## Product Description

---

The hauck Comfort Fix infant car seat has received very good testing results by leading testing institutes.

The Comfort Fix has been approved for babies from birth up to a weight of 13 kg, in accordance with ECE 44/04. It features tried-and-tested, patented, and energy-absorbing foam in the head and shoulder areas that achieved high results in crash tests. High-quality, breathable, and stretch materials have been used so that your baby will always feel comfortable in the car seat. Head protection and wedge-shaped cushion can be used individually.

The Comfort Fix can be installed safely in cars with almost every 3-point belt. As an alternative, use Comfort Fix in the car with the Comfort Fix Isofix base, available separately.

Combine Comfort Fix with our Saturn R, Mars, Apollo, Rapid 4S, Rapid 4, Rapid 4X, Rapid 3R, Rapid 3, Rapid 3R Duo, Duett 3, Duett 2\*, Eagle 4S\*, Sunny\* and Lift Up 4\*. to transform them into a clever Shop'n Drive system.

(\*These strollers need separate adapters for the installation of the car seat.)
