SINGLE TRUNK

Before you start here is some helpful advise

Assembly time:
50 minutes

Please spend a short time reading through this leaflet and follow the step-by-step assembly instructions provided.

Customer Advisory Information

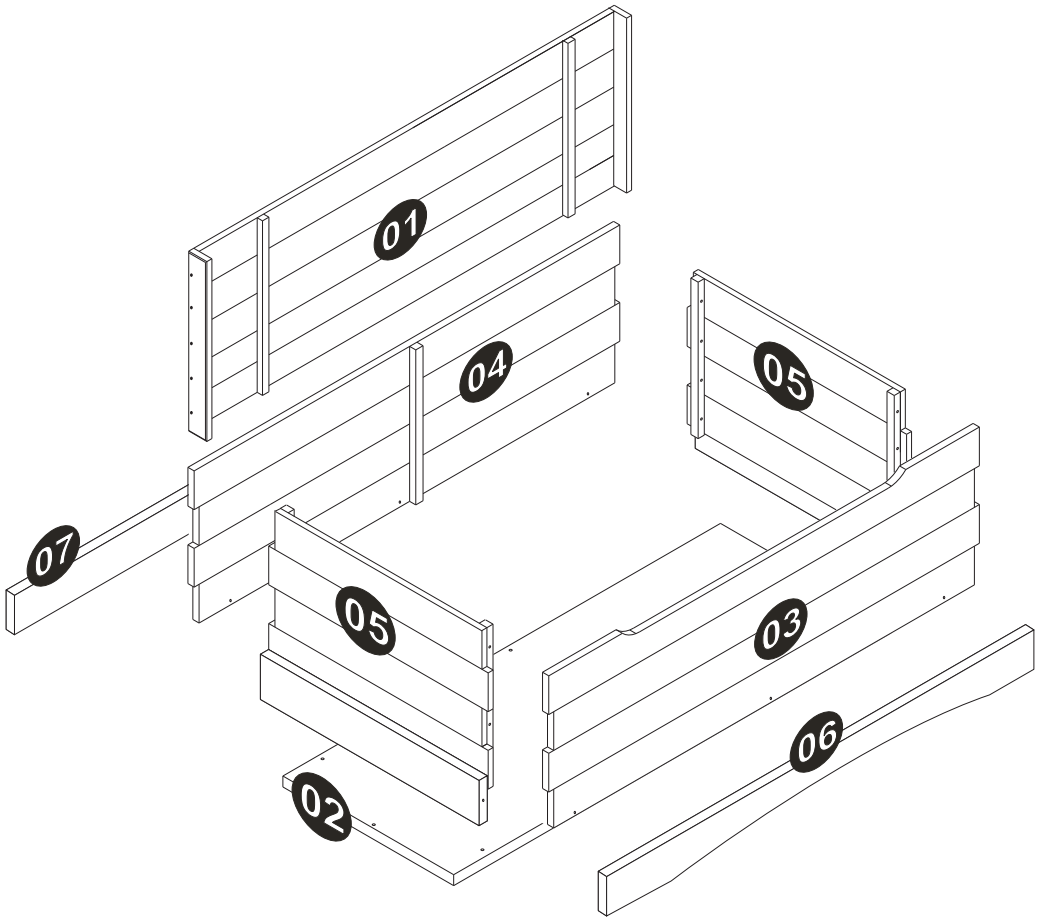

- This product has been produced from natural timber; you may notice some variation in the grain and colour of different component parts which is normal for furniture produced using natural wood and is not the result of any manufacturing fault.
- The product has been treated with a wax and oil finish to prevent dirt ingress and preserve moisture. On unpacking the furniture you may notice an odour due to this treatment; this will disappear once the furniture is unpacked and assembled after a period of time.
- This process may leave some staining on the packaging material; please take care to ensure this does not transfer to clothing or carpeted surfaces during assembly
- Avoid placing the furniture in direct sunlight as this will cause the timber to prematurely age
- Use an appropriate furniture polish for natural wood furniture and a dry cloth to clean the product

Assembly Advice

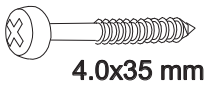

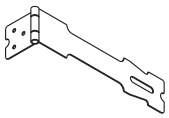

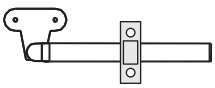

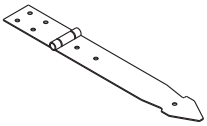

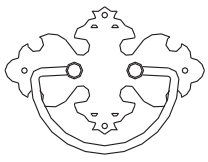

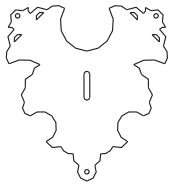

Before commencing assembly, we recommend that you familiarise yourself with the component parts and the instructions. We suggest that you lay out the components and check these against the parts list supplied.

- Please retain packaging materials until assembly is complete; then dispose of packaging materials carefully
- We recommend that you assemble the product on a soft/carpeted surface to prevent any damage to panels during assembly
- Ensure that all fixings are tight and check these periodically for tightness

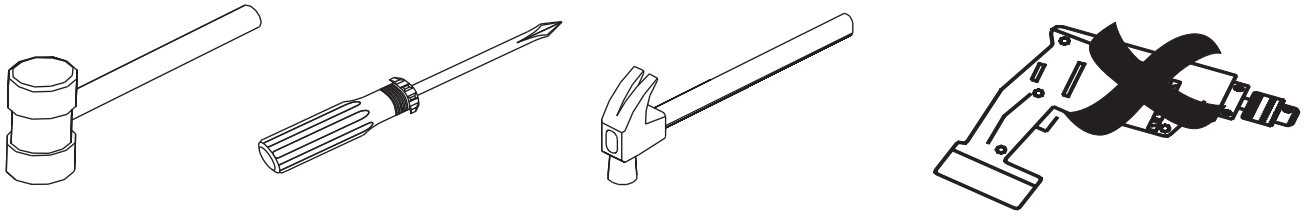

- **Note: small parts pose a potential safety hazard; ensure that these are securely attached and kept out of reach of children**

Safety and Care Advice

Important – Please read these instructions fully before starting assembly

- Check you have all the components and tools listed on pages 2 and 3.

- Remove all fttings from the plastic bags and separate them into their groups.

- Keep children and animals away from the work area, small parts could choke if swallowed.

- Make sure you have enough space to layout the parts before starting.

- Do not stand or put weight on the product, this could cause damage.

- Assemble the item as close to its final position (in the same room) as possible.

- Assemble on a soft level surface to avoid damaging the unit or your floor.

- This product has been produced from natural timber; you may notice some variation in the grain and colour of different component parts which is normal for furniture produced using natural wood and is not the result of any manufacturing fault.

- The product has been treated with a wax and oil finish to prevent dirt ingress and preserve moisture.

- On unpacking the furniture you may notice an odour due to this treatment; this will disappear once the furniture is unpacked and assembled after a period of time.

- This process may leave some staining on the packaging material; please take care to ensure this does not transfer to clothing or carpeted surfaces during assembly.

- We do not recommend the use of power drill/drivers ***for inserting screws***, as this could damage the unit. Only use hand screwdrivers.

- Parts of the assembly will be easier with 2 people.

- Dispose of all packaging carefully and responsibly.

Care and maintenance

- Use an appropriate furniture polish for natural wood furniture and a dry cloth to clean the product.

- Avoid placing the furniture in direct sunlight as this will cause the timber to prematurely age.

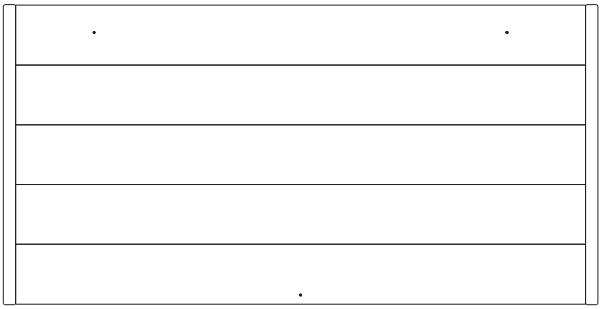

- From time to time check that there are no loose screws on this unit.

- This product should not be discarded with household waste. Take to your local authority waste disposal centre.
