

Smartest Sound Experience
LG SOUND BAR

THE MOST INTELLIGENT **SOUND EXPERIENCE**

Imagine a sound bar
that intuitively knows what you are enjoying
and adapts automatically
to always provide the best sound.

LG
SOUND
BAR

FINALLY, A SOUND BAR THAT CAN OPTIMIZE ANY CONTENT

ASC(Adaptive Sound Control)

Adaptive Sound Control is LG's unique voice enhancing technology. It actively analyzes the vocal levels in real time. When it senses high vocal levels, it automatically lowers the bass power to make dialogue crystal-clear. (ex : News, Narration)

Auto Sound Engine

LG Auto Sound Engine optimizes the audio at every volume level keeping the frequencies accurate in the right places. This delivers the correct sound balance no matter the sound volume.

PLAY MUSIC FROM YOUR MOBILE DEVICES WITH MILLIONS OF SERVICES

Wi-Fi Streaming

Wi-Fi Streaming allows you to have a better sound experience compared to Bluetooth. You can enjoy higher quality sound anywhere in your home with Wi-Fi with less restrictions. Also, Wi-Fi Streaming enables you to multitask like making phone calls without any interruptions and extend your battery life.

Google Cast™

With Google Cast built-in you can cast millions of songs, podcasts and stations from Cast-enabled apps on your phone to the sound bar. Your phone becomes your remote allowing you to search, play, pause and change the volume.

LG
SOUND
BAR

DESIGNED WITH YOUR TV IN MIND

TV matching Design

The sound bar perfectly matches your TV and delivers an elegant and simple atmosphere. It was designed to fit with your TV stand.

HOME CINEMA SURROUND SOUND WITH JUST ONE EASY BUTTON

Home Cinema Setup with one button

To get the best sound with your LG sound bar, you can pair two additional LG speakers wirelessly. In this way, you can enjoy a richer surround sound experience like that of a theater without having ugly wires. All you have to do is just press one button to make it happen.
