"Reach Wi-Fi blackspots with BT's speedy home-network dish system"

"BT's multipoint wireless system delivers on its promise, with a fast, reliable signal throughout"

"Performance is stellar across the board (from BT)... even in the trickiest of spots I was getting a strong signal"

BT GUARANTEE

Get Wi-Fi in every room or your money back.

With BT Whole Home Wi-Fi you're in charge.

- ✓ Pause the internet with a single tap, for as long as you wish.
- ✓ See who's online at any time.
- ✓ Simple set up using our app to guide you.
- ✓ Technical gremlins? Use the app or contact our dedicated call centre.

What is a Whole Home Wi-Fi solution?

It's the latest advance in wireless technology, which will provide you with a seamless Wi-Fi experience. Eliminate deadspots and get complete coverage throughout your home by choosing the perfect whole home Wi-Fi solution for you!

What should you look for?

- **Coverage:** A three disc solution will guarantee perfect coverage even in larger homes. Anything else and you still get deadspots.
- **Speed:** The higher the AC technology number, the greater the speed and the more devices you can connect.
- **Value:** Compare the number of discs with the price to ensure the best value.
