authority waste disposal centre.

Note: *If required the next page can be cut out and used as reference throughout the assembly. Keep this page with these instructions for future reference.*

Assembly Instructions

Step 1

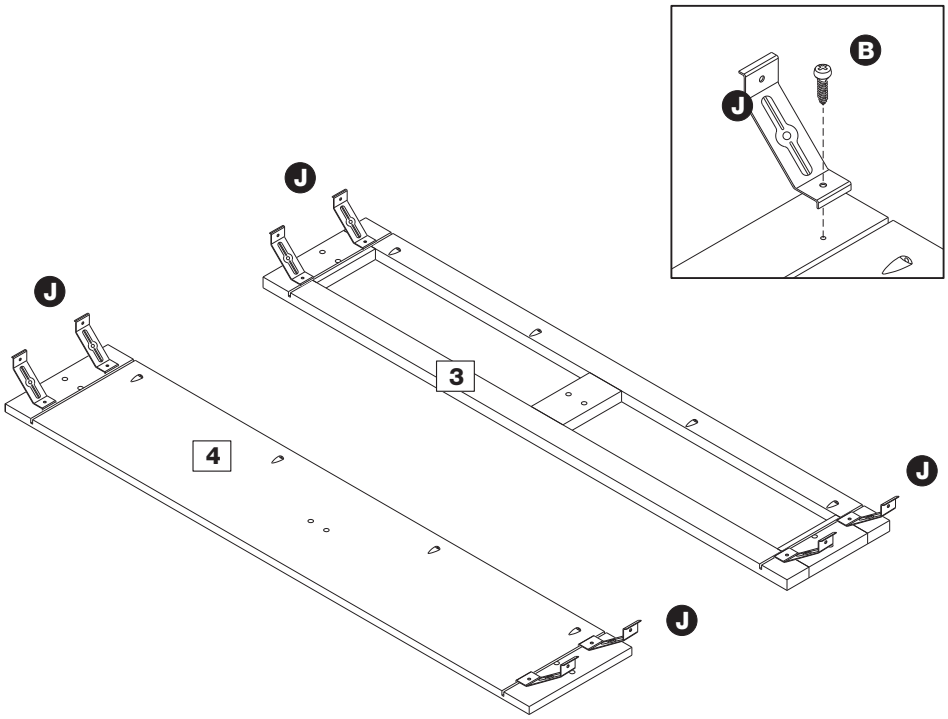

Insert dowels (A) into the indicated parts.

Step 2

Fixing Metal brackets.

Attach metal brackets (J) to the front frame 3 and back panel 4 using screws (B) in the pre drilled holes.

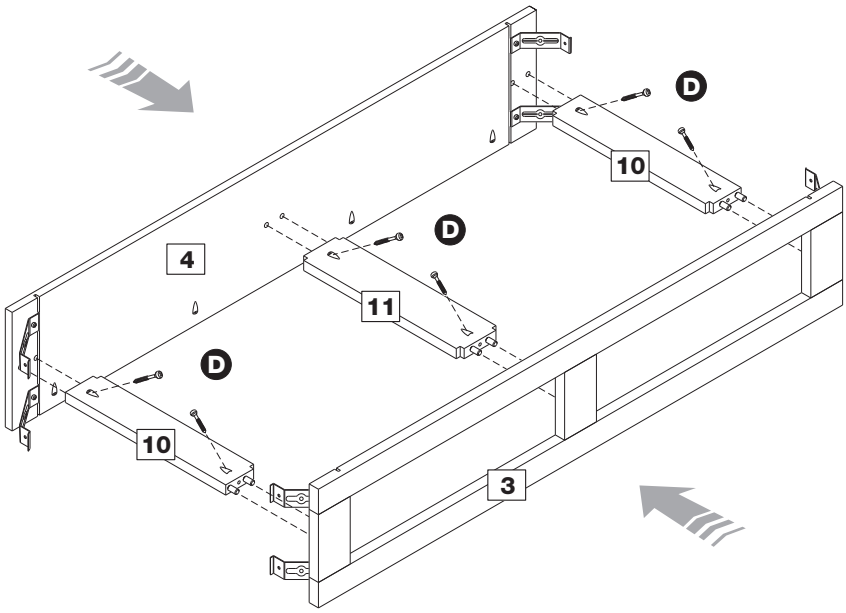

Step 3

Fixing drawer runners.

Place drawer runners 10 and 11 in the position shown ensuring dowels and front frame 3 and back panel 4 are all fit into their holes at the same time.

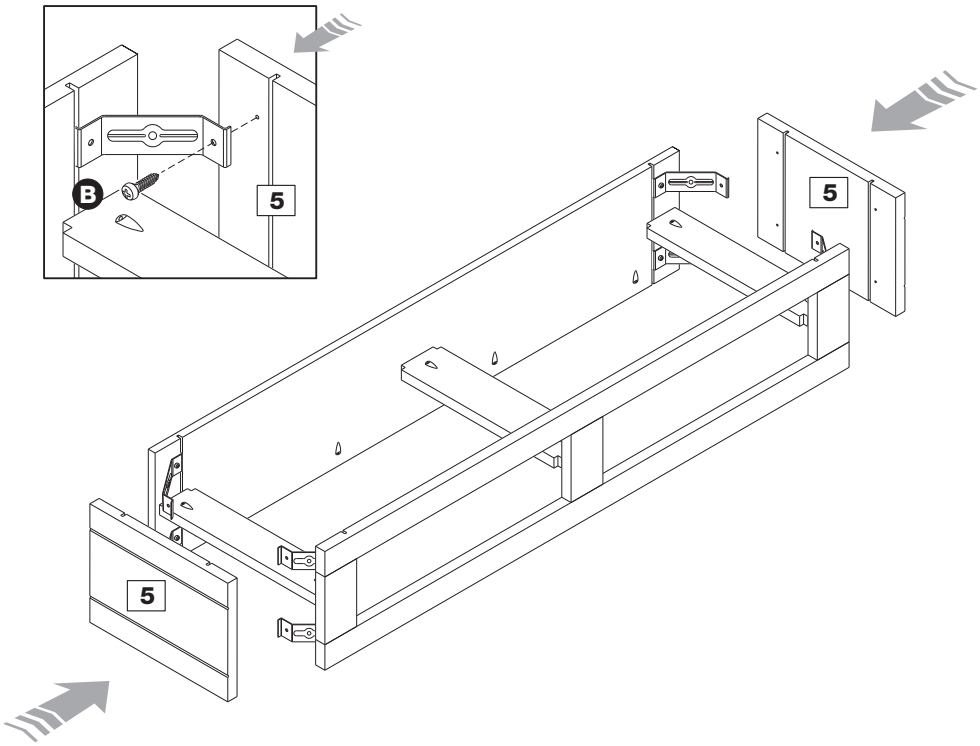

Fix drawer runners 10 and 11 to the front frame 3 and back panel 4 using screws (D).

Step 4

Fixing side panels.

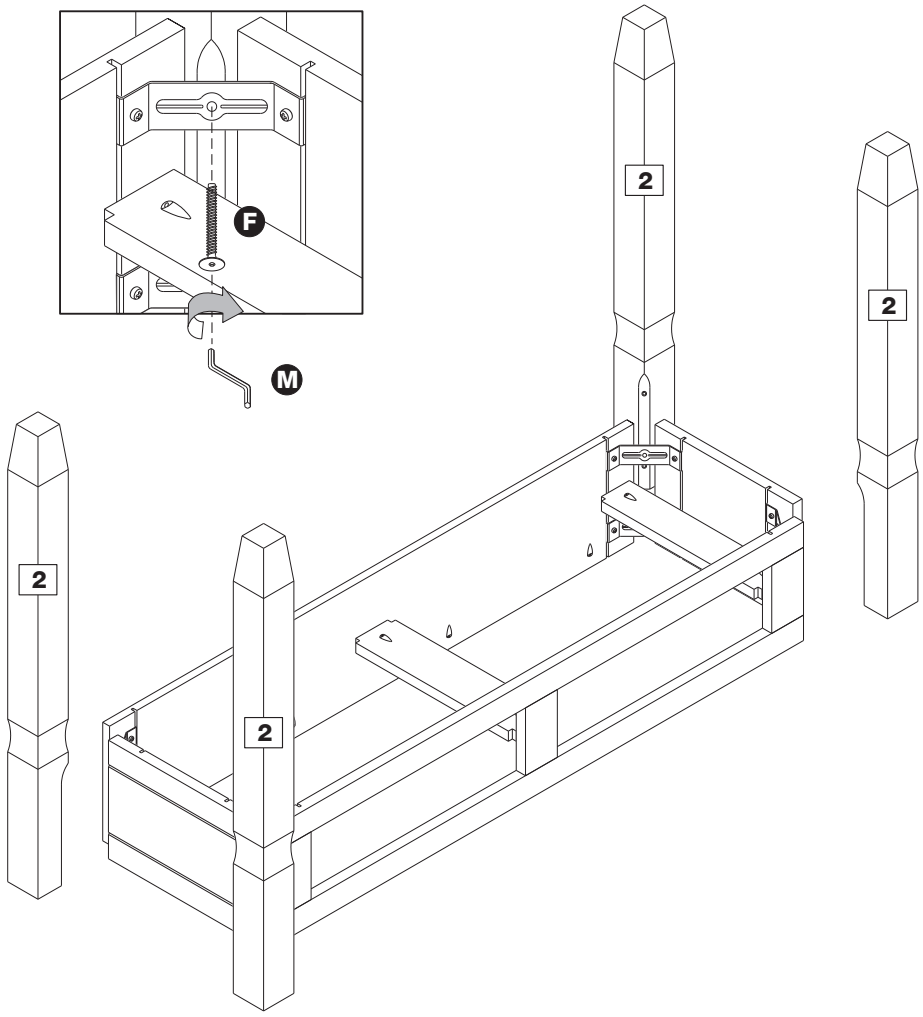

Attach metal brackets to the side panels 5 using screws B in the pre drilled holes.

Step 5

Fixing legs.

Attach metal brackets into the pre drilled holes in the legs 2 using bolts F with the allen key M as shown.

Step 6

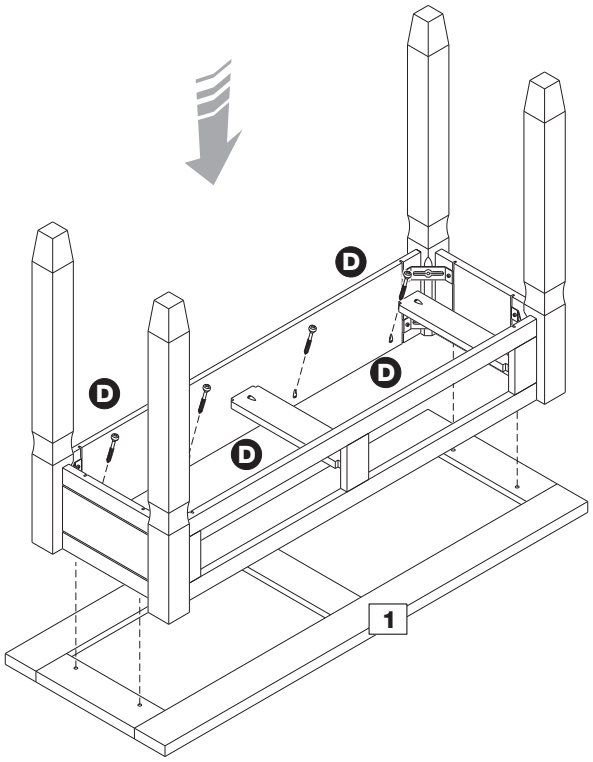

Fixing top.

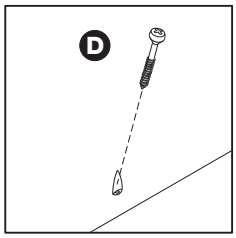

Two people are required for an easier assembly.

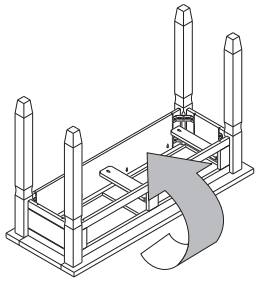

Caution: Carefully lay the top panel 1 on a soft and clean surface to avoid damaging the product.

Attach cabinet to the top panel 1 using screws D.

Important: With help, after fixing top panel, carefully stand the product upright.

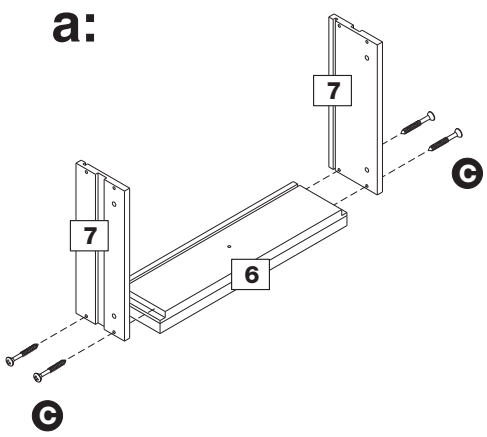

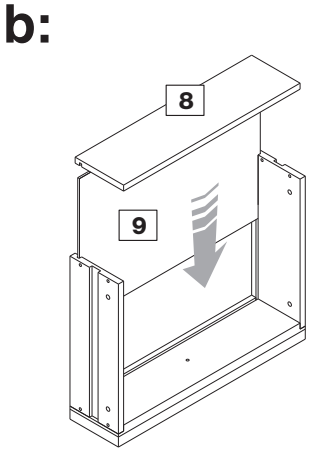

Step 7

Drawer assembly.

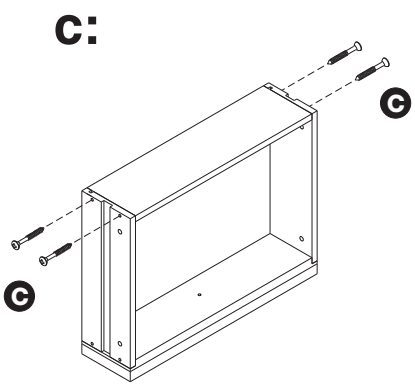

a: Attach drawer sides 7 to the drawer front 6 using screws C.

b: Slide drawer bottom into slots on drawer sides and position drawer back 8 in place.

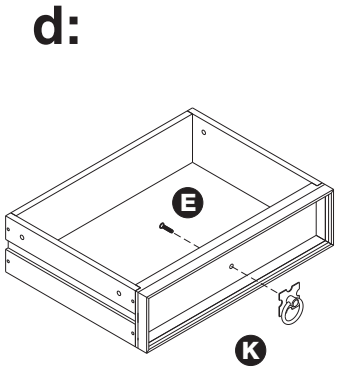

c: Holding the drawer back 8, press the drawer sides and fix them using screws C.

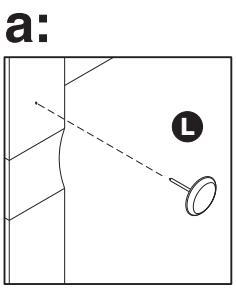

d: Using bolts E attach the drawer handle K to the drawer front.

Repeat step 7 for the other drawer.

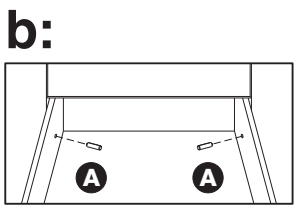

Step 8

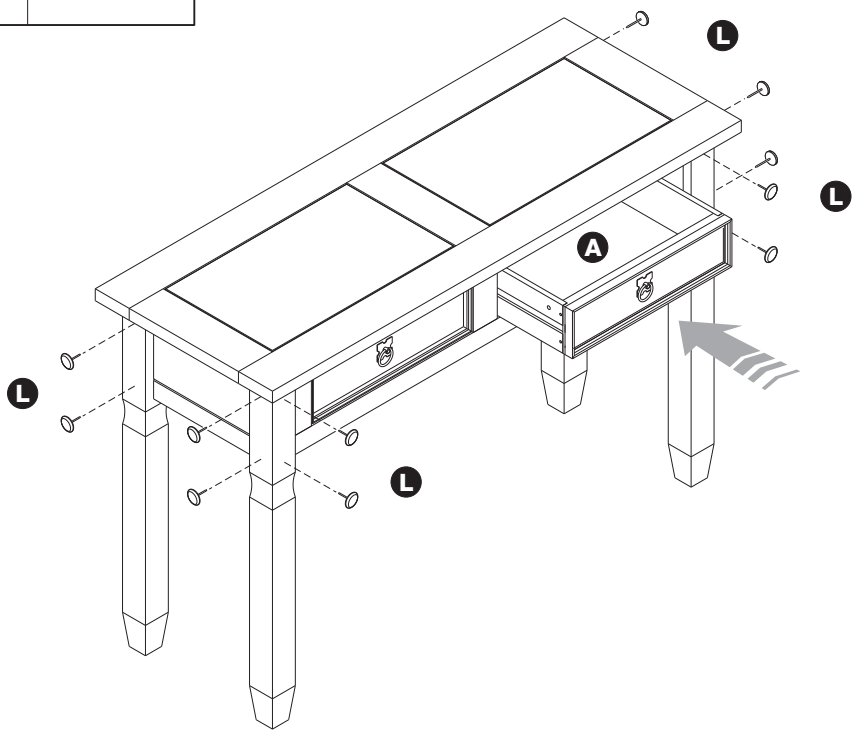

a: Fix round metal studs Ⓛ into the pre drilled holes in legs 2.

b: Insert drawers into unit. With the back of the drawers past the front frames, use a hammer to tap dowels Ⓐ in flush to drawer sides. This is a safety catch to stop drawer falling out.

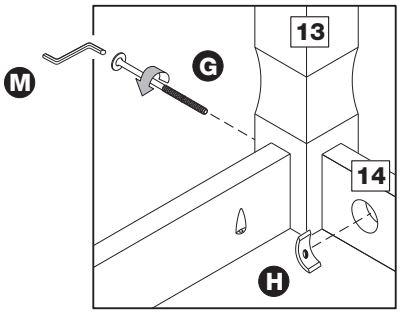

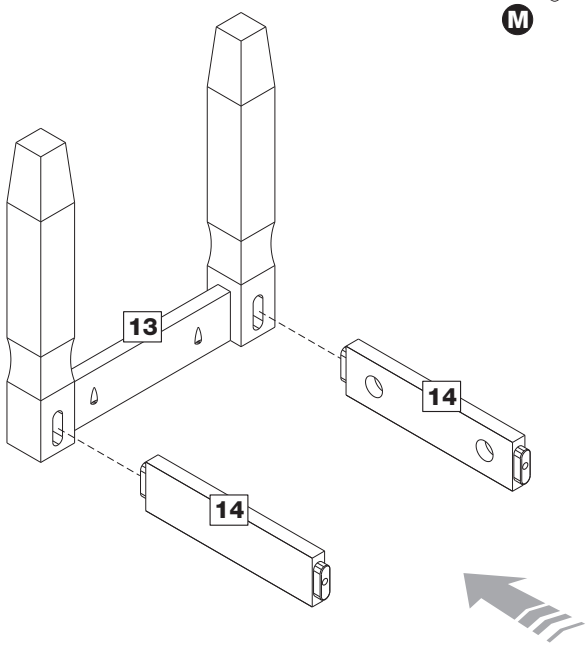

Step 9
