Safety and Care Advice

Important – Please read these instructions fully before starting assembly

- Check you have all the components and tools listed on pages 2 and 3.
- Remove all fittings from the plastic bags and separate them into their groups.
- Keep children and animals away from the work area, small parts could choke if swallowed.
- Make sure you have enough space to layout the parts before starting.

- Do not stand or put weight on the product, this could cause damage.
- Assemble the item as close to its final position (in the same room) as possible.
- Assemble on a soft level surface to avoid damaging the unit or your floor.
- Parts of the assembly will be easier with 2 people.

- We do not recommend the use of power drill/drivers **for inserting screws**, as this could damage the unit. Only use hand screwdrivers.
- Dispose of all packaging carefully and responsibly.

Care and maintenance

- Only clean using a damp cloth and mild detergent, do not use bleach or abrasive cleaners.
- From time to time check that there are no loose screws on this unit.
- This product should not be discarded with household waste. Take to your local authority waste disposal centre.

Note: if required the next page can be cut out and used as reference throughout the assembly. Keep this page with these instructions for future reference.

Assembly Instructions

Step 1

Insert the Ø10 dowels **D** into the holes in bed sides **4** and endrails **7** and **8**.

It may be necessary to tap the dowels in very gently with a small hammer.

Apply glue **M** to the list **5** and attach it to the bedside **4** using screws **F**. Repeat for all four bed sides.

Step 2

Apply a small amount of glue **M** into the 2 small holes in legs **1** before the small dowels **E** are gently hammered in.

Step 3

Attach endrails **7**, **8** and **9** between legs **1** using screws **G**.

Don't overtighten.

Step 4

Attach endrail **9** between legs **3** using screws **G**.

Don't overtighten.

Assembly Instructions

Step 5

Push the threaded pin **I** through the middle hole in leg **2**. Attach connecting bolts **L** to the pin.

Note the position of the holes in connecting bolt **L.**

Step 6

Insert threaded bushes **J** into the holes in the bed sides **4**. Connect the bed sides **4** to the leg **2**. Fasten the bed sides by tightening the grub screws **H** in the threaded bushes **J**.

Step 7

Attach the assembled bed sides by placing the dowels into the holes in legs **1** and **3**.

Push barrel nuts **B** into the holes in bed sides **4**. Put the washer **Q** on the 2 connecting bolts **A** which are used to attach the headboard. Push connecting bolt **A** through legs **1** and **3** to meet the barrel nuts **B** and fasten with the allen key.

Assembly Instructions

Step 8

Attach angles **P** to the lower endrails using screws **O**.

Step 9

Attach midsupports **10** to the angles using screws **O**. Attach the midsupports **10** to the leg **11** using screws **N**.

Assembly Instructions

Step 10

Position three slats **6** into the bed with the distances shown. Push the bed sides together and fasten the slats using screws **C**.

Step 11

Position the remaining slats **6** into the bed with the distance of 65 mm between one another. Fasten the slats using screws **C**.

Assembly is complete.
